NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

Department's Copy

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the CARIBOO INDIAN RES. SCHOOL School for the Quarter

ended June 30th 1942

Principal Michael Murphy

Dated July 3rd 1942

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Carleton Place Indian Residential School for the Quarter

ended March 31 1943

Principal J. M. Mac Grath

Dated April 3 1943

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. Christie
Indian Agent

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter ended Dec 31st 1942

Principal Wm. J. McEwen

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the School for the Quarter ended 19

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the 6. arto Indian Residential School for the Quarter ended Dec 31 1943

Principal Rev. J. M. McEachern

Dated Jan 5 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. Christie
Indian Agent

Dated at William Lake
this January 12th 1944

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter

ended September 30th 1944

Principal (Rd) John W. Hennessey me

Dated October 1st 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. Christie

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the Cariboo Indian Res. School for the Quarter

ended September 30th 19 44

Principal John W. Hennessy

Dated October 1st 19 44

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Carleton Place Indian Residential School for the Quarter

ended June 30 1944.

Principal J. M. Mc Gathorn 2

Dated July 3 1944.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. Christie
Indian Agent

Dated at William's Lake, B.C.

this July 6th, 1944.

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Carleton Place Indian Residential School for the Quarter ended July 31st 1945.

Dated July 5th 1945.
Principal J. M. McPherson

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at Wellington, Ont.
this July 13th 1945.
L. G. Hunter
Indian Agent

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Carleton Place Indian Residential School for the Quarter ended March 31 1945

Dated April 5 1945 Principal J. McQuinn

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at William Lake, B.C.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the School for the Quarter ended 19

Principal

Dated 19

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the School for the Quarter

ended 19

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter

ended September 30 1946

Principal

J. A. Morris

Dated Oct. 11 1946

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

E

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Caribou Indian Residential School for the Quarter ended September 30 1946.

Principal J. H. Munroe
Dated Oct 11 1946.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

B. Chute
Indian Agent
Dated at Williams Lake
this October 21, 1946.

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Carleton Place Indian Residential School for the Quarter

ended June 30 1948.

Principal J. P. Morris

Dated July 8 1948.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. Schutte

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter ended March 31 1948.

Principal J. A. Morrison

Dated April 2 1948

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. Christie
Indian Agent

Dated at Williams Lake, B.C.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

Handwritten calculations:

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Res. School for the Quarter ended Dec. 31 1948.

Principal J. H. Thompson

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter ended September 30 1948.

Principal [Signature]

Dated Oct. 20 1948.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

[Signature]

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter ended September 30 1948.

Principal J. A. Morris

Dated Oct. 20 1948.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

L. S. Chute
Indian Agent

5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter ended September 30 1948

Principal J. A. Morris

Dated Oct. 20 1948

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. G. Hunter
Indian Agent

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Casiboo Indian Residential School for the Quarter ended March 31 1949.

Principal J. J. [Signature]

Dated April 4 1949.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Indian Residential School for the Quarter ended June 30 1949.
Principal [Signature]
Dated July 2 1949

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Res. School School for the Quarter ended Sept. 30 1950.

Principal J. A. Munn

Dated Oct. 5 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter ended June 30 1900.

Principal J. A. Macdonald

Dated July 5 1900.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. G. Hunter
Indian Agent

Dated at Williams Lake, B.C.

this July 8th 1900.

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Comber Indian Residential School for the Quarter ended June 30 1950.

Principal J. A. Macdonald

Dated July 5 1950.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. Chute
Indian Agent

Dated at Wilkes Lake, B.C.

this July 8th 1950.

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter ended June 30 1920.

Principal J. A. [Signature]

Dated July 5 1920.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter ended June 30 1950

Principal J. L. [Signature]

Dated July 5 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

[Signature]
Indian Agent

Dated at Williams Lake B.C.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Residential School for the Quarter ended March 31 1950.

Principal John M. ...

Dated April 1 1950.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Comber Indian Residential School for the Quarter ended Dec 31 1949.

Principal J. A. M. [Signature]

Dated Jan 5 1950.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Casilda Indian Residential School for the Quarter ended Dec 31 1949

Principal J. A. Munn

Dated Jan 5 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

Handwritten calculations:

$$\begin{array}{r} 124.21 \\ 112.28 \\ 222.24 \\ 18.8 \\ 36.8 \\ 200.4 \\ 18.4 \\ 1.60 \\ 92.60 \\ 4/245 \\ 6625 \end{array}$$

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Ambo Indian Residential School for the Quarter

ended Dec 31 1949.

Principal J. J. Morris

Dated Jan 5 1950.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Res. School School for the Quarter ended March 31 1951.

Principal J. H. Thomas

Dated April 5 1951.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. L. White
Indian Agent

Dated at Williams Lake

this April 6th 1951.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Res. School School for the Quarter ended Dec 31 1950.

Principal J. H. [Signature]

Dated Jan 2 1951

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the Comber Indian Residential School for the Quarter

ended Dec 31 1950.

Principal J. A. [Signature]

Dated Jan 2 1951.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the CARIBOO INDIAN RES. SCHOOL School for the Quarter ended June 30 1951.

Principal J. A. [Signature]

Dated July 2 1951.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Res. School School for the Quarter ended Dec 31 1951.

Principal J. H. T. [Signature]

Dated Jan 7 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Indian Agent

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Carleton Place Indian Res. School School for the Quarter ended Dec 31 1951

Principal J. H. [Signature]
Dated Jan 7 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. [Signature]
Indian Agent

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Caribee Indian Res. School School for the Quarter ended.....19.....

Principal.....

Dated.....19.....

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Indian Agent

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Res. School School for the Quarter ended March 31 1952

Principal J. A. Smith

Dated April 1 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Res. School School for the Quarter ended March 31 1952

Principal J. A. T. [Signature]

Dated April 1 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

L. Christie
Indian Agent

Dated at Williams Lake, B.C.

this April 2nd 1952

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

Handwritten calculations:

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Res. School School for the Quarter

ended June 30 1957

Principal J. A. [Signature]

Dated July 2 1957

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Cariboo Indian Res. School School for the Quarter

ended June 30 1952

Principal J. A. [Signature]

Dated July 2 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

ARCHIVES PUBLIQUES

POOR COPY

New- Westminster the 28 November 1893

109308

The Honorable T. M. Daly
Superintendent General of Indian Affairs

Honorable Sir

I humbly beg to state that two years ago I undertook to carry on an Industrial School for the Indians of William's Lake Agency, at the Roman Catholic Mission, William's Lake, the Federal Government granting an annual Capitation of \$130.00 for each of fifty pupils and I devoting to said purpose the actual school-buildings of the Mission, consisting in two separate houses, one for the boys and the other for the girls.

There are to day at the said Industrial School 24 Indian Boys and 18 Indian girls.

But it has happened that the building for the girls needed be repaired and enlarged and I had to expend last year four thousand dollars in said building. And now I receive a letter from the Rev. Father Leroux, Principal of the Industrial School, stating that the school-house for the Boys is becoming old and is also too small. A new building is required. It will necessitate a considerable outlay, which is entirely above my means.

I humbly beg that the Dominion come graciously to my assistance

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 1)

PUBLIC ARCHIVES

in granting once for all the sum of five thousand dollars and so enable me to erect said new construction.

Should such grant appear too large, I would humbly bring to your notice that I have already expended four thousand dollars in repairing and enlarging the Girls' building, I had to make a big outlay in providing beds, and beddings and other furnitures for the two Departments, and I have still to lay out a good amount of cash in erecting the necessary workshops to train the boys in blacksmithing, carpentering, shoe and harness-making, besides the buying of the tools and various implements for such trades.

I feel confident that you will take my demand in due consideration and grant it.

I have the honor to be

Dear and honorable Sir

your humble servant

Paul Durieu, a.m.i.

Honorable Sir,

I regret very much to have
been some way obliged to leave
Ottawa without having the honor
to meet you; but I thought of
writing my request, so that you
might take it in consideration
time. In the mean time, I must
apologize for taking such liberty.

I came from British Columbia
at the request of His Lordship
Rt. Bishop Huron, to ask you
Honorable Sir; to give your kind
attention, first to Williams Lake
Industrial School, and next St.
Mary's Mission School (the latter
is in my charge) both for the
exclusive education of Indian
Children.

21)

I have remitted to your private Secretary, a letter from the Bishop, explaining what is needed at Williams Lake. Last summer, at the time of your official visit to British Columbia, I had the honor to meet you. Honorable Sir, I then spoke to you about the unsufficiency of my school at St. Mary's Mission, for our Indians (Catholics) of the Fraser River Tribe.

We have obtained from the kindness, an allocation of \$ per capita per annum, for 45 pupils. Needless to state that we had, under the Hon. Mr. Dewdney, obtained a part of afore said allocation, that is \$1000.00 for 45 pupils. I am glad to say that the Indians wish more earnestly for, and understand better the advantage of education. And consequently Indian children benefit far more of what they learn in school.

For 80 pupils
\$400.00

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 1)

*This is not
to be done now*

In conclusion of all this, I apply
for more, "that is to, raise the
number of our pupils to one
hundred at the rate of \$60.00
per Capita per annum, and
that to Commence 1st of July
1894.

Considering the great ends
of our Fraser River Indians,
improving their condition, the
application in giving Satisfac-
tion to those vested with
power over them; Consider
the large number of Children
in age to go to school; I hope
that you will not find
their request unreasonable
and you will be able to
correspond with their just
desire.

Hoping to hear from you,
I remain, V. H. noble Sir, for
the Catholic Indians of F. River
Your humble Servant
P. M. O. Corneller C.M.I.

In reply to your favor of the 26th ult. concerning the grant of five thousand Dollars I have asked for replacing the old School Building now used by the Indian Boys at our Mission of William's Lake, I respectfully beg to state that said building had been erected by the Mission more than twenty years ago and is now in such a state of dilapidation that it would be utterly impossible to put it in a due state of repair. We have therefore concluded to erect a new building more suitable to the purpose and of a size that should accommodate more than twenty five pupils in case the Government be pleased to increase the number of Indian boys for admission.

I enclose herewith a rough sketch of the plan or size of said construction and of the different rooms of the building we intend to erect, as also an estimate of the price of materials etc. in the construction of building.

It is our intention to employ as a Carpenter, the Instructor of the boys in carpentry only, so that the boys who will help in the construction may gain considerable knowledge in the erection of houses. I firmly hope that you will come to my assistance as I have already expended three thousand dollars in repairing and enlarging the School house for the Indian girls.

it may be too late to place the said grant in the General

THIS LETTER HAS BEEN SENT OTTAWA 28th September 1896

Rev: Sir,

I have the honor to acknowledge the receipt through Mr. Hestock M.P. of your letter of the 18th July last, applying for assistance in improving the girl's department of the William's Lake Industrial school, and enclosing a tracing of the proposed improvements, together with an estimate of the cost thereof; and in reply I regret to say that this application was received too late for consideration in the estimates for '96-7, but a note has been made of it and when those for '97-8 are being prepared it will receive attention.

Your obedient servant,

Deputy Supt: Genl:
of Indian Affairs:-

Rev. J. M. J. Lejacq O.M.I.

St. Joseph's Industrial School

This was
handed in
by Hunt
the Clerk

William Lake, B. C., 16th July 1896

The Superintendent General of Indian Affairs
Ottawa.

Sir - Necessity compels me to make application to the government for some help towards fixing the girls Department so as to have plenty room and proper accommodation. To explain matters, I will state that the Boys' Department and the girls Department are two separate buildings: these buildings were put up by the mission long ago, and served for many years as boarding-schools for boys and girls. When an Industrial School was granted to the William's Lake District, the government offered his Lordship Bishop Durand to take charge of the school, his Lordship devoting the said buildings for the purpose. As these buildings were old and not quite up to the mark, we made application to the government who saw the justice of our cause and granted us a Bonus of 2000 Dollars towards the Boys' Department: thanks to the said Bonus, we have been able to put up a fine school-house for the boys 66x38, two stories and a half high: the building is considered as the finest in the Cariboo District and is a credit to the country. Now we expect we are confident that the government, seeing what good use we have made of his first Bonus, will grant us a second Bonus of 2000 Dollars to enable us to fix the girls Department, so that it will look as the counterpart of the Boys' Department: this is what we want to do. The old building is a log-building 92x30, one story and a half: we intend taking down the roof and the half-story; then we will overhaul the ground floor, build over it another story and a half with a wing or adding 24x30 two stories and a half high: the whole thing will cost about 6200 Dollars as the following statement

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 1)

A. W. Towell Esq^r
Indian Supt.

124209

Sir -

I have the honor to inform you that the Rev^d Principal of the Industrial School, Williams Lake, in a letter of the 2nd inst, intimates that he does not feel justified to undertake to construct with a grant of two thousand dollars such a large school building as the one we had agreed to, when on the 18th day of January 1854, I had forwarded to the Honorable Mr. Daly, the Superintendent General of Indian Affairs, plans and estimates of a school building for the construction of which I begged them to be assisted by the Government to the amount of five thousand dollars -

The means at his disposal added to the grant of \$2000.⁰⁰ could not bring said large construction to completion.

Consequently the Principal begs to propose to use the Government grant of \$2000.⁰⁰ in the construction of a school building of a smaller size viz - 66 x 38, according to plans and estimates herein enclosed in triplicate. - Be kind enough to communicate with the Honorable the Supt. Gen. of Indian Affairs and to recommend to his favourable consideration the aforesaid proposed change in the size of the School Building.

I have the honor to be - Sir -
Your humble servant

Sir

I have the honor to inform you that, as soon as I heard that your kind grant of two thousand dollars in aid for the erection of the new building for the Industrial School at Williams Lake had been voted by the Parliament, I gave instructions to the Pres. Principal of said Industrial School to order at once the lumber required for such building. The lumber is ready at the present time. I would be very thankful if I could receive now said grant of two thousand dollars. I would be so enabled to pay for the various materials required according to the estimates I had the honor to give you in my letter of the 18th January last.

William's Lake, B. C., 22 October 1897

The

Deputy Superintendent general of Indian affairs
Ottawa

Honorable Sir,

On the 28th September 1896, N^o 117123, in acknowledging the receipt through Mr. Bostock, M.P. of my letter of the 16th July, applying for assistance in improving the girls' Department, and enclosing a tracing of the proposed improvements, together with an estimate of the cost thereof, you gave me hope, nay you made me feel sure that I would get the bonus of \$2000.00, I applied for so much so because, a few days after the receipt of your letter, a person commissioned by Mr. Bostock wrote me thus: "I received a letter from Mr. Bostock, M.P. dated Ottawa, September 26th, part of his letter reads: 'The Indian Estimates came up last night, and included in the sum voted was an amount of \$2000.00 for the Industrial School at William's Lake. Trusting this will be satisfactory and that you will kindly inform the people interested, for me Relying on that money I went ahead, I finished the girls' Department, according to the plan specified in my application of the 16th July 1896. But for that I had to borrow and now I am paying 5% interest on \$6000.00. It would look altogether unfair, if the Department, after inducing me into an impass, refused to come to my relief and upheld that sum of 2000 Dollars voted for William's Lake Industrial School on the night of the 25th Sept 1896. I am confident the Department will be true to its promise and will redeem the good news sent me by Mr. Bostock, M.P."

I have the honour to be,

Honorable Sir

POOR COPY

St. Joseph's Industrial School

William's Lake, B. C., 2^d October - 1897

The Honorable

The Deputy Superintendent General of Indian Affairs,
Ottawa

Sir,

On the 29th May last, about 5^{1/2} P.M. at the St. Joseph's Industrial School, William's Lake, the water-closets were discovered in a blaze, the fire alarm was rung, all the men, the boys and the girls with their buckets ran up, they worked hard, but all they could do was to prevent the fire from spreading: joining the water closets was the wood shed and next the harness-shop, they had to be sacrificed: we had scarcely time to save anything: In less than a half-hour the whole shop was a mass of fire.

According to the statement sent in and signed by the Trade-Instructor the loss in the harness-shop alone (boots, leather, hardware) is 75⁰⁰. Besides, the Instructor lost his gold watch 75⁰⁰; we lost our cotton 50⁰⁰, our fligh 30⁰⁰, our coat 30⁰⁰, our scraped 10⁰⁰, 50 hides, 50⁰⁰, these articles were thrown away under the wood shed near the water-closets: Total \$1006⁰⁰.

Trusting in Divine Providence and also confident that the Department would be coming to my help, I took immediate steps to replace to replace what had been consumed by the fire. In order to comply with the wishes of the Department who complained I was not taking in enough apprentices, I now put up a fine building 38x22, two stories: on the ground floor will be the work shop 28x22, and the office 10x10; on the second floor the Instructor will have his lodgings and besides plenty room to store away his stock. Although the building is not quite finished, up to the present I have spent there on it the sum of 1000⁶⁵, what makes a total of losses + expenses 2006⁶⁵.

I hope the Department will meet me half-way and grant a bonus of \$1000⁰⁰ to help me out of my distress.

I have the honor to be, honorable Sir, your most obedient servant
J. M. J. Lejacq. O.M.C. Principal

The Honourable
the Superintendent General of Indian Affairs
Ottawa

Sir,

Mr. Hewitt Bostock, our member in the House, has sent me that the sum of 2000⁰⁰ promised me as assistance toward improving the girls' Department at the William's Lake Indian School was included in this year's appropriation and forthcoming in due time. As your Honour may be aware, 1896, after hearing from Mr. Bostock that the Indian had come up and that, in the sum voted, was an amount for the William's Lake Industrial School, I started with the work, not receiving the money promised, borrow and now I am paying interest on 500⁰⁰. So I earnestly ask the Department to forward me, as soon as possible, the amount voted, which I may consider as belonging to the William's Lake Industrial School. I have the honour to be,

Sir,

The Secretary.

3/10/10
With reference to the letter of the 9th ult. from Supt. Vonell enclosing two letters of the same date from the Rev. Father Tracy, Principal of the Williams Lake Industrial School, one being an application for a grant of \$2,000 for improvement in the girls' department, and the other a request for a grant of \$1,000 to recoup the institution half the loss by fire that ~~caused~~^{destroyed} the trade shops lost May, I beg to submit the following information.

The two main buildings occupied by this school were erected in the Town of Cathedral City some years ago, 1890 or 1892. The Bishop of the diocese proposed that the mission building should be changed into an industrial school. It was to be considered that there was great necessity for it in that district, and he made the offer that his church would devote the money for it.

In His Excellency
I think

purposes of an industrial school and conduct the school on condition that the Government would allow make a per capita grant of \$130 (the number of pupils was not stated) and provide the following salaries:-

Principal	\$800
Matron (for girls home)	800
Servants (2)	400
Trades Instructor	600
Cook (for boys)	250

This offer was not accepted.

On the 25th Feb. 1891 the Bishop submitted a more favorable offer, namely, that the R.C. authorities would conduct the school, board, clothe and educate the children including a training in two or three industrial trades, on condition that the Government would allow a per capita grant of \$130 for fifty pupils, ^{the Government to be at no other expense.} Each of the buildings (2) was stated to be able to accommodate forty children. On the 6th May 1891 the Supt. General decided to accept this offer, and in July of the

same year the school was opened, though not with the full complement of pupils.

In addition to the per capita grant, however, after a time the Government ~~gave up~~ ^{added} certain additions to the school buildings by creating workshops for the teaching of trades.

Later on, the Principal of the school applied for a grant of \$2,000 to make improvements in the girls' department, and on the recommendation of Mr. Gostock, M.P., a promise was made that the amount would be inserted in the estimates. This, however, was not done.

The present applications from the Principal are, therefore, ⁽¹⁾ that the Government will fulfil its promise of a grant of \$2,000, and ⁽²⁾ make a special grant of \$1,000 to meet half the loss by fire which destroyed the portion of the buildings erected by the Government.

117123/5

Sir

I have the honour to acknowledge

the receipt of your letter dated 10th Ultimo requesting receipted accounts in support of the several items specified on Voucher No 48 for \$2000⁰⁰ granted to the Rev^d Principal of the Williams Lake Industrial School in aid of the extensions and improvements which had become necessary to provide accommodation in the buildings for all the pupils allowed.

In this connection I beg to explain that the material for the extensions and improvements had been bought from tradesmen with articles required for other purposes and appear accordingly in their accounts the Rev^d Principal did not give directions to have them kept separate as he was not sure at the time that he would obtain the assistance now given by the Department. The Rev^d Father has sent his accounts to this office and has marked on each Bill of Parcels the items appertaining to the extensions and improvements a sum - many of these amounting to \$2998⁰⁰ together with exhibits A.B.C.D.E.F.G.H.I.J.K.L.M.N.N.O.P.Q.R.S.T.U. and Way Bills forwarding Agents Charges, Counterfoils of Cheques paid for lumber are herewith submitted in support of Voucher No 48 according to your request.

I have the honour to be

Sir

Your obedient servant

A. W. Vowles

May 1st '10.....190.....

Frank Pedley, Esq.

Deputy Supt. of Indian Affairs,

Ottawa.

Sir:-

I have the honor to acknowledge receipt through Indian Agent, Isaac Ogden, of your answer to my request dated Jan. 14th last, of a grant to help paying off a debt incurred through the necessary installation of furnaces and toilets for the pupils of this school.

This your answer is a simple refusal of all financial help. With all due respect I must say that I am very painfully surprised and with me the members of my staff. We trusted too much to the Department's sense of justice and equity as well as to its solicitude for the welfare of all Indian children in all the schools.

But as nothing in your letter indicates that this answer is final and as on the other hand I might not have sufficiently well explained the case I beg leave to again renew my request. I shall be pleased to give all and every explanation that the Department might need in order to adequately judge our case on its merits.

In my letter dat. Jan. 14th, I think, I have sufficiently well explained the absolute necessity there was for changing from small box stoves to furnaces. As this letter may not be on file any more, for convenience sake I enclose herewith another copy of it. On its perusal you will notice that I mention also as an important reason for the change: reducing to a minimum the danger of fire. First, we have reduced the number of chimneys to be watched from nine to two. Then without furnaces it is impossible to keep the water from freezing over night with the best possible care as has been

120

demonstrated again and again. Because we tried to follow the Department's rule: have pails filled with water always ready—we have lost them nearly all through frost in one night splitting them. But now, with a little more improvement to the water works we can have a stream of water in any story of every building should fire break out there.

Another very necessary point that the furnaces have allowed us to improve is: sanitation and sanitary precautions. We have now toilets and bathtubs in the boys' and girls' department. We could not think of these before putting in the furnaces.

It may be objected that we did all this without first asking the Department's approval and submitting plans. I beg to answer that I had been told that the Department could not give financial assistance before knowing that the undertaking would be a success. I could not possibly give this assurance without first trying. But we were so confident in the final success that we made a loan in the hope that the Department would come to our help in an improvement so very necessary and so very successful just as it has given financial support to other schools in undertakings not less necessary than this one. In my letter of Jan. 14th last I wrote: "Since a little over two months the furnaces have been burning practically day and night; the thermometer has registered already 22 below zero, but the children say: it is always warm in our school." I should think such a test is quite sufficient to prove the complete success of the work.

In further thinking of the possible motives the Department might have had in turning down my request it has come to my mind that perhaps the ~~XXXXX~~ Department does not consider the results of this school sufficient to warrant the expenditure. I do not know in what this school might be (if it

3

190.....

is at all) inferior to such as have received special grants now and then. But I know that the inspector of Indian schools, A.E.Green, has always pronounced himself pleased with what we do and the way we do it. His reports in the blue books speak for themselves. I therefore fail to see why our efforts and our work should not meet with the same appreciation and encouragement as do other schools. During these nine years that I have been at the head of this institution we have received, as extraordinary grant, only twenty new school desks for the girls' department; total cost was not to exceed \$182.10 This, of course, was not sufficient to pay for all, transportation costs included.

I cannot well conclude without transcribing here from my yearly report what is said there of the pupils' health. "Under this heading (HEALTH AND SANITATION) I have been happy to say since a number of years that the children of this school always enjoy excellent health. Indeed, our inspector of schools, Mr.A.E.Green, in 1906 already declared that in no other school he found the children as healthy as here. (Cf.Blue Book, year 1906, p. 488). This good record has been kept up again as we have no contagious disease, no serious case of any kind, no death to deplore. Not surprising then to hear Indians here saying when presenting their offspring for admittance: "I'm afraid he'll die if I keep him." Hence the Department ought to feel relieved in knowing that any help extended to this institution produces more than a transitory benefit.

In order to still better explain the merits of our case I cannot pass over the fact that the school keeps on its own charge seventeen pupils above the allowed number (50). This number will be still more increased next July if I am able to purchase more beds.

Again it must be borne in mind that we are 135 miles from the nearest railway point and that goods are moved slowly at great expense by teams.

On account of all these reasons I pray the Department with all due respect to reconsider its answer and to give us the necessary help. I shall be pleased to give all and every explanation on any point you might call for.

I have the honor to be,

Sir,

your obedient servant,

A. Boening.

Frank Pedley, Esq.

Deputy Supt. of Indian Affairs,

Ottawa.

Sir:-

I have the honor to submit to your earnest and kind consideration my humble request for a special grant as help in the payment for improvements that I was obliged to make in the heating apparatus and the sanitary condition of this school. These improvements have taken place principally in the girls' department. In the past years ordinary box stoves were the only means of heating at this institution. But in such a severe climate these could never give satisfaction. Besides, what a great and continual danger of fire, not mentioning the trouble in cleaning chimneys at least once a month and the cost in fuel and repairs. In the girls' school alone sixteen stoves were sometimes burning at the same time. So we decided to make a test. In the fall of '08 we put up in the boys' department a hot air McClary furnace No. 316. The test was a severe one as the thermometer last winter registered as much as 54 below zero. Without being very comfortable in such unheard of cold the boys, however, found themselves in warmer quarters than the girls. Impossible for the latter to work in the schoolroom or sewing-room. We decided then to do away with the stoves in the girls' department also and put in two hot air furnaces. But much excavating had first to be done as there was no basement. I am happy here to seize this occasion to bring to your knowledge with what extraordinary good will and zeal both boys and girls helped in this work. During the months of August, September and October a basement was made nearly the whole length of the girls' school. The exact measurements are: 110 x 18 x 7 ft. No other tools but picks and

120

shovels and buckets were used. Then we put in two hot air McClary furnaces No. 417, one with sixteen and the other with fifteen pipes. This work, too, was done by the principal with the help of the boys. We are all very pleased with the results. Since a little over two months the furnaces have been burning practically day and night; the thermometer has registered already 22 below zero but the children say: it is always warm in our school.

With the furnaces we have now also the great advantage of a never failing supply of fresh water without the fear of frost.

Then these two very valuable improvements have allowed us to make a third one: up-to-date toilet-rooms in boys' and girls' department.

All these very necessary improvements, ~~XXXXXXXXXXXXXXXXXXXX~~ of course, could not be paid for out of the per capita grant as this does hardly cover the running expenses of this school, situated 135 miles from the nearest railway station with 67 pupils at present. As may be seen by the enclosed receipts we have paid \$600.00 for the two furnaces complete and \$450.50 for sanitary improvements. These figures do not include transportation and installation costs. I trust therefore to the sense of justice and generosity as well as to the solicitude of the Department for the advancement of the Indians and hope to receive a substantial grant as a help in paying off this debt that, as I have shown above, was very necessary.

I have the honor to be,

Sir,

your obedient servant,

H. Boening.

February 2nd, 1910.

T, 5.

File No. 11743

Sir:

I have the honour to forward herewith letter dated 19th ultimo, No. 191, from Mr. Indian Agent Ogden, Williams Lake agency, covering a letter of the 14th of that month addressed to the Deputy Superintendent General by the Principal of the Williams Lake Industrial School asking for Departmental aid towards relieving a debt which he found it necessary to incur in providing a suitable heating furnace, etc., for the school under his charge which is situated in a climate, as the Department is no doubt aware, exceedingly cold in the winter season.

There will also be found enclosed duplicate of a letter dated 26th ultimo from the Principal addressed to this office and receipted bills from Mr. John R. Tacey of Vancouver in the sum of \$600.00 and the Robertson Godson Company, Limited of Vancouver for a sum aggregating \$450.50 for plumbing fixtures, etc.

As the sum expended by the Principal is a considerable one and apparently all very necessary I would recommend that the Department favourably consider the application and afford all the aid possible towards relieving the indebtedness.

Your obedient servant,

A. W. Howell
Supt. of Indian Affairs, B.C.

A. W. Vowell, Esq.

Supt. of Indian Affairs,

Victoria.

Sir:-

I have the honour to answer to your communication dated 21st. inst. requesting an explanation why a letter from John R. Tacey ~~XXXXXX~~ enclosing receipt for \$600.00 in connection with the installation of two furnaces here was sent to you.

By the time this letter reaches you a petition from me to the Department may have been forwarded to you by our Indian Agent, Isaac Ogden, at Lac La Hache with a word or two of explanation. This should show that in sending in my petition for some help towards paying off a debt that I was forced to make for the welfare of the pupils of this school I meant to enclose the necessary receipts. Unfortunately these had been mislaid and in order to gain time I asked Mr. John R. Tacey to write out a copy of the receipt in duplicate and to forward it direct to you instead of sending it first up here, what would have caused a loss of two weeks, mail reaching us only twice a week.

Should, however, my petition not have reached you by the time this is in your hands I shall be only too glad upon request to make out a new one and send it in without delay.

Trusting that this explanation will be sufficient,

I have the honour to be,

Sir,

Encl: Receipt in
Duplicate.

your obedient servant,

H. Boering

Dear Mr. Boering
As per your request
I estimate to supply two furnaces large
enough to heat Children's School at Williams
Lake together with the necessary hot air pipes
smoke pipes, registers etc. I have with
you an approximate estimate - P.C. Vancouver
supply two No 419 Magnet Furnaces weigh 3200
pounds casing, sufficient hot air pipe elbows
registers etc to connect from top of furnaces
to the different rooms as shown on plan, about
twenty four pipes in all from top of furnaces
to the different rooms. For the sum \$600⁰⁰
Six Hundred Dollars

Yours Respectfully
John R. Tacey

P.S. Weight of furnaces & all necessary would be
about 4000⁰⁰

Returns to Schools

Ottawa, January 27, 1911.

Sir,

I have to acknowledge the receipt of your letter of the 16th instant submitting prices from Messrs. Austin and Hurst of Vancouver for the installation of fire escapes at the Williams Lake Industrial School.

In reply I beg to say that before the Department can come to a decision in this matter it would like to be furnished with drawings showing the kind of escape this firm will place in the school for the price quoted. Be good enough to obtain this information and forward it as soon as possible.

Sir,-

I reference to your letter 117123/1 dated Nov. 24th., I have the honor to report that I have obtained price for fire escapes required for the Williams' Lake Industrial School, one for the boys building, and two for the girls'. I forward this price herewith for the consideration of the Department.

The freight from Vancouver to Ashcroft, and then by waggon to Williams' Lake, would approximately be about five cents per pound.

A. E. Green, Esq.,
Inspector of Indian Schools,
City.

Dear Sir,

Re your enquiries for figures on fire escapes for the William Lake Industrial School, we would make first class escapes for the sum of Five hundred and thirty dollars (\$530.00) F.O.B. Vancouver.

This figure includes stairs for the two Girls' School escapes and ladders with handrail on one side for the escape on Boys' School.

We will forward drawing for your approval if figures are satisfactory. We could make a reduction of One Hundred and twenty dollars (\$120.00) if ladders were used throughout, but we would advise work made as per above specifications, as ladders are not a safe means of exit for girls in case of panic or fire.

Trusting to hear from you again re this matter,

We remain,

Yours very truly,

[Handwritten signature]

R

Sir,—

The Principal of the Cariboo Indian Industrial School is making application for assistance from the Department in constructing and enlarging the present dam for the school in order to ensure ample water supply for the winter. He states that about 1500 cubic ^{yards} ~~feet~~ will have to be removed and that a reasonable price is fifty cents (\$.50) per cubic yard. He can have it done at that rate by the school labour, or if we prefer to have it done by some one else it is immaterial to him.

1
750

He claims that the money has already been granted by the Department and as it will soon freeze up in this part of the country it is important that the work be commenced at once.

I have looked into this matter and I am of the opinion that it should be done to ensure plentiful supply for fire protection and domestic use of the school.

If the Department approve I would suggest that you please wire me authority on receipt of this letter as time is precious at this season of the year.

I have the honour to be,

Sir,

Your obedient servant,

Ottawa, Oct. 12, 1923.

Sir:

Mr. Inspector Cairns has reported the need of supplying four hand washing machines and four wringers for the laundry in connection with the Cariboo Residential School. He states that at present the Sisters and pupils are doing the washing in this institution, by hand, using the old fashioned wash board. Mr. Cairns states that, upon enquiry, he finds the four hand machines and four wringers would cost approximately \$120.

I have therefore to request that you will purchase these hand machines and wringers and have them forwarded to the principal. It will be necessary to obtain competitive prices and the purchase should be made from the firm quoting the lowest price. Please forward certified vouchers, in duplicate, covering the expenditure incurred, also a memo showing the names of the firms asked to quote and the prices quoted. The purchase of this equipment should receive your early attention. We are informing Mr. Agent MacLeod that you have been authorized to procure the articles.

Your obedient servant,

IN YOUR REPLY REFER TO
No. 1-8
ALSO
TO DATE OF THIS LETTER

September 22nd, 1923

R

Sir,—

I beg to confirm my night-lettergram of today which reads as follows:

"Regarding Cariboo Industrial School heating plant Principal advises that he made personal investigations in Vancouver and decided on expert advice that the Robertson-Godson Co. supplied the only suitable warm-air furnace known as Pease Economy Heavy Duty Furnace. Two are required costing \$670.00 each F.O.B. Vancouver, freight and installing by competent Heating man would increase cost considerably. Principal further advises that Department has already granted \$5000.00 for this school's improvements. I have no instructions to this effect from you. (Signed) E. MacLeod, Indian Agent."

I may say that the only instructions I have had from you was your telegram of August 17th as follows:

"You are authorized to build new chimneys and foundations under school for two hot-air furnaces Cariboo Indian Industrial School by day labor or by competent Contractor on a proven cost plus a ten percent basis. (Signed) A. F. MacKenzie."

On receipt of this telegram I sent a copy of it to the Principal of the school and I visited the school soon after and found that the Principal was in Vancouver looking over similar buildings to the Cariboo School and getting advice as to what was required in the furnace line. He has since let the contract to construct the chimneys and foundations to a contractor after getting figures from other contractors, a copy of which I enclose herewith.

*Per Lulgen
mch 1*

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 1)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

POOR COPY

The Principal claims that the Pease Economy Heavy Duty furnace is the only suitable kind available for his institution and I have had correspondence with the Vancouver agents of this company in which they state prices as follows:

No. 70,	75000	feet capacity,	\$670.00	F.O.B. Van.
" 80	100000	" "	820.00	" "
" 90	135000	" "	992.00	" "

They further state in their letter that they recommend No. 90 for the Cariboo School. However, the Principal states that since two are required, two No. 70 will do. I am advised that the Provincial Architect, Mr. Whittaker specifies these furnaces for all the Government buildings requiring a heater of these capacities. The company advises strongly that a competent heating man be placed in charge of installing the furnaces, and since this is the case, we must get such a man from Vancouver. His pay, together with the freight on furnaces and cost of brick at Williams Lake will bring the cost of the furnaces to about \$1000.00 each.

This appears to be what the Principal of the School wants and as I have nothing better to offer I do not see any reason for any other recommendation.

Trusting that this will meet with your approval,

I have the honour to be,
Sir,

Your obedient servant,

E. MacLeod

Dear Sir,

I beg to inform you that the two sewing machines were received in good shape.

Have you any idea when the two furnaces will arrive? I would like to see them installed before frost sets in.

The number and nature of the buildings in use at the school are the following:

- 1 Main building. It measures 60x30. It is used by the Principal and the male members of the staff.
- 2 Boys' school building. This building is contiguous to the main building and there is a covered hallway between the two. Center 30x22, left wing 32x29, right wing 32x29
- 3 Girls' school building. It is separated from the boys' school by a distance of some two hundred feet. Center 50x25, left wing 32x29, right wing 65x30.
- 4 Central building. Center 26x26, right wing 25x25, left wing 25x25. This building is occupied on the main floor by the kitchen and separate dining rooms for (a) the boys, (b) the girls, (c) the Rev. Sisters, (d) the male members, (e) the outside help on the farm. In the basement of this central building there are a bakery, a dairy, a large central furnace and work room and a laundry.
- 5 Carpenter shop. It measures 40x20
- 6 Blacksmith shop. It measures 30x18
- 7 Warehouse. It measures 40x30
- 8 Granary, pig pen. It measures 65x40
- 9 Implement shed. It measures 100x22
- 10 Horse barn

I think these explanations will fill the requirements of the Department.

Yours truly,

(sgd) Rev. Ed. Maillard, O.M.I.

Sir:

I have your No. 1-8, of the 20th instant, enclosing a copy of a letter received from the Reverend Principal of the Cariboo Indian Residential School, relative to the need for a cow barn.

I regret to inform you that the Parliamentary Appropriation for Indian Education has been completely assigned this fiscal year, and, before such a building could be erected, funds would have to be provided. The Department agrees with you that milk is absolutely essential for Indian children in residence, and I wish to assure you that the need at the Cariboo Residential School will not be overlooked when we are preparing our estimates. In the interim, I should be pleased if you would intimate the number and nature of the buildings that are at present in use at this school.

Please inform the Reverend Principal of the nature of this communication.

Your obedient servant,

A. F. MacKenzie
A. F. MacKenzie,

August 20th, 1923

Sir,—

Please find enclosed copy of letter received from the Principal of the Cariboo Indian Industrial School, which letter is self-explanatory.

I may state that I am of the opinion that this institution should have a cowbarn erected and that they are unable to meet the expense out of the per capita grant.

Milk the year round is, in my opinion, a very necessary part of the Indian child's diet in an institution of this kind; it is also one of the most essential parts of such a child's education to know how to milk cows and take care of stock more especially as this is a stock district.

Awaiting the kind consideration of the Department,

I have the honour to be,

Sir,

Your obedient servant,

E. MacLeod

August 11th, 1923.

E. MacLeod,
Indian Agent,
Clinton, B.C.

Dear Sir,

On the occasion of your recent visit I explained to you the necessity of a cow barn for the school. I found by experience that the majority of the children coming to school are underfed and are in great need of milk and butter fat to rebuild their system. But at the present time, having no barn, we are forced to milk the cows outside and this from about the middle of May till the end of October, then the rest of the time we have no milk which I consider a great drawback to the health of the whole institution. Besides it is a valuable training for the boys to learn how to milk, and to make butter. This knowledge will be very useful to them when on their rancheries. For these reasons I humbly ask you to present our request to the Department.

Yours truly,

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

August 9, 1923.

Memorandum:

The Honourable The Superintendent General.

It is proposed to undertake, by day labour or on a cost plus 10% basis, certain very necessary repairs to the Cariboo Indian Industrial School, near Williams Lake, in the interior of British Columbia. Seven brick chimneys should be erected in the various buildings - existing pipes are a serious menace. Two hot air furnaces are needed and a complete foundation under the girls' building. To ensure an adequate water supply, a dam has to be erected.

The Church Authorities have urged these improvements for some months and an item of \$4,000, which, I believe, will meet all expenses, was included in the Vote for Indian Education. As funds are available and the work is now timely, I shall be pleased to have your authority to give the necessary instructions to our Agent at Clinton, B. C.

Sir,

I am sending you a letter from the Indian Department to Rev, J. Welch, (No. 117123-5, July 5th, 1923); this letter as you will see by the content gives the authorization for building chimneys and foundations under girls school. I have obtained from two contractors an estimate for the building up of chimneys and the foundations under the school. For two hot air furnaces, they could be bought in Vancouver, the dimensions required for these furnaces are for the fire boxes 5 feet long and 2 feet in diameter. Brother Lajoie could easily set them up. I have no estimate on the work or cost required for the erection of the dam. But being anxious to have the chimneys and foundations done before winter, I am sending you the estimates of the two contractors on this work.

Kindly return the enclosed letter of F. Welsh.

Yours truly

Ottawa, June 25 1923

The Secretary of Indian Department.
Ottawa.

ATTENTION OF MR. R. T. FERRIER.

Dear Sir:-

On June 17th, I have received from Rev. Fr J. Welch, O.M.I., Provincial of the Oblate Fathers in British Columbia, the following communication:-

"Dear Father Guy:-

Father Maillard from the Cariboo or William's Lake School was down here last week and he assured me that the building of the chimneys this summer was imperative. The miserable pipes now in use are worn out and consequently are a perpetual menace to the school throughout the winter. Last winter, they were the occasion of two fires in the buildings. Luckily they were discovered in time and a serious calamity averted. I need not insist on the gravity of the situation. All that is necessary, I am sure, is to bring the matter to Mr. Scott's attention.

Yours very sincerely
(Sgd) J. Welch, O.M.I.)."

I leave the matter to your consideration and I hope that action will follow.

Yours truly,

Joseph Lussier O.M.I.

Duncan C. Scott, Esq.,
Deputy Superintendent General of Indian Affairs,
Ottawa, Ont.

573731

Dear Mr. Scott:-

We have never to my knowledge, certainly not in recent years, applied to the Department for any extra aid to maintain our Indian School in the Cariboo. I consider it my duty to do so now.

The Cariboo School was established in 1867:
The enclosed photo shows the relative positions of the main buildings as follows:

- 1- Boys' School
- 2- Dining Rooms, Kitchens, Laundry, Bakery and Electric Plant.
- 3- Girls' School.
- 4- Barn etc.

The Boys' and Girls' Schools are a full block apart. Needless to say we have during the past sixty-five years spent much money on the Cariboo School: Repairs and improvements are constantly being made. In 1919 we installed a Delco Electric Lighting Plant at a cost of \$2,200.00. In 1920 we spent \$2,000.00 on a new sewer system, and about five years ago about \$2,000.00 on a laundry and bakery.

Other repairs and improvements are now urgently needed, and to these I now particularly wish to draw your attention.

- A. Two new hot-air furnaces.
- B. Six brick chimneys, at present we merely have stove pipes which are a constant menace to the safety of the buildings.
- C. A barn for the cattle. There is a small barn for the horses but none for the milch cows. In Winter and Summer the cows are milked in the open. Winters in the Cariboo are very severe, and as a consequence the cows yield practically no milk or butter for six months in the year.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 1)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

POOR COPY

D.C.S.

(2)

7 D. The Girls' School should have ^{new} foundations. In Spring and the early Summer the basement is flooded making it impossible to heat the furnace.

E. Lastly the water system is defective. Water for the School is brought from a lake a mile and a half away. What is required is a dam at the intake to enclose a greater body of water and to give greater pressure. Some days there is not enough water for the laundry, and when the laundry is being operated, there is an insufficient supply of water for the domestic purposes or for the barn and dairy. Probably \$500.00 would be needed for the erection of a suitable dam.

If the above improvements were made we should be able to carry on for a number of years. We have not the funds to make the improvements ourselves.

You may wonder how we have succeeded in doing so much during the past few years. Allow me to explain; It was due to the high price we received for our cattle during the war. Then again we formerly had a ready market for our surplus hay, but since the construction of the P.G.E. Railway teamsters have deserted the Cariboo.

Yours respectfully,

J. Mearns

FIRE PROTECTION.

There is not much force ^{that} so it would not
help much in case of fire. However the buildings are heat-
ed by furnaces, and the roofs are covered with galvanized
iron. Then there are plenty of fire pails and some twelve
Pyrene fire extinguishers. It will be seen that the pro-
tection from fire is fairly good.

Sir,-
I beg to acknowledge receipt of yours of above file and
date with reference to suggested improvement at Williams Lake
Industrial School.

I have now written the Principal of the School
as directed, asking him to make the necessary application to
his superiors and I trust that they will accede to his
request.

I have the honour to be,

Sir,

Your obedient servant,

A. McGraw

Sir:-

I beg to acknowledge the receipt of your letter of the 26th September in which you inform me that the Reverend Principal of the Cariboo Industrial School had requested the Department to reimburse him to the extent of \$450.00 to replace the cost of two chimneys in the girls' building following installation of two furnaces early this year.

In reply to your inquiry as to why it was necessary to tear down the two new chimneys authorized in August, 1923, and replace them, I beg to say that the explanation of this is that the two chimneys which were authorized in August, 1923, were erected for the two old furnaces in the school at that time though the management had been promised two new furnaces. Before the new furnaces were purchased by me it was deemed expedient to have a heating expert sent to the school to see just what was required and in Mr. Crane's report he made mention of the two new chimneys which had recently been erected but stated that they were not of sufficient area to accommodate the new furnaces, the old ones only having an area of 64 square inches (8" square) each whereas the new flues would require to be 16" X 20" inside measurement. Evidently it was a mistake on the part of the management of the school to build any chimneys at all until they had ascertained the dimensions required for the new furnaces which had been promised, but I am inclined to think they did the best they could under the circumstances and that the Department should take a favorable view of the case and reimburse the Principal for his outlay.

*Ask for acct
4 accts*

The Principal tells me that he also had to go to the expense of \$92.58 for some further smoke pipes which were sent to the school afterwards, but possibly he has rendered an account for this already.

WED/KD.

Ottawa, Oct. 23, 1924.

Dear Mr. Ditchburn:-

Replying to your letter of the 14th instant with reference to the building of a barn for the Cariboo Industrial School at William's Lake, I can best reply to your letter by quoting from a letter addressed to Indian Agent MacLeod on May 27th of this year, as follows:

"I have your No. 1-8 of the 20th instant, with reference to the advisability of building a cow barn at the Cariboo Indian Residential School. I have to inform you that favourable consideration was given to the needs of this institution when our estimates for this fiscal year were being prepared. The Government asked for economy and it was found impossible to secure a vote for the purpose of erecting a barn and making repairs to mechanical plant at this institution. An effort will be made to arrange for an appropriation in this connection next year."

I cannot add anything to this at the present time, but no doubt an effort will be made to provide the funds next year.

Yours very truly,

B. GUFNEY OFR.

Architect for the Department.

R

Dear Mr. Scott:-

Reverend Father I. Maillard, O.M.I., Principal of Cariboo Industrial School, has requested me to draw to your attention the fact that on account of the installation of two furnaces in the course of May last, he has been obliged to take down the two chimneys which had been erected at the Girls' building. Those chimneys became insufficient for the two furnaces; therefore, the Reverend Principal was obliged to build new ones with a double brick at the cost of \$450.00.

Would you kindly consider this request and give it your usual attention.

Yours very truly,

Joseph H. Guy, O.M.I.

Sir:

I have to acknowledge receipt of your letter of the 10th instant, with reference to enlarging the present dam at the Cariboo Indian Residential School in order to ensure an ample water supply during the winter months, and requesting authority to begin the work with the principal as superintendent. In reply I beg to confirm the following night lettergram, sent you today: -

"Reference your letter tenth instant, Principal may proceed with work enlarging dam Cariboo Residential School. Work can be done under his supervision. Competitive prices to be obtained for any material required. Time sheets to be kept for labour employed. Amount authorized not to be exceeded."

The principal should keep proper time sheets in duplicate for the labour employed and these he will hand to you to be certified and transmitted to the Department. Competitive prices should be obtained, as far as possible, for any material that may be required. Properly certified vouchers, in duplicate, covering the cost of the same, should be forwarded, supported by an abstract giving the names of the persons asked to quote and the prices quoted. Accounts for this work cannot be paid in excess of the amount which has been provided, viz.: \$800.

June 10th, 1924

R

Sir,—

I beg to acknowledge receipt of letter No. 160-0-5, May 27th regarding the construction of a cow-barn and a dam at the Cariboo Indian Residential School.

Since receipt of your letter I visited the school and explained to the Rev. Principal the reason why the construction of a cow-barn could not be proceeded with this season. We also discussed the building of the dam and I informed him that the Department was prepared to assist in the matter up to \$800.00. He is willing to take charge of the work himself and to hire the men to do the work, also the necessary horses.

Since the work is enlarging the dam now in use and since the Rev. Principal is quite capable of superintending the works and having same done as he wants it done, I feel sure that I am well advised in recommending to the Department the advisability of authorizing me to instruct the Principal to proceed with the works on the understanding that the sum of \$800.00 now granted by the Department is not to be exceeded. I can send him the pay-lists already on hand, giving him full instructions how to carry on. As the Principal is anxious to have the work proceeded with before the haying season commences, I would suggest that the Department wire me authority re commencement of the works.

Trusting the Department will find the foregoing in order,

I have the honour to be,

Assistant Deputy & Secretary,

Victoria, B.C. 11th March, 1924.

Sir:-

Referring to your telegram of the 28th September last in which you authorized me to purchase for the Cariboo Industrial School two Pease Economy Heavy Duty Furnaces of required size, I beg to inform you that in order that no mistake might be made I got in touch with Mr. Whittaker, Chief Architect of the Provincial Public Works Department, to give me some information, as I was aware of the fact that he had installed a number of these furnaces in different Provincial schools in the outlying districts of the Province and he strongly recommended that before any purchase was made a report on what was necessary should be had from an expert on heating and said that there was a Mr. Crane, of Lillooet, who was a very competent man for this purpose as he had reported on such matters for the Provincial Government and installed the furnaces in a number of instances. When ordering the furnaces from The Robertson-Godson Company, of Vancouver, who are the Agents, I asked them to send up an expert to find out what size of furnaces would be required for the School in question and mentioned Mr. Crane's name, and to send up the size of furnaces specified by the expert. The Company replied that Mr. Crane had done considerable work for them and would have him send in a report, after the receipt of which they would order the furnaces from the East. The furnaces eventually reached the Coast late in December and were shipped on 4th January, but without the necessary bricks or piping. These were shipped on the 9th February and 10th instant respectively.

I am herewith submitting Voucher No. 97A for \$3,270.46 to which invoices and prepaid freight bills are attached, in favor of the Robertson-Godson Company.

Sir,

Rev. Ed. Maillard, O.M.I., Principal of the Cariboo Indian Industrial School reported to me by letter on Feb. 14th that they had a fire at the school on Jan. 24th at 10:00 P.M. and that the pig pen was burned with fifty (50) pigs, half of the grain crop, hides, wool, etc. He estimated the loss to be around \$4000.00. There was no insurance.

I have the honour to be,

Sir,

Your obedient servant,

(E. MacLeod)
Indian Agent

Assistant Deputy and Secretary,
Department of Indian Affairs,

Sir:

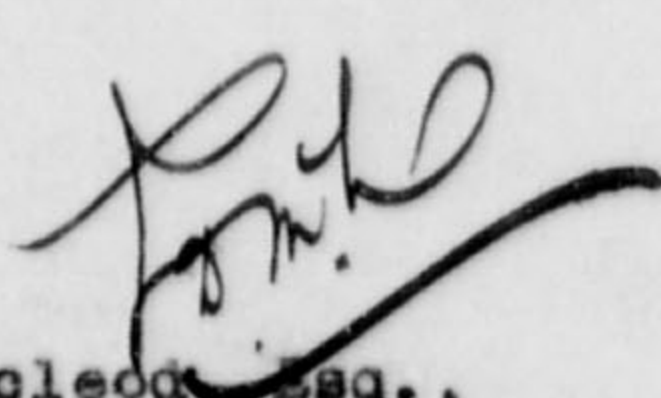

I have your letter of the 7th ultimo, with reference to Mr. R. A. Leonard's contract for work performed at the Cariboo Indian Residential School. I regret that payment cannot be made until the certificates which are enclosed are signed in duplicate by the Rev. Principal. These certificates cover the first payment of \$1000 and the proposed payment of \$1175.

It will also be necessary to have Mr. Leonard give you a power of attorney, as we wish to make out a cheque for \$1175 to you, in trust, for him. This power of attorney should be in your favour, and when you have received it, properly executed, from Mr. Leonard, please forward it with the certificates, in duplicate, properly signed by the Principal, to the Department, when payment will be made. Upon receipt of the cheque, you will please pay the Rev. Principal the amount he has advanced to the contractor and send the balance to Mr. Leonard. A power of attorney form is enclosed.

Ottawa, Nov. 15, 1923.

Sir:

I have your No. 1-8 of the first instant, with reference to the building of a dam in connection with the Cariboo Indian Residential School. I have noted that the Principal will have to let this activity stand over until the Department can authorize the complete work. I am pleased to state that the desirability of providing this improvement will not be overlooked when our Estimates are being prepared for the coming fiscal year.

I have to refer to Mr. Inspector Pragnell's report on the Cariboo Indian Residential School. He has mentioned the fact that there are no fire escapes and recommends that rope ladders and hooks be placed at the windows of the different dormitories. You should bring this matter to the attention of the Principal, without delay, and have him take action on Inspector Pragnell's suggestion immediately. I regret that the Department cannot authorize you to incur any expense in this connection. The Principal should finance the rope fire escapes from the per capita grant.

Your obedient servant,

REPORT ON WILLIAMS LAKE AGENCY.

Sir

x x x x

SCHOOL . 5. WILLIAMS LAKE MISSION. STRUCTURAL.

In company with the Principal, Rev. Father Maillard and the Agent, Mr. MacLeod, I thoroughly inspected this Institution. I find things on a whole most satisfactory, and everything is kept very neat and clean. However, there are not enough lavatories for the boys, being only four, and pails have to be used. This is most unsanitary. There are no fire escapes; this is most dangerous. I should suggest a supply of rope ladders and hooks under the windows, or a canvas chute in each dormitory.

The washing up arrangements in the kitchen to say the least of it, are ridiculous, there being only one sink for the whole of the school. I wonder the sister in charge does not go on strike. I thoroughly recommend this be rectified, if only on humanitarian grounds. During my visit, work was being done in replacing the foundations of the girls' wing on stone and cement foundations.

FARM: The grounds appear to be very well farmed, but there is no dairy barn, and one should be erected, as the milk supply is most necessary for the well being and health of the children.

GENERAL: Altogether, the Principal, Father Maillard is to be congratulated on the general appearance of the school and grounds. I am of the opinion, however, that more attention and system is required in the practical training of the children, apart from actual chores. The school was practically full during my visit, and I mention this to draw attention to the fact that so many of the children in this Agency are not getting any education whatever. This particularly applied to the children in the Chilcote Valley, Anahams, Riske Creek, Redstone and Stones, and something will have to be done in the near future to rectify this.

x x x x

Yours truly,

(Sgd.) G. S. Pragnell.

November 1st, 1923

Sir,—

I beg to acknowledge receipt of Department letter No. 117,123-5 dater Ottawa October 18th. I have visited the school since and owing to the frost nothing can now be done to the dam.

The Rev. Principal advises that we must let the matter stand until we can get enough funds from the Department to finish it in a proper and workmanlike manner. He claims that nothing can be done without hiring outside labour; cement will have to be purchased, some tools and scrapers as well as one or two wheel-scrapers, etc.

I would suggest calling for tenders for this work some time next summer after the crops are planted in this district and before haying commences. I think we could get it done cheaper and better at that time. In any case we can not do anything now as the matter has been delayed too long.

No. 1-2
ALSO
TO DATE OF THIS LETTER

October 22nd, 1923

Sir,

I am advised by the Principal of the Cariboo Indian Industrial School, also by R.A. Leonard of Quesnel, that the contract to repairs the school basement and build chimneys is now completed; in fact, I examined this work in company with the Principal and the contractor ^w the 19th instant. I find that six new single and one double chimney have been constructed on the various school buildings, also a good substantial stone and cement foundation has been built under the girls' quarters, all done in a workmanlike and thorough manner. The contract price for this work was \$2175.00

The principal of the school has advanced the contractor over \$300.00 on the work and he wishes to get a cheque for this sum. I think the proper course would be to send a cheque in my care to the Bank of Montreal, Williams Lake, and when I have instructions from Mr. Leonard to pay the Rev. Principal the amount due him I shall do so, also pay Mr. Leonard the balance. I am satisfied that all this is in order.

The only other bid on this contract was for the sum of \$4359.00

I have the honour to be,

Sir,

Your obedient servant,

(E. MacLeod)

No. 1-3
ALSO
TO DATE OF THIS LETTER

Sir,

I have the honour to acknowledge receipt of your letter No. 117123-5 dated Ottawa, 12th instant, informing me of the authority given Chief Inspector Ditchburn to purchase four hand washing machines and wringers for use in the laundry of the Cariboo Indian Industrial School, Mr. Inspector Cairns having reported the need of this equipment. I am now informing the principal accordingly.

May I be permitted to say, however, that I do not understand why the principal of this school should have to point out the necessity of these machines to Mr. Inspector Cairns? I visit the school quite often and am always willing to investigate the need of any equipment and report on same to the Department. If the principal is to demand certain things from each of the Indian Department officials in connection with the school none of us will know just what has, or has not, been supplied. I would therefore humbly ask the Department that all requisitions for this school be sent originally through this office or at least through one channel.

Trusting that I am in order in making this suggestion,

I have the honour to be,

Sir,

Your obedient servant,

E. MacLeod

POOR COPY

117123-5.

Ottawa, October 18th, 1923.

Sir:

I have to acknowledge receipt of your letter of the 11th instant, with reference to the construction and enlarging of the dam used in connection with the water supply for the Cariboo Indian Residential School, and applying for a grant to assist in the work.

In reply I beg to confirm the following night lettergram of yesterday's date: -

"Reference enlarging dam Cariboo Industrial School, Principal with school labour should carry out this work. Funds provided for this school entirely assigned. Will, however, assist to the amount of \$300, if required, for material. Writing."

It is considered that, as the Principal can have the work done by school labour, the Department should not be called upon to pay for work of this nature. If any material or labour other than that of the school is required, the Department will, as mentioned in our night lettergram, assist to the extent of \$300. In the purchase of any material required, competitive prices should be secured; all purchased to be made from the firm quoting the lowest price.

I shall be pleased to hear from you as to what outside labour would be required, other than can be carried out by the staff and pupils of the school. It will be necessary, where outside labour is employed, to keep time sheets in duplicate. A supply of these forms is enclosed herewith. Properly certified vouchers, in duplicate, should also be forwarded for any material purchased.

We have already authorized a considerable expenditure for this school, and the above amount of \$300 is all that is available and that can be allowed towards the work of enlarging the dam. Vouchers, if in proper order, will be paid to that amount for material and any outside labour employed.

Your obedient servant,

J. D. McLEAN

CARIBOO INDIAN INDUSTRIAL SCHOOL.

DAIRY BARN

The Reverend Principal of Cariboo Indian Industrial School has been requesting for the last two years for the construction of a dairy-barn and silo which he considers of the utmost necessity for the health of the children. Upon their arrival each year the Principal notices that the children are underfed and therefore need milk. The Reverend Principal states that he has the feed for the cattle but no place for the latter; therefore from November to April the children are without milk and he requests me to have an item placed in the estimates for a dairy-barn, ^{for} 30 cows and 30 calves, together with a large ~~saddle~~ ^{silo} with the proper machineries.

Noted in Estimates

ICE HOUSE

A request for an Ice-house has been made previously. The Reverend Principal thinks that one of the type constructed at Kamloops could be installed at his place for the sum of \$1500.00. Could this sum be allowed in the estimates for the purpose.

REPAIRS TO MECHANICAL PLANT.

Details for this work must be on file at the Department. I consider that the sum of about \$10000.00 would be needed for the above three items and I therefore request the Department, if in creer, to inclose this amount in the estimates.

Joseph Guy one. I.

CARIBOO INDIAN INDUSTRIAL SCHOOL.

DAIRY BARN

The Reverend Principal of Cariboo Indian Industrial School has been requesting for the last two years for the construction of a dairy-barn and silo which he considers of the utmost necessity for the health of the children. Upon their arrival each year the Principal notices that the children are underfed and therefore need milk. The Reverend Principal states that he has the feed for the cattle but no place for the latter; therefore from November to April the children are without milk and he requests me to have an item placed in the estimates for a dairy-barn, 30 cows and 30 calves, together with a large ~~saddle~~ silo with the proper machineries.

Noted in Estimates

ICE HOUSE

A request for an Ice-house has been made previously. The Reverend Principal thinks that one of the type constructed at Kamloops could be installed at his place for the sum of \$1500.00. Could this sum be allowed in the estimates for the purpose.

REPAIRS TO MECHANICAL PLANT.

Details for this work must be on file at the Department. I consider that the sum of about \$10000.00 would be needed for the above three items and I therefore request the Department, if in creer, to inclose this amount in the estimates.

With cheque.

December 5th, 1924.

Sir,-

In reply to your letter of the 27th November with inclosures, I beg to say that cheque No. 4264 for \$783.00 in favour of the Reverend E. Maillard is inclosed herewith in payment for labour performed, as per payroll, on the domestic water supply dam at the Cariboo Residential School. In your letter quoted, you stated you were writing Mr. Maillard for a copy of the payroll as the Department requires a duplicate. You should be particular to forward the same without delay.

I return herewith the voucher which you submitted in Mr. Maillard's favour for \$31.00 covering purchase of two scrapers used in connection with the above mentioned work. If the Principal paid for the scrapers the receipted account should be attached to the voucher. If he did not make payment, the voucher now returned should be substituted by a voucher in favour of the person who supplied the scrapers.

Your obedient servant,

(A.F. MacKenzie)
Acting Asst. Deputy and Secretary.

November 27th, 1924

R

Sir,-

Please find enclosed Return of Labour List
for work done on the domestic water supply dam at the
Cariboo Residential School this Agency.

I am also enclosing voucher for the
two scrapers bought by the Principal of the School, to do
work with.

The authority for this expenditure
is contained in your letter of the 18th of June NO. 160-0-5.
I instructed the Principal very carefully along the course to
follow in keeping a duplicate time sheet, however, he sent me
only the enclosed and I am writing him now for the other which
I shall forward to you as soon as I get it from the Principal.

You will note that the accounts are for the
sum of \$14.00 over the sum of \$800.00 which was authorized.

I have the honour to be ,

Sir,

Your obedient servant,

Sir,-

In reply to your letter of the 22nd ultimo, I may say that duplicate copies were made in the Department of the paylists therein referred to in connection with labour performed re dyking in connection with the Cariboo Residential School grounds. In view of this fact it will be unnecessary for you to obtain duplicate paylists, but the Department desires you to make a note of the fact that in future all paylists should be submitted to the Department in duplicate.

Your obedient servant,

J. D. McLEAN

Dear Sir,-

I beg to acknowledge receipt of your letter No. 160-0-5 of the 5th, inst enclosing cheque No 4264 amounting to \$783.00 in payment of labour re-dyke - Cariboo Residential School, this Agency.

I wrote Rev. Ed. Maillard, O.M.I. as I advised you in a former letter and asking him to send me the duplicate copy as per the Departments instructions. I now quote his reply :

"Dear Mr Macleod, I am really sorry that
" I did not send the time sheets for the
" work done at the school dam - Because
" the men who were working at it are gone
" and got their money - So what to do? if
" really the duplicate is necessary I wish
" to have back those sheets I sent you first
Signed . Rev. Ed. Maillard,
Principal.

ACCOUNTANTS
I have forwarded the Principal the cheque now, and would suggest to the Department to return me either the original Paylist Sheet so that the Principal can make out a duplicate, or send me a duplicate copy for him to get signed at the school.

Trusting that you will find this in order.
I have the honour to be,

Sir,

Your obedient servant,

E. Macleod

Ottawa, May 27, 1925.

Dear Father Welch:

I have your letter of the 9th instant, with reference to conditions at the Cariboo Indian Residential School, and I am glad to note that satisfactory progress is being made. I am pleased to inform you that plans for a cow barn at this school are being prepared and a contract will be awarded in due course.

I regret that there are no funds available for a refrigerator plant, which is quite an expensive undertaking, or for a foundation and furnace under the residence.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

IN YOUR REPLY REFER TO

NO. 15/5105.

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
P.O. BOX 666

VICTORIA, B.C., May 16th, 1925.

Your file 160-0-5.

Sir:-

Having reference to your letter of the 30th April dealing with the question of the construction of a barn for the Cariboo Residential School, in the Williams Lake Agency, to which you attached a copy of your letter addressed to Mr. Indian Agent MacLeod, I beg to say that I have just received a communication from the Agent on this subject in which he states that he met the Rev. Father Welch and Rev. Father Maillard, the authorities of the Roman Catholic Church, at the school and they informed him that they wished to have a barn similar to those which the Department built at the Kamloops and Lytton Schools, also a refrigerator plant similar to that at Kamloops. The Rev. Principal stated that the barn should be large enough to stall thirty cows and calves, with feed rooms attached. Both the School Authorities and Mr. Indian Agent MacLeod are of the opinion that the barn should be built under the contract system, tenders to be called for through advertisements in the Ashcroft Journal and Kamloops Sentinel.

With regard to repairs to the mechanical plant, the Agent states the Rev. Principal did not make any mention of this point, and he feels that if any repairs were necessary the Principal would not have failed to say so.

To the above recommendation I concur, but think it would be also well if the barn is to be built by contract that the tenders should also be advertised in the Vancouver papers.

WMD/YED.

Your obedient servant,

W. E. Ditchburn.

59 BLACKWOOD STREET,
NEW WESTMINSTER, B. C.

May 9th, 1925.

Duncan C. Scott, Esq.,
Deputy Superintendent General Of Indian Affairs,
Ottawa, Ont.

Dear Mr. Scott:-

I have just paid a visit to the Cariboo Industrial School, and am pleased to say that the institution in all departments is progressing most favourably.

Mr. McLeod the Agent happened to be there at the same time, and agreed with me that the cow barn and refrigerator should be erected without further delay. In this connection he has no doubt written you.

Last year you were good enough to authorize two new furnaces and a stone foundation for the girls' school. These improvements were much appreciated last winter. Though the weather was severe the children and Sisters for the first time suffered no discomfort.

I would now respectfully ask you to confer on us a similar favor in the building occupied by the Fathers and Brothers. The foundations are crumbling, and the furnace which has done duty for twenty years is nearly worn out and should be replaced immediately by another one at least a size larger.

Mr. R.A. Leonard who gave us entire satisfaction a year ago, has submitted to us an estimate and is prepared to put in a new stone foundation for \$525.00. A certain amount of excavating will have to be made, but this can easily be done by the bigger boys.

The cost of a new and larger furnace will be \$450.00.

I trust you will not consider these further demands unreasonable. Indian Agent McLeod without a doubt will readily endorse them.

May I take this opportunity to say how grateful I feel for the favor you have bestowed on Mr. Grimshaw.

Yours respectfully,

L. Welch, D. M. I.

Immediate
Ans. to
[Signature]
Sir,

While at the Cariboo Residential School recently I was shown a telegram from the Department in reference to the proposed cow-barn and repairs to the mechanical plant of that Institution. Rev. Father Welsh O.M.I. and the Rev. Principal of the School informed me that they require a barn that will stall thirty cows and calves with feed-rooms and hay-loft, and a refrigerator plant similar to that built for the Kamloops Residential School.

no Mr 6000

Mr M
approximately
4000 available
for cow barn. See
my letters under
[Signature]

If it is decided to proceed with these buildings, it is essential that steps be taken without great delay as the seasons are short. Plans and specifications could be forwarded to this office and to Commissioner Ditchburn, Victoria. Contracts could be advertized in "The Sentinel" Kamloops, and "The Ashcroft Journal" Ashcroft; if necessary in one of the Coast papers also. I wish to point out that we have had previous correspondence over this matter and refer you to Department letters No. 160-0-5, May 27, 1923 and No. 117123-5, August 28th, 1923. I do not know of anything further to suggest in this matter.

I have the honour to be,
Sir,

Your obedient servant,

[Signature]
(E. MacLeod)

The Assistant Deputy and Secretary,
Department of Indian Affairs,
Ottawa, Canada.

Reverend Sir:

I have to confirm official telegram to you of today's date, as follows: -

"Reference Father Welch's telegram to Father Guy, submit proposal for erection cow barn to Agent MacLeod, also indicate in detail with estimate of cost what repairs to mechanical plant at Cariboo School are urgent."

In view of the situation of the school, it is considered that the erection of a cow barn on a day labour basis might be advisable. However, I will await your proposal before making a decision in this connection. I am writing today to Mr. Indian Agent MacLeod, informing him that you are submitting a proposal for a cow barn and the details with an estimate of the cost in connection with the mechanical plant repairs.

Your obedient servant,

Sir:

I have to inform you that one of the Roman Catholic Church authorities, who is visiting the Cariboo Indian Residential School, has telegraphed to Ottawa with reference to the erection of a cow barn and repairs to the mechanical plant at that institution. I have replied by telegram, suggesting that the Rev. Principal submit to you a proposal for the erection of a cow barn and also a list in detail showing the mechanical plant repairs that are necessary and an estimate of the cost. I should be pleased if you, upon receipt of this communication from the school, would attach your recommendation and forward it to Mr. Indian Commissioner Ditchburn, who is receiving a copy of this letter.

With reference to the building of a cow barn, you should indicate whether you believe a day labour basis would be the most economical and satisfactory or whether it would be advisable to call for tenders.

TENDERS WANTED.

Sealed tenders addressed to the undersigned and endorsed on the envelope "Tender for the Barn for the Cariboo Indian Residential School, at Williams Lake Agency, B. C.", will be received up to noon of the 29th day of July, for the erection of the above mentioned building.

Plans and specifications may be seen at the office of the Indian Agent at Kamloops; the Post Office at Salmon Arm; the office of the Indian Commissioner at Victoria, and at the office of the Indian Agent at Clinton, B.C., and at the Department of Indian Affairs at Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank of Canada for ten percent of the amount of the tender, payable to the order of the undersigned, (War Bonds of the Dominion or Canadian National Railway Bonds will also be accepted as security, or Bonds and cheque if required to make up an odd amount), which amount will be forfeited if the person or persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for.

The lowest or any tender not necessarily accepted.

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
P.O. BOX 608

VICTORIA, B.C. June 15, 1925.

Your File No. 160-0-5.

Dear Sir:-

Attention Mr. Orr.

With further reference to the matter of the construction of a cow barn at the Cariboo Indian Residential School, Williams Lake Agency, I beg to say that recently I received a letter from Mr. Indian Agent MacLeod stating that Reverend Principal Maillard had informed him that he was satisfied that Brother G. Lajoie, O.M.I., the carpenter, was fully qualified to superintend the erection of the barn. By this I take it that he considers there will be no necessity to appoint a building inspector.

I note in your letter of the 27th ultimo that you say that funds will not be available for the refrigerator at this school. However, in connection with this refrigerating system, the Principal has stated that he believes the "Kelvinator" electric system would suit his school better than the system installed at the Kamloops School, because the "Kelvinator" could be operated from the Delco plant and it would cost less. This system, he claims, can be installed at the School for \$975. whereas the style of electric plant for the refrigerator at the Kamloops School would cost \$1,500. and the power would have to be purchased. This information I am conveying to you in the event of it eventually being determined to install a refrigerating plant for the Williams Lake School, which, to my mind, is as essential at that place as at Kamloops.

I have asked Agent MacLeod to notify the Principal that there are no funds available for the erection of a refrigerator at this School, as noted in your letter of the 27th ultimo.

Your obedient servant,

W.E. Ditchburn,
Indian Commissioner for B.C.

TENDER FORM

DEPARTMENT OF INDIAN AFFAIRS OTTAWA, CANADA

Building Cow Barn

Location William Lake
B.C.

I, (we) Geo Barker and H A Fook
the undersigned hereby offer to the Deputy Superintendent General of Indian Affairs, to furnish all the necessary tools, implements, materials and labour, and to execute and complete in a satisfactory and workmanlike manner, all the works required in completing the aforesaid building, according to drawings, specifications and form of contract exhibited to me (us), and prepared under instructions of the Deputy Superintendent General of Indian Affairs, for the sum named as under:

Tender for the whole of the work as shown on drawings and described in the specifications (Amount of tender to be written) Four thousand Eight hundred and Twenty Six dollars and Eighty five cents
(\$ 4626 85)

I, (we) herewith agree to complete the work within a period of Two months from the date of notification of acceptance of tender, and hold myself (ourselves) ready to enter into a contract for the due execution of the work.

(a) I, (we) herewith enclose an accepted cheque for \$ 462.60 on a chartered bank, payable to the order of the Deputy Superintendent General of Indian Affairs, equal to ten (10) per cent of the amount of the tender, as per terms of the advertisement, and specifications for this work.

(b) Attached hereto is a letter from the Manager of the Bank of Commerce certifying that War Bonds to the value of Five hundred, have been deposited in the Commerce Bank of Commerce subject to the order of the Deputy Superintendent General, Department of Indian Affairs at Ottawa, Ont.

War Loan Bonds of the Dominion will be accepted as security, or War Bonds and cheque, if required to make up an odd amount.

Envelopes containing this tender are to be endorsed "TENDER FOR Cow Barn
William Lake" and addressed to the Deputy Superintendent General of Indian Affairs at Ottawa, Ont.

"TENDER MUST BE IN HANDS OF DEPUTY SUPERINTENDENT GENERAL BY 12 O'CLOCK NOON OF DATE FIXED FOR THEIR RECEPTION. CARE SHOULD THEREFORE BE TAKEN TO MAIL SAME IN PROPER TIME."

The signatures of persons tendering must be in their respective handwritings.

In the case of firms, the signature, post office address and occupation of each member of the firm must be given.

SIGNATURES, OCCUPATIONS AND POST OFFICE ADDRESS OF PERSONS TENDERING:

G. J. Barker Carpenter
H A Fook,

Dated at Kamloops this 23 day of July 1923

NOTE.—The security cheque or War Bonds will be forfeited if the person or persons tendering refuse to enter into a contract when called upon to do so or fail to complete the work contracted for. The Department does not bind itself to accept the lowest or any tender. No conditional tender which is not in accordance with the above will be considered.

NOTE.—Amount of deposit security should be indicated in space provided above.

Re

Ottawa, 5th August, 1925.

MEMORANDUM.

Acting Deputy.

Plans and specifications were prepared and tenders were invited by advertisements in the Salmon Arm "Observer" and Kamloops "Sentinel" for a barn required for the Cariboo Indian Residential School, Williams Lake Agency, B.C.

The tenders closed at noon July 29th and in response one tender has been received from the Kamloops Construction Company for \$4,626.85

As this tender is a fair and reasonable price for the work I beg to recommend that it be accepted.

TENDERS WANTED

Sealed tenders addressed to the undersigned and marked on the envelope "Tender for the Barn for the Cariboo Indian Residential School, at Williams Lake Agency, B.C.," will be received up to noon of the 29th day of July, for the erection of the above mentioned building.

Plans and specifications may be seen at the office of the Indian Agent at Kamloops; the Post Office at Salmon Arm; and the office of the Indian Commissioner at Victoria; the office of the Indian Agent at Clinton, B.C., and at the Department of Indian Affairs, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank of Canada, for 10 per cent. of the amount of the tender, payable to the order of the undersigned (War Bonds of the Dominion or Canadian National Railway Bonds will also be accepted as security or Bonds and cheque if required to make up an odd amount), which amount will be forfeited if the person or persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for.

The lowest or any tender not necessarily accepted.

TENDERS WANTED

Sealed tenders addressed to the undersigned and endorsed on the envelope "Tender for the Barn for the Cariboo Indian Residential School, at Williams Lake Agency, B.C.," will be received up to noon of the 29th day of July, for the erection of the above mentioned building.

Plans and specifications may be seen at the office of the Indian Agent at Kamloops; the Post Office at Salmon Arm; and the office of the Indian Commissioner at Victoria; the office of the Indian Agent at Clinton, B.C., and at the Department of Indian Affairs, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank of Canada, for 10 per cent. of the amount of the tender, payable to the order of the undersigned (War Bonds of the Dominion or Canadian National Railway Bonds will also be accepted as security or Bonds and cheque if required to make up an odd amount), which amount will be forfeited if the person or persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for.

The lowest or any tender not necessarily accepted.

Sir,-

As advised by telegram of today the Department is accepting the tender of the Kamloops Construction Co. of \$4,626.85 for the building of a cow barn required for the Cariboo Indian Residential School.

It is desired that you see that this building is built in accordance with the plans and specifications and also that you issue progress certificates to the contractor for payment on his contract. You will be able to arrange with the Rev. Principal of the School to assist you in this matter.

I am sending you today under separate cover a blue print copy of the plans and specifications, also certificate forms which should be filled out and forwarded to the Department in duplicate.

Your obedient servant,

A. F. MacKensie.

INDIAN AGENT'S OFFICE

Williams Lake Agency

Clinton, B.C.

IN YOUR REPLY REFER TO
No. 1-2
ALSO
TO DATE OF THIS LETTER

September 22nd, 1925.

R

Sir,—

I beg to acknowledge receipt of telegram from
from the Department which reads as follows:

"Letter re instructions barn Cariboo sent
"Agent Helmsing in error am wiring him to
"forward this letter to you no extra work
"will be authorized in connection with this
"building until full details as to cost are
"submitted to the Department by you in writ-
"ing."

This was in answer to my night lettergram
which read:

"Contractors at Cariboo Residential School
"to build barn. I have no instructions.
"Supervisor not appointed. After consult-
"ation with School Principal I advise that a
"four inch fall each way from the center of
"the gutter be placed in the specifications.
"There should be three more feed-hatches from
"hayloft. Plans call for thirty stalls; spec-
"ifications call for twenty four stalls. Spec-
"ifications should be changed to read thirty.
"Manure carrier should be installed by contract-
"or. I do not know who signed the contract."

I have not yet received the letter which was
sent in error to the Indian Agent of the Kamloops
Agency. I am not in a position to give an estimate
on the changes which are mentioned in my night letter-
gram but they should not be excessive. Since the
Department has had many barns built at other points
in which the outlined material mentioned must have
been included in the estimates there should be no
difficulty in arriving at a more accurate estimate
of the cost than I could possibly give.

May I suggest that I be empowered to employ
a building inspector or supervisor as I think this
should be done at once. I should be telegraphed to
in order to save time. The difference between the
specifications and the plans in the matter of stalls
can easily be corrected with your authority as it is
obviously an error.

I have the honour to be,
Sir,

Your obedient servant,

The Assistant Deputy and Secretary,
Department of Indian Affairs,
Ottawa, Canada.

October 23, 1925.

Memorandum:

OK
Dr. Scott.

The Rev. Principal of the Cariboo Indian Residential School visited the Department the other day and urged the provision of a new furnace for one of the main buildings. This improvement was requested some time ago and was refused because of lack of funds. This year there was a specific item for mechanical plant at this school and I telegraphed Mr. Indian Agent MacLeod. He recommends that a furnace be purchased and I shall be pleased to have your authority to telegraph Mr. Commissioner Ditchburn, who purchased this type of equipment for another wing at this school some months ago. The cost will be \$670.

Ottawa, Oct. 1, 1925.

Sir,-

Replying to your letter of the 22nd ultimo I beg to say that I have been advised by Indian Agent Helmsing that he has forwarded to you all correspondence also plans and specifications regarding the new barn for the Cariboo Residential School. In case you have not received these, I am enclosing herewith a copy of the letter which was sent addressed to Mr. Helmsing by mistake.

Regarding the cow stanchions the contractor was advised on the 29th ultimo to install 30 cow stanchions. I note your remarks that you are not in a position to give an estimate of the cost of the changes asked for by the Rev. Principal. You should, therefore, obtain a price from the contractors for these changes and submit same to the Department with a full explanation of the extra work asked for. It is not considered necessary for you to employ an inspector to supervise the erection of this building. In a plain and simple building like a barn it is not thought that the expenditure would be warranted, and I would ask you, with the assistance of the Reverend Principal, to see that the building is built in accordance with the plans and specifications and to issue progress certificates to the contractor for payment on his contract.

It is regretted that the original letter of instructions was sent to Mr. Helmsing by mistake instead of to yourself.

Your obedient servant,

A. F. MacKenzie.

Clinton, B.C.

Dear Sir,

We are enclosing a list of extras that our Mr. Foote has taken up with you at Clinton. Litter carrier complete in place \$194.00. Change trap-doors, and one extra, no charge. Two extra sumps and tow outlets, \$20.00. Six extra cow stanchions \$48.00. We have instructions from the Department at Ottawa to install these. We are enclosing supplementary slip on insurance making payable to the Government as their interest may appear. Please attach to Policy which you hold, these prices are quoted for acceptance, during construction, as we should lose money by sending men back to do same. We expect to be able to turn the building over by Nov. 15th.

Yours truly,

Sir,—

I beg to enclose signed certificate No.2 for final payment on cow-barn constructed by the Kamloops Construction Co for the Cariboo Residential School, this Agency, amounting to the sum of \$2327.65.

I have examined this building and find it has been constructed satisfactorily and is now actually put to good use. I am requested to thank the Department on behalf of the school authorities and I would also humbly add my own approval in this matter.

I have the honour to be,
Sir,

Your obedient servant,

Your file 160-0-56

Dear Sir:-

I have the honor herewith to submit Voucher No. 108-A for \$692.02 in favor of the Robertson-Godson Company, Limited, of Vancouver, B. C., being the purchase price of one #70 Pease Heavy Duty Economy Furnace, for the staff residence of the Williams Lake Indian School, together with the cartage and prepaid freight on same.

With regard to your request that I should ask for competitive prices on furnaces, I beg to inform you that the McClary Manufacturing Company, of Vancouver, and the Robertson-Godson Company were asked to tender. Quotations received are as hereunder:-

McClary Mfg. Co.

Magnet Furnace No. 419, weight 1620 lbs.....\$198.00

Robertson-Godson Co.

Pease Heavy Duty Economy Furnace No. 70,
weight 4200 lbs..... 613.00

Both prices f.o.b. Vancouver.

In order that I might have some information with regard to the respective merits of these two furnaces, I consulted with Mr. Whitaker, Architect of the Provincial Public Works Department, and he informed me that unquestionably the Pease Economy was the only furnace this Department should

purchase.

The Secretary,
Department of Indian Affairs,

purchase. He has had large experience in installing furnaces in public buildings throughout the Province and has had every satisfaction with the Pease Economy Furnace, whereas other furnaces have not given the satisfaction desired. I, therefore, considered that it would be in the public interest to purchase the heavier and higher priced furnace.

WED/KD.

REQUISITION FOR SCHOOL MATERIAL

Date Dec 22 1925

For Caribou Residential School on

Reserve in Williams Lake Agency

NOTE—Only text books authorized for use in Provincial Schools should be requested. To avoid delay and correspondence in filing Requisitions, the teacher should give full particulars regarding each article required. The name, series, number of grade and name of author and publisher of all books required should be given as fully as possible.

ARTICLES	No. On hand	No. Required	No. Authorized	REMARKS
1 Sewing Machine for overalls & other heavy sewing. The present one is old though working. However two are necessary for the increased work. (40 to 50 pupils now 75)	1	1	1	
2 Singer Sewing machines to replace 2 "Whites" sewing machines. These "Whites" are continually out of order. They are about three years old & it is suggested that they be sold second hand, to help pay for the new ones, or exchanged in part payment for the Singers. A skilled operator might run them but the children or sisters here simply cannot.	2	2	✓	

Address to which above supplies are to be sent:

Name H. J. Barney Principal
 School Caribou Residential

POOR COPY

Ottawa, January 29th, 1926.

Sir:

Relative to the request from the Acting Principal of the Cariboo Indian Residential School for 30 single school desks and a number of front and rear seats, I have to request that you will state the number of desks at present in the school and the condition of same. You should also state whether they are double or single desks, and the number of each. We note that the Principal requests that the "Preston" ball bearing automatic single desks be now supplied, and you should state whether this is the type of desk at present in the school. It is noted that middle size desks are required, with 5 front and 5 rear seats, large size.

I may say, for your information, that desks are manufactured in the following sizes: -

- Preston desks*
- No. 1 for Adults,
 - No. 2 for Pupils 15-18 Yrs.,
 - No. 3 for Pupils 12-14 Yrs.,
 - No. 4 for Pupils 10-12 Yrs.,
 - No. 5 for Pupils 7-9 Yrs.,
 - No. 6 for Pupils 5-7 Yrs.

You should consult the Principal as to the number of new desks required of the above sizes, and also the number of front and rear seats, and inform the Department accordingly. Full shipping directions should also be given. Your recommendation should accompany the requisition for the desks required.

Your obedient servant,

J. D. McLEAN

Ottawa, January 22nd, 1926.

Sir:

I have your letter of the 13th instant, enclosing a requisition from the Acting Principal of the Cariboo Indian Residential School to be supplied with 2 Singer sewing machines and 1 tailor's machine, together with a copy of a communication which you received from the Singer Sewing Machine Company, Vancouver, stating the allowance which they will make for the 4 old "White" machines at present in the school.

In reply I beg to say that we are placing an order with the Singer Sewing Machine Company, here, to supply from their nearest branch office the following machines, as described in their catalogue, viz: -

- 2 - No. 2 - 5 Drawer Machines, 127 - 3 G.O.,
- 1 - Tailor's Machine, No. 31-15, on Table No. 5231.

This firm have been requested to notify you from their nearest branch office concerning who will furnish the machines and when they will be available. You should then give them directions for delivery.

The account, in duplicate, for the machines will be sent you, and should show the retail price and discount of 40% allowed "on which terms purchase is made". When the machines are received, if in good condition, you should certify the account and send it to the Department for payment.

Regarding the old "White" machines at present on hand, it is considered, as they are the property of the school, that they might be given to graduate girls who could use them to advantage in their own homes.

Your obedient servant,

J. D. McLEAN

Gentlemen:

I have to request that you will arrange to supply for the use of the Cariboo Indian Residential School, 150 Mile House, B.C., the following number of Singer sewing machines, described in your catalogue, viz: -

- 2 - No. 2 - 5 Drawer Machines, 127 - 3 G.O.,
- 1 - Tailor's Machine, No. 31-15, on Table No. 5231.

Please notify Mr. E. MacLeod, Indian Agent, Clinton, B.C., from your nearest branch office concerning who will furnish these machines and when they will be available. Mr. MacLeod will then give your local representative directions for delivery.

The account for the machines should be made out in duplicate and should show the retail price and discount of 40% allowed "on which terms purchase is made". Please forward your account to Mr. MacLeod, who, upon receipt of the machines, will certify the account and submit it to the Department for payment.

Sir,—

I beg to enclose herewith requisitions sent in by the Rev. Barney, Acting Principal of the Cariboo Residential School, this Agency.

In reference to the requisition for new Singer Sewing Machines, I would say that I wrote to the Singer Sewing Machine Company, Vancouver, about turning in the old "Whites", and herewith please find a copy of their reply. I personally examined the old "Whites" and do not deem them very suitable. I would therefore recommend that this requisition be given the Department's kind consideration.

I have the honour to be,
Sir,

SINGER SEWING MACHINE COMPANY
869 Granville Street
Vancouver, B.C.

December 18th, 1925

Mr. E. MacLeod,
Indian Agent,
Clinton, B.C.

Dear Sir,

Yours of the 16th instant to hand and note what you say re White machines.

As you are aware we sell to the institution at the actual net price that we have to turn over to our company, consequently we can not make the old machine allowance as we do in the regular family trade. I think we can get around that, Mr. MacLeod, in this way: we will quote you the regular school price as in the past. When you receive the machine you can place the White machines in the same crates, ship them in here and we will fix them up in as good shape as we can and sell them, refund you the proceeds, less actual cost of fitting them up. I think I would be safe in saying we could get you from \$30.00 to \$35.00 for the four. It may seem small but not knowing what they may be like we have to go on the safe side. I personally have to become good for the net amount of the Singers you get.

I might say there is a slight change in the price since you last got a new machine from use. It came into effect October of ~~this~~ year. The machine which the Department always buys, known as 127-3-2 oak, 5 dr, was \$38.40 net. The last price is \$42.84 net.

I don't know that we have had any orders from the Department since the new price went into effect.

We should not allow any more than \$25.00 for the four old machines but if it will assist in getting the order through we would undertake to make it between \$30.00 and \$35.00.

Trusting you will be able to favor us with your order, we remain,

Yours truly,
SINGER SEWING MACHINE CO.

Sir,—

In reply to Department letter No. 160-0-5, dated the 29th ultimo, I beg to say that Rev. H.J. Barney, Acting Principal of the Cariboo Residential School, 150 Mile House P.O., this Agency, has written to me about the desks as follows:

" The Cariboo Residential School has at present
" 23 double desks. There are old, and many of
" them out of repair. Also, it is difficult to do
" good work with so many pupils in double desks.
" In the same school there are also 49 single
" desks; these are 'Preston' ball-bearing auto-
" matic single desks, in good repair.
" The desks required are as follows:
" Nine (9) single desks, to include one front and
" one rear; all No. 5
" 2 Twenty one (21) single desks, to include three
" fronts and three back seats; all these to be
" No. 4.
" Sixteen (16) single desks; to include five fronts
and five rear seats. All these to be No. 2 "

Freight for this school should be sent to
"Onward Siding" Pacific Great Eastern Railway.

POOR COPY

Ottawa, March 25th, 1926.

Sir:

Replying to your letter of the 23rd ultimo relative to the desks required for the use of the Cariboo Indian Residential School, I have to inform you that an order is today being placed with J. D. Meekison, Esq., 349 Railway St., Vancouver, B.C., to ship to Rev. H. J. Barney, Acting Principal, Onward Siding, Pacific Great Eastern Railway, B.C., the number of each size of the various desks as mentioned in the enclosed order. You will see that the price quoted is \$464.00 F.O.B. Onward Siding, Government sales tax included.

The above firm have been requested to forward their account, in triplicate, to you, and, when the desks arrive, if in good condition, you should certify the account and send it to the Department in order that payment can be made.

Please inform the Acting Principal that the order has been placed for the desks, and he should arrange to accept delivery and have them taken to the school and set up in the classroom. It is hoped that, when these desks arrive, they will be satisfactory.

Your obedient servant,

J. D. McLEAN

J. D. McLean,
Asst. Deputy and Secretary.

Ottawa, March 25, 1926.

Sir:

I beg to inform you that the quotation of Messrs. J. Oliver & Sons, Ltd., Ottawa, for the desks required for delivery at Onward Siding, B.C., has been accepted. As you are the British Columbia representative of this firm, they have requested that the order be placed direct with you. I have, therefore, to request that you will arrange to forward as soon as possible, as per instructions contained in enclosed order, the number of each size of desk as mentioned therein.

It is hoped that you will be able to make early shipment of these desks, and you should forward your account, in triplicate, covering the cost of the desks, to E. MacLeod, Esq., Indian Agent, Clinton, B.C., who is being informed that the order has been placed with you, and requested, upon receipt of the desks, if in good condition, to certify the account and send it to the Department when payment will be made.

I shall be pleased to have an acknowledgment of this order and the date when shipment will go forward.

Sir:

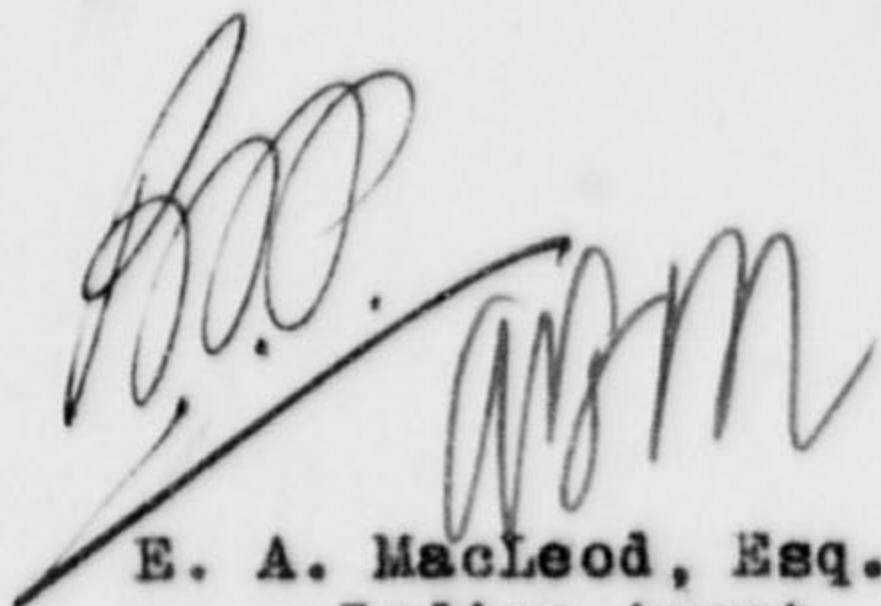

I have your 1-8 of the 26th ultimo, with general reference to improvements at the Cariboo Indian Residential School. I am today placing an order with the Robertson-Godson Company, Limited, of Vancouver, for the furnace required for the boys' building. It will be shipped, freight prepaid, to 150 Mile House; but the account, in duplicate, with freight receipt attached, will be forwarded to you for your certificate.

I note you will report, later, regarding the other needs of this school.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Gentlemen:

I wish to order for the use of the Cariboo Indian Residential School one No. 70 Pease Heavy Duty Economy Furnace for wood. You should prepay freight to 150 Mile House. The shipment should be addressed to the Principal, Cariboo Indian Residential School. Please forward your account in duplicate, with freight receipt attached, to Mr. E. A. MacLeod, Indian Agent, Clinton, B. C. He will certify to it in due course and send it to the Department for payment. You will remember that in December, 1925, you supplied to this institution a similar furnace and the Department wishes to duplicate the order at this time. Please allow whatever discount is given in the case of a government department.

Yours truly,

F. H. Paget,
Accountant & Purchasing Agent.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF
INDIAN AGENT

1-8

Williams Lake Agency,
Clinton, B.C.,
May 26th, 1927.

Sir,

re Improvements and Repairs to the
Cariboo Indian Residential School.

I have the honour to acknowledge the receipt of your letter of the 19th instant, File No. 160-0-5, in the matter of the above and to say in reference to the Pease Economy No. 70 H.D. furnace for the boys' building as supplied to the staff residence lately; I think this quite suitable and that it should be ordered without delay as it really should be installed during the course of the foundation construction.

I will visit the school as soon as possible and find if I can arrange to have the construction of the foundation done by day labour.

Having already examined the kitchen range in use at the school at the present time, I know that it is far too small and will advise you as soon as ever possible of the size and kind desirable. I shall also advise you regarding the other improvements you inquire about, as early as possible.

I have the honour to be,
Sir,
Your obedient servant,

(E. MacLeod)
Indian Agent

The Assistant Deputy and Secretary,
Department of Indian Affairs,
Ottawa, Ontario.

Ottawa, May 19, 1927.

Sir:

I have to inform you that certain funds are available for improvements at the Cariboo Indian Residential School. The Department wishes to repair the foundation of the boys' building and to install a suitable furnace. Please let me know, without delay, if you consider a Pease Economy No. 70 Heavy Duty Furnace, as lately supplied for the staff residence, there, would be suitable. You should also state if you can arrange to have the foundation and walls of this building repaired, by day labour.

The Rev. Principal has lately urged the immediate provision of a larger kitchen range. You might look into this question, also, and advise me just what size is required. It is also represented that 160,000 shingles, 8 kegs galvanized shingle nails and 16,000 square feet of building paper are required for the proper protection of the different buildings at the school. Please inform me concerning the urgency of this improvement and give an estimate of the cost. If the Department supplied the materials, would the school management be responsible for the labour in this last connection?

Your obedient servant,

A. F. MacKenzie
A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Reverend Sir:

I am directed to acknowledge your letter of the 7th instant, with reference to the need of a suitable kitchen range at the Cariboo Indian Residential School. I am pleased to inform you that certain funds have been allowed for improvements at your institution and I am today writing Mr. Indian Agent MacLeod, asking him for his recommendation as to how these should be expended. The Department intends to repair the foundation of the boys' building and to supply a furnace. Mr. MacLeod will report concerning the urgency of the shingles and building paper, which you have requested. I am writing him particularly for his recommendation as to how the work should be undertaken. You will, no doubt, receive word from him in the near future concerning these matters. He will enquire into just what kind of a kitchen range is needed.

Your obedient servant,

A. F. MacKenzie
A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

May 7th 1927

Duncan Scott Esq.,
Superintendent of Indian Affairs
Ottawa.

Dear Sir

A week ago I wrote to Colonel Pragnel, our Inspector in connection with a magnificent bull which is for sale. I suggested the Department to buy it for us for our milk herd.

The prize is rather high.

There are other things more needed than a bull. The number of our pupils has been increased and it is a very difficult task for our good sister to prepare the food on the same range. A larger one is required which would cost over \$600. As domestic science plays an important part in the education of the Indian girls. I am appealing to you

Dear Father Rohr:

I have your letter of the 25th ultimo, with reference to general conditions at the Cariboo Indian Residential School. I am very grateful for the photos of Indians of the Lillooet district.

I was very grieved to learn of the epidemic of flu and the death of two pupils. I have directed that an item be placed in our Estimates for the coming year, so that something can be done to arrange for better heating facilities. A note will be taken in connection with the infirmary requirements. The Appropriations for Indian Education are so limited each fiscal year, that I regret I cannot be hopeful concerning an automobile for this school. I trust that you will have a very useful career at Cariboo.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

January 25th 1927

Duncan Scott Esq.
Deputy Superintendent General
Victoria B.C.

Dear Sir

I appreciate sincerely
your favor in allowing me to increase
the number of our pupils from eighty
to ninety - In the name of the Indians
of this agency I extend to you my
thanks -

Under the same cover I am
sending you a little collection of photos
of some Indians of my former district
in Lillooet. I hope you will like them -

This new year has been very
trying for our school. More than once I
felt discouraged - We had an epidemic of
flu - one boy died on January 2nd

P. O. 150 MILE HOUSE, B. C.

Another one of meningitis on January 11th - Besides the weather became terribly cold and stormy - It was impossible to heat up the school buildings -

Something must be done - as it would be criminal to let both staff and children suffer as they did this year -

There is no infirmary here - neither for boys nor for girls - The hospital is 12 miles from here - To remove them there we have to hire each time a closed car -

I promised the staff, especially the good sisters, that I would appeal to you - I am sure you will help us - and have some appropriation voted for the Cariboo Industrial School before the session closes -

On another sheet I will give you a list of what is urgently needed &

Yours very devotedly

INDIAN AGENT'S OFFICE

Williams Lake Agency

Clinton, B.C.

June 4th, 1927. 19

IN YOUR REPLY REFER TO
No. 1-8
ALSO
TO DATE OF THIS LETTER

Sir,—

R 

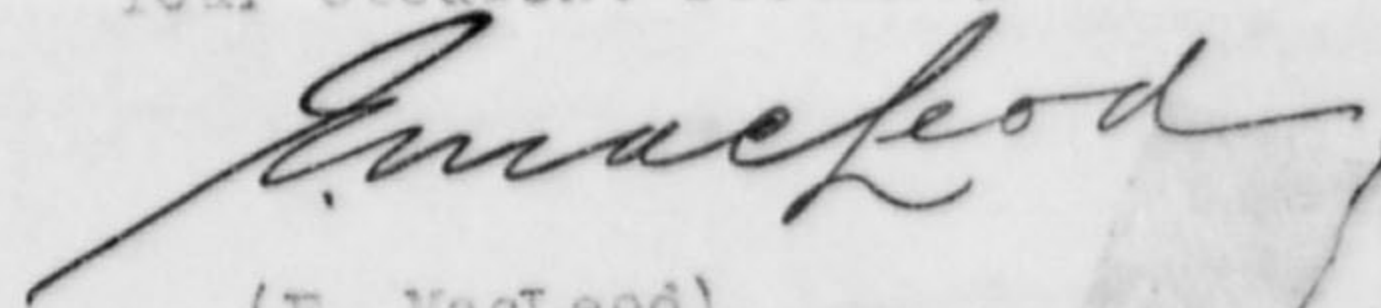

I have the honour to report further in reply to your letter of May 19th, No. 160-0-5 that I examined the basement of the boys' building at the school on May 31st. I find that it is necessary to do considerable excavation work in order to do the work properly. It is 38 by 64 in size and is now about half excavated. When finished it should be 8 feet high.

With Rev. V. Rohr, Principal of the School, I visited Williams Lake in order to interview contractors and others re doing the work. The only man there who could do the work wanted \$9.00 per day for himself; \$4.50 for his helper and said he would require two or three others to help him while excavating at \$3.00 per day each. I thought this too high. Rev. Father Anthony who has had experience at this sort of work has offered to perform the labour at \$6.00 per day and would need from one to three labourers at \$3.00 per day each. The Department would buy the material necessary, lumber, (about \$100.00 worth), cement, etc. The basement that Rev. Father Anthony would put in would have a concrete floor. The complete basement is necessary for a recreation room for the boys during the winter cold spells and also for the furnace and wood.

After examining the buildings I am of the opinion that they should be shingled and papered in order to make them warmer. This should be done before the winter sets in again. The present is about the best time of the year to do the work, before the haying season commences. If the Department approves of the repairs and improvements I would suggest that the authority to proceed be wired to me.

I have the honour to be,
Sir,

Your obedient servant,

(E. MacLeod)

Rev. Father Anthony

Sir,

I have the honour to enclose herewith, in duplicate, Return of Labour on the Boys' Basement of the Cariboo Indian Residential School, 150 Miles House P.C., this Agency, for the month of July, amounting to \$349.50. Revenue stamps to the value of \$1.00 were purchased, leaving a bank balance of \$49.50. The cancelled cheques will be sent to the Department in due course.

Rev. Father Anthony, foreman of this work, has just sent in his Time Sheets for the month of August. These total \$382.50. There is also an account for three picks and three handles which amounts to \$0.10. It will therefore be necessary to send me an accountable cheque for \$351.10 to cover this balance.

I have the honour to be,
Sir,

Your obedient servant,

E. MacLeod

(E. MacLeod)

Aug. 29th 1927

E. MacLeod, Esq.,
Indian Agent
Clinton B.C.

Dear Sir,

During your last inspection of our school, you drew my attention to the worn out condition of the different floors of our school and the urgent need of fire escapes.

Rev. Fr. Anthony and myself took the measurements of the different rooms in all the school buildings where new floors are needed and we estimated it would take 18000 feet of flooring.

With regard to the fire escapes, there should be at least one for each building - rather two for the convent.

I would suggest wooden stairs, built outside of each building and connected with the dormitories. It could be done easily if we had the material. This must be done, otherwise I will not be responsible for the lives of the little children.

As you know the conditions of the Cariboo, I appeal to you, dear Sir, to explain the matter to the Department. We have no complaints to make. The officials of the Department have always been kind to us and I never refused us any assistance when in need.

Winter is the most appropriate season to do repair work here - inside. Also it would give some useful occupation to the older boys under the direction of Brother Lajrie. If possible, or if funds are still available for the Cariboo Indian School, I would earnestly beg you, dear Sir, to ask the Department not to hesitate to let us have at once 18000 feet of flooring and 8000 feet of stepping - 10 pieces 8x8x50

IN YOUR REPLY REFER TO
No. 1-8
ALSO
TO DATE OF THIS LETTER

August 31st 1927 19

Sir,

I beg to enclose herewith original letter received from the Principal of the Cariboo Indian Residential School which speaks for itself.

As you know, the Department has not advised me what funds are available for this School. If funds are available or were appropriated sufficiently large to permit the proper repairs being made, undoubtedly the floors should be renewed as they are in a very bad condition. There are several holes and patches on them and it is difficult to keep them clean. To place linoleum on these floors in their present condition would be a waste.

Fire escapes should have been provided years ago and should a fire occur in one of these buildings loss of life would be certain.

Not having actual cost figures of flooring lumber before me I am not certain as to the cost but I feel I am safe in saying it would come to approximately \$50.00 per M. delivered to the nearest station, owing to the high freight rates on the P.C.E.R. Ry from the Coast where the lumber would be purchased.

It is evident that the management is willing to do the work if supplied with the materials.

An early reply will oblige me, while

I have the honour to be,
Sir,

Your obedient servant,

E. MacLeod

I have the honour to advise that the Rev. Principal of the Cariboo Indian Residential School, 153 Mile House P.O., has been talking to me about hot-water boilers to be attached to the furnace ordered by the Department from Messrs. Robertson-Godson Co. some time ago; also thirty feet additional piping is required.

I am enclosing a copy of my letter to the Robertson-Godson Co. in this connection for your information and trust you will approve of my action in the matter.

I have the honour to be,
Sir,

Your obedient servant,

Dear Sirs,

In reference to your letter of August 26th, I have again been in communication with the Principal of the Cariboo Indian Residential School in regards to the furnace which you shipped recently and he states, "we did not yet receive the two boilers for the boys' school furnace and we also need about thirty feet of piping for the furnace."

I cannot understand what he means by two boilers for the furnace unless, since this order was given by the Department direct to you and since I have no copy of the Department's instructions in the matter and I do not know what was ordered or should have been ordered, he expected to get two hot-water boilers to be attached to the furnace for the boys' bathroom, etc.

If you have the necessary piping for the furnace and these hot-water boilers, please ship at your earliest convenience to Onward Siding, via P.G.E. Railway so as to get this installed before the frost comes.

Yours very truly,

(E. MacLeod)

Accountant
Several accounts under
C.D.

Ottawa, September 8, 1927.

Sir:

I have your 1-8 of the 31st ultimo, with reference to renewing certain floors and providing fire escapes at the Cariboo Indian Residential School.

You may purchase the lumber necessary for two fire escapes for the girls' school and one for the boys' school. You should correspond with the Rev. Principal as to exactly what is needed. In his letter, which you enclosed, he mentions 600 ft. of stepping and ten pieces 8" x 8" x 30 ft., and it is possible that this has reference to the fire escapes. You may purchase, also, 6000 ft. of edge grain fir flooring and arrange for shipment to the school. Competitive prices should be secured on this lumber, if possible. I regret that I cannot authorize the entire quantity of flooring requested, as the funds for repairs and replacements at this institution this year are now exhausted. Another year, it may be possible to complete the reflooring.

Your obedient servant,

A. F. MacKenzie

Ottawa, September 27, 1927.

Sir:

I have your 1-8 of the 19th instant, enclosing a copy of your letter to the Robertson-Godson Company concerning extra equipment to be attached to the new furnace at the Cariboo Indian Residential School. I should be grateful if you would let me know what representations have been made to you by the Rev. Principal in this connection. No authority for the hot water boilers has been given by the Department. If they were absolutely necessary, however, favourable consideration to payment of the account will be given.

Dear Sir,-

I am in receipt of your letter of the 10th instant with which you forwarded time sheets totalling \$709.50 in connection with work performed at the Cariboo School, and stating that you require an accountable cheque for \$691.40 to cover the balance due, and in reply I return herewith official cheque No. 2811 for \$382.50, and I transmit also official cheque No. 3228 for \$308.90. The total of these cheques is \$691.40, and, therefore, you will have sufficient funds to cover the balance due.

Yours truly,

F.H. Paget
Chief Accountant.

OFFICE OF
INDIAN AGENT

Williams Lake Agency,
Clinton, B.C.,
October 10th, 1927.

Sir,

G.M.M.
I beg to acknowledge the receipt of Department letter covering Cheque No. 2811 for \$382.50 for "payment of labour for August, Cariboo School". This would appear to have been sent by the Department in error, so I am now returning it herewith.

The July pay-list and stamps, amounting to \$350.50, was covered by Department cheque No. 2021 for the sum of \$400.00; the August pay-list, which amounted to \$382.50, by Department cheque No. 2425 for the sum of \$351.10. This leaves a credit balance of \$18.10.

Return cheque 2811 and send further advance of \$308.90
I enclose herewith Time Sheets in ^{triplicate} duplicate for the month of September. These total \$709.50. It will therefore be necessary for me to have an accountable cheque for the sum of \$691.40 to cover this balance.

Trusting I have made this matter clear,

I have the honour to be,
Sir,

Your obedient servant,

E. MacLeod

OFFICE OF
INDIAN AGENT

Williams Lake Agency,
Clinton, B.C.,
November 3rd, 1927.

Sir,

I have the honour to report that I visited the Cariboo Indian Residential School on the 29th ultimo particularly to examine the progress of the repairs to the buildings.

I found that the four walls of the basement to the boys' quarters were completed and also an outside entrance of concrete and about a forty foot closed-in approach from one end, consisting of concrete walk from six to eight feet high was almost complete.

The location where the new furnace is located on the floor is built about eighteen inches lower than the level of the floor and has a large concrete airshaft from the base of the furnace to the ground foundation of the nearest new concrete wall, thence to the surface of the ground along the outside wall. This is for the purpose of supplying cold fresh air from the outside to the bottom of the hot air furnace and thence throughout the building.

It was necessary to build two new chimneys, one for the new furnace and one for the new kitchen range. These two chimneys required a lot of cement as did also the side and end entrances to the buildings and as a consequence the cement ordered is not sufficient to complete the flooring in the basement. I am requested by the Rev. Principal to supply another fifty sacks of cement in order to complete the flooring. This cement will cost more per sack than the last we got owing to the local freight rate charge instead of the carload rate we got on the first lot. May I please be advised of the Department's pleasure in this matter?

The Assistant Deputy and Secretary,
Department of Indian Affairs,
Ottawa, Canada.

I have the honour to be,
Sir,
Your obedient servant,

Emacfeod

Ottawa, October 22, 1927.

Sir:

I have your letter of the 12th instant, with reference to the boilers or tanks, which you state are necessary to heat the water for the boys' bathroom at the Cariboo Indian Residential School. In this connection I beg to say that, if this equipment has not already been procured, you should consult the Principal and arrange for the purchase of two boilers of approximately 30 gallons capacity each and have them attached to the furnace. Please forward a properly certified voucher in the usual manner covering the cost.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

OFFICE OF
INDIAN AGENT

1-8

Williams Lake Agency,
Clinton, B.C.,
October 12th, 1927.

Sir,

I have the honour to acknowledge the receipt of your letter of the 27th ultimo, File No. 160-0-5, in the matter of equipment to be attached to furnace at the Cariboo Indian Residential School. It would appear that application for the furnace was made to the Department by the Rev. Principal direct. When this furnace arrived at the School the Principal informed me that the boilers for the hot water supply had not arrived and I understood that this was ordered at the same time as the furnace and that it was an omission on the part of the shipping firm in not sending it. The Rev. Principal says he applied for the boilers through me but I have nothing on my files except where he states "the boilers have not yet arrived."

The boilers, or tanks, are certainly necessary to heat water for the boys' bathroom. There should be two, containing thirty gallons each, and these will be attached to the furnace.

I have the honour to be,
Sir,

Your obedient servant,

(E. MacLeod)
Indian Agent

Sir,

I have the honour to enclose herewith time-sheets in connection with labour performed on Boys' basement of the Cariboo Indian Residential School, 150 Mile House P.O., this Agency. It will be necessary to send me an accountable cheque for the sum of \$393.00 to cover this.

Rev. Father Anthony, foreman of this work, writes as follows:

" I beg to state that the work is about completed with the exception of 150 sq. yds of floor which I expect to finish shortly. I have discharged all hired labour in connection with the boys' basement."

I have the honour to be,
Sir,

Your obedient servant,

E. MacLeod

The Cariboo Indian Residential School

Post Office: 150 Mile House
British Columbia

January 10th 1928

G. C. Scott, Esq.
Deputy Superintendent General
Ottawa

Dear Sir,

*This is in reply to
a request for estimate.
noted for file. Jan 1928*

I am sending you sketch and estimate cost of proposed addition to the girls school premises. It is a real pity that our application should be too late for consideration. We need greater accommodation for the ever increasing number of our pupils. Also in case of an epidemic we would again be handicapped. We are far away from doctors. Only twice or three times we had a medical man to visit us last year. A few weeks ago we had the small-pox scare. Fortunately the doctor advised me over the phone that it was only chickenpox. It lasted three weeks and through the care of our devoted staff and especially Almighty God's protection. I am glad to tell you that every vestige of the dreaded disease has disappeared. All our children are doing well.

January 7th, 1928.

[Handwritten signature]
Sir,

[Handwritten signature]

I have the honour to report that the Principal of the Cariboo Indian Residential School, 150 Mile House P.O., this agency, has drawn to my attention the crowded state of the girls' dormitories and the necessity of a recreation room and an infirmary. It is quite true that the girls' dormitories are rather overcrowded and that pupils when sick have to be nursed in the dormitories with the well children. The sewing room has to be used as a recreation room.

The Principal asks that I draw the situation to the attention of the Department with a view of getting an addition of 30 x 50 to the girls' building.

There is no doubt that we could have more girl pupils in this Institution if we add on to the girls' building but of course this is a matter for the Department to decide.

I have the honour to be,
Sir,
Your obedient servant,

R

Sir,—

I have the honour to forward herewith, a written requisition received from the Principal of the Cariboo Indian Industrial School, for pupils desks.

On both my recent visits to the school, the last time with Mr. Inspector Pragnell, the Principal has stressed the need for additional desks, to properly accommodate the pupils.

I am unaware what funds are available to meet a request of this nature, but if at all possible, I would request that these desks be supplied in time for the opening of the Fall term of the School.

I am unable to submit an estimate of the cost of these desks, having no price list.

I have the honour to be,

Sir,

Your obedient servant,

CLINTON.B.C.
June 25th.1928.

R

CHW
Sir;

I have the honour to acknowledge receipt of your letter of the 13th. inst. regarding the account submitted by the Principal of the Cariboo Indian Residential School, to cover the cost of material used in the painting of the school buildings.

When visiting this school last week, I informed the Principal that if the Department paid the bill for painting, that the funds would not allow for the erection also of an ice house this year.

The Principal states that he would prefer that the bill for painting material be paid this year, and that the matter of an ice house be left in abeyance for this year.

As your letter referred specifically to the ice house, I infer that the lumber for flooring, mentioned in your letter of the 31st. May last, and answered by my letter of the 14th. inst (1/8), will be supplied in addition to the payment of the painting account.

The Principal has added to the account for paint, some further supplies purchased in this connection recently, and which was being used during my visit, to paint the extreme top of the buildings.

Duplicate certified voucher is forwarded herewith.

I have the honour to be,
Sir,

Your obedient servant,

H.E. Taylor
(H.E. Taylor) Indian Agent.

POOR COPY

Ottawa, June 21st, 1928.

Sir:

I have your letter of the 14th instant, relative to the supplying of new flooring material and an ice house for the Cariboo Indian Residential School.

Regarding the flooring, I beg to say that the Department will approve of the expenditure required in the supplying of 12,000 feet of edge grain fir flooring. You should arrange for the purchase of this flooring, after obtaining competitive prices, from the firm quoting the lowest price. You should see that a good grade of flooring is supplied. Please submit an account, in duplicate, properly certified, covering the cost of the material and the freight charges on same. A receipt for the amount of the freight charges should be attached to the voucher. It is understood that the work of laying this flooring will be performed by the school authorities without expense to the Department.

Regarding the ice house, I would refer you to official letter of the 13th instant, asking you to state whether the Principal would rather that the account covering the cost of the materials used in painting the school building be paid or the ice house be erected. If the erection of the ice house is more urgent, please state whether this is required for the storage of ice only, or whether a cold storage chamber for the storage of meat and other supplies should be included. In the latter event, the cost would be considerably in excess of the erection of a house for the storage of ice only. Particulars should be given as to the dimensions of the building required. When we have a reply to our letter of the 13th instant, referred to above, and particulars as to the type of ice house, consideration will then be given to authorizing having this work carried out.

Your obedient servant,

A. F. MacKenzie
A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

IN YOUR REPLY REFER TO
No. I/8.
ALSO
TO DATE OF THIS LETTER

Your file;
I60-0-5.

Sir,—

I have the honour to reply as follows, to your letter of the 31st. May last, relative to new flooring and ice-house, required for the Cariboo Indian Residential School.

Since receiving your letter, I have visited the school and personally inspected the floors. I find that a lot of the flooring is in exceptionally poor condition and badly needs replacing.

Last year, the school principal requested 18,000 feet of flooring, and of this amount, 6,000 was supplied by the Department.

The principal now requests the remainder, 12,000 feet of edge grain fir flooring, and I have no doubt that it will be put to good and immediate use. The price paid last year, F.O.B. Vancouver, was \$40.00 per thousand. I understand that it is not possible to get good flooring in this district. They have tried it at the school before, but it is too soft, and does not wear well. It would therefore be advisable to purchase the flooring again in Vancouver.

With regard to the ice-house, mentioned in your letter, I found, when at the school, that there is no provision for keeping meat etc. during the summer months, except one small electric refrigerator, which accommodates only a negligible quantity of food.

Quantities of ice are obtainable from close to the school, in the winter time, and I would recommend that authority be granted for the material for erecting a suitable ice-house.

Only two weeks ago, a large quantity of meat was spoiled at the school, through lack of proper storing facilities.

The school principal has requested me to inquire whether the Department have on hand any plans for ice-houses, as the staff have no knowledge of the correct way to build. If such information can be supplied, the lumber needed could be included in the order for flooring, thus keeping down the freight cost.

I have the honour to be,

Sir,

Your obedient servant,

H.E. Taylor

Ottawa, June 13th, 1928.

Sir:

I have your letter of the 5th instant, enclosing a communication from the Principal of the Cariboo Indian Residential School, together with an account covering the cost of the material used in the painting of the school building, and requesting that same be paid.

As you were informed in official letter of May 31st, last, certain repairs were required to the floors, and an ice house was also requested. If the Principal considers that he would rather the Department would pay the account covering the cost of the materials used in the painting than erect the ice house, this will be done, but we have no funds available to provide for the cost of the materials used in the painting and to erect the ice house. I am returning the account which you submitted, and if the Principal desires to have payment of same made and let the question of the ice house stand over until next year, you may prepare a certified voucher, in duplicate, covering the cost of the materials used in the painting, and submit same to the Department.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

JUNE 5th, 1928.

Sir:

I have the honour to forward herewith, triplicate account and letter received from Rev. V. ROHR, principal of the Cariboo Indian Residential School, in regard to the purchase of paint used for the school.

I might state that I have recently visited the school, and seen the painting that has been done on all the buildings, and there is no doubt that it has entailed a considerable amount of labour, and has greatly enhanced the appearance and durability of the buildings.

I am unaware of the policy of the Department, in regard to assistance of this nature, but his school appears to be functioning very efficiently, and I believe that Rev. V. Rohr would be entitled to any consideration in this matter that you feel inclined to give.

I have the honour to be,

Sir,

Your obedient servant,

Clinton B.C.

Dear Sir,

I am enclosing triplicate bill for material used to paint the buildings of the Cariboo Indian Residential School. The Department has been kind enough to supply the shingles to cover the walls of the buildings and we promised to do the work. The shingling and the construction of the three fire escapes cost me over 800 dollars. For over two months now three men and two school boys have been busy painting. This means another 4 or 500 dollars. The buildings are looking beautiful and the children and staff

Sir:

I wish to refer to your l-8 of August 31st, last, concerning repairs to floors that are incomplete at the Cariboo Indian Residential School. I should be pleased if you would ascertain just what is required and let me have a recommendation with estimate of the cost without delay. You should intimate if the school management are prepared to do the laying.

Some time ago, an ice house was requested for this school. You might make enquiries in this connection, also, and let me have a report.

I regret there are no funds available this year for an addition to the main building.

Your obedient servant,

T. R. L. MacInnes,

Ottawa, August 15th, 1928.

Sir,-

I have your letter of the 4th instant, enclosing a communication from the Principal of the Cariboo Indian Residential School in which he applies for 40 single school desks and 4 front and 4 rear seats. In this connection, I beg to say that, in May 1926, the Department supplied new desks sufficient to accommodate 55 pupils. At that time, it was stated that there were 49 Preston single school desks on hand which were in good condition. This would provide a total seating accommodation for 104 pupils and, as the pupilage allowed is only 90, the Department does not see the necessity for supplying the quantity of new desks now asked for by the Reverend Principal. After you have had an opportunity to visit the school, you should forward a further explanation as to the necessity for an additional supply of desks.

Your obedient servant,

A. F. MacKenzie.

Kamloops, B.C., Aug. 6th, 1928.

Sir:

Herewith I beg to submit report upon the
Williams Lake Agency No. 3.

X X X
SCHOOL, WILLIAMS LAKE MISSION.

I visited the school twice, and stopped the night there. Rev. Father Rohr, the new Principal seems to have greatly improved the happiness of all there, besides there is material improvement. The school looks greatly improved and almost like a new building, with the new paint on it. Much improvement in the basement of the boys' wing has been done by a certain Father Anthony, who has cemented the same and placed the building on cement pillars. He has done a most excellent job, as the place was a veritable fire trap before. Possibly, the same may be done to the girls' building. He has also replaced the flooring in various places and is busy doing a lot more. He must be of great service to the Principal. The matter of screening against flies, should, however, be seen to as I am sure it cannot be sanitary as it is.

The crops on the school farm are excellent this year, but it is to be hoped that the scheme of raising Lac le Hache and thus ensuring more water for the school and the adjacent Sugar Cane Reserve will be undertaken. I have recommended this before.

While the children are being well fed at the school the school is somewhat short in its milk supply. Some more good cows should be purchased.

We now come to the matter of fire protection for these buildings. Great improvement has been made by the erection of fire escapes at the end of each building, even though these are merely a system of gently graded wooden stairs. However, some form of electrical bell alarm, after the manner of those now installed in the Kamloops Residential School should be installed. This would not be expensive and would lead to a system of fire drill. Further, there are no chemical fire extinguishers. Two or three large ones and several smaller ones should be placed at various strategical points. Finally too, fire axes, in glass cases, one at each door of the fire escapes should be placed. This is necessary on account of the possible danger of these doors freezing against their sills in the winter. Cheap ones as were fixed up locally for the Kamloops School could be used.

Gentlemen,-

I have to request that you will arrange to ship, addressed to Rev. V. Rohr, O.M.I., Principal, Cariboo Indian Residential School, Onward Siding, B.C., (Pacific Great Eastern Railway), the following fire extinguishers:-

4 - 5 gal. pump tank extinguishers complete with accurate non-freeze charge.

6 - 1½ qt. Pyrene extinguishers complete with non-freeze charge.

The cost should not exceed the amount previously charged for supplies of this nature furnished the Department.

I have also to request that you will prepay freight charges and forward your account, in duplicate, covering the cost of the extinguishers with the receipt for the freight charges prepaid attached to H. E. Taylor, Esq., Indian Agent, Clinton, B.C., who is being informed of the order placed with you and requested, upon receipt of the extinguishers at the school, to certify the account and send it to the Department for payment.

Yours very truly,

Ottawa, August 20th, 1928.

Sir,-

Mr. Inspector Pragnell, in a report on his inspection of the Cariboo Indian Residential School, has drawn attention to the matter of fire protection for the buildings. He recommends that a number of fire extinguishers be supplied. An order is being placed today with the Pyrene Mfg. Co. of Canada, Ltd., to ship, freight charges prepaid, addressed to the Principal, Onward Siding, B.C., (Pacific Great Eastern Railway) the following:-

- 4 - 5 gal. pump tank extinguishers complete with accurate non-freeze charge.
- 6 - 1½ qt. Pyrene extinguishers complete with non-freeze charge.

The above firm have been requested to forward their account to you in duplicate covering the cost with receipt for freight charges prepaid attached. When these extinguishers arrive, you will be good enough to certify the account in the usual manner and send it to the Department for payment. Please inform the Principal of the order placed for these extinguishers and he should arrange to see that they are distributed at strategic points throughout the buildings. I enclose herewith two copies of a description of the extinguishers ordered which will explain the purpose for which they are intended. You might hand one copy to the Principal.

You may arrange for the purchase and delivery at the school of two firemen's axes to be placed one at each door of the fire escapes and you should forward a certified account, in duplicate, covering the cost.

The Inspector further recommends that some form of electrical fire gong be installed in each building. He states that this would not be expensive and would lead to a system of fire drill and would also be of great assistance in case of fire. I have to request that you will obtain a price for the installing of a suitable fire gong or bells in the buildings. The price should include the cost of all material as well as the installation of same. A description of the system which you recommend be installed should be given. When we have this information, consideration will be given to authorizing the installation of this equipment. You might consult the principal in the matter and your early reply, giving the information asked for, is requested.

Your obedient servant,

A. F. MacKenzie

WILLIAMS LAKE AGENCY

CLINTON, B.C.
AUGUST 27th. 1928.

Sir, I have the honour to enclose herewith, letter received from the Principal of the Cariboo Indian Residential School, in regard to oil for the new flooring, recently supplied, and paint to renovate the kitchen etc.

I visited this school on the 21st. inst. and found most of the new floor laid, and the remainder will be completed very shortly. There is no doubt that a coat of oil, when the floor is new, will preserve the wood, and add considerably to it's life.

The kitchen and bath and dining rooms, undoubtedly require a coat of light paint, to cover the grime, and make these rooms more cheerful.

I note that the Rev. Principal estimates \$350.00, but any assistance at all that could be given, would eventually mean economy in preserving the floors etc. as this is an old lumber building, and it is difficult to make it look much.

I have the honour to be,

Sir,

Your obedient servant,

H.E. Taylor

Dear Sir,

Before the pupils return from their holidays, I wish to oil all the new flooring. The dining rooms and class rooms look beautiful, but the carpenters tell me if the oiling is not done, the floors will not last very long.

Also the kitchen, bath rooms - dining rooms need a good coat of paint. As the girls spend some of their training time in the kitchen, we must do all we can to make it attractive for them and the good sisters.

I am sure if you ask the Department to supply the necessary oil and paint you will get it for us.

Sir:

I have your letter of the 27th ultimo, enclosing a communication from the Rev. Principal of the Cariboo Indian Residential School, with regard to improvements. I am pleased to state that funds can be found for the materials with which to oil the new floors and to paint the kitchen, bathrooms and dining rooms. You may purchase the materials the Rev. Principal requires to the best advantage, at an estimated cost of \$350. A properly certified account, in duplicate, should be forwarded for payment in due course. It is understood that the school management will be responsible for the labour.

Your obedient servant,

J. D. McLEAN

Your file;
160-0-5.

Sir;
I have the honour to report further upon the request of the Principal of the Cariboo Indian Residential School, for a new supply of desks, and your letter in this connection under date of the 15th. August last.

On a recent visit to the School I went into this matter with the Principal and Sisters, and find that owing to promotions from one grade to another, more desks are required for the girls, as many of them have to take part of their lessons in the boys building, and cannot take their desks with them.

Desks are also used in the sewing rooms etc. and to avoid daily moving of desks from one room to another, extra seating is needed.

It would appear that the extra seating requested, is really required, in order that the school function efficiently, and I would not consider the request unreasonable.

I have the honour to be,
Sir,
Your obedient servant,

H.E. Taylor
(H.E. TAYLOR)
Indian Agent.

The Assistant Deputy & Secretary.

Ottawa, October 4th, 1928.

Sir:

I have your letter of the 26th ultimo, in further reference to the request of the Principal of the Cariboo Indian Residential School for a number of extra desks. The Department has noted the Principal's reason for his request for more desks, which request was forwarded under cover of your letter of August 4th, last.

It is considered, with the desks that have already been provided, that a further number of 20 single desks, with rear and front seats, should provide ample seating accommodation at this school. It is noted that the Principal requests that Preston single ball bearing desks be supplied. The western representative for the Canadian Office & School Furniture Co., who handle these desks, is E. G. Parnell, 829 Powell St., Vancouver. You may, therefore, obtain a price from him for the supplying of the following desks F.O.B. nearest shipping point to the school, Government sales tax included, and place an order for same:

8	No. 2	Preston ball bearing single school desks,
1	No. 2	" " " " rear,
1	No. 2	" " " " front,
12	No. 3	" " " " desks,
2	No. 3	" " " " rears,
2	No. 3	" " " " fronts.

You should obtain an account, in duplicate, and, after the desks have been received, you should certify the account in the usual manner and send it to the Department for payment.

Please give the matter of the purchase and delivery of these desks your early attention.

Your obedient servant,
J. D. McLEAN

H. E. Taylor, Esq.,
Indian Agent,

WILLIAMS LAKE AGENCY.

CLINTON, B.C.
May 27th. 1929.

Your File;
160-0-5.

Sir;

I have the honour to inform you that, upon receipt of your letter of the 3rd. inst. relative to the purchasing of a bake-oven for the Cariboo Indian Residential School, I wrote to various firms in Vancouver for quotations. I also enquired from the Gurney Foundry Co. if they could furnish an oven similar to the one supplied to the Fraser Lake Indian Residential School but they replied that they wired their Eastern principals and found that this particular oven was no longer made.

Of the other firms I invited quotations from, two replied that they did not carry bake ovens, one quoted the "Pendrith" oven at \$700.00 plus freight, which is the same oven quoted by the Gurney Co. in my previous letter to you of April 25th. last.

The McLennan McFeely & Prior Ltd. firm, quoted on some new and second hand ovens, the only one of which appears to come within our requirements being a "White Star" (second hand) of 140 loaves capacity, for \$450.00. Beyond stating that this oven is a wood burner and in good condition, no particulars are given, and I would not recommend the purchase of a second hand oven.

I received a letter recently, written from Ottawa by Rev. V. Rohr, the School Principal, who is away on holidays, and he spoke of purchasing from the Daoust Co. of St. Boniface, Man., who supply ovens to many of our schools. They appear to have an oven priced at \$400.00 plus freight from Winnipeg - 135 loaves capacity. Although the freight charges will be heavy from Winnipeg, it would seem that this oven would be more satisfactory than anything we can get from Vancouver, and cheaper.

I would request to be informed of your pleasure in this matter.

I have the honour to be,
Sir,

Your obedient servant,

H. E. Taylor

Ottawa, May 3, 1929.

Sir:

I have your letter of the 25th ultimo, enclosing a communication from the Principal of the Cariboo Indian Residential School and correspondence by him relative to the bake oven required for the use of his school. It is noted that the oven quoted on by the Gurney Foundry Company, of Vancouver, and which the Principal desires, will cost \$700. f. o. b. Vancouver, with additional freight charges of approximately \$85.

The Department has never supplied ovens of this cost to residential schools. The oven supplied the Fraser Lake Indian Residential School, Lejac - the type the Principal of the Cariboo School requested in his communication forwarded under cover of your letter of February 25th, last - was supplied in 1921, at a cost of \$460. It is considered that an oven that would be quite suitable to meet the requirements could be obtained at much less cost than the one on which the Principal has now received a quotation. Either you or the Principal should get prices from other manufacturers or dealers in British Columbia for an oven of the capacity absolutely necessary, and the quotations received should be forwarded for the consideration of the Department. It may be that the Gurney Foundry Company could supply another type of oven at a much lower cost, which would be satisfactory in every respect.

Your obedient servant,

H. E. Taylor
H. E. Taylor, Esq.,

Sir;

I have the honour to forward particulars regarding the bake-oven required for the Cariboo Indian Residential School, as requested in your letter of March 5th. last.

77-127
The school principal has had considerable correspondence with the Gurney Foundry Co. of Vancouver and I enclose letters received lately by him from this firm. He states that the No. 18 Bendrith Oven seems an ideal one for the school requirements.

A specification of this oven is contained in the attached letter and it is noted that the oven is portable and is shipped knocked down to facilitate admission through the door.

This oven is quoted at \$700.00 with additional freight charges of approximately \$85.00.

I would request authority to order this oven from the Gurney Foundry Co. at Vancouver B.C. for shipment to the School.

I have the honour to be,

Sir,

Your obedient servant,

H. E. Taylor

Dear Sir,

I received another letter from the Guernev Foundry Co, which I am sending to you. The sisters seem to be pleased with it - as the new oven is a little bit over twice the capacity of the present one. So if you could make the purchase we all will be grateful to the Department and to you.

Very faithfully yours

V. Roberts
Principal.

*2 2/5 of present
oven
present 21 sq. ft.
new - 51 sq. ft.*

Reverend Sir:-

We wish to thank you for yours of the 11th instant, relative to Bakers' Oven.

We are of the opinion, judging from the volume of work you have on hand at your Institution, that an Oven of heavier weight and larger dimensions would be more suitable for your requirements. In addition to the small size Ovens manufactured by ourselves we are marketing what is known as the "Pendrith" Oven which is becoming very popular in this Western territory where Ovens of larger dimensions than our own are required. In looking over the various sizes we are of the opinion that the # 18 Pendrith Oven would best meet your requirements. Specification of this Oven is as follows:-

18 Pendrith Oven - 2 Decks.

Dimensions of each deck 50" wide x 73½" deep.
Floor space 6 feet x 7 feet.
Equipped with Pyrometer or Heat Gauge
and Oven Lights in each deck. \$ 700.00
F.O.B. Vancouver.
Shipping weight approximately 5000 pounds.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

These Ovens are all of rugged construction and are portable, i.e., they come "knock-down" and are very easily assembled and require the minimum of repairs. The weight of this Oven is in the neighborhood of 5,000 lbs. and as we presume you would take delivery at Williams Lake Station the cost of freight from Vancouver to that point would be approximately \$ 85.00. This Oven is in stock at Vancouver and shipment can be made promptly.

We regret that at the moment we have not got an accurate cut of this Oven to send you but are mailing you one from our Eastern Office which will reach you in the course of the next week. The attached cut gives you a very good idea although not an accurate one of the general appearance.

We shall be very glad indeed to hear from you further in connection with this equipment and can assure you that your order will have our very best attention.

Yours very truly,
R.P. Gay

Sir;

I have the honour to inform you, in reference to the attached account, that I inspected and tested this fire alarm system at the Cariboo School during a visit there last week.

Authority was given by you to the school authorities to instal the system for \$150.00 and it appears to be satisfactory in every respect. There are three large, loud gongs located in the boy's, girl's and staff quarters, respectively, and the turning on of any one switch operates the three gongs. They are operated from dry cell batteries. I emphasised the need of regular fire-drill and outlined a system of drill to the teaching staff and informed them that on my next visits I would test the efficiency of their drill and ascertain the length of time it took to empty the buildings. I also intend to carry out a night test after the children are in bed, as, owing to the wooden construction of all the buildings I consider fire drill of the greatest importance.

I have the honour to be,

The Secretary.
Dept. of Indian Affairs.

Dear Sir,

Two years ago the
Department had supplied us with foot balls for
our pupils. As they are nearly worn out and
the children very anxious to have a good foot
ball team, I wish you would ask the Department
to send us some more foot ball. By the way,
I might mention to you that the school team
beat the Sugar Cane team by 3 to 0 on
Easter Sunday.

Very devotedly yours
V. Rohs O.M.S.
Principal.

Ottawa, March 5, 1929.

Sir:

I have your letter of the 25th ultimo, with reference to a bake oven for the Cariboo Indian Residential School. I note they require one similar to that in the Fraser Lake institution at Lejac.

Whereas the school will wait for their ice house until 1930, the Department will have funds for the bake oven and for the batteries required for the electric plant. Please inform the Rev. Principal that the bake oven at the Fraser Lake School is a Gurney Oxford Portable Bake Oven No. E. 138 for wood - with capacity 138 two pound loaves. Have the Rev. Principal get a price on this from the British Columbia representatives of the manufacturers and submit it to the Department for our consideration. The Principal should carefully examine the description of this oven so as to be sure that he has space for it and that he can get it into the building. This oven is larger than most doors and windows. If he is satisfied that it is suitable for the Cariboo School, he may forward his application to you again, indicating the price. You should then communicate with the Department.

I have also your letter of the 25th ultimo, with reference to new batteries for the lighting plant. As this is urgent, I have to authorize you to place an order for the set required for the school with the Bruce Robinson Electric Company, of 544 Howe St., Vancouver. Their account, in duplicate, properly certified by yourself, with freight receipt attached, should be forwarded to the Department when the batteries have been found satisfactory.

Your obedient servant,

A. F. MacKenzie

CLINTON, B.C.
FEBRUARY 25th. 1929.

Sir;

I have the honour to inform you that when on a visit to the Cariboo Indian Residential School on the 22nd. inst. I was requested by the Principal to ascertain if the Department could supply a set of new batteries for the school Delco lighting plant.

The present batteries have been in use nearly four years and are now worn out and the resultant poor light necessitates the use at times of lamps and candles, which constitute a fire hazard and cause much inconvenience.

A set of batteries consists of sixteen. The Delco plant is of thirty-two volts and thirteen-plate batteries are required. If possible one battery should be fitted with a pilot-ball which shows a reading of the condition of the batteries.

Delco batteries are supplied in Vancouver by Bruce Robinson Electric B.C. Ltd. 544 Howe Street. Vancouver. B.C.

If it is possible to meet the wishes of the school Principal in this matter, there will be a considerable improvement in the school lighting system.

I have the honour to be,

R

Sir;

I have the honour to inform you that I visited the Cariboo Indian Residential School on the 22nd inst. and whilst there, the Principal stressed the need for a larger oven for the school bakery.

I inspected the bakery and find that the school authorities have enlarged it to double the previous size, and have installed bread racks.

The present oven has a capacity of fifty four loaves, and the daily consumption at the school is thirty six loaves, which means almost continuous baking.

The oven at present in use is the Oxford Portable Oven made by the Gurney Foundry Co. Toronto. The Principal informs me that the oven at the Lejac Mission School is of the size they require, that oven being of a capacity of around one hundred and eight loaves.

The Principal stated that there was more immediate need for a larger oven than for an ice house, which the Department intimated some time ago that they might be able to supply this year.

I have the honour to be,

Sir,

Your obedient servant,

Ottawa, January 31st, 1929.

Sir,-

I have your letter of the 24th instant, relative to the installation of an electric fire alarm system in the Cariboo Indian Residential School. In this connection, it is noted that a member of the school staff is prepared to install a system similar to the one mentioned in your letter of October 29th, last, using cheaper material and smaller gongs, the work to be completed at a cost of \$150. The Department will approve of this arrangement being carried out and you may authorize the school authorities to proceed with the work. The cost of all material and labour should not exceed the sum mentioned above, viz., \$150. It is hoped that a satisfactory fire alarm system will be installed.

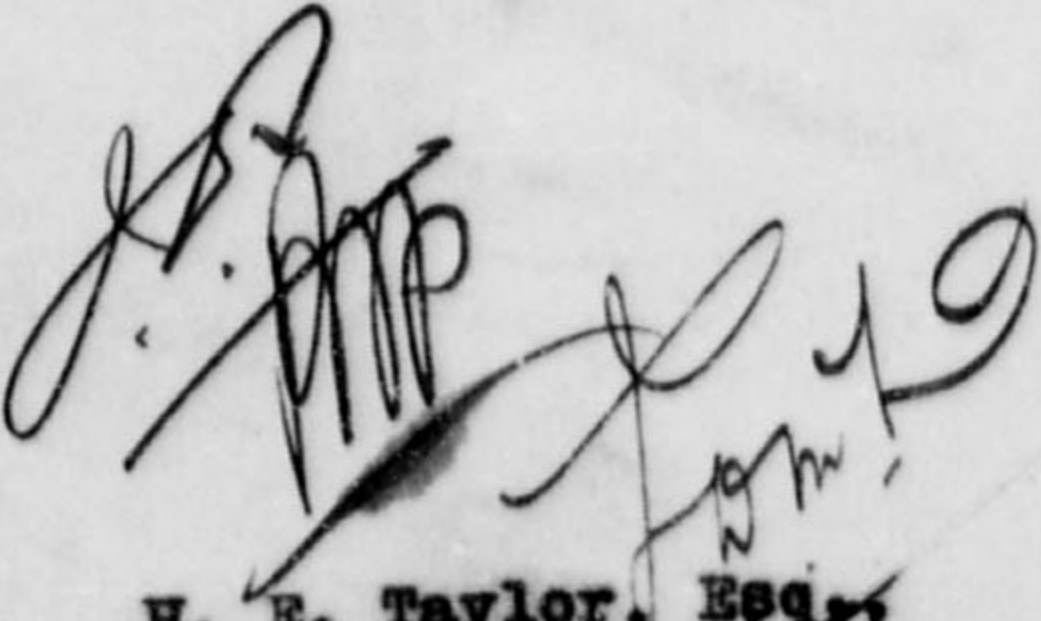

When the work has been completed, please forward an account, in duplicate, properly certified, covering the expenditure incurred.

Your obedient servant,

Your file;
I60-0-5.

Sir; I have the honour to report further to your letter of Nov. 9th.last, regarding the installation of an electric fire alarm system in the Cariboo Indian Residential School.

In my letter to you of Oct.29th.last, I detailed a proposed system, which was estimated to cost \$375.00, and your reply asked for particulars of a much less expensive system.

I have had correspondence with the School principal re this matter, and during a visit to the school this week, I ascertained that Bro.LaJoie of the School staff is prepared to instal a system similar to the one I suggested, for a total cost of One Hundred and Fifty Dollars(\$150.00). In order to get the cost down cheaper material will be used, and much smaller gongs than originally proposed.

Owing to the distance between the three buildings to be equipped, and the need for poles and wire to connect the buildings I do not see that any effective system could be installed for less than \$150.00, and would request to be informed if you consider this satisfactory.

Sir;

I have the honour to report as follows in reply to your letter of Nov.16th.last,relative to a credit of \$402.16 held by the Marshall Wells Colof Vancouver,for the Principal of the Cariboo Indian Residential School,in connection with paint etc. supplied for the school floors in October last.

I took this matter up immediately with the School Principal who now informs me that he paid this account when he received his monthly statement from Marshall-Wells.

He neglected to inform me of this,and merely sent me the usual invoices which I forwarded for payment to Ottawa.

The Principal states that Marshall Wells changed their book-keeper,which accounted for confusion over this account and that the firm have since written to Ottawa,explaining that the balance of the money has been refunded to the Principal.

I have the honour to be,
Sir,

Ottawa, November 16, 1928.

Sir:

The Department has received a communication from Marshall-Wells B.C. Limited, Vancouver, in which they advise that they are holding to the credit of the Principal of the Cariboo Indian Residential School the amount of \$402.16. This was caused by the fact that the Department sent the above firm a cheque for \$447.54 in payment of an account which you submitted under cover of your letter of the 18th ultimo for paint, oils, etc., supplied for the floors of the above named school. It would appear that the Principal paid the account for this material, and, if that is so, when forwarding the voucher for payment, you should have made it in favour of the Principal, attaching, at the same time, receipted accounts to show that the various items had been paid by the Principal. If the Principal has already made payment, it will be necessary for the above firm to forward to him their cheque for the amount that he has paid them, viz. \$402.16. You should ascertain from the Principal if he has already paid the account of the above firm, and you should so inform them and request them to reimburse the Principal.

Your obedient servant,

J. D. McLEAN

Gentlemen:

I have your letter of the 10th instant, enclosing copy of a communication which you addressed to the Principal of the Cariboo Indian Residential School, 150 Mile House, B.C., relative to a credit on his account of \$402.16.

In this connection I beg to say that accounts were received by the Department covering the cost of paint, oils, etc., and freight on same, to a total amount of \$447.54. These accounts were in your name, and the Department was not aware that the Principal had already paid same. We are requesting our local Indian Agent, Mr. H. E. Taylor, Clinton, B.C., to enquire into this matter and to communicate with you. If the Principal has already paid these accounts, it would appear that you should make a refund of the amount due him.

Your obedient servant,

J. D. McLEAN

Ottawa, November 9, 1928.

Sir:

I have your letter of the 29th ultimo, relative to the installing of an electric fire alarm system in the Cariboo Indian Residential School, and giving particulars regarding the system which you would recommend be installed and the cost of same.

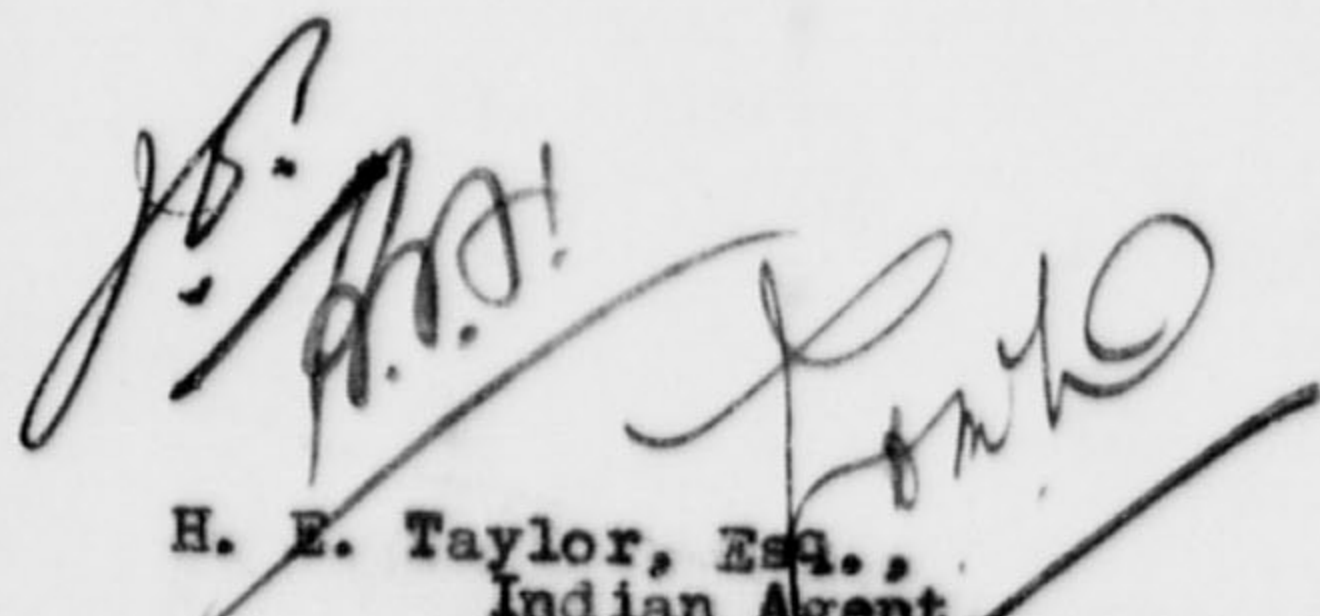

In reply I beg to say that the cost is much higher than the Department anticipated. Our funds would not provide for the installing of a system such as mentioned in your letter. Would it not be possible to install a fire alarm system that would be satisfactory at much less expense? I have to request that you will give this matter further consideration, and, in consultation with the Principal and an electrician, endeavour to specify a much less expensive type of fire alarm system.

I shall be pleased to hear further from you regarding this matter in order that a fire alarm system can be installed at an early date and at the least possible cost.

Your obedient servant,

J. D. McLEAN

160-0-5
R

OFFICE OF
INDIAN AGENT

WILLIAMS LAKE AGENCY.

CLINTON, B.C.
OCTOBER 29th. 1928.

Your file;
160-0-5.

Sir;

With reference to your letter of August 20th. last, in which you give instructions for the obtaining of a price for the installation of an electric fire alarm system, in the Cariboo Indian Residential School, I have the honour to report as follows:-

There is only one electrician in Williams Lake, which is the only settlement near the school. This is a Mr. Keith Caverly, and in September last I took him to the school, and, in consultation with the staff, asked him to report upon a system of fire alarm, together with a price for installing same.

I have only recently received his report, and submit the following particulars for your consideration:-

There are three school buildings which need to be equipped with fire gongs. Of these, the boys and girls dormitories are more than one hundred yards apart, which will necessitate a considerable quantity of wiring.

Owing to the wooden buildings, and their consequent inflammable nature, it is considered advisable to have all wiring enclosed in metal conduit, for safety.

The system would be operated off the Delco light plant at present used by the School.

A six inch gong would be installed in each of the following places; the boys dormitory, the girls dormitory, and the staff quarters.

The gongs would be rung by means of breakable glass alarm boxes, which would be placed conveniently as follows:- two in boys dormitory (one upstairs & one down), two in girls dormitory (one upstairs and one down) and one in staff quarters.

In addition, there would be a three way alarm installed in the staff quarters, by means of which a general alarm could be sounded in all buildings, either for practice fire drill, or in case of real fire. This three way alarm is so constituted that it can be operated without breaking the regular boxes, and will ring the bells in any or all of the three buildings, separately or simultaneously.

As the large gongs cost in the neighbourhood of \$65.00 each, I asked that small gongs be specified, as I am informed that they are sufficiently loud for ordinary buildings of this size. I have requested that nothing unnecessarily expensive be used in the way of material, but that durability and safety received consideration.

The price submitted by Mr. Caverly for material, and all labour of installation is \$375.00.

I have the honour to be,
Sir,

Your obedient servant,

H. E. Taylor

Indian Agent.

The Asst. Deputy Secretary

*Schools Branch
Nov 9 1928*

Sir,-

Referring to the contents of your report of the 25th ultimo, advising me of the bad condition of the drinking water supplied to the school at William's Lake Mission, B. C., I should like to be furnished at your earliest convenience with a report and estimate of providing a safe and reliable water supply for this institution.

J.D.M.

As soon as this report is received the matter will be given due consideration.

J.D.M.

Your obedient servant,

J. D. McLean.
Assistant Deputy and Secretary.

Inspection Report, Williams Lake Agency No. 3,
Continued.

Sir,-

X X X

3. SCHOOL, WILLIAMS LAKE MISSION.

I stopped the night there. I have little more to add to my report of August 6th. I, however, have to report that the drinking water is terrible. Apparently the school has only a small reservoir, and the water is very stagnant, full of vegetation and the remains of dead fish. I understand a sample has been sent to Victoria for analysis. It certainly seems awful water for children to drink, and one would think, liable to be contaminated.

Sir:

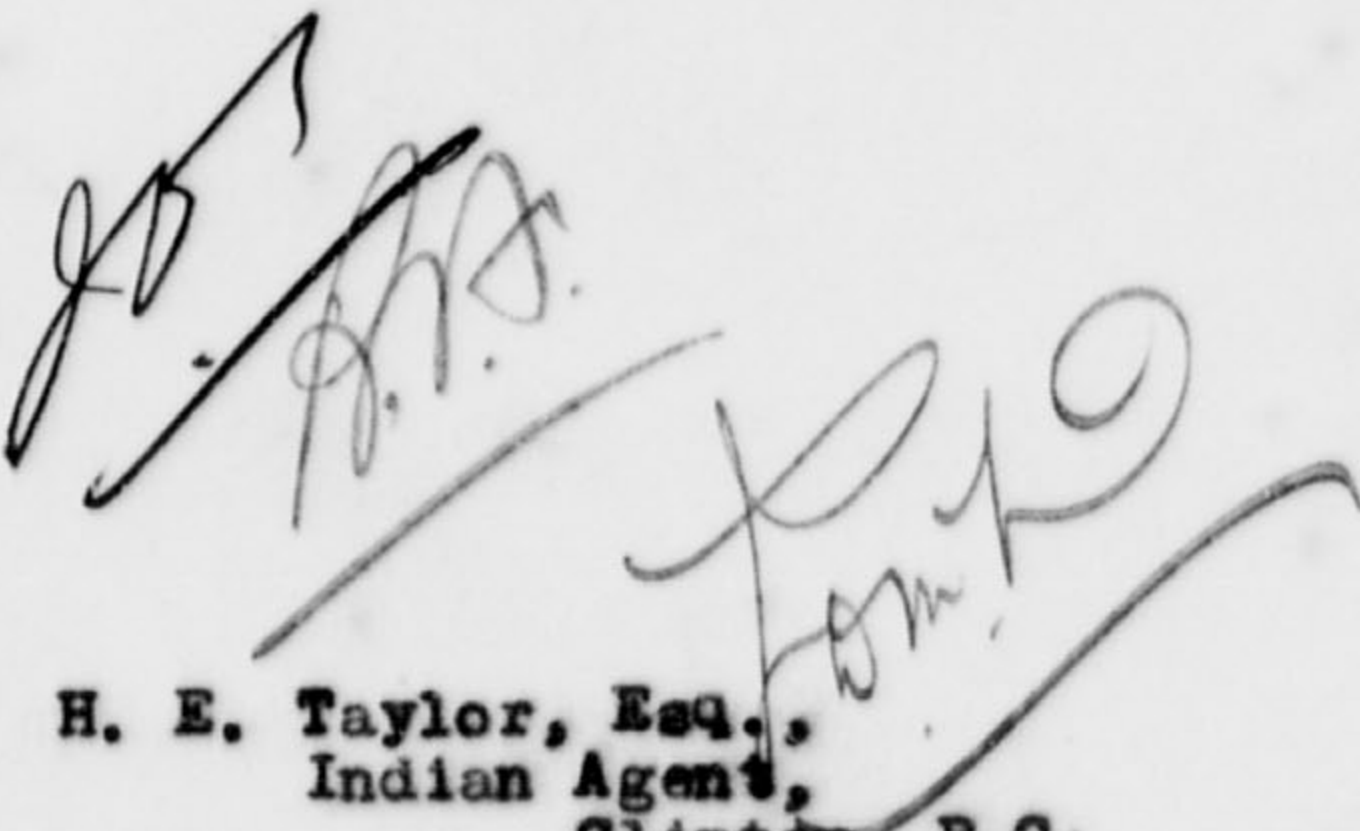

I have your letter of the 27th ultimo, in further reference to the supplying of a bake oven for the use of the Cariboo Indian Residential School. The various quotations which you received for the supplying of a bake oven are noted.

I may say that this matter was discussed with the Reverend Principal during his recent visit to Ottawa, and he expressed himself as being satisfied to receive an oven manufactured by Jean J. Daoust, Ltd., St. Boniface. The Department is obtaining prices for the supplying of one of their Size No. 4 wood burning bake ovens, and, when we have this information, the order will be placed and you will be further advised.

Your obedient servant,

J. D. McLEAN

Sir:

Referring to previous correspondence regarding the supplying of a bake oven for the use of the Cariboo Indian Residential School, I have to inform you that the Department is today placing an order with Jean J. Daoust, Ltd., St. Boniface, Man., to ship, charges prepaid, addressed to Rev. V. Rohr, O.M.I., 145 Mile Station, P.C.E. Ry., one (1) No. 4 Economy bake oven. The price quoted F.O.B. 145 Mile Station is approximately \$453.75. When this oven arrives, the school authorities should arrange to have it transported to the school.

The above firm have been requested to forward their account, in duplicate, to you. Upon receipt of the oven, you should certify the account in the usual manner and send it to the Department for payment.

It is hoped that this oven will prove satisfactory, and you should inform the school authorities of the order being placed for the supplying of same.

Sir:

Re: Water Supply to St. Joseph's
Mission, Williams Lake Agency

In accordance with your instructions of October 6th, 1928, an investigation was made of the water supply to St. Joseph's Mission. The results of this investigation, together with proposed improvements, are discussed in detail below.

GENERAL

As shown on key plan attached, St. Joseph's Mission is situated on the San Jose river, about four miles upstream from the head of Williams Lake.

The Mission is owned by the Order of Oblates of Mary Immaculate, which conducts boarding schools for Indian children, and carries on farming and stock raising operations on a large farm surrounding the school buildings.

The number of pupils enrolled in the boys' and girls' schools is about 100. In addition to these are the teaching and administration staffs, and the farm workers. The total population of the Mission is approximately 125.

The Mission buildings include a chapel, boys' and girls' dormitories and schools, barns, outhouses, etc., as shown on Plan No. 1. These are all of frame construction, and the main administrative buildings are of two stories.

EXISTING WATER SUPPLY, RECORDED RIGHTS AND ANALYSES OF WATER.

The supply of water for domestic use in

C.E. Webb, Esq.,

Vancouver, B.C.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

the Mission is at present derived from the San Jose river. The water is diverted by ditch into Yellow Lake (shown on Plan No.1), and from this storage, is conveyed through a 4-inch wood stave pipe to the Mission, under a head of about 40 feet.

The right to use water for domestic purposes is recorded under C.L. 8799, with priority January 26, 1927, which grants the use of 25,000 gallons per day. Storage rights for 100 acre-feet per annum are held on Yellow Lake under C.L. 8668. Analysis was made of the water supply from Yellow Lake, in October, 1928, and it was pronounced to be polluted and unfit for domestic use. Copy of analysis is attached as Appendix "C". A further analysis shown in Appendix "D", made in December, 1928, of water from the same source, shows it to be safe for domestic use though of poor quality. This sample was taken when there was a large diversion from San Jose river into Yellow lake, and was practically a sample of river water.

These analyses would seem to show that contamination of the water came largely from Yellow lake, and that it should be discontinued as a source of domestic supply. The investigation, therefore, is to determine the most feasible means of providing an unpolluted domestic supply.

SAN JOSE RIVER SUPPLY

As previously stated, a conditional licence is held granting the daily use of 25,000 gallons from San Jose river for domestic purposes.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

The maximum feasible gravity head available from the San Jose is about 40 feet. This is sufficient for ordinary purposes but is of no use for fire protection which is most necessary.

By use of a ram and reservoir, however, a sufficient supply for both domestic and fire protection purposes could be obtained, and a system from this source will be discussed later in the report.

SPRING SUPPLY

The only discoverable source of water supply other than the San Jose river was found in a spring lying, as shown on Plan No. 1, about four miles to the south. The elevation of this spring above the Mission is about 400 feet.

Analysis of the water from this spring, copy of which is attached as Appendix "E", shows it to be of fair quality, free from animal contamination but containing a small amount of decomposed vegetable matter. By thoroughly cleaning out and covering the spring it is thought that vegetable decomposition may be eliminated. At the time of inspection, 6th November, 1928, the flow in the spring was pretty well down to its minimum. The discharge at that time was $3/4$ cubic feet per second.

Although the absolute minimum flow is not definitely known, from information received locally it is estimated to be not less than $1/4$ second foot. This is equivalent to more than 125,000 gallons per day, which is in excess of all requirements as discussed below.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

REQUIREMENTS OF ST. JOSEPH'S MISSION

(1) Domestic Supply.

As previously stated, the population of St. Joseph's Mission is about 125. Assuming a daily consumption of 40 gallons per head, the requirement for domestic supply would be 5000 gallons per day.

(2) Fire Protection.

The buildings comprising St. Joseph's Mission are of wood frame construction, and are not equipped with any system for protection against fire.

The present water system cannot supply the pressure necessary for fire protection, but this would be amply provided by a pumping system from the San Jose river direct, or by a gravity system from the spring mentioned above, and in view of the large number of children housed in the buildings, adequate fire protection is considered necessary. For this a supply of not less than 600 gallons per minute should be available for three fire streams.

POSSIBLE SYSTEM FROM SAN JOSE RIVER

To adequately supply the demands of St. Joseph's Mission for domestic and fire protection purposes, a system from the San Jose river would consist of the following units:-

1. Hydraulic Rams.

This unit of the system would include a small intake in the San Jose river, about 400 feet of 4" drive pipe, and a double ram installation. The latter is necessary in this isolated locality in case one ram should go out of order.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

2. Ram Delivery Pipe.

To deliver water supply from the site of the ram to the site of storage reservoir near the Mission would require about 3000 feet of 3-inch pipe.

3. Storage Reservoir.

To ensure an adequate supply of water for fire protection, a reinforced concrete, covered storage reservoir would be necessary near the Mission, and at an elevation of about 170 feet above the buildings. The reservoir capacity should be 36,000 gallons to make available an hour's supply for three fire streams. Design of this proposed reservoir is shown on Plan No. 3.

4. Filter.

In view of the analyses of San Jose river water (taken from Yellow lake) shown in Appendices 2 and 3, and owing to the fact that the river above the ram site meanders for fifteen miles through swamps and meadow lands, it is considered altogether inadvisable to use the river water for cooking and drinking without filtration.

A mechanical filter, therefore, is recommended, either a Paradox Chlorinizer or a filter of a similar type, that will treat a domestic water supply of 5000 gallons per day. This filter would be located near the storage reservoir, at an elevation low enough to provide operating head.

For treatment of water for domestic use a small tank of about 5000 gallons capacity would be built below the filter. Water supply to this tank would be provided by a small pipe from the main

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

storage reservoir, and service pipes would lead direct from the tank to the various buildings.

The filter and treatment tank would have to be covered for protection against frost.

5. Reservoir Discharge Pipes and Distribution System.

For fire protection service a length of about 1500 feet of 10" pressure pipe would be necessary to serve the fire hydrants, as shown on Plan No. 2. From this main, service pipes could be run to the laundry, etc.

To accomodate overflow, about 2500 feet of 2" pipe would be required between the reservoir and the river at the Mission.

6. Fire Fighting Equipment.

For adequate fire protection the following equipment is considered necessary:-

Five outside hydrants housed in small shelters, and equipped with 150 feet of 2½ inch hose, hose bracket, and standard nozzle.

Six inside hydrants, placed one on each floor of the three main buildings, and equipped with hose bracket, 50 feet of 2-inch hose and 5/8 inch nozzle.

COST OF SYSTEM

Estimate of cost is shown in Appendix "A", and amounts to approximately \$16,100.00.

POSSIBLE SYSTEM FROM SPRING

A gravity system from this source to St. Joseph's Mission would include the following:-

1. Concrete Intake at the spring.

The spring should also be fenced to prevent contamination from ranging stock.

2. Pipe Line from Intake to Storage Tank.

This would be low pressure 3" pipe about 15,000 feet in length.

3. Storage Reservoir.

This would be of the same size as specified for the system from San Jose river.

The elevation of this tank above the buildings would have to be about 185 feet to allow for friction losses in discharge pipe.

4. Reservoir Discharge Pipes and Distribution System.

From the reservoir to the fire hydrants about 3000 feet of 10" pressure pipe would be required.

Service pipes to all buildings could be run direct from this main.

About 2000' of 2" pipe would be required to carry the overflow from the reservoir to the river.

5. Fire Fighting Equipment.

This would be the same as specified for the system from San Jose river.

COST OF SYSTEM

Estimate of cost is shown in Appendix "B", and amounts to approximately \$25,500.00.

SUMMARIES

San Jose River System.

To fill the requirements of St. Joseph's

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

ARCHIVES PUBLIQUES

POOR COPY

Mission with respect to domestic water supply and fire protection, a ram system would be necessary to pump the supply to a storage reservoir. For domestic use, owing to the poor quality of the water, a portion of this supply should be filtered.

The ram, storage, and filter units would need regular supervision and periodical cleaning.

The cost of this installation is estimated to be \$16,100.00.

System from Spring.

This is a gravity system over three miles in length. Analysis of water from this source shows that no filtration is necessary. This system would require the minimum of attention.

The estimated cost of installation is \$25,500.00.

Recommendations.

From an analysis of the two systems summarized above, it is considered that, though costing \$9500.00 more, the gravity system from the spring would ultimately be cheaper and more satisfactory.

The reasons advanced for this conclusion are:-

- 1) The gravity system would need no expert mechanical supervision as would be the case with the rams and filter on the San Jose system.
- 2) The gravity system is derived from a pure source, and the water supply could be delivered direct without filtration.
- 3) The gravity system offers greater assurance of regular and uninterrupted supply.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

In the case of the San Jose system, the intake for the ram is located below the irrigation ditches intakes, and there is a possibility, though it is believed to be a remote one, that, during a summer of abnormally small flow in the San Jose river, the water supply passing the irrigation ditch intakes might be reduced below the quantity required for efficient operation of the ram.

In view of the above, the installation of the gravity system from the spring is recommended.

DOMINION WATER POWER AND RECLAMATION SERVICE

OTTAWA, ONT..

June 12th, 1929.

McLean
Schultz
Sir,

Encl.

I enclose herewith a report received from Mr. Webb on an investigation of a water supply system for the St. Joseph's Mission in the Williams Lake Agency, B.C. This report was prepared at the request of Mr. Indian Commissioner Ditchburn in a letter to Mr. Webb dated October 15th last.

Two alternative schemes are set out in the report. One, a water supply from the San Jose river at an estimated cost of \$16,100; the other, from a spring three miles distant from the mission at an estimated cost of \$25,500. As you will note from the report the gravity system from the spring is recommended for reasons stated therein.

While the cost of these schemes is considerable it is recommended by Mr. Webb that the expenditure is warranted in view of the fact that every precaution should be taken to protect the lives of the inmates of this institution from a sanitary standpoint as well as to afford fire protection. Should it be found that there are not sufficient funds to carry out either of the proposals outlined in the report, it is recommended that immediate steps should be taken towards the purification, as far as possible, of the domestic water supply from Yellow lake.

I shall be glad to have your instructions in regard to this matter.

Your obedient servant,

J. T. Johnston,
Director.

Re: Cariboo Indian School

Dear Sir:-

In compliance with your order of the 10th. which we have received on the 12th. we are shipping one of our # 4 Economy Ovens to Rev. V. Rohr, Cariboo Indian Residential School, vis 145 Mile Station P.G.E.R. It will leave Winnipeg on the 14th. and we trust it will reach there without delay. As requested we will mail our invoice in duplicate to Mr. Taylor at Clinton. B.C.

We thank you for this order and we hope that we may soon have the pleasure of serving you again.

Yours very truly,

Sir;-

I have the honour to inform you that I recently received a request from the Principal of the Cariboo Indian Residential School, for an ice cream freezer for use at the School.

They have a large cream supply now available which they desire to give the pupils the benefit of.

In this connection you may be interested to know that a government veterinary recently inspected the milch cows at the School and that they all satisfactorily passed the Tuberculin test and in addition a Grade "A" was given for clean and sanitary cow barns.

The Marshall-Wells B.C.Ltd. of Vancouver, quote a five gallon ice cream freezer at \$25.40 plus freight.

I would recommend that consideration be given to this request and would be glad to know your pleasure in this regard.

I have the honour to be,

Sir;-

I have the honour to refer to your letter of July 25th. last authorising the purchase of a five gallon ice cream freezer for the Cariboo Indian Residential School. The freezer was quoted by the Marshall-Wells B.C.Ltd. of Vancouver at \$25.40 F.O.B. their warehouse.

I ordered this freezer as instructed but am now in receipt of advice from the school principal that the freezer quoted cannot be supplied.

I enclose the letter received by the principal ^{from} ~~by~~ the above company in which they state the nearest they can do to the original price is one at \$35.00.

As the company were unable to find another freezer in Vancouver at the original quotation and time was getting short I took it upon myself to order the freezer quoted at \$35.00 and trust that my action will be approved. The school principal informs me that the addition of the fly-wheel will be useful and well worth the extra price.

ENCL;

I have the honour to be,
Sir,

Ottawa, September 3, 1929.

Sir:

I have your letter of the 26th ultimo, relative to the purchase of a 5 gallon ice cream freezer for the Cariboo Indian Residential School and enclosing a communication received by the Principal with reference thereto. In this connection I beg to say that the Department will approve of an expenditure of \$35 in the purchase of a freezer of the type mentioned in letter received by the Principal from Marshall-Wells B. C. Limited, Vancouver, B. C. After the freezer has been received, an account in duplicate, properly certified, should be forwarded covering the cost.

Your obedient servant,

J. D. McLean

Sir:-

I have the honour to inform you that the enclosed voucher No.4603 in favour of the P.G.E.Rly.Co.for \$10.01 is for freight charges on an Economy bake-oven supplied to the Cariboo Indian Residential School by the Jean Daoust Co.of Winnipeg.Man.

This bake oven was ordered from Ottawa and the Daoust Co,were requested to prepay the freight.However their account received only included freight as far as Vancouver.B.C.where the oven was transhipped to the P.G.E.Rly,and the enclosed voucher is for the freight charges from Vancouver to Williams Lake.B.C.

I have the honour to be,

Sir,

Dear Sir:

I beg to make the following report upon my last visit to this agency.

x

x

x

SCHOOL

Cariboo

~~St. Joseph's~~ Residential school. In company with the acting principal, Rev. Father Patterson, I went over the institute, I found things in excellent order with the school filled to capacity. I was glad to note that there were several children from the Chilcotin entered at the school, and they seemed happy and contented. It is to be hoped that the prejudice of the Chilcotin Indians against the school has at last been overcome. With this field added and recruiting elsewhere accommodation for 50 more children at least will be required in the near future. This would be more economical than building in the Chilcotin. There is of course still no pressure water system for fire purposes, though I understand planned. Dependence there, has to be placed upon chemical fire extinguishers. I could find no large chemical extinguishers, anywhere in position, and the acting principal could not inform me whether any had been supplied. If not this should be attended to immediately. Fire Drill has been started in the school and the children well trained. I went over the manual training class room and am told the boys are working well at this work. This school would well do with two or three forges for blacksmith training. I also accompanied the Principal to the intake of their irrigation system on St Josephs Creek, this matter will be dealt with in my remarks upon the Sugar Cane Reserve.

Sir,-

Your file number: 160-0-5.

In further reference to your letter of June 19 regarding the domestic water supply for the Caribou Indian Residential School, St. Joseph's Mission, in which you authorized the installation of a chlorinator or other necessary improvement for the water supply, I enclose herewith copy of a report received from Mr. Webb regarding the investigations which have been made. From this report you will note that the Father in charge of the Mission was not in favour of any work being done at the present time on the existing water supply system and Mr. Archibald, the Engineer who made the investigation, felt that in view of the attitude of the Mission authorities he was not justified in undertaking any improvements at Yellow Lake. I shall be glad to have your further instructions in regard to this matter.

Your obedient servant,

Encl.

Dominion Water Power and Reclamation Service

150 Mile House, B.C.
August 17, 1929.

Sir: Re - St. Joseph's Mission
 Domestic Water Supply.

As instructed in your letter of July 3, 1929 investigations were carried out to determine what temporary measures could be adopted to purify the supply of domestic water from Yellow Lake to St. Joseph's Mission. Detailed below is the result of these investigations and of their discussion with Father Patterson, acting superintendent of St. Joseph's Mission.

Yellow Lake is an artificial reservoir filled by flow through a ditch from the San Jose River, and used for the storage of irrigation supply for use on lands lying west of the river, and of domestic supply for St. Joseph's Mission.

The bed of Yellow Lake, for some distance from the shore, was found to be thickly covered with an under-water weed growth, which appeared to attain its densest growth at the lake outlet where the intake pipe for St. Joseph's Mission domestic water supply is located.

This weed growth seems to be the only source of pollution in , and immediately surrounding the lake. There appears to be very little danger of nearly pollution from animal matter, as the lake is in a cultivated area that is very well fenced.

The pipe intake is located about 100 feet from the shore at the lake outlet, but at a depth of only between three and four feet below the lake surface, so that though the plant growth on the lake bed is very dense, the pipe intake is above it.

At the time of investigation there was a large flow both into and out of the lake, and if this condition could be maintained it is believed that the danger of pollution would be minimized, as the pipe intake is located at the lake outlet and the water drawn through the pipe is not stagnant but running water direct from the San Jose River. Extension of the pipe intake into the lake for another two or three hundred feet would also lessen the danger of pollution as that would remove it from the dense area of weed growth on the lake bed.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-COPY

When discussing the matter with Father Patterson, it was suggested that the plant growth be removed from the lake bed, that the intake pipe be extended farther into the lake, that chemical treatment, say with copper sulphate, be given the lake water, and that a chlorinator be installed in the existing storage tank above the Mission buildings.

Father Patterson was not in favour of anything being done at the present time, stating that in his opinion the present water supply was as pure as could be obtained from the San Jose River, and that the removal of plant growth would stir up bacteria that would pollute the supply for some time to come.

With respect to the extension of the intake pipe, Father Patterson stated that the Mission authorities proposed to do this themselves later in the season, when the lake surface was lowered.

The installation of a chlorinator in the storage tank did not find favour with Father Patterson as he considered that anything of a permanent nature done at the present time would be prejudicial to the later installation of a combined domestic supply and fire protection system. At present the storage tank is regularly treated with lime and periodically flushed.

Father Patterson stated that he and others of the Order at the Mission, were strongly in favour of the proposed gravity system, and opposed to any system that drew its supply from the San Jose River. In addition to the objections of inferior quality of supply, and the necessity for supervision and maintenance of mechanical pumping and purification units, he spoke of an objectionable practice that I had not been ~~xxxxxx~~ aware of. He stated that when the flow in the river was low, and the danger of pollution therefor at its peak, the owners of meadows bordering the river between the Mission and Lac La Hache were in the habit of damming the stream for back-flooding purposes, and that to do this large quantities of manure were used. This of course might create a dangerous condition and unless it can be stopped is a very strong argument against the use of the San Jose River as a source of domestic water supply.

In view of the attitude of the St. Joseph's Mission authorities as stated above, it appears that no immediate steps can be taken with respect to improving the domestic supply to the Mission.

Father Patterson informed me that Father Rohr expects to call at the office of the Superintendent General of Indian Affairs on his return from Europe, and intends to argue as forcefully as possible for an early installation of the gravity system to provide both fire protection and domestic water supply.

Your obedient servant,

C. E. Webb, Esq.,

Ottawa, April 3, 1930.

Rev. Sir:

In February, last, Mr. Inspector Pragnell drew attention to the need of more fire extinguishers for the use of the Cariboo Indian Residential School. The Department placed an order for the supplying of six (6) Thermene extinguishers with the Pyrene Mfg. Co. of Canada Ltd., Toronto, but, in error, they were asked to ship these to the Principal of the Kootenay Indian Residential School, Cranbrook, B.C., instead of to your school.

The Department is communicating with Mr. E. H. Small, Indian Agent, Cranbrook, and requesting that he make shipment of these extinguishers to you, Williams Lake, B.C., and it is hoped that they will arrive at an early date. When received, you should see that they are placed at strategic points throughout the school building, where they will be readily accessible in case of fire. These extinguishers can be used in the case of a fire started from any cause, whether oil, grease or electricity, and are non-freezing.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Sir:

I have to refer you to official letter dated February 19th, last, informing you that an order had been placed for six (6) fire extinguishers for the Kootenay Indian Residential School.

In this connection I have to say that these extinguishers should have been ordered for the use of the Cariboo Indian Residential School, Williams Lake, B.C., instead of for the Kootenay Indian Residential School. I have to request that you will arrange to have them reshipped addressed to Rev. V. Rohr, O.M.I., Cariboo Residential School, Williams Lake, B.C., via P.G.E. Railway, freight charges prepaid, at the earliest possible date. You may forward an account, in duplicate, together with receipt attached for the freight charges prepaid. We are informing the Principal of the Williams Lake Indian Residential School that these extinguishers are being shipped to him.

The account covering the cost of these extinguishers has, no doubt, been sent, and, if you have same, you should certify it in the usual manner and send it to the Department for payment.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Sir,

Your file number: 160-0-5.

I have received your letter of the 24th instant with reference to the water supply for St. Joseph's Mission, Williams Lake Agency, and note that funds are now available for the installation of a new system, taking as a source of supply the springs which will provide a gravity system.

Our District Chief Engineer at Vancouver has been instructed accordingly to proceed with this work.

The report of May 13, 1929, dealing with this project does not state that the Mission has acquired a right to use the water of the spring in question for domestic purposes, and it may be necessary before any construction work is undertaken to obtain a license for that purpose.

Your obedient servant,

J. T. Johnston,
Director.

Sir;-

I have the honour to inform you that upon a recent visit to the Cariboo Indian Residential School I received a request from the principal for ten thousand feet of rough lumber for repairing fences, walks and outbuildings.

I am satisfied that this material could be used to good advantage and told the principal I would submit the request for your consideration. Rough lumber of local cut can be delivered at the school at \$25.00 per thousand feet.

I have the honour to be,

Sir,

Your obedient servant,

Memorandum:

MA. N. ORR.

There is an item of \$26,000. in the Main Estimates for the provision of a gravity water supply system at the Cariboo Indian Residential School. The letter of the Dominion Water Power Branch is turned out hereunder. Dr. Scott has directed that the improvement be made this year. If you find that the cost can be kept below the estimate of \$25,500, which has been received, Dr. Scott would be glad to learn that a saving can be effected.

Cranbrook, B.C.,
May 1st, 1930.

Sir,

Re. letter No. 160-0-5, April 3rd, 1930.

I beg to enclose herewith vouchers Nos. 23 and 29 covering cost of 6 fire extinguishers sent in error to Kootenay Residential School, and prepaid freight on the same to the Cariboo Residential School at Williams Lake, as requested in your letter No. 160-0-5 and dated April 3rd, 1930.

I regret that some delay was caused owing to the fire extinguishers having been filled and set up in the Kootenay Residential School, and to the Reverend Father Patterson, Principal of the School, having been absent for a few days visiting the Lower Kootenay Indians. The Extinguishers were, however, properly prepared and carefully packed and shipped, which I trust will meet with the approval of the Department.

I have the honour to be,
Sir,

VICTORIA, B.C. August 15, 1930.

Dear Sir:-

Re-Domestic Water Supply for
Cariboo Indian School.

I understand from Mr. C.E. Webb, District Chief Engineer of the Dominion Water Power Branch, that you have authorized the construction of the domestic and fire protection water system for the Cariboo Indian Residential School, in the Williams Lake Agency, as outlined in the report of Engineer Archibald dated 13th May, 1929, the estimated cost of which is stated to be \$25,500.00.

As the water is to be taken from an unnamed spring about four miles from the School, an application has been filed with the Comptroller of Water Rights to divert 25,000 gallons from this source per day, by the Superintendent General of Indian Affairs, but the Comptroller of Water Rights has pointed out that as the water is to be used on the property of the Order of Mary Immaculate, (Lot 22, Cariboo District), it is felt that the application should be amended to read "The Order of Mary Immaculate" instead of "Superintendent General of Indian Affairs". This matter may, however, be adjusted satisfactorily, but the point which I have in mind is in connection with the future security of the Department of the amount expended on this undertaking in the possible event of the School property being sold at some future date, and, therefore, it appears to me that the Order of Mary Immaculate should give a lien on their property to the extent of the expenditure which the Department is going to, the same as was done by the Oblate Order when we erected the barn in connection with the St. Mary's School, New Westminster Agency.

If you concur in my views I would suggest that you write to Reverend Father Victor Rohr, Principal of the School.

Your obedient servant,

W. E. Ditchburn

DOMINION WATER POWER AND RECLAMATION SERVICE

Vancouver, B.C.,
August 23, 1930.

Sir,

Re Water Supply, St. Joseph's Mission
School, Williams Lake Agency.

In connection with the above project we have made application on behalf of the Superintendent General of Indian Affairs for a water right from the springs which are the proposed source of supply.

I have recently been requested by the Comptroller of Water Rights to advise him as to why this right should not be in the name of the Mission as they are the registered owners of the land where the water is to be used. Mr. Ditchburn feels that the Department should obtain this water right in their own name in view of the large expenditure to be made and it was for this reason that we made application in the name of the Superintendent General.

I have discussed the question with the office of the Comptroller and they advise that without a legal hold on the land we cannot obtain a domestic right to the water. It was suggested we might obtain the right-of-way from the School and by so doing would control the works even if the school held the license to the water. This, however, is a point which is open to question in my mind. I suggested the granting of a Class "C" license which is the kind issued for water works purposes, where a toll is charged, but they pointed out that while possibly the Water Act might permit the granting of such a license, such was not the intention of the Act, even if it is so worded. In this connection Sec. 11 (4) of the Water Act states:-

"A Class C. license may be acquired by any municipality, company, association, or body corporate whose undertaking in respect of such license has been approved under this Act."

You will note a "body corporate" may acquire a Class C license and in this connection would you please advise if the Superintendent General of Indian Affairs or the Department of Indian Affairs are legally a "body corporate".

I have advised Mr. Ditchburn as to the standing of this matter and understand he is strongly pressing his Department to obtain a legal hold on the school property as a means of protecting their investment in this proposed water supply system.

In the meantime we are preparing to advertise for tenders for the installation of the proposed system and hope to have the question of the licence settled by the time the tenders are received so that work may be completed before winter sets in.

Your obedient servant,

J.T. Johnston, Esq., C.E.,
Director,
Dom. Water Power & Hydrometric Bureau,
Ottawa.

C.C: Mr. Ditchburn.

Arch
Sir,

Your file number: 160-0-5.
Re St. Joseph's Mission School.

In further reference to your letter of June 24th regarding the installation of a new water system to supply the St. Joseph's Mission school in the Williams Lake Agency, I enclose herewith copy of a letter received from Mr. Webb regarding obtaining a water license from the province to cover the domestic supply.

Encl.

You will note that Mr. Webb asks to be advised if the Superintendent-General of Indian Affairs or the Department of Indian Affairs are legally a body corporate to come within the provisions of Section 11, Subsection 4 of the British Columbia Water Act. Whether this is so or not, however, does not appear to materially change the situation. The basis of the Provincial Water Act is that licenses are appurtenant to the land on which the water is to be used and are issued in the name of the owner, as defined in the Act, of the appurtenant land.

If it is desired that the license should be issued in the name of the Superintendent-General it would appear necessary that the Department should own an interest in the land on which the water works are constructed, or on which the water is used.

Your obedient servant,

J. T. Johnston,
Director.

Original on.. 160-0-9.

September 11, 1930.

Dear Mr. Ditchburn:

I have your 30/16/18586 of the 15th ultimo, with reference to protecting the Department's investment in the new water supply system at the Cariboo Indian Residential School. I intended to discuss this question with the church authorities, with a view to having the property there transferred to the Crown. In a few years at most, the old buildings will have to be demolished and a modern school erected, and, before that could be done, it would be necessary for us to have title to the property. It is possible that the Oblate Order will be glad to make the transfer now.

In the meantime, I see no reason why the application for water rights should not be made in the name of the Oblate Order. At a later date, when the property is transferred to the Department, any licenses appurtenant to the land on which the water is used would be part of the title.

Yours very truly,

Duncan C. Scott

Dear Mr. Johnston:

I have your 2543-W A of the 4th instant, with reference to the water supply for the Cariboo Indian Residential School, near Williams Lake, B. C. It will be satisfactory if water license is issued in the name of the Oblate Order which owns the land on which the water is to be used. This Department is making arrangements with the Order which will protect our investment.

Yours very truly,

Duncan C. Scott

Notice to Bidders.

Information contained under Part 2 of these specifications,

"Material and Fittings to be Supplied by the Contractor"

Has been compiled for general estimating purposes only.

Intending bidders must satisfy themselves that the materials and fittings called for under Part 2 of these specifications, and which must be supplied by the contractor, are sufficient in quantity and number to make a complete and satisfactory installation when they have been assembled.

No extra charges for additional fittings under Part 2 of these specifications, except where such fittings may reasonably be included under the heading "Extra Work" will be allowed. (See Paragraph 3, page 4, part 1, of these specifications).

Steel pipe called for under these specifications shall be bituminous-coated and burlap-wrapped, having ordinary hub and spigot, lead-filled joints throughout; or plain ends, having welded joints throughout; except where flanges are necessary to connect to flanged fittings. The tender will specify the type and make of pipe and connection proposed to be used.

ENGINEER

The word "Engineer" used in these specifications or in the contract means the District Chief Engineer of the Dominion Water Power and Hydrometric Bureau, Vancouver, B.C., acting on behalf of the Department of Indian Affairs, who will be represented by assistants or inspectors authorized to act for him.

On all questions concerning the acceptability of material or machinery, the execution of the work and the determination of costs, the decision of the engineer shall be final.

CONTRACTOR

The word "Contractor" used in these specifications or in the contract means the person, firm or corporation with whom the contract is made by the Department of Indian Affairs.

The contractor shall, during the erection of the plant, be represented on the works in person or by a foreman or duly designated agent, and instructions or information given by the engineer to the contractor, foreman or agent shall be considered as having been given to the contractor.

MATERIAL AND WORKMANSHIP

All material must be of the specified quality and equal to approved samples, if samples have been submitted:

All work shall be done and completed in a thorough workmanlike manner, notwithstanding any omission from these specifications or the drawings.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

POOR COPY

All material furnished and all work done must be satisfactory to the engineer; work not in accordance with these specifications in the opinion of the engineer shall be made to conform thereto.

Unsatisfactory work or material may be rejected by the engineer at any stage of the work and if so ordered by the engineer shall, at the contractor's expense, be immediately removed from the vicinity of the works.

The absence of an inspector at the time the work was carried out shall not relieve the contractor from his responsibility to perform a satisfactory class of work. .

DELAYS

The contractor shall receive no compensation for delays or hindrances to the work, except when, in the judgment of the engineer, direct or unavoidable extra cost to the contractor is caused by the failure of the Dominion Water Power and Hydrometric Bureau to provide necessary information or site for installation.

All decisions of the engineer with regard to any claims for compensation shall be accepted by the contractor and regarded by him as final.

CLIMATIC CONDITIONS

The engineer may order the contractor to suspend work at any time should he consider that this work may be damaged by climatic conditions.

When delay is caused by an order to suspend work given on account of climatic conditions, the contractor shall be entitled to a reasonable extension of time on account of such an order and the engineer's decision

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

Poor-Co

the engineer's decision as to what constitutes a reasonable extension of time shall be considered as being final.

CHANGES

The engineer may, upon notice to the contractor and without notice to the sureties on the contractor's bond, make such changes in the work or in the design or in the amount of materials required as the engineer may deem advisable; if such changes result in an increase or decrease of cost to the contractor the engineer will make such additions or deductions on account thereof as he may deem reasonable and proper, and his action shall be final.

EXTRA WORK OR MATERIAL

In connection with the work covered by this contract, the engineer may order work or material not covered by these specifications. Such work or material will be classed as extra work and will be ordered in writing. No extra work will be paid for unless ordered in writing and only at the rate or amount fixed upon in the written order.

INSPECTION

All materials furnished and work done under this contract will be subject to inspection.

The contractor shall furnish complete facilities, including the necessary labour, for the inspection of all material and workmanship.

The engineer shall have at all times free access to all places where materials under construction are being stored, manufactured or installed, and all materials or work

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-COP

materials or work that do not conform to the specifications, accepted through oversight or otherwise, may be rejected at any stage of the work.

ERRORS AND OMISSIONS

The contractor will not be allowed to take advantage of any error or omission in these specifications or drawings; suitable instructions will be given where an error or omission is discovered.

SPECIFICATIONS AND DRAWINGS

The engineer will furnish the contractor with such detailed plans and information as he may consider necessary for the contractor's guidance.

DATA TO BE FURNISHED BY THE CONTRACTOR

The contractor shall furnish the engineer reasonable facilities for obtaining such information as he may desire respecting the character of the material and the progress and manner of the work, including all information necessary to determine its cost, such as the number of men employed, their pay, the time during which they worked on the various classes of construction, etc.

DAMAGES

The contractor will be held responsible and required to make good, at his own expense, all damages to person or property caused by carelessness or neglect on the part of the contractor, his agent or employees.

CHARACTER OF WORKMEN

The contractor shall not allow his agents or employees to trespass on lands or premises in the vicinity of

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-COP

the vicinity of the work; and shall, when required by the engineer, discharge any person in his employ who is, in the opinion of the engineer, disorderly, dangerous, incompetent or objectionable.

METHODS AND APPLIANCES

The methods and appliances adopted by the contractor shall be such as will, in the opinion of the engineer, secure a satisfactory quality of work and enable the contractor to complete the work in the time agreed upon.

If at any time the methods or appliances appear to be inadequate, the engineer may order the contractor to improve their character or efficiency and the contractor shall conform to such an order; but the failure of the engineer to order such improvement of methods or efficiency will not relieve the contractor from the obligation to perform a satisfactory class of work and to finish it in the time agreed upon.

PROTECTION

The contractor shall be responsible for all material furnished him and for the care of all work until its completion and final acceptance.

The contractor will be responsible for the safety of all men engaged upon the work and shall adopt such methods of construction as will ensure their well-being, and shall accept full liability for all damage suits, claims for compensation, etc., arising out of any injury to an employee working under his control.

PART III

WORK TO BE PERFORMED BY THE CONTRACTOR

The contractor shall at the places designated on the plans accompanying these specifications, lay all pipes, install all fittings and equipment, erect all buildings and structures called for in this contract.

The pipes to be laid are:-

WATER PIPES

16,000 lin.ft. 3" diameter wood stave pipe with necessary air valves, washout valves, etc., as detailed below, namely:-

2,000 lin.ft.	for 50' head
4,000 " "	" 100' "
5,500 " "	" 150' "
1,000 " "	" 200' "
1,000 " "	" 250' "
2,500 " "	" 300' "

3,000 lin.ft. 6" diameter steel pipe
500 " " 3" " " "

DRAINAGE PIPES

140 lin.ft. 3" land tile
50 " " 4" " "

and the contractor shall perform all clearing and excavation necessary for the proper laying of the above pipes and shall, upon its completion, backfill all or such portions of the trench occupied by this pipe as may be considered necessary by the engineer.

THE STRUCTURES TO BE ERECTED ARE

1 concrete intake dam and screen box,
1 concrete pressure relief box,
1 reinforced concrete reservoir,
5 frame hydrant houses with concrete curb walls,
and the contractor shall, at points shown on accompanying plans and which will be staked out for him by the engineer, build the foregoing structures, and the work shall include

PART IV

DETAILED SPECIFICATIONS

Reservoir

The reservoir shall be of concrete construction reinforced with 1/2-inch, 5/8-inch and 3/4-inch round steel rods.

It shall be built to the dimensions shown on the plan.

It shall be finished in a workmanlike manner and when completed, the inside walls, floor, and ceiling shall be given one coating of cement plaster, the outside walls a coating of pitch applied hot, and the roof a coating of asphalt not less than 1/4-inch in thickness.

HYDRANT HOUSES

Hydrant houses shall be of frame construction, built in a substantial manner of No.1 grade material and securely fastened to foundations.

Roofing shall be of best quality 3-ply prepared roofing of fire resisting type.

The doors shall be substantially made and hung and shall have fasteners as shown on plan.

Completed houses shall be given two coats of oil stain.

VALVE BOXES

Valve boxes shall be of concrete construction built to such dimensions as shown on the plan and finished in a workmanlike manner.

CONCRETE

All concrete used in the construction of the above buildings shall be composed of the following

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR CO

ingredients proportioned by volume into what is known as a 1:2:4 mixture:

Cement	1 part
Fine aggregate	2 parts
Coarse aggregate	4 parts
Water	

CEMENT

The cement shall be a first-class Portland cement, of standard brand, free from lumps or foreign matter, and until it is used shall be stored in a building which will protect it from the weather.

FINE AGGREGATE

Fine aggregate shall consist of sand, crushed stone or gravel screenings; the particles shall be hard, dense and durable and such that they will pass through a 1/4-inch mesh screen. It shall be clean and free from soft particles, clay, loam and all organic matter; and it shall be so graded that when dry and well-shaken the voids will not exceed thirty per cent.

COARSE AGGREGATE

Coarse aggregate shall consist of crushed stone or gravel having its smallest particles approximately 1/4 inch in diameter and its largest particles approximately 1 1/2 inches in diameter. It shall be graded from the smallest to the largest particles and shall be clean, hard, durable and free from all deleterious matter.

WATER

Water used in mixing concrete shall be free from oil, acid, alkalies or organic matter.

MIXING

A mixer of the type which ensures the uniform proportioning of the materials throughout the mass shall be used for mixing the concrete and the mixing shall continue for at least one minute after all the ingredients are assembled in the mixer.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOK-COP

CONSISTENCY

The materials shall be mixed wet enough to produce a concrete of such consistency that it will flow sluggishly into the forms and about the metal reinforcements and which, at the same time, can be conveyed from the mixer to the forms without separation of the coarse aggregate from the mortar.

STEEL REINFORCEMENT

All steel reinforcement used shall be of medium hardness, free from excessive rust, scales or coating, and shall conform to the standard specifications for Concrete Reinforcement Bars of the American Society for testing materials.

SPLICING

No splicing of reinforcement bars will be allowed at points receiving stress; and all splices made are to be subject to the approval of the engineer and may be rejected by him at the contractor's expense, should he deem them to be unsatisfactory.

CEMENT PLASTER

Cement plaster used on the inside of the reservoir shall be mixed by weight in the following proportions:

Portland cement	1 part.
Sand	1 part.

It shall be applied uniformly so as to give a smooth finish and shall in no place be less than $\frac{3}{32}$ of an inch in thickness.

WOOD STAVE PIPE

All wood stave pipe called for in these specifications shall be of 3-inch diameter wood stave with steel double coupling and double burlap jacket.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-C

Joints shall be coated and wrapped as hereinafter stated in these specifications.

STEEL PIPE

All 6" diameter steel pipe called for in these specifications shall be of standard 6" diameter bituminous-coated burlap-wrapped steel pipe, weighing not less than 11.5 lbs. per lineal foot exclusive of coating and wrapping. All 3" diameter steel pipe called for in these specifications shall be of standard 3" diameter bituminous-coated, burlap-wrapped steel pipe weighing not less than 4.5 lbs. per lineal foot exclusive of coating and wrapping. The pipes may be of random lengths, but their average length when taken over all shall not be less than 18'.

The pipes shall be straight and shall be true circles in cross-section with their inner and outer surfaces concentric.

They shall be smooth, free from dents, scales or lumps or any other defect which may unfit them for the purpose for which they are intended.

No plugging or filling will be allowed.

PIPE JOINTS FOR STEEL PIPE

All pipe joints for steel pipe shall be either standard hub and spigot lead-filled joints, or welded joints, as directed by the engineer, except where flanges are necessary to connect to flanged or screw fittings.

LEAD-FILLED JOINTS IN STEEL PIPE

Lead-filled joints of 6" diameter steel pipe shall contain not less than $\frac{1}{2}$ of a pound of hemp yarn and $3\frac{3}{4}$ pounds of lead.

Indian Affairs, (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOK

Lead-filled joints of 3" diameter steel pipe shall contain not less than $\frac{1}{4}$ of a pound of hemp yarn and 2 pounds of lead.

Joints shall be poured hot and finished in a workmanlike manner and so made that when they are completed they shall be capable of withstanding a pressure of 200 pounds per square inch.

WELDED JOINTS

Each welded joint, if used, shall be made by the oxy-weld process, and shall be what is known as the butt-welded, chamfered-end type.

They shall be so made as to leave a smooth surface on the inside of the pipe, and shall be subject to the approval of the engineer.

COATING AND WRAPPING OF JOINTS

All joints, shall, when finished, be coated with hot asphalt and burlap wrapped in such a manner that they shall have the same protection as the remainder of the pipe.

All coating and wrapping shall be subject to the approval of the engineer.

FLANGED JOINTS FOR STEEL PIPE

Where flanged joints are required to connect to flanged fittings, the pipe may be cut, threaded and standard cast-iron flanges fitted thereto.

CAST-IRON PIPE

All cast-iron pipe called for in these specifications shall be made of good quality cast-iron, strong, tough and of even grain, and free from all scales, lumps, blisters, blow-holes, sand-holes, and "cold-shots", etc.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-CO

They shall be connected together where shown on plans by standard cast-iron flanges.

LAND TILE

All land tile supplied by the contractor shall be standard land tile of size specified, and no section shall be more than 18 inches in length.

Each section shall be straight and of uniform diameter and free from all bad holes, cracks, blisters, etc.

CULVERT PIPE

Culvert pipe shall be 12-inch diameter corrugated pipe of 16 gauge galvanized iron.

GRADE

All pipes shall be laid accurately to the required depth and on the required lines and grades called for in the plans accompanying these specifications and which will be staked out for the contractor by the engineer.

CAST-IRON FITTINGS

All cast-iron fittings called for in these specifications, including all cast-iron tees, elbows, spigots, reducers, reducing tees, flanges, etc., shall be of good standard quality and capable of performing the work for which they are designed.

They shall conform in size to the standard dimensions for such fittings and shall be subject to rejection by the engineer should he deem them unfit for the purpose for which they are required.

GATE VALVES

All valves called for in these specifications shall be of good quality, iron-body, bronze-mounted valves equipped with non-rising stems.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-CO

Where extension rods are required, these shall be connected in a workmanlike manner, and such connections shall be subject to the approval of the engineer.

AIR RELIEF VALVES

All air relief valves called for shall be of standard design, constructed of good quality brass, bronze or other material.

They shall be of such size as to be capable of removing the accumulated air from 2000 lineal feet of 3" diameter water main when this main is carrying a pressure of not more than 100 pounds per square inch.

They shall be capable of adjustment and so fitted that no leakage of water from the main shall take place when they are operating.

INTAKE SCREEN

Intake screen shall be of bronze or copper wire or other non-rusting material with a 6x6 mesh. The screening shall be set in a rigid metal frame which can be removed for cleaning purposes.

MANHOLE FRAMES AND COVERS

Manhole frames and covers shall be of good quality cast-iron of standard design and shall have a circular aperture as specified.

Covers shall be required to fit snugly into the places for which they are provided and when in place shall present a neat and workmanlike appearance.

HYDRANTS

All hydrants supplied by the contractor shall be standard 6" diameter body, bronze mounted flanged

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-CO

fire hydrants.

Each hydrant shall be supplied with a drain valve in the base of the body so arranged that this drain valve shall be open when the hydrant is closed and closed when the hydrant is open.

They shall be connected to pipe line with flanged or leaded joint.

Where leaded joint is made, hydrant clamps must be provided to be securely fastened to second pipe length from hydrant, as shown on plans.

They shall be made suitable for use in a 5-foot trench.

They shall have two outlets $2\frac{1}{2}$ inches in diameter, threaded with City of Vancouver hose thread. Each hydrant shall be fitted with one $2\frac{1}{2}$ -inch hydrant gate valve and shall be equipped with outlet caps and hydrant wrenches.

Installations shall be made by the contractor of hose valves and hose reels or brackets within the buildings, as shown on the plans. These shall be for $1\frac{1}{2}$ -inch hose connections.

GASKETS

Where copper gaskets are specified they shall be full face, of the required diameter and of 26 gauge sheet copper.

Where lead gaskets are specified they shall be half face, of the required diameter and of 18 gauge sheet lead.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

BOLTS FOR CONNECTING FLANGES

All bolts used for connecting flanges shall be of steel of standard dimensions and not more than 1/8" smaller in diameter than the holes in the flanges through which they pass.

They shall be equipped with square heads and hexagon nuts and threaded so as to permit the nut to run the entire length of the thread.

NUTS

Nuts shall be hexagonal in shape and of sufficient thickness to ensure against stripping of threads.

PIPE COVERS

Pipe covers shall be of cast-iron and may be either flat or semi-spherical in shape.

They shall be of sufficient size to properly protect the opening in the pipe for which they are required and shall be so made that when they are in place they do not interfere with the entrance or exit of air into or from the pipe.

An approved method of fixing the pipe covers to the pipe so as to prevent their removal shall be devised and carried out by the contractor.

MISCELLANEOUS

All other miscellaneous fittings and other items of minor importance necessary to the installation of the above water supply system and not mentioned in detail in these specifications shall be supplied by the contractor and shall be subject to the approval of the engineer.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-CO

W O R K

EXCAVATION

All excavation necessary for the proper installation and construction of the above buildings and pipe shall be undertaken by the contractor and the contractor will be required to carry such excavation down to the grade lines or stakes, as set out on the ground by the engineer, notwithstanding any errors or omissions in, or resulting from changes to, the plans accompanying these specifications.

BACKFILLING

The contractor will be required to perform all backfilling upon all pipe, buildings, fittings, etc., as may be considered necessary by the engineer, but no backfilling shall be carried out during the absence of the engineer or before the engineer has had sufficient time to inspect the work upon which the backfilling is to be placed.

Work covered up without due notice first having been given to the engineer shall be uncovered and re-covered at the contractor's expense.

PIPE LAYING AND TESTING

All pipe shall be laid in straight lines on even grades at a depth of not less than 5 feet below the surface of the ground when measured from the top of the pipe.

Where additional excavation is necessary to maintain these even grades, this excavation shall be undertaken by the contractor.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR

Where bends are required and elbows are not used for this purpose, the bends shall be made subject to the approval of the engineer.

All pipe installed by the contractor shall, before backfilling is carried out or before the pipe is covered in any way, be subjected by the contractor to either an hydraulic or air pressure test in the presence of the engineer so as to ensure that all joints are tight and properly made. All leaks found at the time of the test shall be made tight by the contractor.

The pressure which the pipe will be required to carry during this test shall not be less than 200 pounds or more than 250 pounds per square inch.

STEEL REINFORCEMENT

CLEANING

Steel reinforcement before being placed shall be thoroughly cleaned of rust, scale and coatings of any character that will destroy or reduce the bond.

Reinforcement appreciably decreased in section shall be rejected.

BENDING

Reinforcement shall be carefully formed to the dimensions indicated in the plans accompanying these specifications.

The radius of bends shall be 4 or more times the least diameter of the reinforcement bar.

STRAIGHTENING

Metal reinforcement shall not be bent or straightened in a manner that will injure the material. Bars with kinks or sharp bends shall not be used.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-C

PLACING

Steel reinforcement shall be accurately placed and secured against displacement by using annealed iron wire of not less than No.18 gauge, or suitable clips at intersections, and shall be supported by concrete or metal chairs or spacers or by metal hangers.

Parallel bars shall not be placed closer than $1\frac{1}{2}$ times the diameter of round bars.

The reinforcement shall be firmly and accurately placed so that the centre of the bars shall be the exact distance from the inside of the nearest forms as required by the plans accompanying these specifications, and so fixed that no sagging of the reinforcement against or away from the forms while the concrete is being poured can take place.

SPLICING

Splicing of tension reinforcement at points of maximum stress will not be allowed. Splices where required shall provide sufficient lap to transfer the strain between bars by bond and shear.

GENERAL

All other work in connection with the above installation is to be carried out by the contractor in such a manner and by such methods as will, in the opinion of the engineer, ensure a satisfactory quality of work.

COMMENCEMENT, PROSECUTION AND COMPLETION OF WORK

Work shall be commenced by the contractor within 20 days and shall be completed within 60 days after the execution of the contract on behalf of the Department of Indian Affairs.

Indian Affairs. (RG 10, Volume 6437, file 878-5, part 2)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR-C

The contractor shall at all times during the continuation of the contract, prosecute the work with such force and equipment as in the judgment of the engineer are sufficient to complete it within the specified time.

FAILURE TO COMPLETE THE WORK IN THE TIME AGREED UPON
LIQUIDATED LIABILITIES

Should the contractor fail to complete the work or any part thereof in the time agreed upon in the contract, or in such extra time as may have been allowed for delays, a deduction of \$15.00 (Fifteen Dollars) per day will be made for each and every day, including Sundays and holidays, that the work remains uncompleted after the date agreed upon.

The said amounts are hereby agreed upon by the contractor as being liquidated liabilities for loss to the Department of Indian Affairs on account of expenses incurred by the Department due to the employment of engineers, inspectors and other employees after the expiration of the time for completion, and the amount due the Department of Indian Affairs will be deducted from any money due the contractor under this contract.

September 17 1930.

Dear Mr. Fraser:

I have your letter of the 16th instant, with reference to the new water supply scheme for the Cariboo Indian Residential School at Williams Lake. Some months ago, I asked the Dominion Water Power and Hydrometric Bureau to make a report and recommendation, and they have suggested a gravity system from some springs three miles from the school, at a cost of approximately \$25,500.

The funds necessary for this improvement were obtained at the last session of Parliament, and the District Chief Engineer of the Dominion Water Power at Vancouver was instructed to proceed with the work. I am informed that tenders were returnable in Vancouver last Monday and I understand that the work is being proceeded with, provided a satisfactory tender was received.

Yours very truly,

Duncan C. Scott

Dominion Water Power and
Hydro-metric Bureau,
Vancouver, B. C.

Dear Sirs,-

We will install water service in connection with St. Joseph's Mission at Williams Lake, B. C., in accordance with plans and specifications and addenda, for the sum of: Thirty-one Thousand One Hundred Dollars (\$31,100.00).

The pipe that we propose to use on above work is as follows:-

3" wood pipe as specified.

6" steel pipe as specified but weighing 12.18 lbs. per foot.

3" steel pipe as specified, but weighing 4.84 lbs. per foot.

All joints on steel pipe and fittings to be leaded joints as specified.

By using 6" steel pipe, weighing 10.23 lbs. per foot, we can reduce the above cost to the extent of: Two Hundred Eighty Dollars (\$280.00).

Hoping to be favored with the contract for this work, which we are in a position to commence at once, and we assure you will be rushed to a speedy completion.

Yours very truly,

B. BOE, LIMITED.

Dear Sir: Re St. Joseph's Indian School.
Water Supply System.

I beg to quote for the installation of the above
System to your plans and specifications for the sum
of Thirty seven thousand three hundred 00/100 Dollars,
(\$ 37,300.00).

I have allowed for 1½" reducing valves to the
Domestic Water Supply.

Owing to the lateness of the season it would be
impossible to complete this job by the use of one
machine only, as it would take too long I have there-
fore allowed in my estimate for installing a good camp
and have allowed for a large force of men as it seems
a large force of manual labor will be the only way to
get the job done by freeze-up.

Yours truly,

E. H. Shockley

Re: Water Supply System,
St. Joseph's Mission School

Encl.

I enclose for your information copy of letter dated January 31st, from Mr. Webb, together with copy of memorandum by Mr. Archibald of his staff, dealing with the water available from the springs chosen as a source of supply for the St. Joseph's Mission School.

You will observe that Mr. Webb does not think that it would be advisable to proceed with this project until the question of the sufficiency of the water supply has been settled. He states that the whole matter is being investigated and will be reported on more fully at a later date.

Your obedient servant,

J T Johnston

Sir:-

Re: Domestic Water Supply,
St. Joseph's Mission School.

With reference to the proposed domestic water supply system for St. Joseph's Mission school at 150-Mile House, tenders for which were called in the fall of 1930, I have to inform you that some question has arisen with reference to the available water supply from the springs which have been chosen as the source of supply for this project.

It appears that when Engineer Archibald made out the application for water he knew no name for the spring upon which application was made. It now develops that this spring is the source of a small creek known as Felker creek, upon which a water licence has been in existence since 1889 for irrigation purposes and while no water has been used under this licence for some years the holder of the licence, Mr. Felker, received on May 15, 1929, Conditional Licence No. 9961 from the Provincial Comptroller of Water Rights, this licence being a renewal of the old licence and takes precedence from the 13th December, 1889, for 70 acre-feet of water from Felker creek for irrigation purposes on 50 acres of land on Lot 33, Group 1, Cariboo district.

Memorandum in duplicate by Mr. Archibald dated January 20th on this subject is enclosed for your reference, from which you will note there is sufficient water to satisfy both the Felker and the Indian school record provided the irrigation record allows a continuous flow during the irrigation period. This however, I do not think is possible due to the small volume of water. An irrigation head is necessary and the 70 acre-feet held under licence will be drawn as irrigation needs demand. No rate of flow is specified in the conditional water licence.

The whole matter is now being investigated. The Comptroller of Water Rights is being consulted in the matter, and the Felker licence will be reviewed, following which we will be in a position to definitely determine if there is sufficient water available to satisfy both licences. The

POOR COPY

J.T. Johnston, Esq.

January 31, 1931.

Indian School licence is, of course, second to that of the irrigation licence in priority.

In the meantime, in view of the large expenditure involved, I do not think it would be advisable to proceed with the domestic water supply project for the Indian Residential school, until we are satisfied that there is sufficient water to serve both licences without any possible future controversy.

The matter will be reported on more fully at a later date.

Your obedient servant,

C.E. Webb,
District Chief Engineer

VANCOUVER, B.C. January 20, 1931.

Memorandum to Mr. Webb.

Re your memo of the 10th inst. respecting the objection of Mr. Felker to the diversion of water from the south branch of Felker Creek, for domestic use in St. Joseph's Mission.

At the time of investigation of the springs, requested in your letter of October 6, 1928, I was informed that they were nameless, and the pre-emptor's map in my possession at the time gave no name to the creek that they formed.

I found traces of old irrigation works from both spring channels, and on enquiry was informed that they had not been in operation for many years. This was evident from their condition. I was also told that the property formerly irrigated from these springs had long been abandoned. Water notices were accordingly posted, on 15th July, 1930, and application made for right to divert water from an unnamed spring, which is now recognized as the source of the south branch of Felker Creek, and which, according to my report of May 13, 1929, was estimated to have a minimum flow of 0.25 c.f.s., a flow well in excess of the requirements of St. Joseph's Mission.

Following are tables showing the measured flow in the north and south branches of Felker Creek during 1929 and 1930.

Flow in North Branch, Felker Creek.

<u>1929</u>	<u>C.F.S.</u>
May 21	0.05 Temporary weir.
June 7	0.035 " "
July 8	0.03 " "
Aug. 7	0.05 Permanent weir.
Oct. 11	0.05
<u>1930</u>	
May 19	0.034
Oct. 4	0.04

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

POOR COPY

Flow in South Branch, Felker Creek.

<u>1929</u>	<u>C.F.S.</u>
June 7	0.25 Temporary weir.
July 8	0.31 " "
Aug. 7	0.40 Permanent weir.
Oct. 11	0.34

<u>1930</u>	
May 19	0.362
Oct. 4	0.324

Flow in Felker Creek
Summation of flows in north and south branches

<u>1929</u>	<u>C.F.S.</u>
May 21	0.36 Temporary weir in main creek.
June 7	0.285 Temporary weirs in branches.
July 8	0.34 " "
Aug. 7	0.45 Permanent weirs.
Oct. 11	0.39

<u>1930</u>	
May 19	0.396
Oct. 4	0.364

The above tables show the minimum flow recorded by temporary weir measurements to be 0.285 c.f.s. in June, 1929.

Mr. H. E. Taylor's letter of January 16, 1930, states that an old licence of 1889 on Felker Creek was renewed on May 15, 1929, shortly after investigations were made by us. This new C.L.No.9961 is for 70 acre-feet, which corresponds to a flow of 0.195 c.f.s. during the irrigation period April 1st to September 30th.

The application of the Order of Oblates of Mary Immaculate asks for the right to divert 25,000 gals. per day, which corresponds to a flow of 0.0464 c.f.s.

The combined requirements are, therefore, 0.2414 c.f.s., which is less than the lowest recorded flow of 0.285 c.f.s. in Felker Creek, as stated above.

In view of the above facts, it would seem that there is no good grounds for any objection to the application for St. Joseph's Mission.

Sir,

Re St. Joseph's Mission School.

With reference to the proposed water supply system for the St. Joseph's Mission school which it is understood will be authorized next year, Mr. Webb advises me that an enquiry has been received from the Kamloops Plumbing and Heating Company asking if they may tender on this work if the tender has not yet been awarded. In view of this Mr. Webb suggests that it might be advisable to call for new tenders early in the spring, say about April 1st.

Will you please advise me in good time when it is intended that these tenders should be called for.

Sir:-

Re St. Joseph's Mission School.

In further reference to my letter of the 15th instant regarding the proposed water supply system for the St. Joseph's Mission School, we are advised by Mr. Webb that the present plumbing in the Mission buildings, owing to its age, will in all probability not withstand the pressure in the new water system. It is therefore considered advisable to renew the plumbing throughout the institution at the time when the new water supply system is constructed. An estimate of the cost of the replacement of the plumbing amounts to \$637.00. A summary of the material required for this purpose upon which this estimate is based is attached hereto.

Your obedient servant,

Dear Sir:

I have the honor to refer to the matter of the domestic water system in connection with the Cariboo Indian Residential School at St. Joseph's Mission, 150-Mile House, B.C., as dealt with under Departmental File No. 160-0-9, and beg to report that on September 29th ultimo Reverend V. Rohr, O.M.I., principal of the school, drew my attention by letter to the belief which he held that the proposed water supply system will have much greater pressure than the present supply; that a large part of the school plumbing had been in use for quite a number of years, on which account he was afraid that it would not stand the pressure of the new system. He therefore suggested that, if possible, all the plumbing of the school buildings should be renewed at the time the new system is installed.

The matter having previously been brought to the attention of the Dominion Water Power and Hydro-metric Bureau District Chief Engineer in Vancouver, an estimate of the proposed cost of new plumbing had been solicited.

I have now received a letter No. 27984-21, dated October 20th, from the District Chief Engineer, covering an estimate as sent to his Director at Ottawa and dated October 20th, which have been carefully examined. Copies of these communications are sent herewith for the Department's perusal, and will be self-explanatory.

I would like to be advised in due course as to what may be the pleasure of the Department in regard to the proposed installation of plumbing at an additional cost of \$637.13, in the event of the installation of the new water supply being proceeded with.

Your obedient servant,

W. E. Ditchburn

Sir:

I am enclosing for your information, copy of a letter which I am today addressing to our Director with reference to the renewal of plumbing in the St. Joseph's Indian Mission at 150-Mile House, the estimated cost of which is \$637.00

I think it would be advisable to have this plumbing installed when the new domestic water supply system is being constructed.

I am today in receipt of advice from my Director that the Department of Indian Affairs have decided to postpone the installation of this water supply system for the present.

Your obedient servant,

"C. E. Webb."

Sir: Re: St. Joseph's Mission,
 Domestic Water Supply

With reference to the installation of a domestic water supply for the St. Joseph's Indian Mission at 150-Mile House, I am informed by Mr. Engineer Archibald that the present plumbing in the Mission buildings, owing to its age, will in all probability not withstand the pressure in the new water system. It is therefore considered advisable to renew the plumbing throughout the institution at the time when the new water supply system is constructed.

An estimate of cost of the replacement of the plumbing amounts to \$637.00. A summary upon which this estimate is based is appended herewith.

Your obedient servant,

C.E. Webb
District Chief Engineer

MEMORANDUM

Mr. Buskard -

R

Re Water Supply system, St. Joseph's
Mission School, Williams Lake.

With regard to the Minister's request that we ascertain whether the lowest tenderer, MacLennan Bros. 421 Rogers Building, Vancouver, is an established firm and financially able to carry out its undertaking, I have to say that inquiry was made of the Secretary of the Canadian Construction Association who ascertained from their representatives in Vancouver that this firm has practically no financial standing and that their credit is weak.

In reply to an inquiry made of General A. D. McRae of Vancouver, he wires that he is unable to find anything definitely favourable about McLennan Bros. I am attaching a copy of Gen. McRae's telegram.

We have also a report from Mr. C. E. Webb, District Chief Engineer, Vancouver, who in view of information received does not consider it advisable to award the contract to McLennan Bros. and suggests that, in view of the lateness of the season, this contract be not awarded until next spring. I am enclosing a copy of Mr. Webb's telegram. I may say that we would be disposed to act on Mr. Webb's suggestion in this matter if that meets with the approval of the Superintendent General.

Re Water Supply -
St. Joseph's Mission School.

In further reference to my letter of
the 1st instant regarding the water supply for the
St. Joseph's Mission school, the following telegram
has been received from Mr. Webb under date October 4th -

"Re Williams Lake water supply McLennan
Brothers unable present accepted cheque ten
percent of their tender stop in view of lateness
in season recommend contract be not awarded until
next spring frost and unfavourable weather liable
to be encountered after middle of October."

As the cost of this project is very
considerable and as it would be materially increased
by endeavouring to carry out the work under winter
conditions, I agree with Mr. Webb's recommendation that
this work should be postponed until the spring.

Your obedient servant,

J. T. Johnston,
Director.

Dominion Water Power and Hydrometric Bureau

Vancouver, B.C.,
September 16, 1930.

Sir,

Re Water Supply System,
St. Joseph's Mission.

In further reference to my nightlettergram of yesterday, I am enclosing herewith letters received from the following firms with tender price in connection with the proposed water supply system for St. Joseph's Mission School:-

MacLennan Bros.	\$24,674.78
Nick Cosco	29,750.00
B. Boe, Ltd.	31,100.00
K.M. Skene	31,405.00
The Jamieson Construction Co.	35,100.00
E.H. Shockley	37,300.00
Vancouver Pile Driving & Contracting Co. Ltd.	42,000.00
Forsyth & Blair	46,095.00
Harrison & Lamond Construction Co.	51,173.00

In connection with the specifications sent you under date of September 10th, I received further advice on September 12th from our Mr. Archibald as to length of pipe etc. Immediately on receipt of this information I forwarded copies of the enclosed letter to all firms who had received specifications. You will note that in addition to certain additional valves, etc. the main pipe has been increased in length by 3500 feet. These additions would, therefore, increase the cost over and above our original estimate by three or four thousand dollars. The tenders received above all include this additional pipe etc.

As stated in my lettergram, I recommend the lowest tender, that of Messrs. MacLennan Bros. be accepted. I have looked this firm up and find they have recently installed the water system at Sechelt for the Union Estates Ltd. to the satisfaction of the engineers, Messrs. Hawkins & Horie. You will note this firm propose to use British Mannesmann steel pipe but no doubt would use Canadian made pipe at a slightly higher price.

If Messrs. MacLennan Brothers tender is not acceptable I would recommend that of B. Boe as I am confident that this firm would carry out the work to our entire satisfaction. Mr. Boe has done considerable work in the Williams Lake District and is familiar with the type of work proposed.

In any case as mentioned in my lettergram I would recommend that the successful bidder be required to post a bond of ten per cent of the contract price and if this is agreed to, would you kindly supply me with the necessary forms duly filled out and ready for signature.

Encl.

Your obedient servant,

J.T. Johnston, Esq., C.E.,
Dom. Water Power & Hydrometric Bureau,
Dept. of the Interior,
Ottawa.

September 12, 1930.

Gentlemen:

Re Tenders, Water Supply System,
St. Joseph's Mission.

In connection with the specifications supplied you, I beg to advise the following amendments and corrections:-

Instead of 16,000 lineal ft. of 3" diameter wood stave pipe, this pipeline will consist of 19,500 lin. ft. of similar sized pipe.

The same proportions as given on Page 9 of the specifications will be used in the line, that is, $19\frac{1}{2}/16$ th of the lengths of the various heads.

Instead of 3,000 lin. ft. of 6" diameter steel pipe, it will only be necessary to supply 2800' of 6" diameter steel pipe.

For 5 outside hydrants and hydrant houses it will be necessary to supply 6 outside hydrants and hydrant houses.

In connection with the blow-out valves etc. mentioned in the specifications, it will be required to supply 4 blow-out valves and boxes and 3 air valves.

It will also be necessary to supply 4 pressure reducers to the domestic piping already installed in the buildings.

Yours truly,

C. E. Webb,
District Chief Engineer.

Dear Sir:-

I have the honor to transmit herewith copy of a letter received from the Reverend Brother Collins, O.M.I., of Cariboo Indian Residential School, dated April 6th, in which the request is made by him that the Department supply his school with about 100 lbs. of Jerusalem Artichoke for seed purposes. I have ascertained that the approximate cost would be 10¢ per pound at Victoria. There would be freight to pay thereon which, no doubt, would be met by the school authorities. The request is referred to the Department in view of the fact that the estimates for British Columbia have been subjected to reduction through retrenchment, but if the Department is able to authorize the purchase of this seed, I will buy them in Victoria and ship them to the School.

My dear Sir:-

I would like to secure through your courtesy some
Jerusalem Artichokes for seed.

I see by the Experimental Farms report that this
new vegetable has given good results at the Sidney Experimental
Farm on Vancouver Island.

If I could get about 100 lbs. I would be delighted.
Thanking you in anticipation for this new favour and hoping
you are enjoying good health, I am,

Yours very sincerely,

"Bro. Collins, O.M.I."

Dominion Water Power and Hydrometric Bureau

Vancouver, B. C.,
February 16, 1931.

Sir:

Re: Domestic Water Supply,
St. Joseph's Mission
School.

Further to my letter of the 31st ult. with reference to proposed domestic water supply system for St. Joseph's Mission school at 150-Mile House, from a spring which is the main source of Felker creek, I have to inform you that the matter of water rights has been thoroughly reviewed.

I am informed by the Comptroller of Water Rights that the old water licence No. 2121 of H. A. Felker, taking precedence from 13th December, 1889, has been cancelled as it was imperfectly issued and a licence No. 9961 has been issued in lieu thereof, taking precedence from the same date. The purpose for which the water is to be used is irrigation and amounts to 70 acre-feet per annum.

The area and description of the irrigable land are an undefined 50 acres, comprising part of Lot 33, Group 1, Cariboo District. Under Board Order No. 8124, irrigation improvements are to be completed and water put to beneficial use on or before the 1st of November, 1931.

I have had conferences with Mr. Indian Commissioner Ditchburn and Rev. Father Rohr, head of the St. Joseph's Mission and both agree with me that it would not be advisable to proceed with the construction of the domestic water supply system for the school until we are assured of an adequate supply of water without any possibility of litigation with the holder of prior water right on Felker creek, which is the proposed source of supply for the Indian Residential School.

It is quite possible that the Felker interests will not do any work on their irrigation system this year. If no work is done by them before November 1, 1931, we will be in a position to ask for the cancellation of Conditional Licence No. 9961, due to non-compliance with conditions set out in Board Order No. 8124, and I feel confident that the Comptroller of Water

J. T. Johnston, Esq., C.E.,

Rights will give favourable consideration to such an application. If and when the licence for the Indian School is given priority over the other licence then we will be in a safe position to proceed with the water supply project.

Should the Felker interests proceed with their improvements during the coming summer it may then be necessary to approach them with a proposal to allow us to obtain the small supply needed for our requirements at the school. The Felker interests would no doubt demand some compensation for any such arrangement.

In the meantime I think it would be advisable to leave the matter in abeyance.

Your obedient servant,

(Sgd.) C. E. Webb,
District Chief Engineer.

MEMO FOR FILE:

Very Rev. Father Byrne Grant, O. M. I., has discussed with me this morning the proposal to erect two outdoor classrooms at the Cariboo Indian Residential School. This would permit of using the present classrooms on the first floors as dormitories and would mean safer conditions in the event of fire. Further, the accommodation would be increased by 40 and the Chilcotins, who are now favourable to sending their children to school, could thus be assisted. I have made a note for Estimates, of a \$4,000 grant, towards the cost of these outbuildings and also an increase in pupilage of 40. It should be kept in mind that these outbuildings could be used as carpenter shop or implement shed, or gymnasium, after the proposed new building is erected.

Victoria, B. C.

Dear Sir:-

With regard to the attached letter from Mr. Indian Agent Taylor, dated August 17th in which he submits a list of repairs and improvements necessary at the Cariboo Indian Residential School, and in view of the fact that economy is necessary, I wish to recommend that:-

1. The painting of the implement shed might be left over for another year. The painting of the Boys' Washroom should be done this year.
2. The cement floor and drainage pipe for the Dairy Room is necessary now.
3. The Firebricks for the firebox in the Laundry are very necessary.
4. The repairs to the taps in the Laundry should in my opinion be carried out by the School from Per Capita Grant.
5. The 'New Grates' for heating of water tank in Laundry are now very necessary.
6. The 'New Grates' for heating furnace in Girls' Building are not mentioned in my report on the school. They might have escaped my notice, and are recommended now, as it is very necessary that the furnaces be kept in good working order. The temperature in winter is often 40 to 60 degrees below zero at this school.
7. The playroom fittings for the boys, boxing gloves, etc., should be provided out of Per Capita in my opinion.

This total estimate might well be reduced by \$75.00.

Your obedient servant,

"Gerald H. Barry"

District Inspector of Indian
Schools.

WILLIAMS LAKE AGENCY.

Williams Lake, B.C.

August 17, 1931.

Dear Sir:-

I beg to submit the following list of repairs and improvements necessary at the Cariboo Indian Residential School, and which the Principal states have been suggested by Mr. Barry the Schools Inspector, who will, I understand, recommend the expenditure. On a recent visit to the School, I went carefully into these matters, and there is no doubt but what they are very necessary.

Paint for implement shed and boy's washroom. This shed has never been painted, and is more or less of an eyesore amongst the painted buildings. The boy's washroom must be painted to keep it in a sanitary condition. Estimate..30 gals paint.....\$75.00

X Cement floor for Dairy Room with a 30' drainage pipe. 6"..... 40.00

X Firebricks around firebox in Laundry. This is a distinct fire hazard as at present used. A sheet iron stove is used to heat water in a top receptacle, for laundry purposes. The stove is broken in many places, and I would suggest replacing it with a brick firebox which can be built by the school staff. Estimate..brick & cement... 32.00

Repair laundry taps and pipes. The taps only require new washers. This should have been done by the staff long ago, and much water leakage thus prevented. Estimated cost 5.00

X New grates for heating furnace (water tank in laundry) ..Three 12" grates required for No. 908 Gurney...No estimate obtainable.

X New grates for furnace in girl's building. ..Three 16" grates required of roller type for No. 1901 Economy Heaterfurnace. No estimate.

Play room fittings for boy pupils. It is desired, in addition to the above recommendations by Insp. Barry, to convert a building into a boy's playroom and gymnasium. Netting to cover the windows is required and a set of boxing gloves. Estimated cost..... \$20.00

Total estimated cost of above is \$195.00, and I would be glad to know what is your pleasure in this matter.

Your obedient servant,

"H. E. Taylor"

Indian Agent.

POOR COPY

EXTRACT FROM REPORT OF MR. INSPECTOR G. H. BARRY,
DATED JUNE 16, 1931, ON HIS INSPECTION OF THE
CARIBOO INDIAN RESIDENTIAL SCHOOL.

- - - - -

LAUNDRY:

There are 24 wooden laundry tubs. These are also used for the boys' baths. The boys get a bath each week, and the girls have a bath once in two weeks.

There is one small electric washing machine. This is used only by the Sisters. All the ordinary laundry work is done by hand. There is no proper drying system. The clothes, in winter, are hung in the Indian parlor, a room used for the reception of Indian visitors.

The water used in the laundry is heated in a small tank, placed on a rather primitive iron fire box. This box is worn out, and I recommend that it be discarded, and a proper fire box built of brick. This could be done at the school by the boys under instruction of one of the staff.

There is a Gurney hot water heater and a tank for the domestic hot water. The heater appears to be in very good condition, but the water in the tank will not heat. This is due, I believe, to the arrangement of pipes leading from the heater to the tank and to the tubs. These pipes appear to be to be very badly arranged. A qualified plumber should be employed to examine the system and to report if anything can be done. The Principal will try to remedy the poor condition noted, but if he fails help will be required.

The Principal is anxious to have a fairly large washing machine. He spoke of one of the semi rotary type. I have seen these machines work in a satisfactory manner with steam, and at Alberni Indian Residential School off an ordinary 115 Volt alternating circuit attached to a motor. The system at this school is a 32 Volt direct current, and would not have the sufficient amperage to work a large washing machine. The Delco at the Cariboo develops 3 K.W. To do the washing in a proper manner I believe that some sort of gas engine would be required. If the Department can see its way to do so, I would recommend that this matter be taken up with the school, and some form of fairly large washing machine be supplied. This is not a very urgent matter.

KITCHEN:

The kitchen is kept in spotless condition. The water front in the kitchen range needs to be taken out and cleaned. The pipes from it to the hot water tank require cleaning inside. At present the water does not heat properly in this tank. The boys, under direction of the staff, ought to be able to do the required work.

ICE HOUSE:

I should like to recommend that an ice house be approved for this school.

RECOMMENDATION:

I wish to recommend that a substantial building be constructed to contain two large classrooms, and two cloak rooms. If this be done the present classrooms could be used for dormitory accommodation for about 40 extra children. The building of the manual training shop was so successful that I see no reason why the school could not, through the manual training class, erect the classroom building mentioned above. It would not be in any sense a temporary building.

I understand that a number of children from the Chilcotin country are very anxious to attend the Cariboo Indian Residential School next term. Without the extra accommodation recommended above, there will be room for only about ten new children next term. The Chilcotin Indians are now anxious to send their children to the Cariboo. A number have applied through their missionary, Father Thomas.

I am assured by the Principal of the school that if the Department will expend \$3000 on these new buildings, the Oblate Fathers will make up the difference, probably another \$1000. I hope that the Department will give serious consideration to the above recommendation.

EXTRACT FROM REPORT OF MR. INSPECTOR G. H. BARRY ON HIS
INSPECTION OF THE CARIBOO INDIAN RESIDENTIAL SCHOOL
ON JUNE 16, 1931.

- - - - -

SANITARY CONDITIONS:

The dairy room requires a new cement floor. If this were put down so that there was a good slope to one corner and about 25 feet of drain pipe supplied, the floor could be properly washed out. The boys could do the necessary work if the material was supplied.

WATER SUPPLY:

This originates in the San Jose creek. A ditch from the creek takes water into an artificial lake, known as Yellow Lake. This lake used to be a meadow, but was dammed by the Oblate Order years ago. The water from the lake is taken to the school in wooden pipes.

Yellow Lake is very shallow, from 1 to 3 feet deep, and a number of weeds grow in it. During the months of June, July and August, when the hot sun shines on the shallow water, the lake becomes rancid. It is then difficult to drink this water, but the school has no other option. In addition the fall from this lake to the school is so little that no pressure sufficient for fire fighting is generated.

About three miles from, and above, the school there are springs in the rock. This is known as the Felker spring. This spring gives abundance of excellent water, at present going to waste. If this water was piped to the school, the fall to which is about 250 feet, there would be a pressure of about 100 pounds to the sq. inch in the pipes at the school. This would be excellent for fire fighting. I understand that this water has been filed on by other interests; but if it is not used in another year or so, the school might be able to file on it. There are other springs nearer to the school which might well be investigated. I do not think they would produce as great a flow as the Felker springs, and if the water were piped to the school the pressure in the pipes would not be as great as 100 pounds to the sq. in.

Water is also brought from San Jose Creek direct. This comes through an open flume. This flume runs through the playground at the back of the girls' home. At this point it is about 2 ft. by 3 ft. and is sunk in the ground so that the top of the flume is level with the surface of the ground.

This water is used for irrigation. The girls also bathe in the flume in the summer.

On several occasions, and twice this spring, the ice breaking up produced a jam in the flume. This caused the girls' basement to become flooded. I inquired why this water could not be used for domestic purposes, as it did not come through Yellow Lake. I am informed that the fall is so slight that there would be no pressure to force the water through the pipes.

I think that the whole question of a proper supply of water for fire fighting and domestic use may well be left over for another year.

Sir:

I beg to acknowledge receipt of your 15/16/22252 of the 29th ultimo, with reference to certain repairs required at the Cariboo Indian Residential School. It is noted from the enclosed report of Inspector Barry that the following repairs can be made at a cost of approximately \$120:

1. Cement floor and drainage pipe for the dairy room.
2. Fire bricks for the firebox in the laundry.
3. New grates for heating furnace (water tank in laundry).
4. New grates for furnace in girls' building.

You may authorize Mr. Taylor to proceed with the above mentioned repairs at as early a date as possible and request him to keep the cost within the estimate.

C O P Y.

Office of Indian Agent.

Williams Lake, B.C.

Sept. 10, 1931.

Dear Sir:-

I beg to inform you that I am in receipt of a request from the Principal of the Cariboo Indian Residential School, for lumber to make safe and solid, dormitory floors, which are now sagging and in an unsafe condition.

I have inspected these floors, and am satisfied that the repairs requested are necessary- there is certainly an element of danger in the present insecure state of the floors which sink under the weight of the pupils when they enter the rooms.

The various beams and posts required amount in all to 350 linear feet of beaming and 300 feet of studding posts. Second grade fir, which is obtainable locally, would do for this work, and the estimated cost is \$100.00.

The actual work would be done by the boy pupils under the Manual Training Instructor, thus deriving a practical lesson from the work.

Your obedient servant,

H. E. Taylor.
Indian Agent.

The Secretary
Dept. of Indian Affairs
Ottawa, Ont.

Feb. 16th, 1932

FEB 24 1932

Dear Sir:

I beg to acknowledge receipt Of your letter # I-I-5, dated Feb. 5th.

Mr Taylor, local Indian Agent, was here yesterday, and I think that he is satisfied that we are doing all we can for fire prevention. I was going to ask the Department for more fire extinguishers, but the Indian Agent believes that, by placing what we have at more strategic points, we have enough. It was Colonel Pragnell who suggested the present number.

As the Department is aware, we have no fire hoses and no water with which to fight fire. We keep water in pails in the dormitories and other places but we can do nothing ^{more} as we have no pressure. On laundry days, we are frequently without water on the second storeys of our various buildings. Moreover, at present we have a very limited supply of domestic water. The wooden pipes, which bring our water from Yellow Lake, an artificial reservoir, were laid twenty years ago (1912). They sprang at least two leaks recently with the result that a great deal of water is lost. We can do nothing in this regard until the ground thaws out. I fear that a great deal of expense will have to be incurred as the whole pipe line, after twenty years of service, may be in bad condition.

In so far as fire drills and a night watchman are concerned, there is nothing to worry about; the case is far different when it comes to our great lack of water.

I beg to remain yours sincerely,

L. J. Jones

Sir:

I have your letter of the 26th ultimo, relative to the request of the Principal of the Cariboo Indian Residential School for new laundry tubs and stating the type required and the cost of same.

In reply I have to say that, in view of recent orders for strict economy, the Department has to request that the school authorities will provide the cost of the laundry tubs required from their per capita earnings or other receipts.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Memorandum:

Mr. Bushard

In answer to the Minister's inquiry on memorandum attached hereto, I have to report that I examined the file in this matter. It is not perfectly clear, but I think that the quotation was obtained by the Reverend G. Forbes, the Principal of the school, without any authority from the Department. It may have been obtained by the Indian Agent, Mr. H. E. Taylor, but judging by the papers I think the Principal must have obtained it. I could of course ascertain this by communicating with Agent Taylor, and will write him if the Minister would like me to do so.

MEMORANDUM:-

Mr. Buskard.

There is now required at the Cariboo Indian Residential School, 150 Mile House, B. C., in the federal district of Cariboo, approximately \$195.00 worth of galvanized iron laundry tubs. A quotation has been received from Crane Limited of Vancouver. This firm is a wholesale concern and I believe a saving would be effected if purchase were made from them but I am unable to find the name on the Vancouver list. May I have your instructions?

Your file;
I60-0-5

OFFICE OF
INDIAN AGENT

Williams Lake.B.C.
January 26th.1932

Sir;

I have the honour to acknowledge receipt of your letter of the 21st.inst.relative to a request received by you from the Rev.Principal of the Cariboo Indian Residential School,for new laundry tubs.

There is no power laundry in operation at this School - the wooden laundry tubs which are ranged around the walls are,as the Principal states,also used by the girls as bath tubs,owing to lack of bath house facilities.

Hot and cold water is piped to the tubs which are at present made of wood,very old and now beyond repair. Galvanised iron laundry trays are required to put the laundry into proper workable condition and I have a quotation from Crane Limited,Vancouver B.C. as follows;

One 7 section tray of 16 guage G.I.	\$115.00
One 5 " ditto	84.00
Two 6 " " @ \$98.50 each	197.00
Total	396.00

This quotation is F.O.B.the School station at 145 Mile but does not include waste pipe. For pipe and fitting another \$25.00 may be allowed.

We have recently had the laundry overhauled and new fire grates and heating tank installed for the heater which supplies the hot water,and with the installation of these iron tubs the laundry will,operate as efficiently as conditions in this old building will permit. I would recommend that consideration be given to the Rev. Principal's request if funds are available.

The Secretary
Dept.of Indian Affairs

EX-11

Sir:-

Part from
Report
attached

I have the honour to forward herewith my report of inspection of the Cariboo Indian Residential School for December 1931, the school being visited on December 21st.

I consulted with Rev. Father Grant of Ottawa re the matter of increased accommodation for children from the Chilcotin Indian Bands, and I gather that he has some agreement with the Department in this regard.

The question of a proper and pure water supply is still a very vexed one. The only water for fire protection is useless on account of lack of pressure, and the fire extinguishers are all we have to rely upon in case of an outbreak.

ENCL:

The Secretary
Dept. of Indian Affairs
Ottawa.

I have the honour to be, Sir,

Your obedient servant,

H.E. Taylor

Ottawa, January 21, 1932.

Sir:

The Department has received a communication from the Rev. Principal of the Cariboo Indian Residential School requesting that new tubs be supplied for use in the laundry. He states that the tubs at present in use are old and leaking, and are used both for laundry purposes and as bath tubs by the children.

The Department does not appear to have any definite information as to the laundry equipment required, and I shall be pleased if you will forward your recommendation, together with an estimate of the cost. You should also furnish particulars as to the power that would be used in operating any new laundry equipment and what would be required in this regard, also the cost of same. Please taken this matter up with the Principal and inform the Department as soon as possible regarding the requirements and the approximate cost.

Your obedient servant,

sqd T. R. L. MacInnes

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Unit Agent

Dear Sir:

I beg to thank you for your
Cheque # 5492 for \$92.²⁸. This was to pay for
bricks, cement etc. to build a fire box in our laundry.
The old one, a tin affair, was badly dented, cracked
& open in places and was very dangerous es-
pecially in our case as our buildings are old
and wooden and as we have absolutely no
water with which to fight fire.

This was the most needed but not the
only alteration needed in the laundry. Mr.
Taylor, local Indian Agent, has applied for new
tubs. At present we have old, leaky ones made
out of wood. On Mondays they serve as laundry tubs
and on Saturdays they become the children's bath-
tubs. I took over Provincial Superior, Father Grant,

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

to see the boys taking their bath. He admired their dexterity as the tubs are so small that they have to draw their knees up to their chests to sit in the water. And at the same time they have to take care not to sit on the wooden plug at the bottom of the tub.

I know that the Department is hard pressed for money, but I trust that a way will be found to help us out in this matter. In order to keep down the Department's expenses, I have bought seven pure bred jerseys and some Halskims out of the Oblate Fathers' money and have asked for no compensation for this or for expenses incurred in taking children to an eye-specialist in Kamloops as we have none in the neighborhood. I am glad to be able to say that the children are all well.

Again thanking you for your cheque,

Remain sincerely yours,

G. F. McNeil

Ottawa, Ontario.

Want agent's
letter
AM

Dear Sir:

It was very kind of you to answer
The Children's Christmas letter. The telegram came
just as we were about to begin our Christmas
concert and I read it and letters from the
Archbishop of Vancouver and from Mr. Hitchburn
just before Father Grant gave out the presents.

I wish to thank you also for getting us the
money to build a fire-box in the laundry & to
make other repairs. They were greatly needed. The
former fire-box, as you know, was old, cracked and had
several holes in it. There was constant danger of
fire even though we kept good watch. You can realize
what a fire would mean here as the buildings
are old and we have no water with which to fight fire.

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

Although the Department is hard pressed for money, I hope that Mr. Taylor, the local Indian agent, will be successful in getting us Cundry tubs. At present we have four wooden tubs - at present we have four wooden tubs divided into about six compartments, each about 2' x 2' x 2', in which the girls do the washing on Mondays & all the children, in turn, take their baths on Saturdays. These tubs are old and, though they have been repaired again and again, they leak. I had Fr. Grant watch some of the boys take a bath. He was amused to see how they could bathe in so small a tub. They had to draw their knees up to their chins & take care where they sat as the plug in the bottom of the tub is in the centre & projects a couple of inches - He said I had done well in asking for something better.

As I have pointed out to the Secretary, I have been at considerable expense to give the children what milk and butter they require. Although I have pure bred Jerseys & some Holsteins cost me a good deal, I did not ask any help in this matter from the Department. I have spent other money for the children and have asked nothing in return so as to help keep down the Government's expenses. I hope, however, that a way may be found to give us a few other things which we really need and which Mr. Taylor approves.

Again thanking you for the fire-box and for lumber and other materials for necessary repairs.

I beg to remain,
Sincerely yours,
Geo. F. Jones

POOR COPY

Ottawa, December 29, 1932.

Sir:

I have your letter of the 20th instant, informing the Department that the services of a night watchman have been engaged by the Principal of the Cariboo Indian Residential School for the winter months, and requesting that a grant at the rate of \$20 per month be provided towards payment of his salary.

In this connection I have to inform you that the Department will allow the Principal a grant at the above rate towards the salary of the night watchman during the present winter months, viz., from November 1, 1932, to March 31, 1933. You should prepare a voucher for the amount due at the above rate to the end of the present year. This voucher should be in triplicate and should be made in favour of the Principal and should read as follows:

"To grant towards salary of night watchman at the Cariboo Indian Residential School for months, from to at \$20 per month."

The second voucher in payment should be forwarded at the end of March, next. Please advise the Principal of the grant allowed towards the night watchman's salary.

I have also your letter regarding the fire equipment at this school. You may arrange for the purchase and delivery of one dozen fire buckets of a suitable size, forwarding an account, in triplicate, properly certified, covering the expenditure incurred. The Department will place an order with the Pyrene Mfg. Co., Toronto, to forward refills for the 6 Thermene and 6 Pyrene fire extinguishers. The above Company will be requested to forward their account to you covering the cost. When the refills are received, if in good condition, you should certify the account and forward same to the Department for payment. When the refills are received, the Principal should arrange to have them placed in the extinguishers and see that the extinguishers are put in thorough repair and ready for use in case of emergency.

It is hoped that, with the services of the night watchman and the exercising of proper care in the handling of the furnaces, there will be no danger of fire.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Williams Lake, B.C.

December 20th. 1932

Sir;-

I beg to inform you that the Reverend Principal of the Cariboo Indian Residential School states that, in accordance with the wishes of the Department, a night watchman has been installed at the School during the winter months, as a precaution against outbreak of fire.

The Principal wishes to know if the Department will consider contributing \$20.00 per month towards the wages of this watchman, from November 1st. 1932 to March 31st. 1933.

The Principal states that night watchmen in some of the other schools are paid in part by the Department. Not knowing the general practice in this regard I am forwarding the request for your consideration.

Your obedient servant,

H.E. Taylor
Indian Agent.

Williams Lake, B.C.

December 20th. 1932

Sir;-

In regard to fire prevention measures at the Cariboo Indian Residential School, the Reverend Principal informs me that there are no fire buckets on hand in case of emergency. He requests to be supplied with one dozen suitable buckets.

A new furnace has been installed in the new wing built to accommodate the increased pupilage at this School and the Principal requests an additional Pyrene Hand Fire Extinguisher for placement beside the new furnace. He also states that they have six more hand extinguishers requiring re-fills, in addition to the six which were supplied by the Department three years ago, and for which refills are supplied yearly.

As stated before, we have no water pressure at this School and no method of combating fire except by the Pyrenes and by a bucket brigade.

Your obedient servant,

Ottawa, November 29, 1932.

Sir:

I have your letter of the 18th instant, regarding the purchase of a new set of batteries for the Delco lighting plant at the Cariboo Indian Residential School.

In reply I have to say that the Department will approve of the supplying of a new 13 plate Ironclad battery, with a five year guarantee. It is noted the price of this new and stronger set of batteries, delivered at the school, is \$273.80. The installation of this battery should receive early attention. A voucher in payment should be forwarded as instructed in official letter of October 5th, last.

Your obedient servant,

T. R. L. MacInnes

Williams Lake.B.C.

November 18th.1932

Your file;
160-0-5

Sir;-

I beg to refer to your letter of October 5th.last authorising purchase of a new set of batteries for the Delco lighting plant at the Cariboo Indian Residential School.

Following your instructions prices were requested from the three firms mentioned, letters being mailed on Oct. 11th.last. Only one firm responded to the request, the other two being very remote from here with difficult shipping facilities, and may not have thought it worth while to tender.

The one quotation received was from C.L.Wain of Kamloops.B.C.who quoted as follows;-

F.O.B.145 Mile Station, less sales tax & 10%.....\$206.94

After receiving the above quotation a representative of the Delco people called at the office, stating that the above Mr.C.L.Wain was their agent, and quoting on a new 13 plate Ironclad battery with a five year guarantee instead of the usual three year guarantee. The price of this new and stronger set of batteries f.o.b.145 Mile Station is.....\$273.80.

It would seem that money will eventually be saved by purchasing a longer lived battery; these new Ironclad type are claimed to be suited to cold climates and the difference in cost is more than overcome by the two years of longer life.

If funds are available I would recommend the purchase of the Ironclad batteries at \$273.80. Awaiting instructions in this matter

Your obedient servant

Ottawa, October 25, 1932.

Gentlemen:

I have to request that you will supply, for the use of the Cariboo Indian Residential Schools, five (5) refills for Thermene extinguishers and six (6) refills for Pyrene extinguishers. The particulars supplied by the Agent as to the size of the extinguishers are as follows, and refills should be of a type suitable for same:

5 Thermene, size 22 $\frac{1}{2}$ x 6,
6 Pyrene - 3 size 13 x 3,
1 " 10 $\frac{1}{2}$ x 3,
1 " 13 $\frac{1}{2}$ x 3,
1 " 13 x 3.

Please ship the above refills by freight, charges prepaid, addressed to -

Rev. Geo. Forbes, O.M.I.,
Principal, Cariboo Indian Res. School,
145 Mile Station, B.C.
P.G.E. Ry.

Your account, in triplicate, covering the cost of these refills should be forwarded to Mr. H. E. Taylor, Indian Agent, Williams Lake, B.C., who is being informed of the order placed with you, and requested, upon receipt of the refills, to certify the account and send it to the Department, when payment will be made. The price charged for the refills should be F.O.B. 145 Mile Station, sales tax, if any, included.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Sir:

I have your letter of the 17th instant, requesting that refills be supplied for the fire extinguishers at the Cariboo Indian Residential School.

In this connection I have to say that we are today placing an order with the Pyrene Mfg. Co. of Canada Ltd., Toronto, to ship by freight, charges prepaid, addressed to Rev. Geo. Forbes, O.M.I., Principal, Cariboo Indian Residential School, 145 Mile Station, P.G.E. Ry., B.C., refills for 5 Thermene and 6 Pyrene extinguishers. The above Company have been requested to make early shipment and to forward their account, in triplicate, to you covering the cost F.O.B. 145 Mile Station. When these refills are received at the school, if in good condition, you should certify the account and forward it to the Department for payment.

When these refills arrive at the school, they should be placed in the extinguishers and the Principal should see that the extinguishers are properly recharged and placed in good condition, ready for use.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Ottawa, October 5, 1932.

Sir:

I have your letter of the 22nd ultimo, relative to the request of the Principal of the Cariboo Indian Residential School to be supplied with a new set of batteries for the Delco lighting plant.

In reply I have to say that the last set of batteries supplied in March, 1929, comprise sixteen cells, and it is presumed that a similar set is required at the present time. You may obtain prices for the supplying of batteries from the following:

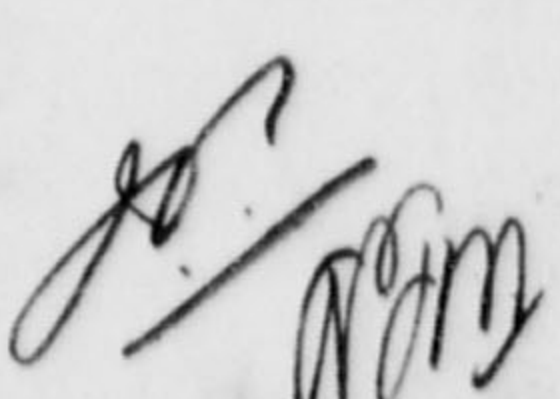

C. L. Wain, Kamloops, B.C.,
B. W. Irwin, Fort Fraser, B.C.
Richards & Black, Vanderhoof, B.C.

In asking them to quote, you should furnish full information as to the requirements. You should place the order with the firm quoting the lowest price F.O.B. nearest shipping point to the school. The school authorities will, no doubt, have a competent man on the staff to install the batteries when they are received.

After the purchase has been made, please obtain an account, in triplicate, covering the cost. This you should attach to a proper voucher form, certify in the usual manner and forward for payment. The quotations which you receive should be attached to the voucher.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Memorandum:

MR. BUSKARD.

A new set of batteries is required for the Delco lighting plant at the Cariboo Indian Residential School in the Williams Lake Agency, B.C. The last set of batteries was supplied in March, 1929, and the Indian Agent states that these are now worn out. The set required comprises sixteen cells, at a cost, delivered at the school, of approximately \$300. Funds for the purpose are available in the Appropriation for Indian Education. The batteries supplied in 1929 were obtained from Bruce Robinson Electric (B.C.) Limited, 544 Howe St., Vancouver, B.C. It is considered that Vancouver is the most available source of supply.

I should be pleased to be advised of the name of the firm from whom the batteries should be obtained. The Cariboo Indian Residential School is located at 145 Mile Station, on the Pacific and Great Eastern Railway, and in the electoral district of Cariboo.

OFFICE OF
INDIAN AGENT

160-0-5
Williams Lake, B.C.
September 22nd, 1932

Sir:-

I beg to inform you that I am in receipt of a request from the Reverend Principal of the Cariboo Indian Residential School for a new set of batteries for the Delco Lighting Plant in operation at the School. In March 1929 the Department purchased a set of batteries for this purpose at a total cost of \$294.20. These are now worn out, their usual life being apparently from three to four years.

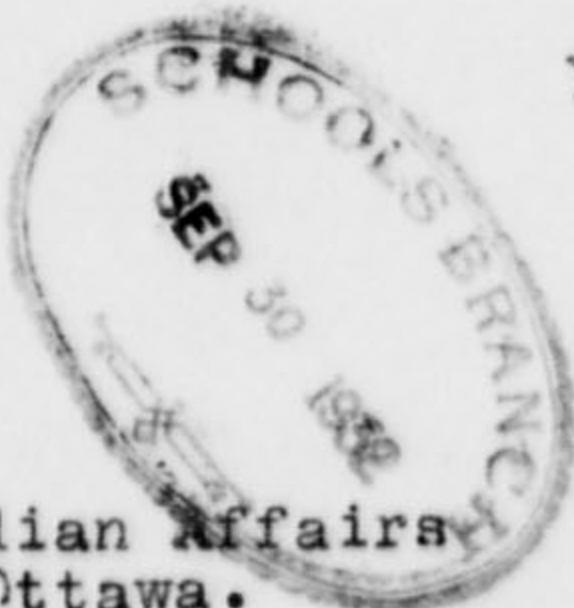

The Reverend Principal points out that he has lately expended considerable money in School improvements. Apart from a large addition to the buildings he has expended \$200.00 in steel pipe to replace an open ditch conveying water behind the girls building, and now has additional expenditure to re-arrange the hot water boiler above the furnace in the boy's building, the present system having been found dangerous on account of too much steam developing in the pipes.

Will you kindly inform me if funds will allow of the purchase of the batteries requested.

Your obedient servant,

H. E. Taylor

Ottawa, July 12, 1932.

Sir:

I have your letter of the 27th ultimo, relative to the improvements and repairs required at the Cariboo Indian Residential School.

In reply I have to say that the Department will approve of an expenditure not exceeding approximately \$70 in the purchase of lumber and material to erect a new outside toilet for the boys. You may arrange for the purchase, from a firm on the list to receive consideration, of the material required and have same forwarded to the school. It is understood that the labour will be carried out by the staff of the school without expense to the Department. After the material has been purchased you should forward itemized accounts, in triplicate, properly certified, covering the cost.

The Department will have no funds to provide new tubs, tile pipe and a cement floor for the laundry.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Williams Lake, B.C.
June 27th. 1932

Sir;-

I have the honour to inform you that on the 17th. inst. I was at the Cariboo Indian Residential School when Mr. Inspector Barry made his school inspection. The following improvements and repairs will be suggested in his report to the Department and I would recommend that they be given every consideration as they are badly needed.

New outside boy's toilet. The present building is in sad disrepair and is a health menace. Cost of local lumber and shingles to make new building in fresh location..\$70.00

Double dressed coast spruce lumber for new laundry tubs. A requisition for metal tubs was not approved by the Department owing to lack of funds. The present wooden tubs leak badly and waste much water and it is considered that new lumber tubs will answer the purpose. Lumber and vitrified tile pipe for laundry drainage will cost with freight..\$175.00

New cement floor for laundry. The present floor is of lumber which is rotted and a breeding place for germs and a harbour for dirt. Owing to the floor sills being also rotted another wooden floor is not advisable. Cement.....\$128.75

Total estimate not more than.....\$373.75

If funds are not available for this amount I would ask that the lumber for the boys toilet be allowed as this is badly needed.

I have the honour to be, Sir,

Your obedient servant,

H. E. Taylor

POOR-COPY

Ottawa, January 11, 1933.

Sir:

The Department is in receipt of voucher No. 6480, for \$273.80, covering the cost of the Delco batteries supplied to the Cariboo Indian Residential School. It appears that these batteries have been purchased from the John Redden Company, 1294 Granville St., Vancouver, B. C.

In official letter of October 5th, last, you were given the names of three firms from whom you were instructed to obtain prices for the supplying of these batteries. In your letter of November 18th, you stated that you had received a quotation from Mr. C. L. Wain, being the only one of the three firms that had quoted a price. Official letter of November 29th authorized you to make the purchase at the price quoted by Mr. Wain, viz.: \$273.80.

In view of the instructions contained in the letters mentioned above, the Department cannot understand why the batteries were purchased from the John Redden Company. Please let me have a full explanation regarding your action in this matter. Consideration of payment of the account will be withheld until your reply is received.

Your obedient servant,

A. F. MacKenzie,
Secretary.

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ontario.

Dear Sir:

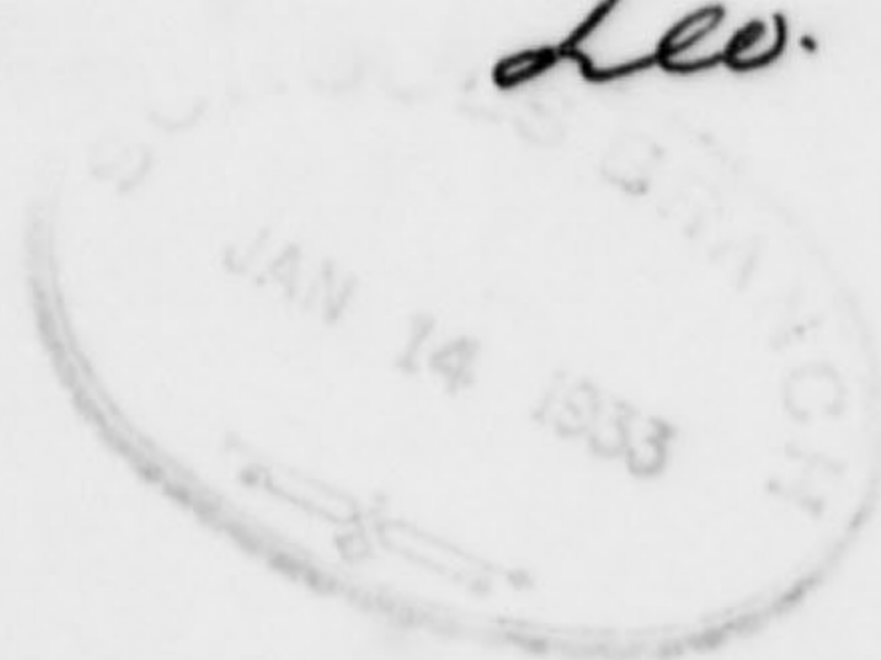

I beg to thank you for the set of new batteries which you kindly supplied for our Delco light plant. They came two weeks ago and they were set up immediately but I did not wish to write before I could assure you that they are very satisfactory. They were really needed as the old set was almost useless.

In this connection I think that I should point out that, according to what I am told, our Delco plant is too powerful for one set of batteries. Our engineer says that, if the plates in the old set were renewed, the life of the new set, which is guaranteed for five years, would be prolonged. I am going to submit this to Mr Indian Agent Taylor so that he can investigate and advise you according to what he finds.

Again thanking you for the batteries and for other favors,

I remain very truly yours,

Geo. F. Jones, D.M.

Williams Lake.B.C.

May 29th.1933

Sir;-

I beg to inform you that I am in receipt of a request from the reverend principal of the Cariboo Indian Residential School, for a quantity of cement, tile pipe, and iron pipe to put the school laundry room into a sanitary and more efficient condition.

This laundry room has been the subject of previous correspondence at different times. The waste water drains into an open receptacle which has always been a source of infectious danger, and the floor is always wet and dirty.

I do not know what funds are available this year for such work, but am forwarding the reverend principal's request for your consideration.

Prices of material, obtained, are as follows;-

Cement and vitrified tile pipe. f.o.b. Williams Lake. \$215.00

300 ft. iron pipe, couplings, unions, tees, taps and elbows. f.o.b. Vancouver. 115.00

Total \$330.00

OFFICE OF
INDIAN AGENT

Williams Lake, B.C.

January 17th. 1933

Your file;

I60-0-5

Sir;-

I beg to acknowledge receipt of your letter of the 11th. inst. re; voucher No. 6480 for \$273.80 for cost of Delco batteries supplied to the Cariboo Indian Residential School.

After I wrote to C.L. Wain and Son of Kamloops, for a quotation on the batteries, I received a visit from the Delco salesman who explained the superiority of the new Ironclad type of batteries. This salesman apparently called at the request of C.L. Wain and Son who are the Kamloops agents for the John Redden Co. of Vancouver. The order for the batteries was placed by letter with the C. L. Wain firm in Kamloops, and they wired me when they were shipping the batteries to the School. Apparently C.L. Wain & Son forwarded the order to their Vancouver people and collected their sales commission, and asked the John Redden Co. to do the actual shipping.

I should have forwarded a letter with the voucher, explaining the change in the name of the supplying firm, but it did not occur to me to do so.

I enclose a copy of my letter to C.L. Wain & Son, ordering the batteries, which I trust makes the matter clear.

Your obedient servant,

H.E. Taylor
Indian Agent.

Sir:

I have your 197/16/32137 of the 5th instant, enclosing a communication which you received from Mr. Agent Taylor, Williams Lake, B. C., stating he was advised by the Principal of the Cariboo Indian Residential School that a fire escape has been installed on the new wing which was erected by the school authorities. In this connection it is noted the Principal states that the escape is satisfactory and that same will be inspected by the Agent on the occasion of his next visit to the school.

Re; Fire Escape for Cariboo Indian Res.School

Referring to your letter and enclosure, of the 2nd.inst. in the above connection, I beg to inform you that I advised the Reverend Principal of the school, of the lack of funds to allow of Departmental assistance in the erection of the fire escape. At the same time, I suggested that some second hand lumber which was used for a fire escape before the new portion was added to the building, be utilised for the purpose.

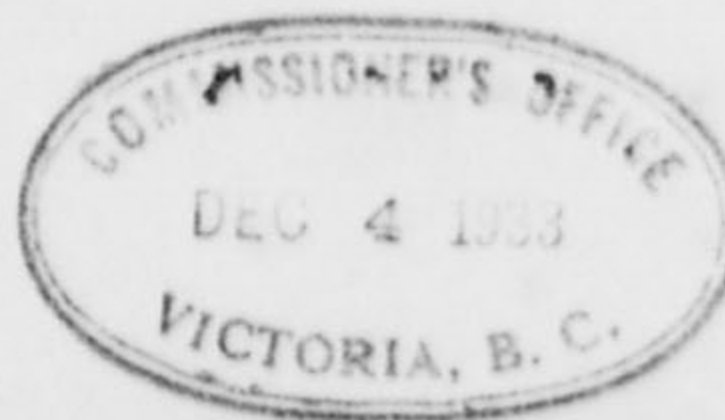

I am now advised by the Reverend Principal that this has been done, that the fire escape is in position and satisfactory.

It will be inspected by me on my next visit to the School.

Your obedient servant,

H.E. Taylor

Sir:

I have your letter of the 31st ultimo, regarding a grant towards the salary of the night watchman at the Cariboo Indian Residential School.

In reply I have to say that the Department will allow a grant at the same rate as previously paid, viz.: \$20.00 per month, for the period from the first instant to March 31st, next. This grant will be paid upon receipt of the usual certified voucher for the amount due. Please advise the Principal of the School accordingly. It is hoped that he will obtain the services of a fully qualified man to perform the night watchman's duties.

Ottawa, October 27, 1933.

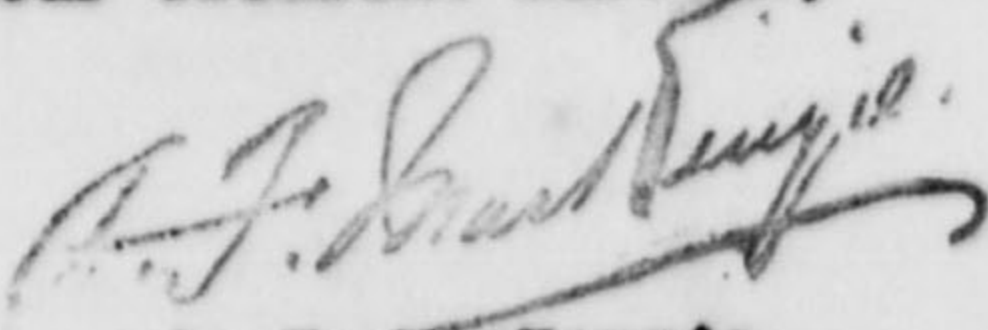

Sir:

I have your No. 197/16/31511 of the 20th instant, enclosing a communication from Mr. H. E. Taylor, Indian Agent, Williams Lake, in which he requests that the sum of \$70 be provided for the purchase of lumber, nails, and hardware to construct a fire escape for the new wing which has been erected by the school authorities at the Cariboo Indian Residential School.

In this connection I have to say that, as the school authorities erected the addition, it is expected that they, themselves, will provide the necessary fire escape facilities. Please take this matter up with Mr. Agent Taylor, who should advise the school authorities accordingly. If this new addition is occupied by the pupils, immediate steps should be taken to see that adequate fire escape facilities are provided. The Department has no funds in the Estimates for the current fiscal year to provide the expense required in this connection.

I shall be pleased to hear what action is taken by the school authorities in the erection of a fire escape.

Your obedient servant,

A. E. MacKenzie,
Secretary.

VICTORIA, B.C., October 20, 1933.

Sir: 7

I have the honor to transmit herewith the original of a duplicate letter dated October 11th, instant, received at this office from Mr. H. E. Taylor, Indian Agent, Williams Lake, B. C., requesting an amount of \$70.00 for the purpose of purchasing lumber, nails and hardware for the purpose of constructing a fire escape from the new wing at the Cariboo Indian Residential School following a request made by the Reverend Principal of that institution.

I have discussed the matter with Capt. Barry, Inspector of Indian Schools who considers that the expenditure would be warranted provided the fire escape could be constructed under the supervision of the Manual Training Instructor by the pupils who are receiving manual training courses.

I would point out that no provision was made in the Estimates for the current fiscal year nor in the Estimates for the fiscal year 1934-35 by the Indian Agent covering this service. The matter must, therefore, be left to the Department to see if funds can be made available for the purpose indicated.

Your obedient servant,

P/KD.

Williams Lake.B.C.

October 11th.1933

Sir;-

I beg to inform you that I am in receipt of a request from the Reverend Principal of the Cariboo Indian Residential School for material to construct a fire escape from the new wing which has been added to one of the main buildings.

This wing was erected by the School authorities to provide additional accommodation for pupils, and the provision of fire escapes is a matter of primary importance, the fire-fighting facilities and water supply, being at best, not of a very high standard, owing to the age of the buildings.

Cost of lumber, nails and hardware amount to \$70.00, and I would request to be advised if the Department is in a position to expend this amount for the purpose.

Your obedient servant,

H.E. Taylor
Indian Agent.

Sir:

I have your letter of the 29th ultimo, relative to the request which you received from the Principal of the Cariboo Indian Residential School, to be supplied with a quantity of cement, tile pipe and iron pipe, to place the laundry room at the school in a more sanitary and efficient condition and giving an estimate of the cost of the material.

In reply I have to say that, as our Appropriation this year has been extremely reduced, I regret we will have no funds to provide the expenditure required in supplying the equipment requested. I may add that no funds are available for repairs or equipment at this school during the present fiscal year. Should it be urgent that the repairs be made to the laundry room, the school authorities will have to provide the cost, from their per capita allowance or other receipts.

Williams Lake.B.C.
August 6th.1934

Sir:-

I beg to advise you that I am informed by the Reverend Principal of the Cariboo Indian Residential School, that several bad breaks have occurred in the pipeline conveying their water supply to the school. These have been repaired but others are showing. The pipe has been in the ground over twentyfive years and it is evident that the whole pipeline requires renewing.

You will recall that, as a result of adverse analyses of the water used at the school, the Department intended to put in a new system, utilising water from another source. The proposed cost was high and funds have not been forthcoming to enable the scheme to be proceeded with.

The present supply of water comes from Yellow Lake, being conveyed through wooden piping for a distance of approximately 4,600 feet, to a storage reservoir, from whence, by gravity flow, it supplies the domestic requirements of the school.

There is a lot of offensive smelling vegetable matter in Yellow Lake and it has been necessary to clean out the storage reservoir at least once each month for the past two years. The whole pipeline must also be exceedingly foul, judging from the condition of the storage tank each time it is opened. For drinking purposes water is now being packed by the pail from a small spring near the school, but there is a very limited supply available there. Fortunately the children have left for their summer holidays, otherwise a serious situation would have developed, probably necessitating the closing of the school.

Acting upon a suggestion of mine, the school authorities dug a pit beside Yellow Lake and it is found that the water will seep into this pit, cleaning itself in the process and rendering the water much more suitable for use. It will be of no avail to convey such purified water through the present foul piping, even if the pipeline was in good condition. The school intend to enlarge the pit, and erect a sand and charcoal filter. If the resultant supply of water is then conveyed through new piping, the storage tank will remain clean and the buildings will be provided for the first time in many years with good water.

Unless the pipeline is renewed immediately there appears to be no guarantee that there will be a supply of water available for ordinary daily requirements in the school buildings.

I have obtained prices on 2" pipe from various Vancouver firms, and the cheapest and best type appears to be a solid-drawn steel pipe, coated and wrapped. The cost would be;

5,000 ft of 2" pipe @ \$226.50 per M.....\$1132.50

Labour for ditching and laying pipe
5,000 ft. at .20¢ per ft. \$1000.00

Total \$2132.50

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

(2)

The labour cost is based on \$2.00 per day per man. The Rev. Principal states that he can obtain labour at \$2.25 per day plus board which is estimated at .75¢ per day per man.

I would be glad if the Department would advise me at their earliest convenience if they are prepared to render assistance to renew the pipeline. It may be possible to continue patching any leaks that develop, but there is always the possibility of the supply ceasing for several days at a time, especially in the winter time when locating and repairing breaks would be much slower and more difficult. With 120 pupils in the school the cessation of the water supply would mean closing down operations.

I would not recommend the renewing of this pipeline unless there was a reasonable assurance of the water being cleaner and purer than heretofore, but I believe it will be.

The only alternative is the previous scheme which ran into many thousands of dollars.

The question of boring for well water has been gone into, as has also the possibility of lifting water from the San Jose Creek by means of a ram, but both schemes would be costly and there is no guarantee that a sufficient supply would always be available.

Ottawa, April 13, 1934.

Sir:

I beg to acknowledge receipt of your letter of the 24th ultimo, with reference to the request of the Principal of the Cariboo Indian Residential School to be supplied with lumber for repairing the girls' toilets.

In reply I have to say that you may authorize Mr. Agent Taylor to purchase, from firms on the approved list, the following supplies:-

4162 ft. Fir and Cedar lumber of varying dimensions,
5000 No. 1 3X Cedar shingles,
12 sacks Cement, 35 lbs. common nails,
12 pair heavy 6" T Hinges,
12 Panels 3-ply Fir veneer 30" x 72"
12 " " Cottonwood 32" x 60"

I enclose E. R. No. 2068 for \$240. You should inform Mr. Taylor that the Department expects the above to be purchased as cheaply as possible.

It is noted, also, from Mr. Taylor's letter, that the following articles are required for the manual training class:-

1 22" Disston crosscut saw, 2 bell-faced hammers,
1 24" " rip saw, 1 set Irwin Auger bits.

The cost of the articles just mentioned will be paid from B. C. Special Appropriation. You may arrange for their purchase and forward a separate account covering their cost.

Your obedient servant,

A. F. MacKenzie,
Secretary.

IN YOUR REPLY REFER TO

No. 197/16/33927

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE
P. O. BOX 666

VICTORIA, B.C. March 24, 1934.

Sir:-

I have the honor to transmit herewith a requisition in triplicate on Form 55 as received from Mr. H.E. Taylor, Indian Agent, Williams Lake Agency, B. C., together with the original of a covering duplicate letter sent therewith in which the Agent states that he is making no recommendation on the request of the Reverend Principal of the Cariboo Indian Residential School to be supplied with lumber and other material for certain buildings and repairs at the Institution, at a total cost of \$260.94, the details of the required material being shown in the requisition.

It should be pointed out that no provision was made by the Indian Agent in his Estimates for the fiscal year 1934-35 for the above mentioned expenditure, but it seems to me that this should be no reason why the requisition should not be approved provided the proposed work is necessary for the proper maintenance of the Institution either from per capita grant or from the Educational Vote. Perhaps the Department will be good enough to refer to the previous reports of Inspector Barry as to the need for such improvements at this Institution and to advise me for the information of Agent Taylor if the Department is in a position to grant the Reverend Principal's request. I have approved the requisition subject to the Department's pleasure.

Approved

P/KD.

Enclosures:-

The Secretary,
Department of Indian Affairs,
Ottawa.

Your obedient servant,

Chas. C. Perry

March 20th.1934

Sir;-

I beg to forward herewith, on attached sheet, a list of lumber and tool requirements received from the Reverend Principal of the Cariboo Indian Residential School. The material listed, with the exception of the tools and the panels of fir and cottonwood veneer, are for the construction of a new toilet for use of the girl pupils of the School. The remaining material is required for use in the manual training school.

The girls' toilet building is certainly in a very decrepit condition, but I am unaware what funds the Department have at their disposal for assistance of this kind, and in view of the pressing need for economy am making no recommendation. I informed the Reverend Principal that I would forward his request to the Department.

Sir;-

I beg to advise with reference to enclosed account in favour of Mackenzies Ltd.for \$49.75 for refills for fire extinguishers at the Cariboo Indian Residential School - voucher No.7163 - that the approximate price quoted has been exceeded as the store was unable to give me exact quotation owing to these refills not being kept in stock.

The price quoted was approximate but it was found upon ordering that the cost of the Thermene refills was higher than the catalogue price showed.

Apparently the cost of local purchase is somewhat higher than purchase price in the east,from where previous refills have been shipped.

RECORDS

Williams Lake, B.C.
August 6th, 1934

Sir:-

I beg to advise you that I am informed by the Reverend Principal of the Cariboo Indian Residential School, that several bad breaks have occurred in the pipeline conveying their water supply to the school. These have been repaired but others are showing. The pipe has been in the ground over twentyfive years and it is evident that the whole pipeline requires renewing.

You will recall that, as a result of adverse analyses of the water used at the school, the Department intended to put in a new system, utilising water from another source. The proposed cost was high and funds have not been forthcoming to enable the scheme to be proceeded with.

The present supply of water comes from Yellow Lake, being conveyed through wooden piping for a distance of approximately 4,600 feet, to a storage reservoir, from whence, by gravity flow, it supplies the domestic requirements of the school.

There is a lot of offensive smelling vegetable matter in Yellow Lake and it has been necessary to clean out the storage reservoir at least once each month for the past two years. The whole pipeline must also be exceedingly foul, judging from the condition of the storage tank each time it is opened. For drinking purposes water is now being packed by the pail from a small spring near the school, but there is a very limited supply available there. Fortunately the children have left for their summer holidays, otherwise a serious situation would have developed, probably necessitating the closing of the school.

Acting upon a suggestion of mine, the school authorities dug a pit beside Yellow Lake and it is found that the water will seep into this pit, cleaning itself in the process and rendering the water much more suitable for use. It will be of no avail to convey such purified water through the present foul piping, even if the pipeline was in good condition. The school intend to enlarge the pit, and erect a sand and charcoal filter. If the resultant supply of water is then conveyed through new piping, the storage tank will remain clean and the buildings will be provided for the first time in many years with good water.

Unless the pipeline is renewed immediately there appears to be no guarantee that there will be a supply of water available for ordinary daily requirements in the school buildings.

I have obtained prices on 2" pipe from various Vancouver firms, and the cheapest and best type appears to be a solid-drawn steel pipe, coated and wrapped. The cost would be;

5,000 ft of 2" pipe @ \$226.50 per M.....\$1132.50

Labour for ditching and laying pipe
5,000 ft. at .20¢ per ft. \$1000.00

Total \$2132.50

Noted for
Estimates (66)
1935-36
E.M.

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

POOR COPY

(2)

The labour cost is based on \$2.00 per day per man. The Rev. Principal states that he can obtain labour at \$1.25 per day plus board which is estimated at .75¢ per day per man.

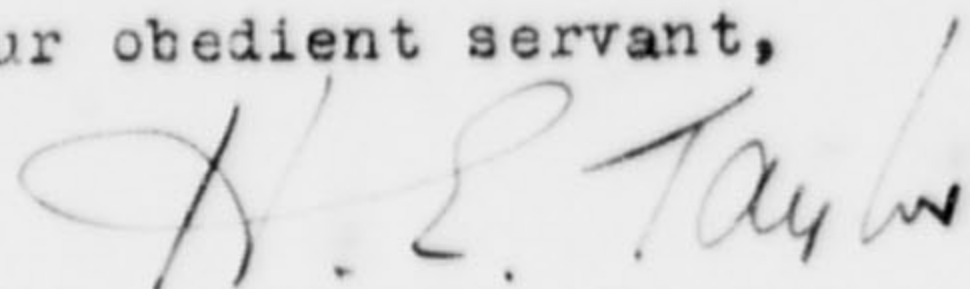

I would be glad if the Department would advise me at their earliest convenience if they are prepared to render assistance to renew the pipeline. It may be possible to continue patching any leaks that develop, but there is always the possibility of the supply ceasing for several days at a time, especially in the winter time when locating and repairing breaks would be much slower and more difficult. With 120 pupils in the school the cessation of the water supply would mean closing down operations.

I would not recommend the renewing of this pipeline unless there was a reasonable assurance of the water being cleaner and purer than heretofore, but I believe it will be.

The only alternative is the previous scheme which ran into many thousands of dollars.

The question of boring for well water has been gone into, as has also the possibility of lifting water from the San Jose Creek by means of a ram, but both schemes would be costly and there is no guarantee that a sufficient supply would always be available.

Dear Colonel Pragnell:-

I wish to acknowledge receipt of your duplicate report on the Williams Lake Agency, dated August 3rd, instant.

X

X

X

Regarding the water for the Williams Lake Indian Residential School, you will probably know that we have already obtained a report from the Dominion Water Branch, but Mr. Taylor, in an interview with me some time ago, told me that it was his opinion that although tenders were called for a project estimated to cost approximately \$25,000.00, he considered it could be put in at half that cost. He suggested that if this matter should come up he be asked to make a report. I shall be glad if you will discuss this matter further with Mr. Taylor and make a report at a later date.

Dear Sir:-

Owing to the fact that I am still unable to travel, Mr. Indian Agent Taylor came down to see me, bringing his books, and we went into Agency matters together.

X

X

X

4. School

Mr. Taylor reports all is well at the Residential School, with the exception that something must be done soon regarding the water supply. He is making further investigations with the Principal. Personally I have always feared some infectious outbreak at this school owing to the water and have reported same and I understand attempts have been made by our engineer to solve the problem. The school has been filled to capacity and there are still many children, particularly in the Chilcotin, who cannot get schooling.

Sir:

I beg to acknowledge receipt of your letter of the 6th instant, with reference to the water supply at the Cariboo Indian Residential School.

It is noted, from your letter, that the providing of a new pipe-line will involve an expenditure of \$2,132. No provision for this was made in our Appropriation for the current fiscal year, and it is therefore regretted that authority cannot be given for this work.

However, the Department can provide funds to the amount of, approximately, \$200 for making necessary repairs to the present pipe-line.

The necessity for the expenditure mentioned in your letter will have further consideration when the Estimates for 1935-36 are being prepared.

Sept. 6th, 1934

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Dear Sir:

You may have been bothered, recently, with a number of tenders for water pipe to be supplied to this School. In case you have, I wish to inform you that, in so far as I remember, I have authorized no one to submit these tenders to you.

Some time ago we had serious trouble with our water system and, for three or four days, it was doubtful whether or not it could be repaired. We were finally able to patch it up, at least for the time being, and it is now in as good condition as it has been for some time. I believe that the Department is aware that this water system is not entirely satisfactory. In the first place, it has never had sufficient pressure to afford fire protection. In the second place, there is an evil smell and taste to the water especially in the warmer months. The old pipes are, I believe, saturated with this taste and odor besides being so old that they take a good deal of looking after. Fortunately, there is a small spring of good water nearby from which we are able to haul drinking water when necessary. The old wooden pipe, after being about 30 years in the ground, will soon need renewing unless another plan can be found. I think that a better and cheaper plan can and will be found before long.

My main object in writing is to assure you that the people who sent in tenders were authorized by me to send them only to the Indian Agent and to myself. Mr Taylor wished to have these estimates before taking the matter up with the Indian Department.

I beg to remain

Yours truly,

G. Jones D.M.

Dear Father:-

We are advised by Mr. Higgins that you will be in the market for approximately 6000 ft. of 2" Standard Galvanized Pipe. As the time is limited, Mr. Higgins has suggested that it might be advisable for us to send a copy of our tender direct to Ottawa, and we are therefore taking the liberty of doing so today.

We are very glad to quote as follows:-

6000 ft. of 2" Standard Galv. Pipe with couplings \$22.36 per 100 ft.	
This price is F.O.B. Vancouver. Terms 2% for Cash paid by the 15th. of the month following delivery.	
This would work out as follows:-	
6000 ft. of 2" Galv. Pipe at \$ 22.36	\$ 1341.60
less 2% for Cash	26.83
Nets	1314.77
Freight Vancouver to 145 mile House	2 16.15
Making a total of	\$ 1530.92

It would give us very great pleasure indeed to be favored with your order.

EXTRACT FROM REPORT OF MR. G. H. BARRY ON HIS INSPECTION OF THE CARIBOO INDIAN RESIDENTIAL SCHOOL ON SEPTEMBER 25, 1934.

Barry
Original on No. 160-0-5.

I walked for some miles through the country around the school in a search for possible sources of water supply. Under the heading of Water Supply (Continued) in my last report on this school, and in the portion of the last paragraph marked (2) I mentioned the existence of some small springs near the school. On my present tour of inspection I found or rather had my attention drawn to some unnamed springs which are located nearer to the school than those mentioned in my last report.

These newly discovered springs are about 600 yards from the school buildings. They are located on the hillside quite close to and on the opposite side of the San Jose Creek to that occupied by the school buildings. This creek water comes from Lac Le Hache and does not flow through Yellow Lake. I am informed that the water of the creek itself is polluted during part of the year, as farmers place manure dams across the creek higher up, and thus use some of the water for irrigation.

I feel fairly confident that the springs I now draw the attention of the Department to are worthy of investigation. They should be dug out well above high water mark of the adjoining creek. A large cement tank here might be joined by a new pipe line to the existing large tank on the hillside above the school, and the water pumped into this tank so that it would flow by gravity through an existing pipe line to the school.

I recommend that the Department request a full report on the above mentioned source, and pumping proposal. I do not know the exact state of the existing pipe lines or of the present large tank on the hill over the school. I am suggesting this solution to the water problem at the school, as I feel confident that it could be made a success at a fraction of the sum suggested for the Felker Springs project. I am not doing more than this, as it may prove when examined by the Department's engineers to be an impossible project for some technical reason. I think it a good enough proposal to warrant the expense of investigation. I may say that I have had a very brief talk with Mr. Webb with regard to such a project, and am anxious that his advice should be sought in the matter.

Fire Protection:

The exit to the new fire escape from the new dormitory on the girls' side of the school had not been used when I visited the school. The door was still nailed or locked up, and the children for whom this escape was erected were making use of the old escape at the back of the convent. My objection to this is that these children have to cross one of the greatest fire hazards, the top of an open stair-way, on their way from the new dormitory to the old escape. This new escape should be placed in use at once. This has no doubt been done long ago, as I spoke strongly about it at the school, and later to Mr. Indian Agent Taylor. There is no expense attached to my recommendation. The Manual Training Class could have this door ready for use in a couple of hours.

There are now four wooden escapes, one being attached to the boys' building, and the remaining three being located at the rear of the convent.

x x x x

The wooden platform at the back of the convent is in a very dangerous state of repair. There are broken planks and holes, and children might easily be hurt if they ventured on to this platform. I previously asked that this platform be repaired. The school does not appear to have the necessary lumber. Only rough boards would be required. The children are not permitted to venture on to this platform. I should like to see it replaced by one on which it would be safe to walk.

Dear Sirs,

I am requested to provide five Pyrene fire extinguishers of the vaporizing liquid type for one of our schools in British Columbia. While the folder provided by your firm indicates that you manufacture this type of extinguisher in 2 gallon size, no price is given in the special list of net prices to the Dominion Government for this particular size.

If you are not now manufacturing this size in the above-mentioned type, will you be good enough to advise me in order that I may place an order for some other suitable type of extinguisher.

Yours very truly,

C.C. Parker
Acting Purchasing Agent.

Sir;-

I beg to advise that I am in receipt of a request from the reverend Principal of the Cariboo Indian Residential School, for five more Pyrene hand extinguishers, for fire protection in the various school buildings. One is required for the manual training shop, two for the girls dormitories, one for the sewing room, and one for the boys dormitory.

I consider that these extinguishers are necessary, in view of the lack of water for fire purposes at this school, the present extinguishers and fire buckets being all the protection there is. I understand the extinguishers are purchased in the east by the Department and shipped here. If this request is approved I would ask that the extinguishers be shipped direct to the School principal at 145 Mile Station.B.C.

Ottawa, November 29, 1934.

Sir:

Mr. G. H. Barry, Inspector of Indian Schools, in a report on his inspection of the Cariboo Indian Residential School at the end of September, last, has drawn attention to the condition of the fire protection facilities. He states that the exit to the new fire escape, from the new dormitory on the girls' side of the school, was not in use. The door was nailed or locked up and the children for whom this escape was erected were making use of the old escape at the back of the convent. This new escape should be placed in use at once, and it is possible that the Principal has already arranged the matter. You should inspect this fire escape, and, if the door is not in use, you should see that it is kept unlocked and ready for use in case of fire. The Inspector states that there would be no expense in connection with having the exit placed in a satisfactory condition, as the manual training class could have this door ready for use in a couple of hours.

The Inspector also draws attention to the wooden platform at the back of the convent, which, he states, is in a very dangerous state of repair. There are broken planks and holes and the children might easily be hurt if they ventured on the platform. Only rough boards would be required in carrying out the repairs. I have to request that you will arrange with the Principal to have this platform repaired and placed in a good condition, as soon as possible. Should any boards be required, you may arrange for the purchase and delivery of the quantity necessary. The labour, however, should be performed by the school staff, without expense to the Department.

I shall be pleased to hear from you regarding the action taken in having the door of the new fire escape placed in a serviceable condition and stating whether it is kept unlocked. You should also report concerning the repairing of the platform at the back of the convent.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Your File

I60-0-5

Sir;-

I beg to acknowledge receipt of your letter of the 28th.ult.regarding the repairs to the pipe line of the water supply system at the Cariboo Indian Residential School.

The School authorities were able to effect repairs to the existing line without any expense to the Department. There, is, however, still the debatable question of the suitability of this water for domestic use in the School. Alternative proposals have been considered by myself and the reverend Principal, to avoid altogether having to use this water, but so far, no scheme of moderate cost seems available. I requested the School authorities to examine two different sources of supply but they have not yet decided if they could be used.

Another alternative would be to make the existing storage tank from the lake supply into a filter tank, and pump the water from it to an existing cement tank considerable higher up the hill above the buildings, thus obtaining pressure for fire purposes and a clean water supply. I wish to be assured, however, that this scheme is workable before applying for any authority for expenditure.

An engineer's survey of the situation would possibly result in an estimate involving too much cost under present conditions, and I will further investigate the possibilities and report to you.

I do not want to ask for money to ~~repair~~ ^{renew} the present pipe-line if better water can be obtained for about the same cost from another source.

Ottawa, March 28th, 1935.

Sir,-

In official letter of August 14th, 1934, you were authorized to spend an amount not exceeding \$200 in repairs to the pipe-line of the water supply system at the Cariboo Indian Residential School. As no accounts have been received, it is presumed that you did not consider it necessary to make repairs and, as our fiscal year ends on the 31st instant, the amount authorized in the letter mentioned is being cancelled.

About the end of April, you should report fully regarding the water supply system at this school, stating if you still consider the pipe-line should be renewed. In your letter of August 6th, 1934, you stated that the cost of labour for laying a new pipe-line would involve an expenditure of \$1,000. You should let me know the approximate number of men that would be required and if these can be secured locally. On receipt of your report in connection with this matter, the Department will give careful consideration to the question of securing funds for the installation of the new pipe-line during the coming summer.

Your obedient servant,

A. F. MacKenzie.

December 29th.1934

Your file

I60-0-5

Sir;-

I beg to acknowledge receipt of your letter of the 29th.ult.with reference to the condition of a fire escape and rear platform in the girls' building of the Cariboo Indian Residential School.

*noted
JST*
The door to the fire escape has been properly hung and is now in use.The reverend principal had been waiting until the return of the children from the summer vacation before having this door completed.

The wooden platform at the rear of the same building is only used during the summer months. Lumber has been ordered by me to replace the supports and platform.As soon as the weather permits this whole structure will be replaced,all labour being performed without charge by the school authorities.

The door referred to above is kept unlocked and is available as an exit at all times.

Your obedient servant,

H.E.Taylor
Indian Agent

December 6th.1934

Sir:-

I beg to advise that an additional fire alarm bell is required for the Cariboo Indian Residential School, to be placed in the small dormitory in the girls' building. The present bell is installed in the large dormitory in the girls' building and fire alarm tests show that it cannot always be heard in the small dormitory. The classrooms are situated beneath the small dormitory so that the alarm bell would be heard by pupils in class, where they do not at present always hear the existing alarm. The Reverend Principal states that a member of the school staff can install the bell if the necessary wire is supplied.

I have added, from time to time, fire extinguishers to supplement the inadequate fire fighting facilities at this School, where we have always been handicapped through a lack of any water pressure to fight fire. We are dependent upon the present electrical alarm, and hand extinguishers and fire buckets. The buildings are old and detached, fire bells being now installed in the boys building, the girls building and the male staff building. A night watchman is also employed during the winter months.

In view of the ever present fire menace I believe the additional bell would be a further precaution which is much needed.

The cost of an adequate bell with the extra wire would not exceed \$35.00 and I would ask that this be approved.

Your obedient servant,

H.E. Taylor
Indian Agent

The Secretary
Dept. of Indian Affairs
Ottawa.

Your File

160-0-5

Sir:-

I beg to refer to my letter of April 4th.last in answer to yours of March 28th.last regarding the domestic water supply for the Cariboo Indian Residential School.

I have this date again taken up the matter with the Reverend Principal, but he has no definite suggestions as to what should be done.

Renewal of the existing pipe-line, as was suggested, will still entail the use of water from Yellow Lake which is partly stagnant during the hot months, and which is now used from a storage tank which is cleaned out monthly to ensure fresh water.

A pipe line from San Jose river could be run to this tank which could be converted into a filter tank, and the water then pumped to a second unused tank above the buildings. The water would have to be pumped from the river direct. The School authorities have water licenses on San Jose river which include a domestic water allotment. They have a dam on Lac La Hache from which the river runs, and the Principal is satisfied that there would be a sufficient supply of water from this source, if it could be lifted from the river. This would involve about two thirds of a mile of pipe line from the river to the first tank and about one third of a mile of pipe line for the remainder. A water pump would also be necessary.

I would ask that an engineer of the Dominion Water Branch be instructed to examine this proposal and estimate the minimum cost.

I know of no other alternative satisfactory scheme, but do not feel competent to recommend any expenditure on such a scheme without an engineer's advice, as there are so many things to be taken into consideration to ensure a satisfactory delivery of water.

I do not think such an installation would be very expensive and the engineer could perhaps be requested to bear in mind the need for an economical estimate which would give an adequate water supply without any expensive works.

Williams Lake.B.C.

June 7th.1935

Sir;-

I beg to advise that I am in receipt of a letter from the Reverend Principal of the Cariboo Indian Residential School, asking that some extra refills be supplied for the fire extinguishers supplied, in order that they may be available when any of the extinguishers have been used and emptied. He states that they had two small fires this spring, one in the blacksmith shop and another which threatened an outbuilding when a brush clearing fire threatened to get away. No damage was done, but it necessitated emptying some of the fire extinguishers, which had been recently refilled with the refills supplied as a result of inclusion in my Estimates for this year.

As it is advisable that the used extinguishers should be refilled and available for use, I would request that the following further refills be sent to the Reverend Principal, to be kept on hand by him, for that purpose;

5 gallon Pyrene -	3 refills.
✓ 1 quart Pyrenes -	5 "
Thermenes -	3 "

The Reverend Principal also sent me a broken part from the inside of one of the Thermene extinguishers. He states that when it was inverted for spraying it would not function. Will you please advise if I should return this part to the Pyrene company in the east for replacement.

June 5, 1935.

Sir:

Your letter of the 31st ultimo is acknowledged wherein you quote a request from the Department of Indian Affairs for a report on the possibilities of a new domestic water supply system for the Cariboo Indian Residential School, Williams Lake Agency. It is noted the department have very limited funds available for this project and ask that consideration be given to the most economical system possible. This matter will be investigated at an early date and report submitted in due course.

A report on a water supply system for this school by Mr. F.R. Archibald dated May 13, 1929 was forwarded to Ottawa on June 7, 1929. This report outlined two schemes both of which required a considerable outlay of money. One from the San Jose river at an estimated cost of \$16,000; the other from springs (Falker creek) three miles distant, at \$25,500.

In 1930 tenders were called for the water supply system from springs (Falker creek) but the contract was never awarded due to the fact that some question of priority of water right developed on the springs from which the water was to be taken and we did not feel justified in proceeding without the Indian Department holding the first right on this limited supply. As the situation now stands the first right is held by Mr. Felker, the Indian Department's licence being second.

In any event the cost of bringing water three miles to the Indian School is high. On the other hand subsequent investigations have failed to disclose as favourable a source of supply in closer proximity to the school. We will, however, have the matter looked into as stated above and report made, having in mind that funds are very limited at the present time.

You might let me know how much money the Department has available for this project.

Your obedient servant,

J.T. Johnston, Esq. C.E.,
Director,

Dom. Water Power & Hydrometric Bureau,
OTTAWA.

C.E. Webb
District Chief Engineer

C.C. for Dept. of Indian Affairs, Ottawa.

Dear Sir,-

It has been reported to the department that a new domestic water supply system is required for the Cariboo Indian Residential School, at Williams Lake, B. C. Would you kindly instruct your District Engineer in Vancouver to make an inspection and report, together with an estimate of the cost of this system. I would ask you to particularly impress upon him that funds are very limited and consideration should be given to the most economical system possible.

Yours very truly,

Dominion Water Power Branch,
Ottawa.

Your File

I60-0-5

Sir;-

I beg to refer to my letter of April 4th.last in answer to yours of March 28th.last regarding the domestic water supply for the Cariboo Indian Residential School.

I have this date again taken up the matter with the Reverend Principal, but he has no definite suggestions as to what should be done.

Renewal of the existing pipe-line, as was suggested, will still entail the use of water from Yellow Lake which is partly stagnant during the hot months, and which is now used from a storage tank which is cleaned out monthly to ensure fresh water.

A pipe line from San Jose river could be run to this tank which could be converted into a filter tank, and the water then pumped to a second unused tank above the buildings. The water would have to be pumped from the river direct. The School authorities have water licenses on San Jose river which include a domestic water allotment. They have a dam on Lac La Hache from which the river runs, and the Principal is satisfied that there would be a sufficient supply of water from this source, if it could be lifted from the river. This would involve about two thirds of a mile of pipe line from the river to the first tank and about one third of a mile of pipe line for the remainder. A water pump would also be necessary.

I would ask that an engineer of the Dominion Water Branch be instructed to examine this proposal and estimate the minimum cost.

I know of no other alternative satisfactory scheme, but do not feel competent to recommend any expenditure on such a scheme without an engineer's advice, as there are so many things to be taken into consideration to ensure a satisfactory delivery of water.

I do not think such an installation would be very expensive and the engineer could perhaps be requested to bear in mind the need for an economical estimate which would give an adequate water supply without any expensive works.

Your obedient servant,

H.E. Taylor

Sir:

Mr. C. C. Perry, Assistant Indian Commissioner, has forwarded your letter to him, dated the 7th instant, requesting that refills be supplied for the fire extinguishers at the Cariboo Indian Residential School.

In this connection I have to inform you that an order has been placed with the Pyrene Manufacturing Company of Canada, Limited, Toronto, Ont., to ship to the Principal's address the refills, as mentioned on the copy of the order, which is enclosed for your information.

The account, in triplicate, covering the cost, with receipt for transportation charges attached, will be forwarded you. Upon receipt of the refills, please attach the account to proper voucher forms, certify in the usual manner, attach the receipt and forward for payment.

The Principal should have these refills placed in the extinguishers and see that they are in good condition, ready for immediate use.

Dear Sir,

Re: CARIBOO RESIDENTIAL SCHOOL

I visited this School on the 8th and 9th inst., in company with Agent Tylor.

The principal thing at this School is the pipe line. The representative of the Dominion Water Power Branch, to whom the matter has been referred, has not yet visited the School. I intend to see him, while in Vancouver, and arrange to have him go to the Cariboo School at an early date.

The Principal requested three (3) footballs, six (6) playground balls and one (1) volley ball equipment. I should appreciate if you would arrange to send these, too.

Yours obedient Servant,

July 15th.1935

Sir;-

I beg to advise that I am in receipt of a request from the Reverend Principal of the Cariboo Indian Residential School, for assistance in erecting a new laundry building. The existing laundry facilities, in the basement of one of the buildings, are very poor and unsanitary. Instead of endeavouring to patch up the present room, a new building will be a great boon.

The Principal advises that if the sum of Four Hundred Dollars(\$400.00) can be allotted by the Department, he will arrange to obtain the rest of the required material and will erect a laundry building with cement floor and necessary plumbing.

The work will be done by the school pupils and manual training instructor and others, so that there will be no expense for labour.

In view of the urgent need for improvement in the laundry, I would ask that consideration be given to this request, if any funds are available.

July 24, 1935.

MEMORANDUM

The Honourable the Superintendent General,

878
Mr. H. E. Taylor, Indian Agent, Williams Lake, B. C., forwards a request from the Principal of the Cariboo Indian Residential School, 150 Mile House P. O., Williams Lake Agency, (Electoral District of Cariboo), B. C., that lumber and other building material, to a cost of \$400.00, be supplied to erect a new laundry building. The existing laundry facilities are in the basement of an outbuilding, which is in a very poor and unsanitary condition. The Agent states that a new building should be provided, instead of endeavouring to patch up the present one. The Principal advises that, if the building material, cement, etc., is supplied, not exceeding in cost the above stated amount, the staff will provide all the labour in erecting a suitable laundry building, with cement floor and necessary plumbing.

The sum of \$400.00 is provided in the Appropriation for Indian Education for the current fiscal year, for general repairs at this school. The Principal states he would prefer that this amount be utilized in the purchase of the building materials for the laundry building and that any other repairs will be looked after by the school authorities, themselves.

I would submit for your approval that authority be granted to incur the expenditure and that Mr. Agent Taylor be instructed to arrange for the purchase of the materials, from firms on the approved list. This would be the most satisfactory method of handling the purchase, as this school is in a rather isolated location.

Sir:

St. Josephs Mission School
Water Supply

As requested I made an investigation of the available source for a suitable supply of water for domestic use for the above institution and wish to submit as follows:-

Present Source of supply.

The present source of domestic supply is from Yellow Lake, which prior to 1881 was a slough. This slough was found to be conveniently situated and was used for irrigation purposes by diverting the San Jose River into it. Yellow Lake was not used however for domestic purposes until 1912 when a spring which up to that time had been the source of supply went dry, and a new pipe line was laid from Yellow Lake to the school.

In 1922 the low ground between Yellow Lake and Trout Lake broke away. A dyke was then constructed across the east end of what is now Trout Lake and the diversion ditch from San Jose River brought into it.

Yellow Lake is situated at an elevation of about 50 feet above the school site. It is about 15 acres in extent and has a maximum depth in excess of 13 feet. A flow of about 4 cubic feet per second normally takes place from the San Jose River through the lake and when not used for irrigation purposes finds its way back to the river.

The water system consists of a two inch wood-stave pipeline from Yellow Lake to a small tank of about

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

2000 gals. capacity near the school buildings from which distribution is made to various points of use. Service pressure varying from 5 to 15 pounds. There is no provision for fire service.

Prospective Sources of Supply.

The available sources of supply are:-

- 1.- San Jose River or Yellow Lake
- 2.- Felker Spring
- 3.- Ground water.

The first and last only of these sources were examined by me as Felker Spring is already the subject of a report by Mr. F. R. Archibald dated May 13, 1929, who estimated the cost of developing that source at approximately \$29,000.00.

The San Jose River water diverted either directly from the river or by way of Yellow Lake would provide an abundant supply of water for all uses of the school, although the water in its natural state is of poor quality, and is sometimes unfit for human consumption. Material improvement could be effected by filtration, and if necessary it could be sterilized.

Regarding a supply from below ground, several small springs show along the bank of the San Jose River in the vicinity of the school. It is probable their source is irrigation water. The available ground supply appears to be limited although the quality as represented by the sample analyzed is fair. See Appendix 1A.

I have accordingly made up estimates of the cost of developing the above mentioned sources of supply which are attached hereto - Appendix #2.

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

CANADA

ARCHIVES PUBLIQUES

POOR COPY

School Requirements:

The domestic requirements of St. Josephs school are probably the lowest per capita of any of the residential schools in the Province, being about 25 gals per day. This is in part due to the poor quality of the water, but more particularly to the limited facilities of the schools. In addition to about 2,500 gals per day for domestic use an amount of about 500 gals per day is necessary for stock watering.

Ground Water Development:

The accompanying plan shows a possible development of a small spring on the bank of the San Jose River, the flow of which at the time of my visit in July was six gals per minute. I have been informed that this spring has been flowing for at least 10 years, which would indicate that it was of a fairly permanent character, as during the past ten years some of the driest periods on record have been experienced in that locality. However as it is probable the source is from irrigation water, the supply should continue so long as irrigation is carried on in that vicinity. While it might be possible to secure a ground water supply from wells closer to the school, it is not to be considered, due to the possibility of contamination.

Owing to the situation of the spring mentioned, care would be necessary in developing it for use in order to exclude the San Jose River at freshet period. Protection against extremely cold winter conditions would be necessary for pumping equipment as it is not possible to provide an underground pump house at the spring.

D The estimated cost of developing the spring to provide for domestic requirements, exclusive of laundry, flush toilets,

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

outbuildings, etc., is \$2,625.00.

The system would comprise a 1250 gal. pressure tank with pump equipment, capable of supplying approximately 12 gal. per minute from a collecting well at the spring of about 800 gals. capacity. The distribution system would parallel the present system and supply all services in the school buildings except those noted, which would be served from the present system so long as it is possible to keep it in repair.

The system outlined above while it would fill the immediate requirements for a supply of water of fair quality for domestic purposes would not appear to completely solve the problem in regard to this school, as in all probability the present pipe line from Yellow Lake would have to be renewed in the course of a year or two.

San Jose River Supply:

To develop a water supply system for St. Joseph Mission from the above source for domestic purposes only would require an ultimate outlay of \$11,055.00 and to provide for fire protection as well would require approximately \$20,220.00 by making use of Yellow Lake. The cost of diverting directly from the San Jose River would exceed these figures by a substantial amount and would not be advantageous in any way.

The system contemplated would require the renewal of the present two inch pipe line from Yellow Lake, now almost at the end of its life, by a three inch pipe line capable of delivering a supply of 25 gals per minute to two pressure filters, connected for a series or parallel operation and delivering to a storage reservoir of 7,500 gals capacity. Distribution to points of use to be made through the present

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

system until such time as the existing pipe is renewed. It would be necessary to improve the condition of Yellow Lake materially if it is to be used for the purpose of a water supply.

It is suggested in this connection that Yellow Lake be separated from Trout Lake and a new ditch constructed to Yellow Lake from the San Jose River, also that the vegetation in Yellow Lake for the greater part should be removed and the lake treated occasionally for algae. I have been informed that since the two lakes have been joined the growth of weeds in Yellow Lake has increased considerably as has also the unpleasantness of taste and odor of the water.

As there does not appear to be facilities for drawing off the lake near the bottom, I would suggest that a 12 inch culvert be installed at a depth of 6 feet or greater if possible, and that all irrigation and excess water be drawn down through it in order to prevent present stagnant condition, and reduce the percentage of decayed vegetable matter in the water used.

Also that the intake pipe be extended to a distance of 250 feet into the lake when being renewed.

The improvements suggested may be carried out as funds become available, and need not all be considered an immediate necessity. It would be desirable to carry out a program of development in the following order.

- 1.- Filter system and storage tank.
- 2.- Separating the lakes, new diversion ditch, cleaning and treating.

Renewing intake pipe and provide deep draw off culvert.

- 3.- Renewal of pipe line lake to school.

Should it not be possible to keep the pipe line in repair until such time as replacement can be made it might be necessary

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

to interchange 3 and 2 in order of precedence.

Felker Spring:

I am informed by the Mission School authorities that the prior licensee on Felker Spring is prepared to relinquish priority to the school to the extent of their domestic requirements should the school be prepared to develop that source of supply.

Fire Protection:

It is not possible to provide a supply of water in sufficient volume (500 g.p.m.) for fire protection purpose from any other source in the immediate locality than the San Jose River. As the pressure head provided by Yellow Lake is insufficient for purposes of fire protection, it will be necessary to install a booster pump on the fire line to produce the necessary pressure.

The cost of providing a fire protection service is estimated at \$13,075.00 if installed separately and if provided in conjunction with the domestic water supply from the same source \$9,165.00.

This installation could be carried out as an extension of the suggested progressive development for the domestic supply, the additional outlay for the third step would be \$2,930.00 or a total of \$6,650. for installation of the larger pipeline from Yellow Lake. The fourth step would be the addition of booster pump and fire stations at a cost of \$6,425.00

Conclusions:

While the development of the spring water supply may be carried out at a minimum cost and with some assurance that it is of fair quality. The supply is definitely limited, although it may reasonably be assumed that the source

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

is irrigation water, there is no assurance that the flow may not decrease beyond the point of usefulness at some time during the year.

On the other hand should the spring continue to flow at its present rate, all of the requirements of the school would have to be pumped from this source within a year or two at a probable cost of \$20.00 to \$25.00 per month as the renewal of the pipeline from Yellow Lake would not likely be undertaken.

The San Jose River is an unfailing source of supply, even in the driest years experienced there has not been a shortage of water from Yellow lake for domestic purposes. The quality of the water however is definitely not good although it can be improved by treatment to compare favorably with that from the spring above referred to.

Recommendation:

I am of the opinion that the present source of supply, the San Jose River by way of Yellow Lake is most likely to provide a permanent supply of water for use of the schools, and for that reason should be developed as means become available.

Your obedient servant,

W. C. Warren

August 27th, 1935

Dear Sir:

I am pleased to enclose for your reference report in duplicate by Mr. Warren, August 21st, 1935 on St. Josephs Mission School Water Supply.

From the report it is evident that no satisfactory water service can be furnished the school for the \$2,500.00 which is at present available. As a temporary measure only the spring referred to may be tapped, but in view of the uncertainty of the supply from this source I am loathe to recommend it.

Undoubtedly Felker Creek would give the most satisfactory water supply but it seems to me its cost is prohibitive, on the other hand it is estimated a satisfactory supply from Yellow Lake will cost something over \$20,000.00

It is unfortunate that there is no satisfactory water supply in close proximity to this institution, but if the school is to remain in its present site for the next 10 or 15 years, the department would be well advised to develop a satisfactory water supply system from the San Jose River or Felker Creek even though the cost is excessive relative to the value of the buildings at the institution.

Copies of this report are today being forwarded to Ottawa.

Your obedient servant,

C. C. Perry, Esq.,
Indian Commissioner for B. C.

Arch
Sir,

In further reference to your letter of August 20th regarding domestic water supply system for the Cariboo Indian Residential School, I enclose herewith copy of a report by Mr. Warren, dated August 21st, together with a copy of a covering letter from Mr. Webb to Mr. Perry, dated August 27th.

From this you will see that a temporary supply of water may be obtained from a spring near the school at an estimated cost of ~~\$262500~~. This appears to offer a temporary solution of the difficulty and would seem capable of improving the water supply until a permanent solution of the difficulty is decided upon. I shall be glad to have your further instructions in regard to this matter.

Dear Sir:

With further reference to my letter of August 27th forwarding copy of Mr. Warren's report of August 21st 1935 on Water Supply for St. Josephs Mission School, I am now advised that the pressure tank mentioned in Appendix 2 of this report as being at Kamloops School has been disposed of by the Department of Indian Affairs. As Mr. Warren's estimate for the domestic supply from the spring (Appendix 2) was based on using this tank it will therefore be subject to correction due to the necessity of purchasing a new tank. The revised estimate will be forwarded at an early date.

MEMORANDUM:

The Honourable the Superintendent General,-

Urgent requests have been made by the Indian Agent and the Principal of the School that steps be taken to carry out improvements to the domestic water system at the Cariboo Indian Residential School, Williams Lake Agency, (Electoral District of Cariboo) B. C.

The Dominion Water Power Branch was requested to have an engineer visit the school and report. The report of the engineer has now been received. He states that the installing of a fully adequate system for the domestic water supply and also for fire protection would cost approximately \$13,000. He states, however, a sufficient supply for domestic purposes, exclusive of laundry, flush toilets and outbuildings, can be obtained from a small spring, at a distance of 1250 ft. from the school, and that this supply would meet the immediate requirements for several years. He estimates the cost of supplying material, equipment and labour to be approximately \$2,625.

The sum of \$2,500 is provided in the Appropriation for Indian Education for the current fiscal year, to improve the water supply at this school. As this work should be carried out this fall, before the extreme cold weather sets in, I would recommend that you approve of the expenditure required - approximately \$2,625 - and that the work be carried out by the Dominion Water Power Branch, under the supervision of their engineer.

Your file 2543A

CEW/CG

September 9, 1935.

Sir: Re: Department of Indian Affairs
 Equipment.

On May 1st last I forwarded a copy of a letter from Fernie Brothers, Kamloops, dated April 27, 1935, in which they offered \$100. for the pneumatic storage tank at the Kamloops Industrial School. Your letter of May 16th advising that the disposal of the tank was being turned over to Col. R.H. Beer, Dominion Salvage Officer, was received. Since that time we have heard nothing in the matter although we wrote Fernie Brothers advising them of what had taken place and suggesting that they get in touch with us in the course of a week or so if they did not hear from Col. Beer.

I am now advised by Mr. Corbould under date of September 3rd that tenders were called for the sale of this tank in July last and the bid of Mr. F.W. Gale of Kamloops of \$15.00 was recently accepted by Ottawa.

So far as I can gather notices covering the proposed sale of this tank were forwarded by the Salvage Officer to Mr. Indian Agent Ferguson at Kamloops. Mr. Ferguson knew nothing of the Fernie Brothers offer the matter having been handled by this office, it being Indian Department material under our charge. Mr. Corbould was away on sick leave at the time and it was not possible for Mr. Ferguson to contact him before distributing the notices and it so happens Fernie Brothers were not called on for tenders by Mr. Ferguson.

It appears that Mr. Gale's bid of \$15.00 was accepted and he now wants to remove the tank along with several valves. Certainly he should receive nothing more than the tank and as a matter of fact it now develops that the tank will come in useful in the construction of a domestic water supply system at St. Joseph's Indian Residential School near Williams Lake. I am given to understand that Mr. Gale is refusing to accept the tank without the valves. If this is so I would suggest that the sale be cancelled and thus leave the tank, valves and

Ottawa, Sept. 26, 1935.

Sir:

I beg to acknowledge receipt of your letters of the 4th, 10th and 14th instant, with reference to the domestic water supply system for the Cariboo Indian Residential School.

Owing to the cost involved, the Department is unable to consider the permanent water supply system suggested by Mr. Webb.

Funds are available to carry out the development mentioned on page 3 of Mr. Webb's report, and it is noted that this will involve an expenditure of, approximately, \$2,625. I would appreciate if you would arrange with Mr. Webb to proceed with this work at the earliest possible date. Indian labour should be employed as far as possible, but, if any white labour is required, the engineer in charge might consult Mr. John A. Fraser, Quesnel.

With special reference to your letter of the 14th instant, I may say our files indicate that the pneumatic storage tank at the Kamloops Indian Residential School was sold on instructions of the Chief Salvage Officer, and payment for same has been received by this Department.

Your obedient servant,

C. C. Parker,
Acting Secretary.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

September 19, 1935.

MEMORANDUM:

The Honourable the Superintendent General,-

gjb
Urgent requests have been made by the Indian Agent and the Principal of the School that steps be taken to carry out improvements to the domestic water system at the Cariboo Indian Residential School, Williams Lake Agency, (Electoral District of Cariboo) B. C.

Dr McPhill:
Approved
Minister
The Dominion Water Power Branch was requested to have an engineer visit the school and report. The report of the engineer has now been received. He states that the installing of a fully adequate system for the domestic water supply and also for fire protection would cost approximately \$13,000. He states, however, a sufficient supply for domestic purposes, exclusive of laundry, flush toilets and outbuildings, can be obtained from a small spring, at a distance of 1250 ft. from the school, and that this supply would meet the immediate requirements for several years. He estimates the cost of supplying material, equipment and labour to be approximately \$2,625.

The sum of \$2,500 is provided in the Appropriation for Indian Education for the current fiscal year, to improve the water supply at this school. As this work should be carried out this fall, before the extreme cold weather sets in, I would recommend that you approve of the expenditure required - approximately \$2,625 - and that the work be carried out by the Dominion Water Power Branch, under the supervision of their engineer.

Harold McPhill

Deputy Superintendent General.

Dr McPhill,
Should any white labor be required the
engineer is to have right consult Mr. John A.
Traser, of B.C.
gjb

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE
P. O. BOX 666

VICTORIA, B.C., October 9, 1935.

Sir:

Mr. C. E. Webb, District Chief Engineer, Dominion Water Power and Hydrometric Bureau at Vancouver, has furnished me with copy of a letter dated October 4th, instant, sent by him to his Director at Ottawa in regard to the additional cost of installing a water system from a spring to serve Cariboo Indian Residential School. If you will refer to my letter covering the estimates for the new fiscal year, it will be seen that I pointed out that Mr. Webb could not recommend this project. For this reason it is my opinion that before the expenditure is undertaken, Mr. Webb should be asked to make a definite recommendation in support of the engineer's report recently submitted.

In an interview with Mr. Webb whilst considering the new estimates, he informed me that he could not support the proposed development from the spring referred to.

A copy of Mr. Webb's letter of October 4th is sent herewith.

Your obedient servant,

C. C. Perry.

Your file 2543 A.

October 4, 1935.

Sir:

Your letter of the 30th instant is acknowledged wherein is quoted a letter of September 26th from the Department of Indian Affairs authorizing the construction of a domestic water supply from a spring to serve Cariboo Indian Residential School, as outlined in Mr. Warren's report of August 21, 1935, at a cost of \$2625.00. You will note from my letter of September 26th which no doubt had not been received at the time your letter was written, that it is estimated an additional \$375.00 will be required for this project making a total of \$3000. instead of \$2625.00.

While Mr. Warren's time is very fully occupied at the present time we will endeavour to have the work undertaken at as early a date as possible, bearing in mind that Indian labour should be employed as far as possible but if any white labour is required the instructions to consult with Mr. John A. Fraser, Quesnel, will be complied with.

I will therefore advise you later when the project is to be undertaken so that the advance of \$3000. may be applied for.

Your obedient servant,

J. T. Johnston, Esq., C.E.,
Director,

Ottawa, October 4, 1935.

Sir:

I beg to acknowledge receipt of your letters of the 30th ultimo and first instant, with reference to the water supply system at the Cariboo Indian Residential School.

An accountable cheque for \$2,815.00 will be forwarded to you.

In connection with the cost of this system, I would point out that, in the estimate of \$2,625.00, made by Mr. Webb, he included an item of \$185.00 for removing pressure tank from Kamloops School and installing same at Cariboo School. As the tank at Kamloops is not now available, this expenditure will not be incurred.

I note from your letter that the new pressure tank will cost \$375. It would therefore appear that the total cost of this water system would be \$2,625, plus the difference between \$375 and \$185, or \$190, making the total cost \$2,815.

Your obedient servant,

A. F. MacKenzie,
Secretary.

CARIBOO INDIAN SCHOOL

145-MILE STATION, B.C.

Oct. 22nd, 1935

Mr. Ph. Phelan,
Dept. of Indian Affairs,
Ottawa, Ont.

Dear Mr. Phelan:

The Very Reverend Father Scannell has written to me saying that you wish me to write to you in connection with the new domestic water system which the Department has kindly agreed to ~~in~~ install in this School. First, however, I wish to thank you for Mr. J. M. Bennett's "Catechetics" and for the donation towards painting some of the buildings. You suggested that some inside painting be done. I am pleased to report that, thanks to your suggestion and the cheque, the boys' dormitory, toilet, playroom and cloakroom look much cleaner and brighter. The exterior of the Manual training shop also was painted.

Mr. Warren, the Engineer, sent by the Department, spent about a week here and went into the question thoroughly. I have not a copy of his report and, so, cannot go into it thoroughly. Mr. Indian Agent Taylor lent me his copy and I believe that it, the report, is accurate. I am not, however, convinced that the water now used is as dangerous as suggested. I have used it for over four years and have felt no ill effects. Two or three years ago, when the weather was very warm in the summer and the water low, the smell and the taste of the water were unbearable. Since then, in the warm months, the taste and the smell have been very unpleasant but, except for a week or two, bearable. However, on several occasions, this water has been analyzed by the Provincial Analyst and has been pronounced unfit for human consumption so that if any illness or epidemic were occasioned by the use of this water the School and, perhaps, the Department might be held responsible. A new water supply, for domestic purposes, is, therefore, at least highly advisable.

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

P00

CARIBOO INDIAN SCHOOL

145-MILE STATION, B.C.

But the Indian Department knows all this and appreciated it to the extent that for the last five or six years it has been seeking a solution to the problem. Five or six years ago it sent Engineers upon whose recommendation it had \$25,000. appropriated to install a new system and that system would have been installed had not Mr Felker refused to give up his first rights on the source of supply. (May I here remark that three or four years ago Mr Felker agreed to give up his rights in our favor? Unfortunately the Department had no longer the funds to avail itself of Mr Felker's offer). Quite recently, the Department sent an Engineer and was prepared to install a new domestic water supply system. Why oppose it?

I did not oppose it. After Mr. Warren's survey, things moved more quickly than I had anticipated and one morning Mr Indian Agent Taylor informed me, as did also a letter, that the work was to begin, at least as I understood it, immediately. I telegraphed to my Superior asking him to have the work held up until he received a letter from me. In this letter I said that the proposed work called for the installation of an engine and a reservoir in an OBLATE building besides the installation of pipes, etc in other Oblate buildings. I believed that I needed his permission for this. I also put both sides of the question before him. The ultimate solution is the more costly plan of Mr Warren, - the bringing of the water, through purifiers, from Yellow Lake or from the San Jose river. As Mr Warren pointed out, the source he suggested would supply only domestic water (and he suggested this only as a second best) so that the most of the water would still have to come from Yellow Lake. He pointed out, furthermore, that the pipes from Yellow Lake, which are wooden and about 30 years old and, in the past 3 years, have broken so repeatedly that they cannot last more than a year or two longer, - he pointed out that these pipes would in all likelihood have to be replaced next year or the following year and he added that, on that account, unless the School would not be rebuilt within ten or fifteen years (and it would then be built, quite likely, on another location) it would be better to install the costlier system which would be

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

CARIBOO INDIAN SCHOOL
145-MILE STATION, B.C.

cheaper in the long run. I might add that the plan recently adopted affords no fire protection. I cannot speak officially but I have reason to believe that, if the Department considered a new School, very satisfactory arrangements with regard to land would be made.

To sum up. The costlier scheme or the bringing of the water from the spring contemplated about six years ago would be the best solution. That would cost a great deal but would be the better solution if the money is available. If it is not, then, as a second best, the cheaper plan should be followed. So far, no evil effects have been felt, except for the taste and the odor, from the present source but this source has been condemned by the Provincial Analyst to whom the Engineers and, under instructions, I believe, Inspector Barry sent samples.

As I am more than busy, I would ask you to excuse the haste with which this has had to be written.

Very truly yours,

E. J. Jones P.M.

PS As we have 4 inches of snow at present, I do not think that the work will be done this fall.

Williams Lake, B.C.

December 5th, 1935

Sir:-

I beg to acknowledge receipt this date, of your telegram of the 4th. inst. requesting particulars regarding the request of the Principal of the Cariboo Indian Residential School for a new Delco lighting plant complete with an extra set of batteries.

In February last the Department paid for a new armature which was supplied for the present lighting plant by Messrs. Boulton Ltd. of Vancouver, that firm being then the agents for Delco equipment. The cost of this armature was \$120.30 as per my Voucher No. 7937.

In November last the Principal of the school informed me that this armature was defective and that the lighting plant was operating unsatisfactorily. I ascertained that Messrs Boulton Ltd. has given up their Delco agency, and that it had been taken over by the MacKinnon Sales & Service Ltd. of Vancouver, B.C.

I took up with this firm the matter of replacing the allegedly defective armature and they replied that it was probably burnt out owing to electrical faults in the switchboard of the Delco plant. They offered to send a man up from Vancouver to check over the plant for the sum of \$40.00 plus cost of any necessary parts.

As I had no authority to incur this expense I referred the matter to the School Principal who sent for the repair man. After examination the repair man reported that the armature supplied by Boulton Ltd. was defective. He put in a new one also some other parts, and the Principal paid him \$129.40. and asked me to submit this account to the Department for payment. I have held this account pending a possibly adjustment with Boulton Ltd. who, I think, should make a rebate for the defective armature purchased by the Department. I am still corresponding with them.

The service man from MacKinnon Sales and Service recommended that, in view of the age of the plant, which is fifteen years, that a new automatic plant be installed and the present one kept for emergency. He stated that there was no guarantee that the plant would continue to operate satisfactorily as many parts were worn out and were not worth replacing.

Shortly afterwards the Principal advised me that the cylinder head in the plant engine was cracked and might cease to function at any time. Another engine was borrowed for a while but had to be returned.

The present plant was purchased by the Oblate Order but the Principal stated that he had no funds to replace it and requested me to ascertain if the Department could supply a new plant.

A quotation was submitted by MacKinnon Sales & Service as follows:-

A 2 kilo 32 volt Model 20 A.B.3 Delco Lighting Plant at \$960.00 F.O.B. the School.
A set of Ironclad Batteries for \$231.00.

This plant is made in the U.S.A. and if admitted into Canada as a farm machine there would be a reduction of \$180.00

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

on the lighting plant and \$35.00 on the batteries.

Thus the total cost would be wither \$1241.00 or \$1026.00.

The Principal states that the fire hazard is greatly increased by having to use lamps and candles when the light fails. At the time of writing, the plant is still working but the Principal advises me that the cylinder head is only just hanging together and that the engine valves are also going and that the plant may quit at any time.

I understand that the MacKinnon Sales & Service of Vancouver are the British Columbia distributors for Delee plants and that any sales would go through them.

Your obedient servant,

H.E. Taylor

Sir,-

With reference to your letter of the 23rd instant regarding the proposed improvements to the domestic water supply system for the Cariboo Indian Residential School, a telegram has been sent to Mr. Webb asking him if work on this project has been begun. Mr. Webb has replied to the effect that the work has not been started and that no expenditures have been made.

He has been asked to return the accountable cheque for \$2,815.00 sent him last month and this will be sent the Indian Department as soon as it has been received.

Ottawa, November 23, 1935.

Dear Sir:

With reference to previous correspondence - your File No. 2543-A - regarding the domestic water supply system for the Cariboo Indian Residential School, I am informed by our Agent that work has not yet commenced and that it is doubtful if it can be done before winter sets in.

In addition, we have received a report showing that it is necessary to supply new batteries for this school.

Our Appropriation is so limited that it will not be possible for the Department to provide funds for both the water system and new batteries. Consequently, if your officials have not yet commenced the water supply system, the Department considers that it is advisable to cancel this work for the present. I would appreciate if you would wire your engineer and ascertain as soon as possible exactly where the matter stands. It would be well to inform him that, if he has not already commenced the work, no further action need be taken, and the accountable cheque of \$2,815 forwarded to you last month should be returned.

Please advise me as soon as you hear from him.

Yours truly,

A. F. MacKenzie

October 30th, 1935.

S. MacKenzie
Sir,-

I have received your letter of the 28th instant authorising Mr. Webb to proceed with the improvement to the water supply system for the Cariboo Indian Residential School by making use of the spring as outlined in Mr. Warren's report of August 21st, 1935, at an estimated cost of \$2,815.00. A copy of your letter has accordingly been sent to Mr. Webb.

Mr. Webb stated on the 4th instant that he hoped to have Mr. Warren available for this work when it was authorised, and that he would advise us when he would be in a position to undertake it. Mr. Webb's attention has accordingly been directed to the necessity for avoiding increased cost; if he finds that winter conditions have set in, in that district, in which case he is to consider the advisability of deferring the matter until next spring.

Your obedient servant,

J.T. Johnston,

Ottawa, October 28, 1935.

Sir:

With reference to previous correspondence - your File No. 2543-A - regarding the domestic water supply system for the Cariboo Indian Residential School, I shall be pleased if you will advise your Mr. Webb to proceed with the work, as stated in our letter dated September 26th, last. Mr. Webb should arrange for the purchase of the materials, from the best available sources of supply, and also for any extra labour that may be required, over and above that which can be carried out by the staff of the school. An accountable cheque, to the amount of \$2,815, has been sent you for this purpose.

Itemized accounts, in triplicate, should be obtained, covering the cost of all materials, and proper time sheets, in triplicate, covering the labour employed. The labour returns should show the number of days or hours the men were employed and the rate paid, and they should be receipted by each individual labourer at the time payment is made. The bills for the material and labour should be forwarded in accounting for the expenditure of the advance mentioned above. It is hoped that the entire cost can be kept within the amount provided. We understand that winter has set in, in the Cariboo district, which may involve a greatly increased expense in carrying out the work. If Mr. Webb considers it is now too late in the season to have the work completed for the amount provided, it might be advisable to defer the matter until next spring. I would request that you advise Mr. Webb, by wire, accordingly.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

January 7, 1936.

MEMORANDUM:

The Honourable the Superintendent General,-

The sum of \$2,500.00 is provided in the Appropriation for Indian Education for the current fiscal year to install a pipeline for a domestic water supply at the Cariboo Indian Residential School, Williams Lake Indian Agency (Electoral District of Cariboo), British Columbia. This work was placed in the hands of the Dominion Water Power and Hydrometric Bureau, but, as there was delay in starting and the winter season had set in, it was decided not to proceed with the work.

A request has been received from the school authorities, through the office of the local Indian Agent, that the above funds be utilized in the supplying of a lighting plant, to replace the present old plant which, after examination, has been found unfit for further service. The service men who examined the old plant recommend, in view of its age - 15 years - that a new plant be installed. Many parts of this old plant are worn out and not worth replacing.

The Agent has submitted a quotation from MacKinnon Sales and Service, Vancouver, who are the British Columbia distributors for Delco lighting plants, to supply a 2 kilo 32 volt Model 20 A.B.3 Delco lighting plant, at \$960, f. o. b. the School, and a set of Ironclad Batteries for \$281, or a total cost for the plant at the school of \$1,241.

I would submit for your approval that the funds mentioned above, which are provided for the water supply system, be utilized in supplying the lighting plant and that the Agent be authorized to arrange for the purchase from the firm mentioned above.

Harold W. Hill

Deputy Superintendent General.

Dear Sir:

The Department finds it necessary to return the voucher which you recently submitted in favour of the Principal of the Cariboo Residential School in connection with the expenditure incurred for material for the new laundry building.

The voucher requests payment in favour of the Principal, but the accounts which you attach are not receipted. In order to enable the Department to issue a cheque in favour of Rev. Father Forbes it will be necessary for him to secure a receipt from Marshall-Wells B. C. Limited showing the items charged to the Department amounting to \$167.78.

Yours truly,

A. F. MacKenzie

R

Sir;-

With reference to the enclosed voucher No. 8368 for the sum of \$167.78 in favour of the Principal of the Cariboo Indian Residential School, for material for the construction of a new laundry, and the remarks of the Principal on the attached statement, I beg to point out that a voucher No. 8308 went forward from this office on Nov. 19th, 1935 for the sum of \$257.60 leaving a balance of \$142.40 to be expended under authority of E.R. No. 3753. 3573

In the event that the original allotment of \$400.00 cannot be exceeded, I assume that the Department will pay the Principal the unexpended balance mentioned.

Your obedient servant,

H. E. Taylor

MEMORANDUM:

The Honourable the Superintendent General,-

The sum of \$2,500.00 is provided in the Appropriation for Indian Education for the current fiscal year to install a pipeline for a domestic water supply at the Cariboo Indian Residential School, Williams Lake Indian Agency (Electoral District of Cariboo), British Columbia. This work was placed in the hands of the Dominion Water Power and Hydrometric Bureau, but, as there was delay in starting and the winter season had set in, it was decided not to proceed with the work.

A request has been received from the school authorities, through the office of the local Indian Agent, that the above funds be utilized in the supplying of a lighting plant, to replace the present old plant which, after examination, has been found unfit for further service. The service men who examined the old plant recommend, in view of its age - 15 years - that a new plant be installed. Many parts of this old plant are worn out and not worth replacing.

The Agent has submitted a quotation from Mackinnon Sales and Service, Vancouver, who are the British Columbia distributors for Delco lighting plants, to supply a 2 kilo 32 volt Model 20 A.B.3 Delco lighting plant, at \$960, f. o. b. the School, and a set of Ironclad Batteries for \$281, or a total cost for the plant at the school of \$1,241.

I would submit for your approval that the funds mentioned above, which are provided for the water supply system, be utilized in supplying the lighting plant and that the Agent be authorized to arrange for the purchase from the firm mentioned above.

Dear Sir:

Referring to your telegram of November 21st and your letter of the 5th ultimo, regarding the Delco lighting service at the Cariboo Indian Residential School and requesting that a new plant be supplied, I have to say that, as our Appropriation for the current fiscal year has been practically assigned, the supplying of a new lighting plant will have to remain in abeyance for the time being. However, I should be pleased to receive a report from you as to the absolute urgency for supplying a new lighting plant at the present time and stating if the present plant would not be serviceable for a further period. As this school is the property of the church authorities, could they not, themselves, obtain a new lighting plant of a type that would be satisfactory and provide the cost of same.

Yours truly,

A. F. MacKenzie,
Secretary.

January 21st.1936

Your file;

I60-0-5

Dear Sir;-

I beg to acknowledge receipt of your letter of the 16th.inst.with reference to the provision of a new Delco Lighting Plant for the Cariboo Indian Residential School.

The present plant is still functioning although the Principal advises me that it may fail at any time, but if it carries on for the remainder of the winter it may last for some months.

When the matter of a new plant was first discussed I asked the Principal if it could not be provided by the church authorities, in view of the fact that they own the property. The Principal stated that he was operating at a loss and could not find the money.

The school operates an extensive ranch in connection, for which much of the labour is provided free by the school pupils, and I have often thought that they should be in a position to provide many of the things for which we are continually asked.

I hesitated to express an opinion in this regard in the absence of any definite knowledge of the Departmental policy, and in view of the fact that in the past, assistance has always been most generously given.

There is undoubtedly a growing tendency for the school to look to the Department for every need, and if it is not provided by us, ways would doubtless be found to procure.

The Rev. Father Forbes, the principal, is now on the prairies and may go to Ottawa, in which case the matter might be taken up with him in person.

Your obedient servant,

Ottawa, March 21, 1936.

Dear Sir:

Replying to your letter of the 10th instant and to previous communications, regarding the supplying of a Delco lighting plant, to replace the one now in use and which is worn out, at the Cariboo Indian Residential School, I have to confirm the following night lettergram to you of yesterday's date: -

"Arrange purchase, from MacKinnon Sales and Service, Vancouver, Delco lighting plant and set iron-clad batteries for Cariboo School, per their quotation, your letter December fifth, last, namely, nine hundred sixty dollars for lighting plant and two hundred eighty-one for batteries, f. o. b. School. Have order placed and account covering cost dated previous to thirty-first instant, in order payment can be made this year's appropriation."

ER 4135

The Honourable the Minister has approved an expenditure of \$1,241.00 in supplying the lighting plant and batteries - this being the price quoted, f. o. b. the school, by MacKinnon Sales and Service, Vancouver, as stated in your letter of December 5th, last. The Department will be unable to obtain any reduction in duty on this equipment.

It is hoped that you can have the order placed and, if possible, the plant and batteries delivered before the end of the current month, in order that payment can be made from the Appropriation for the current fiscal year, before our accounts are closed. If actual delivery has not been made, it will be satisfactory if the account covering the cost is dated previous to the 31st instant. The account, properly certified by you, should, if possible, reach the Department not later than the middle of April. It is to be definitely understood that the school will be responsible for any costs in installing the equipment. Please advise the Principal of the School that authority has been granted to purchase the above mentioned lighting equipment.

[Handwritten initials]

I have also your letter of the 10th instant, regarding the request of the Principal for further assistance towards the completion of the new laundry building. As you were informed, the sum of \$400 was allotted towards the cost of this work, and accounts have been received for material, covering part of the sum provided. You were advised, on the 19th instant, of an outstanding account in connection with the work. When this account has been certified by you and forwarded, it will utilize practically the balance of the funds that were allowed for the work. I regret that we will be unable to provide any further amount than the sum mentioned above, towards the cost of the laundry building.

Yours truly,

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

March 9, 1936.

Memorandum:

MR. PRATT,-

I have to refer to your memorandum of the 7th instant, with attached letter to the Honourable the Minister from Mr. J. G. Turgeon, M.P., relative to a communication he received from the Principal of the Cariboo (St. Joseph's) Indian Residential School, 145 Mile Station, B. C. (Electoral District of Cariboo), in which the request is made that the Department provide the funds to complete repairs to the laundry and supply a lighting system.

Our Appropriation for the current fiscal year provided the sum of \$400 for repairs, and, in August, last, authority was granted to incur an expenditure not exceeding this amount in the purchase of materials for repairs to the laundry. It was agreed the labour would be performed by the school pupils and the manual training instructor, without expense to the Department. Accounts have been received and paid, to the amount of \$358.00, covering the cost of materials.

Regarding the supplying of a lighting plant, to replace the present old plant, which is unfit for further service, I would refer to my memorandum to the Honourable the Superintendent General of January 7th, last, requesting approval for incurring an expenditure of approximately \$1,241.00, in supplying a Delco lighting plant and batteries, and to your reply of the 13th of the same month, in which you stated as follows: "The Minister thinks that this matter should be allowed to remain in abeyance for the time being."

I would point out that the Cariboo Residential School is church-owned and is not the property of the Department.

I can only add that, should the Minister give favourable reconsideration, there are funds available, as stated in the memorandum referred to above, to provide the expenditure required in supplying new lighting equipment.

As requested, I return Mr. Turgeon's letter.

Encl.

MAR 16 1936

RECORDS

Williams Lake, B.C.

March 10th. 1936

Dear Sir:-

I am advised by the Reverend Principal of the Cariboo Indian Residential School that he has written to you requesting further assistance for the completion of the new laundry building. The sum of \$400.00 was allotted by the Department this year towards this building.

If any funds are available from which assistance can be given there is no doubt that a new laundry is badly needed and that the girls are at present working under unsanitary conditions in washing in the present laundry quarters.

As washing is all hand done it is essential that a dry-floored well-lighted place be available, with proper plumbing and facilities for disposing of waste water. The new building which is being erected by the school boys as a part of their manual training instruction will be suitable in every way and should be completed as soon as possible.

When recommending expenditures for this School I always have in mind the fact that the property does not belong to the Department and that, should a new school be built by us it would undoubtedly be upon a different site. Nevertheless, it is necessary to also consider that it is very difficult to get along with old buildings and equipment, and that unsanitary quarters may cause an epidemic of sickness which would prove more costly than the required buildings.

Your obedient servant,

H. E. Taylor

Dear Sir:-

The Reverend Principal of the Cariboo Indian Residential School has asked me to write to you with reference to the supplying of a Delco Lighting Plant to replace the one now in use and which is worn out.

There has been some previous correspondence between this office and the Department in the matter, and under date of January 21st. last, in reply to a letter from the Secretary, I mentioned my views regarding the question of whether the new plant should be purchased by our Department or by the School authorities.

I understand from the Principal that he has written you urging that the new plant be purchased with a portion of the unexpended allotment for providing a domestic water supply for the School. There is no doubt but that a new lighting system is urgently required, and if the Department intends to continue paying for repairs to the old plant it would be cheaper to purchase the new one. The total cost of a plant and batteries would be \$1241.00 or, if admitted into Canada as a farm machine, \$1026.00.

Providing that the Department is satisfied that the cost of a new plant should be borne by them, there is no doubt that the present plant is unsafe and liable to fail at any time. Should that happen some weeks might elapse before a new plant could be installed. In the meantime there would be a grave fire hazard from use of candles and lamps, as there is no water pressure for fire fighting at the School, dependence being entirely upon hand extinguishers.

Your obedient servant,

H.E. Taylor

CARIBOO INDIAN SCHOOL
145-MILE STATION, B.C.

March 7th, 1936

The Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:

I think it my duty to call your attention to our pressing need of a new Delco plant. You may recall that, owing to its having outlived its natural life by five years, the present plant broke down twice last Fall and caused great inconvenience to say nothing of the heavy costs for repairs which the Department was kind enough to meet. The mechanic, finally sent by the Vancouver Delco Agents, warned us that, although he had done his best, the plant was an old one and that we might expect more trouble at any time.

As the Delco Agents have only one service man for B.C., it was ten days after our trouble that we were able to get him. We were lucky at that as he was about to start out on a three months tour of the southern part of the Province. During that time we were without electric light and had to use lamps and candles. (We were able to borrow a generator but it proved too small). As we are in a valley and the hill to ~~the~~ the right is high, the classes starting at 4 p.m. had soon to be called off as the strain was too much on the pupils' eyes. The kitchen and other departments also suffered. The greatest cause of worry, however, was the fire hazard. Naturally, we exercised the greatest caution but the danger was there as our 120 pupils are only children after all and an accident might easily have happened during those ten days. The danger is very great here as our buildings are old, dry frame buildings and, except for water buckets

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 3)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

Po

CARIBOO INDIAN SCHOOL

145-MILE STATION, B.C.

and fire extinguishers, we have no fire ^{PROTECTION.} ~~extinguishers~~. The Department recognized this fact when, in 1930, it had \$25,000.00 appropriated for the installation of a water system as this was the only system that would give us sufficient pressure for fire hoses. (As you may be aware, this system was not installed because the man who had water rights on the source of supply refused to give them up at the time. Shortly after my coming here, I made representations to him, stressing the fire hazard, and he consented to give up his rights in our favor, free of charge, but the money had then reverted to the Treasury).

I do not think it necessary to say more except that I was not the only one to get very little rest during those ten days. Especially as I have done my best to ask for as little as possible, I would ask you to do your utmost to get a new Delco plant for us out of the money which was appropriated for the installation of the domestic water system surveyed and suggested by the Engineer whom the Department sent here last Fall. I know that the Department is at least as anxious as I am to do its utmost to avoid a holocaust in any Indian School.

Mr Indian Agent Taylor, whom I am going to ask to support my request, has, I believe, the quotations on a Delco plant. If I am not mistaken it is about \$800.00. I do not know whether or not this includes batteries. If the Department could have the tax taken off, a saving would be made. The Delco man said that there was no tax on Delcos for farm use. Our plant is so old that only \$90.00 was offered for it on a "trade-in". In that case, it might be well to keep it for emergencies, spare parts, etc.

When Mr Phelan was here, he visited everything on the place. I do not know whether he remembers our laundry. If he does, he will back me up in my statement that there is probably not another like it in any Indian School. In the first place, we have no machinery and I am glad of that as the fact that the girls have to do all the washing by hand is an excel-

Pc

CARIBOO INDIAN SCHOOL

145-MILE STATION, B.C.

lent training for their lives at home. With this training, washing at home will not seem so hard and the girls will do it regularly as the former Schoolgirls now do it on their reserves. However, the floor, being rotten in places, the room dark, somewhat small and not very well ventilated, the plumbing requiring frequent repairs, I decided (and Mr Phelan agreed with me) that all the money appropriated for repairs to the School would be spent on a new laundry. As there were only \$400.00 to spend, we were unable to do more than put up the building although nothing was paid out in wages as the boys did the work as part of their manual training. Shingles or siding must still be bought for the outside of the walls, cement for the floor, bricks for the chimney and plumbing fixtures. Besides that, new tubs are required. Metal ones would be best but wooden ones would cost less. Would you please try your best to have the balance of the \$2500.00 spent on finishing the laundry which will be big enough, well lighted and properly ventilated? This would greatly lessen the laundry work and, perhaps, benefit the children's health. If Mr Phelan remembers what he saw, he will assure you that I am not exaggerating.

I am pleased to say that things have gone on well this year. Inspector Barry said that he was satisfied. I am pleased to say that the former School children are doing well and show that they have benefited by their stay here. One of them broke into a liquor store but he is one of those whom I sent away.

Thanking you for former favors,
I remain yours truly,

G. Forbes O.M.I.

P.S. The following, taken from a letter of a Chelcotin to his boys here, might interest you: "I didn't make much money this year -- just enough to buy grub & live on. You are lucky to be in School where you get plenty to eat. If you were home you would be hungry many days"

Memorandum:

MR. PRATT,-

I have to refer to your memorandum of the 7th instant, with attached letter to the Honourable the Minister from Mr. J. G. Turgeon, M.P., relative to a communication he received from the Principal of the Cariboo (St. Joseph's) Indian Residential School, 145 Mile Station, B. C. (Electoral District of Cariboo), in which the request is made that the Department provide the funds to complete repairs to the laundry and supply a lighting system.

Our Appropriation for the current fiscal year provided the sum of \$400 for repairs, and, in August, last, authority was granted to incur an expenditure not exceeding this amount in the purchase of materials for repairs to the laundry. It was agreed the labour would be performed by the school pupils and the manual training instructor, without expense to the Department. Accounts have been received and paid, to the amount of \$358.00, covering the cost of materials.

Regarding the supplying of a lighting plant, to replace the present old plant, which is unfit for further service, I would refer to my memorandum to the Honourable the Superintendent General of January 7th, last, requesting approval for incurring an expenditure of approximately \$1,241.00, in supplying a Delco lighting plant and batteries, and to your reply of the 13th of the same month, in which you stated as follows: "The Minister thinks that this matter should be allowed to remain in abeyance for the time being."

I would point out that the Cariboo Residential School is church-owned and is not the property of the Department.

gob
I can only add that, should the Minister give favourable reconsideration, there are funds available, as stated in the memorandum referred to above, to provide the expenditure required in supplying new lighting equipment.

As requested, I return Mr. Turgeon's letter.

Dear Sir:

The Principal of the Cariboo Indian Residential School advises that there is an outstanding account of \$71.50 in connection with repairs that he has been making to the laundry. When he hands this account to you, please attach it to proper voucher forms and forward for payment. The voucher should be dated previous to the end of March and should reach here at the earliest possible date.

Yours truly,

A. F. Mackenzie,
Secretary.

Gentlemen,-

The Department is in receipt of your account, dated February 5th, last, (Order No. 1820), covering the cost of linoleum shipped to the Cariboo Indian Residential School.

The account included a charge of \$46.99 for freight. In view of present regulations, it will be necessary for you to forward a receipt from the railway company acknowledging payment of this amount. Please secure this and send it as soon as possible, in order that payment of your account may be made.

Yours truly,

A. F. MacKenzie

Your file:

ISO-0-5

Dear Sir:-

I beg to acknowledge receipt of your letter of the 16th.inst.with reference to the provision of a new Delco Lighting Plant for the Cariboo Indian Residential School.

The present plant is still functioning although the Principal advises me that it may fail at any time, but if it carries on for the remainder of the winter it may last for some months.

When the matter of a new plant was first discussed I asked the Principal if it could not be provided by the church authorities, in view of the fact that they own the property. The Principal stated that he was operating at a loss and could not find the money.

The school operates an extensive ranch in connection, for which much of the labour is provided free by the school pupils, and I have often thought that they should be in a position to provide many of the things for which we are continually asked.

I hesitated to express an opinion in this regard in the absence of any definite knowledge of the Departmental policy, and in view of the fact that in the past, assistance has always been most generously given.

There is undoubtedly a growing tendency for the school to look to the Department for every need, and if it is not provided by us, ways would doubtless be found to procure.

The Rev. Father Forbes, the principal, is now on the prairies and may go to Ottawa, in which case the matter might be taken up with him in person.

Your obedient servant,

Memorandum, -

Mr. Buskard.

With reference to memorandum of the 28th ultimo, regarding the water supply system for St. Joseph's Mission School, Williams Lake Indian Agency, B.C., I have to say that I see no reason why the Dominion Water Power Branch cannot be authorized to invite tenders for this work on the dates mentioned. The Estimates for the current year provide an item for this work and I intend to recommend re-vote for this for the year 1931-32. If the Minister approves, I will invite tenders and send a copy of the specifications to Mr. Fraser.

MEMORANDUM

December 8, 1930

DR. SCOTT -

In connection with the Water Supply System for St. Joseph's Mission, Williams Lake Agency, B.C.,-

Will you kindly arrange for a set of the plans and specifications to be sent to Mr. John A. Fraser, M.P., Quesnel, B.C. Mr. Fraser, in a letter to the Minister, suggests that tenders be advertised this month, to be receivable in January, on the understanding that the work will not be proceeded with until weather permits in the Spring. Mr. Fraser feels that by following this course the contractor may be able to make better arrangements for his material.

Will you kindly let the Minister have your opinion as to this.

Private Secretary.

Dear Mr. Ladner,-

Knowing that you are in town I thought I would ask you for your opinion on the firm of MacLennan Bros., of Vancouver, who are lowest on a tender for the installation of a water-supply system for the Williams Lake Indian Residential School. The Dominion Water Power Branch think MacLennan Bros. can do the work satisfactorily. The three lowest tenders are as follows :-

MacLennan Bros.....	\$24,674.78
Nick Cosco.....	\$29,750.00
B. Bee, Ltd.....	\$31,100.00

You will observe that MacLennan Bros. are \$5,000.00 lower than the next highest.

Yours sincerely,

~~House of Commons~~

My Dear Gent

You will remember my speaking to you re
Sol Cameron of Cameron Construction Co
Cameron is a very capable man. Has done a good
deal of work for myself in past years. Besides in the
past has built some of the finest & best buildings
in Van. Victoria Seattle & New Westminster
I told Cameron I would write you personally
re water supply St Joseph Mission School. He tells
me the more advantages to get at the work early
in the spring before all the frost is out of the ground
certain amount of tunneling work has to be done
which can be done to advantage when frost is in
the ground. Any information you can give me
re Sol's position to this tender will be strictly private

Best wishes for the New Year

I am Truly

W. S. Clements

ps I am enclosing letter to Cameron
which please return to myself

Williams Lake.B.C.

April 1st.1936

Sir;-

I beg to advise that I am in receipt of a request from the Principal of the Cariboo Indian Residential School for refills for fire extinguishers as listed herewith. The only fire protection in this School is extinguishers. Some extra refills were supplied in June last but the Principal advises that he requires an additional surplus to take care of refills if any are emptied through use on a fire.

4 refills for 2-gal. Pyrene Standing Pumps.

10	"	Small Pyrene -wall-type.
5	"	Thermans, large standing.
2	"	Accurate, large.

Your obedient servant,

H.E. Taylor

SUBJECT: ORDER #2009

Dear Sirs,-

We acknowledge and thank you for your valued order, shipment of which has been made.

As we do not stock all of these items at Vancouver, we took the liberty of making shipment from Toronto, and have invoiced you with the F.O.B. Toronto price, and are adding to that price, freight charges from Toronto to 150 Mile House.

We trust our action will meet with your approval.

Yours very truly,

Dear Sir:

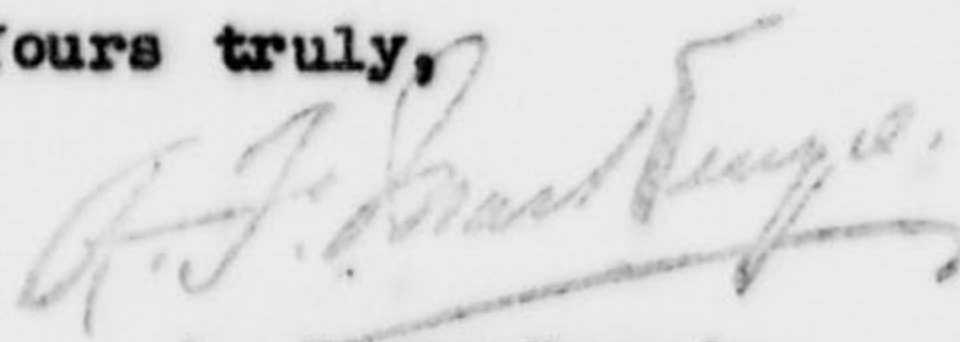

With reference to your letter of the first instant, the Department is ordering, from the Pyrene Manufacturing Company, Toronto,-

4	Refills for 5-gallon Pump Tanks,
10	" " small Pyrene Extinguishers,
5	" " Thermene "

These will be shipped, addressed to the Principal. The account, in triplicate, will also be sent to him. You should arrange to have him give you the account when the refills arrive, in order that you may attach it to voucher forms and forward to the Department for payment.

No order is being placed for the "2 Accurate, Large". The Department is not aware of the firm from whom these were purchased nor the size.

Yours truly,

A. F. MacKenzie,
Secretary.

Ottawa, June 16, 1936.

Dear Sir:

I have your letter of the 5th instant, which has been forwarded to the Department by the Assistant Indian Commissioner for British Columbia - requesting authority for the expenditure indicated therein, at the Cariboo Indian Residential School.

In connection with this request, I would inform you that the following amounts have been provided in our Appropriation for the current fiscal year for this school:-

Miscellaneous repairs and painting	- \$500.
Installing iron fire escapes for three dormitory exits	- 200.

I would request that you inform the Principal accordingly, and, after consultation with him, advise the Department what repairs are recommended to be carried out, stating in detail the cost of each. You should state, also, if the staff can perform the labour, without cost to the Department, if materials are supplied. If the school authorities are unable to do the work, you should state what outside labour would be required. The Department would like particulars regarding the fire escapes, whether same could be procured locally or where they could be obtained.

When we have full information regarding the work to be undertaken for the amount available and the type of outside labour that may be required, consideration will be given to authorizing the improvements and you will be informed regarding purchase of material, etc.

An order has been placed to supply three Singer sewing machines.

Yours truly,

A. F. MacKenzie,
Secretary.

EX'D.

Ottawa, July 17, 1936.

Dear Sir:

I desire to refer you to official letter of the 16th ultimo, with reference to the amounts provided in the current year's Appropriation for repairs, etc., at the Cariboo Indian Residential School.

The Principal of this school visited the Department yesterday and expressed a desire to complete the laundry.

The Department has no objections to the money provided being used for any other purpose. The only thing to keep in mind is that the total amount in this year's Appropriation, viz., \$700.00, must not be exceeded.

It might be well for you to discuss the matter again with the Principal and ascertain what he considers are the most necessary improvements to make at this school, and you can then advise the Department where the material can be purchased and any other information that you have available.

Yours truly,

T. R. L. MacInnes,

Williams Lake.B.C.

August 19th.1936

Sir;-

I beg to advise that the Principal of the Cariboo Indian Residential School reports that the pipeline from Yellow Lake to the school storage tank, upon which the present water supply for the school depends, broke down recently. Although it has been temporarily patched up, it is considered undependable, and there is a prospect of the school being deprived of water for domestic purposes at any time.

A report of the Dominion Water Bureau, dated August 21st.1935, and prepared by Mr.W.C.Warren, deals with the question of water supply for this school, including the matter of renewing the pipeline in question.

Money was voted last year to instal a drinking supply system, as recommended by Mr.Warren, from springs on San Jose river, at an estimated cost of \$2625.00. Owing to some confliction regarding an alternative scheme, proposed, I believe, by the School Principal, the work was not proceeded with, and the supply from Yellow Lake has been used up to the present time.

The drinking supply system mentioned above would not provide sufficient water for laundry and other domestic uses, and therefore would not solve the whole water supply question, as noted by Mr.Warren on page 4 of his report, where he also observes that in all probability the present pipe line from Yellow Lake would have to be renewed in the course of a year or two.

Mr.Warren estimates the cost of a domestic supply from Yellow Lake, at \$11,055.00. This provides for new storage tank, filters, new intake etc.

The only other alternative appears to be the renewing of the present pipeline to the present storage tank, utilising the existing tank, and cleaning out and chlorinating the tank now in use, at intervals. This has not been estimated upon by an engineer. The Principal considers that, with Indian labour, he could replace the pipeline for approximately \$2500.00.

As stated, the use of the springs on San Jose river would not give the School water for all domestic purposes, so that the pipeline from Yellow Lake would need replacing in any case. If it is renewed so as to ensure a supply of water, the matter of new storage tank, filters, etc. could be dealt with as money became available.

It would, of course, be more desirable to carry out the full scheme from Yellow Lake, as proposed by Mr.Warren, but if the amount required is not available this year, something will need to be done without delay, to ensure water being available when the school returns in September.

GENERAL:

The Residential School was closed so I did not visit same. I hear there is some talk of rebuilding. I don't know whether at the Departments expense or not. However, I should like to point out that quite a number of reserves in the agency would fit themselves into Day schools and probably would be better off. This, of course, is my own opinion.

EXD.

Ottawa, September 5, 1936.

Dear Sir:

I have your letter of the 19th ultimo, regarding the water supply system at the Cariboo Indian Residential School.

In reply I have to say that, after giving the matter every consideration, it will not be found possible to obtain any funds, from our appropriation for the present fiscal year, either to provide a water supply for domestic purposes or to install the necessary piping, etc., in securing an adequate supply of water for all school purposes. I would point out that this school is the property of the Church authorities. The Department feels that they should accept responsibility for supplying and installing the water supply system for the school. In any event, we will be unable to provide any funds to improve the water situation at this school during the present fiscal year.

Yours truly,

A. F. MacKenzie,
Secretary.

EX'D.

Ottawa, November 24, 1936.

Dear Sir:

I have your letter of the 16th instant, regarding the request you received from the Principal of the Cariboo Indian Residential School, for replacement parts for a fire extinguisher.

It is considered, from the information furnished by you, that this fire extinguisher is practically unserviceable and beyond repair and that it would be better to furnish the school with a new extinguisher. An order is therefore being placed with the Pyrene Manufacturing Company of Canada, Limited, Toronto, to forward to the Principal's address, 145 Mile Station, B. C., one 2-Quart pressure type extinguisher, complete with chemical.

The account, in triplicate, covering the cost, will be forwarded to you, with receipt for prepaid freight charges attached. When the extinguisher is received, I would request that you attach the account to proper voucher forms, certify in the usual manner and send to the Department for payment.

Yours truly,

A. F. MacKenzie,
Secretary.

Ottawa, November 6th, 1936.

Dear Sir,-

The Department is in receipt of your letter of the 26th ultimo, with reference to the outside toilets for the boys at the Cariboo Indian Residential School.

You should again discuss the matter with the Principal and arrange to have suitable outside toilets constructed before next summer.

As you did not state that the Principal requested the Department to incur any expenditure in this regard, it is presumed that the school will do the necessary work.

Yours truly,

A. F. MacKenzie.
Secretary.

ARCHIVES PUBLIQUES

POOR COPY

Williams Lake.B.C.

October 26th.1936

Sir;-

I beg to refer to the report of Dr.A.L.McQuarrie, the Asst. Director of Medical Services for B.C.under date of the 16th.inst. and to that part of the report which deals with the latrines in the boys section of the Cariboo Indian Residential School.

When this new outside latrine was built,with the assistance of the Department for lumber used,it was anticipated that the trench would be kept properly flushed out during the summer months. This was not done during the last summer vacation,with the result that it was in very unsanitary condition when viewed by Dr. McQuarrie.

Owing to the extreme cold weather in the winter time,flush toilets would not be practical.The alternatives are a proper septic tank or very deep earth pits which could be filled in when full up, and the building moved to another location.

I have discussed the matter with the school Principal who is prepared to dig a septic tank.If this is done,the accumulated matter which will freeze in the pit during the winter months,would have to be flushed down a large pipe inlet,into the septic tank in the spring.This may present difficulties.Dr McRae,with whom I also discussed the matter,thinks that pits dug down ten or twelve feet under the latrine building would be sufficiently dark to prevent any danger from flies during the warm weather.As an additional precaution,covers could be hinged to the seats.

I will discuss these proposals further with the Principal with a view to having one or the other system installed before freeze up.

This school is handicapped by not having the water and interior facilities for proper flush toilets.In the girls quarters there is a septic tank outlet which functions satisfactorily,but it has been found easier to keep things sanitary in the girls buildings than in the boys.

Your obedient servant,

H.E. Taylor

EX'D.

Ottawa, February 18, 1937.

Dear Sir,-

The Department has received from the office of D. M. Mackay, Indian Commissioner for British Columbia, your letter to him dated the 9th instant, regarding the request of the Principal of the Cariboo Indian Residential School to be supplied with fire equipment and grates, etc., for the school furnaces.

In this connection, I have to inform you that an order is being placed with the Pyrene Manufacturing Co. Limited, Toronto, to forward, freight charges prepaid, addressed to the Principal, 145 Mile Station, B. C., 5 - 1½ quart extinguishers, complete with chemicals. It is considered that this type of extinguishers would be satisfactory.

The account covering the cost of the extinguishers will be sent you and, when the goods have been received, you should attach the accounts to proper voucher forms, certify in the usual manner and forward for payment. I enclose, for your information, copy of our order to the above firm.

The Department is not prepared to supply the two dozen fire buckets at the present time and, as our appropriation for the present fiscal year is assigned, we will be unable to authorize the purchase of grates and liners for the furnaces. You might bring these requirements to the attention of the Department at the end of April, next, when our new appropriation will be available. Consideration will then be given as to whether or not funds can be provided to supply the grates and liners.

Yours truly,

R. A. Hoey.

OFFICE OF
INDIAN AGENT

February 9th. 1937

15/47808

I beg to refer to your letter of the 16th. January last and to my reply of the 22nd. regarding the need for further fire equipment at the Cariboo Indian Residential School.

Five(5) - Pyrene 2 gallon Heavy Duty pump-type extinguishers.
Three of these are for the boys quarters and two for the
school kitchen.

Three of the school furnaces also require side and back liners and one needs a set of grates. I have obtained a quotation on these which are Pease No. 70 H.D. Furnaces. The sets of liners are \$45.00 per set F.O.B. the School, and the grates will cost \$6.20 making a total of \$141.20. The Department may consider that the cost of these replacements should be borne by the School authorities, but I am forwarding the request as asked. The Principal is still absent but I am informed that these furnaces were originally supplied by the Department. I can find no record of this on file, and they were not purchased since I have been in this Agency.

MEMORANDUM

Deputy Minister

With reference to verbal inquiry from your office I attach hereto a memorandum from the Superintendent of Welfare and Training, giving further information concerning the Cariboo Indian Residential School pipeline. This school is owned by the Church.

This Branch does not know who put in the pipeline originally, but this information is being obtained from the Church authorities and you will be advised when it is received.

T.R.L.M.

T. R. L. MacInnes,
Acting Director of Indian Affairs.

July 12th, 1937.

MEMORANDUM:

Mr. MacInnes.

With reference to your inquiry of the 10th instant regarding the Cariboo Indian Residential School, the pipeline from the school to Yellow Lake was constructed in 1912. Our records do not show that the Department contributed towards its cost. However, in 1922, the low ground between Yellow Lake and Trout Lake broke away. A dike was then constructed across the east end of what is now known as Trout Lake and, at that time, the Department paid the sum of \$783.00 for labour on this dike.

The original buildings at the Cariboo Residential School were erected by the Church but the Department, from time to time, has provided several outbuildings, including a barn. We have, also, paid accounts in past years for repairs to different buildings used in connection with the school work. Sundry items of equipment have also been allowed this school.

MEMORANDUM:

The Deputy Minister.

On receipt of Mr. Wardle's memorandum to you of June 28th regarding my memorandum of June 2nd, last, in connection with the water pipeline at the Cariboo Indian Residential School, this Branch wired the Indian Agent, advising him that Mr. Warren had estimated the cost of the new pipe at \$3,720.00.

Today, we are in receipt of the following reply:-

Williams Lake, B. C.

Cariboo School Principal advises that owing to drying up of ground and near departure Indian labor for hayfields he ordered forty five hundred feet pipe from Pacific Coast Pipe Co also fittings totalling thirteen hundred fifty dollars - S t o p - He considers this sufficient for satisfactory replacement present pipeline - S t o p - Has arranged for labor at estimated cost eighteen hundred dollars and is prepared to take care of all cost in excess of two thousand dollars - S t o p - Special rate on pipe and freight was secured - S t o p - Principal advises compelled take action in order to guarantee work completed before freeze up as Indian labor could not be secured in midsummer and fall

H. E. Taylor, Indian Agent.

The information contained in the above telegram indicates that the Principal has made very economical arrangements for replacing the present pipeline. I would, therefore, appreciate your concurrence in our allowing him the sum of \$2,000.00 towards the cost of this work.

Surveys and
Engineering Branch

June 28, 1937.

Memorandum:

I am returning herewith the memorandum to you of the second instant from the Acting Director of Indian Affairs relative to necessary repairs to the pipeline which provides water to the Cariboo Indian Residential School. In this memorandum the Acting Director mentions that according to an estimate received in 1935, it would have cost approximately \$2,600 to replace the present pipeline with new iron pipe and place the new pipe 4 feet underground for the approximate distance of a mile.

This matter has been looked into by our Engineering and Construction Service and the Indian Affairs Branch has evidently misunderstood the application of this estimate. The figure of \$2,600 had nothing to do with replacement of existing pipe but merely covered the cost of a new auxiliary gravity system from a spring to augment the existing domestic supply.

Mr. Warren's estimate on replacing the existing 2" pipe of the present system with new 3" wood stave pipe is \$3,720. This provides for a length of approximately 4,500 feet. This will effect immediate repairs to the domestic supply, it being understood that the 2" pipe has practically collapsed in several sections.

It will not, however, cover other necessary work required on the domestic water supply, as soon as funds can be obtained, and which is as follows:-

Dr. Charles Camsell, C.M.G.,
Deputy Minister of
Mines and Resources.

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 4)

PUBLIC ARCHIVES

CANADA

ARCHIVES PUBLIQUES

POOR COPY

- COPY -

- 2 -

Storage in Yellow Lake, filtration of water and new intake. The estimated cost of this additional work is placed by Mr. Warren at \$11,055.

It should also be pointed out that the 3" wooden pipe replacement will not, of course, provide fire protection for the School. (The present line does not provide fire protection.) Due to the low head between the source of supply and the School, an 8" pipeline would be required to carry enough water for fire-fighting purposes and a booster pump would have to be installed. The cost of the 8" pipeline would be about \$6,300.

From the Acting Director's memorandum, it appears that the Indian Affairs Branch can only spare \$2,000 for the present essential repairs so that \$1,720 will be required in addition. It is consequently recommended that the Indian Affairs Branch advise what funds will be available from the management of the School so that we can prepare specifications for the Purchasing Agent covering the amount of pipe that can be bought.

As mentioned in a telegram recently received in the Indian Affairs Branch, the Principal of the School is very anxious to have the pipeline replaced at the earliest possible date because the ground is becoming hard and Indian labour will soon scatter for the haying season.

Respectfully submitted,

(Sgd.) J. M. Wardle.

Director.

WILLIAMS LAKE

MONTHLY REPORT FOR MONTH ENDING MAY 31st, 1937.

X

X

X

The water supply for domestic uses at the Cariboo school has been temporarily repaired, but further leaks in the piping give a small supply of water at times. Fortunately this can at present be augmented by diverting irrigation water into a secondary piping system, but this will not be available after irrigation ceases. The Department has been fully informed of the situation and by the time this report is received will probably have authorized the replacement of the pipe-line.

EX'D.

Williams Lake. B.C.

June 1st. 1937

Sir;-

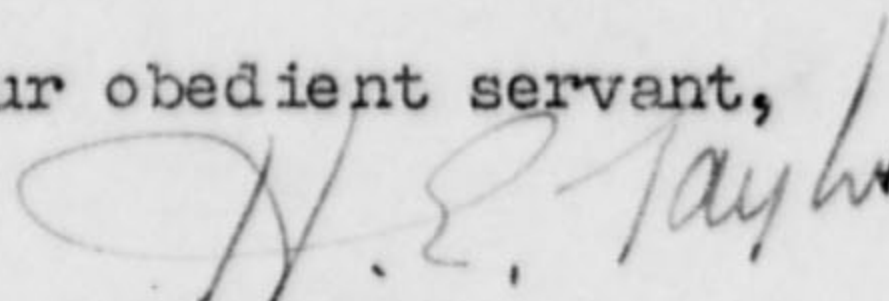

With reference to your telegrams of May 19th. and 27th. last re the domestic water supply at the Cariboo Indian Residential School, I beg to confirm the following telegram to you of the 29th. ult.

"YOUR OFFER TWO THOUSAND DOLLARS FOR PIPELINE CARIBOO SCHOOL ACCEPTABLE TO PRINCIPAL. UNDERSTOOD REPAIRS TO BE DEFERRED."

The School Principal advises me that he had already ordered paint to the value of \$300.00 previous to the above offer being made. I told him that I would mention the matter, but had no idea if there would be any additional funds to take care of any such expenditure.

A further break occurred in the pipeline two days ago but whilst irrigation is in progress, water can be diverted from the irrigation supply through an auxiliary pipe system to supply clean water to the School. This water will not be available after irrigation ceases. Repairs are now being effected at the new point of leakage, but there will always be a recurrence of the trouble until a new pipeline is laid.

Your obedient servant,

H.E. Taylor
Indian Agent

Ottawa, June 2, 1937.

Memorandum:

DEPUTY MINISTER, - EX'D.

For the past three or four years, the pipeline which conducts the water from the source of supply to the Cariboo Indian Residential School has been giving considerable trouble. This pipeline was originally installed about 30 years ago. Frequent repairs have been made, but recent reports indicate that, in order to insure a reasonably adequate water supply for the Cariboo Indian Residential School, it will be necessary to replace the pipeline.

The present pipeline is 4 feet under ground and nearly one mile long. It will be necessary to dig up the old pipeline and replace with new iron pipe. The cost of this work will be approximately \$2,600.00, which was an estimate given in 1935 by Mr. Warren, of the Dominion Water Power Branch.

If the Department allows the sum of \$2,000.00, the management of the Cariboo Residential School is prepared to pay the balance. All work will be done by Indians, some of whom are on relief at present, but, if given work in this way, can be removed from the relief list.

There is available, in our appropriation for the current fiscal year, a sum of \$2,000.00 which could be used for this purpose, and I would appreciate receiving your approval to authorize the work proceeding. It is important that it should be commenced immediately.

The Cariboo Indian Residential School is in the electoral district of Cariboo, B. C.

R

Sir;-

I beg to refer to my letter of October 26th.last with reference to the report of Dr.A.L.McQuarrie and his reference to the latrines in the boys section of the Cariboo Indian Residential School.

During a visit to the School on the 15th.inst.I inspected the new latrines which have been built this spring.The flushing out into the adjacent field has been done away with and twelve-foot deep pits have been dug on a fresh site,with a suitable top structure.The pits are deep enough to exclude light and flies and the building above has been built on skids so that it can be moved to a new location when fresh pits are necessary.

In the absence of sufficient water pressure to allow of water closets being installed,this would seem to be the most sanitary arrangement that can be made,and should prove satisfactory

May 17th.1937

Your file

160-0-5

Sir;-

I beg to advise that the principal of the Cariboo Indian Residential School reported to me on the 14th.inst.that the domestic water supply system,from Yellow Lake had ceased to function,owing to further breaks in the pipe line.

On the 15th.inst.I went to the School and the pipe line break had been located that morning.Repairs were to be effected but the Principal states that there will always be trouble,as in the past,until the pipe line is renewed.

In this connection I would refer to my letter of August 19th.1936 and your reply of September 5th.last in which the Department stated that it was considered that the Church authorities should accept the responsibility for supplying and installing the water supply system for the school,in view of the fact that the School is the property of the Church.

I again drew the attention of the Principal to that letter.He states that they have not the funds to renew the pipe-line and that,if further breaks occur the School will be unable to function.He has written to his Church authorities in Ottawa outlining the situation,and requested me to ask the Department if any funds would be available this year to have the work done.

As I previously wrote,a report of Mr.W.C.Warren of the Dominion Water Branch,dated August 21st.1935,dealt with alternative schemes for (a) a drinking supply system from springs by the San Jose river,and (b)a domestic supply with new storage tank,filters,etc.from Yellow Lake.The cost of (a)was \$2625.00 and of (b)\$11,055.00

I have previously stated that,owing to the age of the School buildings,which will have to be rebuilt at some time,and most probably on a different site,any large Departmental outlay was not justified.

I would ask to be advised if the Department feels that they can provide any funds for any work at all in this matter.

Sir;-

I beg to refer to the letter of the 16th.ult.from the Superintendent of Welfare and training,regarding the current year's appropriation for expenditures at the Cariboo Indian Residential School.

I have conferred with the School Principal regarding the allotting of the \$1200.00 authorised,and it is desired to apportion the money as follows;-

To completing school laundry - \$500.00

General repairs;-cement blocks under dining rooms,cement floor in dairy, foundation and sidewalk renewals,fly screens and doors,plumbing repairs in girls building,completing inside toilet for boys building,repairs for furnaces and cold air conduits for same - 300.00

Painting buildings - 400.00

It is possible that a portion of the money allotted for painting may be used to replace defective piping in the water supply,and to augment the fire protection,and full details will be shown on all vouchers rendered.

Your obedient servant,

H.E.Taylor
Indian Agent.

ST. JOSEPH'S MISSION

CARIBOO INDIAN SCHOOL STATION P.C.E.

BRITISH COLUMBIA May 14th, 1937

The Very Reverend Father Provincial,
Ottawa, Ont.

Very Reverend and Dear Father:

Our water pipe line between Yellow Lake and the reservoir, a distance of ~~about~~ about 4800 feet, has burst or has been plugged and, although I have had three or four working on it since last Saturday, the trouble has not been found and, from this source, we have had no water in the School for almost a week. We can carry on for about a month as the irrigation water has been piped to our buildings but, ~~after~~ about June 15th, when the irrigation water will have to be turned off, we shall have no water and will, I think, have to close the School unless the trouble is located and the pipe repaired or the pipeline renewed.

Unless we are very fortunate, we may have to dig up a great deal ^{of} the pipeline before locating the trouble. If it were a leak and if it happened in the dry season, there would be signs to go by. As it is, the land is sopping wet in many places owing to irrigation and other causes. If we had to dig up most of or all the pipeline, it would pay, in the long run, to put in a new pipeline as the present one is, I believe, about 30 years old and, being wooden, is just about rotten.

On and off, since I came here over six years ago, this pipeline has been giving trouble but up until now we have been able to find the trouble and remedy it. I have called this matter to the attention of the Indian Department on several occasions and, a couple of years ago, they were good enough to have Mr Warren survey and report upon the matter as well as upon a less costly scheme. The Department was willing, I believe, to go forward with the less costly scheme but I did not think it advisable. In the first place, this scheme would have given us only enough water for domestic purposes but none for the laundry, baths, toi-

BRITISH COLUMBIA

lets, etc and I did not feel justified in having the Department spend this money (about \$2500.00, I think) when I foresaw that the necessity in which, sooner or later, we should be asking to have the pipeline from Yellow Lake renewed. There were indications of trouble less than a year ago and I asked Mr Indian Agent Taylor to apply for money to install a new pipeline. The Government was short of money and the Department, then, replied that they thought that the Church authorities should pay for this. As you know the Church authorities would mean the Oblate Fathers and these have not the \$6000.00, if I recall the figures, which would be required.

The Department's view appears to be that this is not a Government School but Oblate buildings used as such. Might it not be urged that this is true and that the Oblate Fathers, besides supplying men to civilize the Indians, have, without charge, put these buildings and spacious grounds at the disposal of the Department for the education and the physical and moral welfare of the Government's wards and have thus saved the Government from sinking \$250,000.00 in buildings?

Would you please approach the Department and ask that, in view of the children's staying here until July 21st, permission be granted to install a pipeline immediately and that they put a competent man in charge? I would suggest that the digging and whatever other work possible be done by the Indians. Many of them have asked me for work. This would cut down on relief.

The Department most likely has Mr Warren's report. He, I think, took a straighter and shorter line from Yellow Lake to the reservoir. That would cut down on the pipe required and on the digging unless, for the latter, by the time we receive a reply we have dug up most of the pipe, - which is 4' down.

I do not think that I have over-stated the case. Either the Department or we will have to spend the money, unless we can remedy the trouble, or close the School. - Of course, we could hire a couple of men and have them haul water from the ~~ri~~ creek but you will realize what that would mean. Moreover, neither the

Department nor we would like to put ourselves in such a position that, in the event of a fire and of children burned, the Press would be able to tell the country that, for the sake of \$6000.00, the Department and the Oblates had sacrificed these children. ~~And with~~ I am aware that the fire protection here, even with a new pipeline, is inadequate but the Press might miss this but would not overlook our having no water piped to the ~~new~~ buildings.

Shortly before I came here, the Dept had twenty five thousand dollars appropriated for a new water system for us but, at the last moment, the man, who had water rights on the source, refused to cede his rights and the thing fell through. I was able to help that man, later on, and he willingly agreed to cede his water rights. I informed the Indian Agent immediately but the Department no longer had the money.

The water in Yellow Lake has been examined and found unfit for drinking purposes unless boiled. I have made a point of drinking plenty of it daily, as have others, and have felt no evil effects although I have done it for more than six years. In the really hot weather, the smell and taste are ^{very} bad but we have a small spring nearby where we can and do get drinking water.

We will keep looking for the trouble. If there are any results, I will telegraph. But after a week's work at the problem I am not at all optimistic.

Respectfully yours,

S. J. Jones

P.S.

Mr Indian Agent Taylor was asked to come here today to study the situation but was unable.

There are serious objections to beginning the holiday before July 21st. Sept. 18th is the earliest we can get the children back and some of them will not be able to be here on that date.

S.J.

Dear Sir:

With reference to your letter of the 6th instant, provision has been made in our current year's appropriation for the following expenditure at the Cariboo Indian Residential School:-

Painting	-	\$450.
To complete laundry	-	500.
Miscellaneous repairs	-	250.
Total	-	\$1,200.

Please let me have a detailed statement of the manner in which you consider the above amount should be expended. It is not necessary to consider exterior painting if you think the funds could be devoted to some better purpose.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

EXD.

Ottawa, July 19, 1937.

Dear Sir,-

With reference to your telegram of the 6th instant regarding the water pipeline at the Cariboo Indian Residential School, I have to confirm the following night lettergram sent you on the 15th instant:-

"Your telegram sixth instant received and contents carefully noted -stop- Department will allow an amount not exceeding two thousand dollars towards cost of replacing water pipe line Cariboo Indian Residential School -stop- Letter follows"

In order to permit the Department to pay the amount specified in our telegram, it will be necessary for you to submit a voucher, in triplicate, showing expenditures exceeding this amount. Part of this expenditure could consist of the cost of the pipe and fittings. The account should, of course, be receipted if it is desired to make payment to the Principal of the school. To make up the balance, it will be necessary for you to forward receipted paylists, in triplicate. A supply of these forms is going forward to you.

Yours truly,

R. A. Hoey.
Supt. of Welfare & Training.

OFFICE OF THE
DIRECTOR

160-0-5

INDIAN AFFAIRS
BRANCH

July 8th, 1937.

MEMORANDUM:

The Deputy Minister.

On receipt of Mr. Wardle's memorandum to you of June 28th regarding my memorandum of June 2nd, last, in connection with the water pipeline at the Cariboo Indian Residential School, this Branch wired the Indian Agent, advising him that Mr. Warren had estimated the cost of the new pipe at \$3,720.00.

Today, we are in receipt of the following reply:-

Williams Lake, B. C.

Cariboo School Principal advises that owing to drying up of ground and near departure Indian labor for hayfields he ordered forty five hundred feet pipe from Pacific Coast Pipe Co also fittings totalling thirteen hundred fifty dollars - S t o p - He considers this sufficient for satisfactory replacement present pipeline - S t o p - Has arranged for labor at estimated cost eighteen hundred dollars and is prepared to take care of all cost in excess of two thousand dollars - S t o p - Special rate on pipe and freight was secured - S t o p - Principal advises compelled take action in order to guarantee work completed before freeze up as Indian labor could not be secured in midsummer and fall

H. E. Taylor, Indian Agent.

*Approved
CE.*
The information contained in the above telegram indicates that the Principal has made very economical arrangements for replacing the present pipeline. I would, therefore, appreciate your concurrence in our allowing him the sum of \$2,000.00 towards the cost of this work.

T. R. L. MacInnes
Acting Director.

September 24, 1937.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

The undersigned has the honour to report:-

THAT in order to provide an adequate water supply for the Cariboo Indian Residential School, it was found necessary to replace the water pipeline which was originally installed about thirty years ago;

THAT the estimated cost of the above work was Three Thousand Seven Hundred and Twenty Dollars (\$3,720.00) and that the school management expressed their willingness to accept Two Thousand Dollars (\$2,000.00) towards its cost;

THAT funds to the amount of Two Thousand Dollars (\$2,000.00) are available in the Appropriation for Indian Education for the fiscal year 1937-38.

The undersigned, therefore recommends that authority be granted for the expenditure of the said sum of Two Thousand Dollars (\$2,000.00) towards the cost of constructing the water pipeline at the Cariboo Residential School.

Respectfully submitted,

Minister of Mines & Resources.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

The undersigned has the honour to report:-

THAT in order to provide an adequate water supply for the Cariboo Indian Residential School, in the province of British Columbia, it was found necessary to replace the water pipeline which was originally installed about thirty years ago;

THAT the estimated cost of the above work was Three Thousand Seven Hundred and Twenty Dollars (\$3,720.00) and that the school management expressed their willingness to accept Two Thousand Dollars (\$2,000.00) towards its cost;

THAT this amount is chargeable to Vote Number 169, Indian Affairs Branch, Department of Mines and Resources.

The undersigned, therefore, recommends that authority be granted for the expenditure of the said sum of Two Thousand Dollars (\$2,000.00) towards the cost of constructing the water pipeline at the Cariboo Indian Residential School.

Respectfully submitted,

Minister of Mines and Resources.

Memorandum:

THE DEPUTY MINISTER,-

In my memoranda of June 2nd and July 8th, I brought to your attention the necessity for constructing a new pipeline at the Cariboo Indian Residential School.

You approved my memorandum of July 8th, 1937, in which I recommended allowing an amount of \$2,000.00 towards the cost of construction of the pipeline.

As the Cariboo Indian Residential School is owned by the Church, it will be necessary to secure an Order-in-Council before payment can be made. I therefore enclose Memorandum to Council.

Ottawa, October 26, 1937.

MEMORANDUM:The Deputy Minister,-

I am returning herewith Mr. Jackson's memorandum of October 22nd and also draft recommendation to Council with respect to construction of a new pipeline at the Cariboo Indian Residential School.

I may state that the desirability of providing an adequate water supply for the Cariboo Residential School has been under consideration by the Department for a number of years. The matter was thoroughly investigated by Mr. W. C. Warren, of the Dominion Water Power and Hydrometric Bureau, who furnished the Department with a report on August 21st, 1935. Mr. Warren in that report estimated that it would cost approximately \$11,055 to provide the residential school with an adequate supply of water for domestic purposes and that it would cost at least \$20,220 to provide a supply of water sufficient for domestic purposes and fire protection.

In view of the fact that the financial resources at our disposal at that time were limited, it was decided to make a further investigation with the object of determining if a water supply could be provided at a reduced cost to the Department and the church authorities. Mr. V. Meek, Assistant Director of the Dominion Water Power and Hydrometric Bureau, in a letter to the Department dated September 4th, 1935, expressed the view that a temporary supply of water, that might be sufficient for a number of years, could be obtained by the construction of a pipeline from a spring comparatively near the school, and he estimated the cost of this construction at approximately \$3,000.

A number of memoranda have been sent forward to
the Minister's

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 4)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

POOR COPY

the Minister's office with respect to this project and the best ways and means of proceeding with the construction. May I refer particularly to a memorandum dated July 8, 1937, addressed to you and signed by Mr. T. R. L. MacInnes, Acting Director, in which Mr. MacInnes asked for your concurrence for the payment of a grant of \$2,000 toward the cost of this work. This memorandum was approved by you and later returned to this Branch. The officials, having obtained your approval for this expenditure, wired H. E. Taylor, Indian Agent, Williams Lake, B. C., on July 15, 1937, authorizing him to inform the Principal of the school that he (the Principal) could proceed with the work. This grant was made on the understanding that the church authorities would contribute at least \$2,000 in the purchase of supplies and in making provision for labour costs.

We are now in receipt of accounts from the Pacific Coast Pipe Company, Limited, the firm from whom the pipeline supplies were purchased, asking for settlement of the account.

The Cariboo Residential School is the property of the church authorities, although certain improvements, including the construction of a barn at the school, have been undertaken and paid for by the Government from time to time. The last Auditor's report, signed by H. Wey, indicates that the cost per pupil per day at this school amounts to 46.7¢ and that the per capita grants paid last year by the Government amounted to 43.9¢. It would appear from this report that the Principal of this school has in recent years been borrowing money from the Oblate Order but has succeeded in reducing this loan until at that date it amounted to only \$362.01. It is only fair to point out, however, that the Oblate Order did not at any time during the life of the loan impose any interest charges.

I am of the opinion that, in view of all the circumstances, a division of the costs necessary to provide the water supply necessary is fair and reasonable. Requests for fire fighting apparatus or for an adequate water

- supply

Indian Affairs. (RG 10, Volume 6438, file 878-5, part 4)

- 3 -

supply have always been given very sympathetic consideration by the Government. Repairs have been undertaken at church-owned schools when the appropriations at our disposal enabled us to undertake such repairs when such were considered necessary and urgent. Suggestions have been made from time to time that the per capita grant to church-owned schools might be increased and the church authorities requested to maintain their own buildings. However, no definite decision has been reached in this matter.

Memorandum

MINISTER'S OFFICE

22nd October, 1937.

Dr. McGill

I am returning herewith the draft recommendation to Council which accompanied your memorandum of the 5th instant with respect to the construction of a new pipeline at the Cariboo Indian Residential School.

I understand that the cost of operating this school is covered almost entirely by the per diem allowance now made for Indian pupils. It would seem on the face of it as though the school might bear the total cost of the pipeline. However before coming to any decision you might let me have a more comprehensive report for the Minister's information.

C. W. Jackson,
Secretary.

Ottawa, November 5, 1937.

Dear Sir:-

I have your letter of October 21 enclosing letter received from the Pacific Coast Pipe Company with reference to payment of their account.

As the Cariboo Residential School is church owned, it is necessary for us to secure an order-in-council before the account can be paid. It is expected that this will be passed in the very near future and arrangements will then be made to forward cheque.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

October 27th.1937

Dear Sir;

I enclose a copy of a letter received from the Principal of the Cariboo Indian Residential School, asking that the money expended by him to purchase paint, be refunded by the Department.

The letter is self-explanatory, but I would point out that at the time the Department offered the \$2,000.00 for the water system, the Principal agreed to the suggestion, and was apparently prepared, at that time, to pay for the paint already purchased.

Your obedient servant,

Oct. 25th, 1937

Mr H.E. Taylor,
Indian Agent,
William's Lake, B.C.

Dear Mr Taylor:

As you are aware, the Dept. of Indian Affairs surprised me by granting \$1200.00 for the finishing of the laundry, for painting and for repairs. As it was specified that some painting be done (and this was really needed), I bought and used \$277.08 worth of paint. It was only after this paint had been bought that our domestic supply pipeline broke down. In response to my appeal for help, the Dept. replied that I should use the \$1200.00 already granted and that, if I did so, the Department would add another \$800.00 to make up \$2000.00 for this work. I was to pay the rest. I was able to buy new pipe very much cheaper than had been estimated by the Gentleman sent to examine the situation. By employing exclusively Indian labour, I was, perhaps, able to cut down on relief to Indians. However, the thing cost me a pretty penny.

As I bought the paint under the impression (not to say by the orders of the Department: it being specified that part of the \$1200.00 be for paint) that this would be paid for out of the extraordinary grant, would you please ask the Department if they would refund this money? The reason for which I make this request is that I need about that sum to buy a second set of batteries for our Delco. The Department was good enough to buy us a Delco and one set of batteries. I should have asked for two sets but, to cut down expenses, I asked for one set as our old set was then fairly good. It is now dead and, unless we wish to ruin the remaining set, another must be purchased immediately. I do not think that I have wasted a cent but I cannot pay my bills. For beef, pork, vegetables, salaries and wood (we burn no coal), I owe over \$4000.00, for this year, to the Oblate Fathers. The \$1500.00 advanced on the Sept Grant is spent.

Yours truly, F. Miller M

Ottawa, November 27, 1937.

Dear Sir:-

As you were informed in official letter of July 19th last, the Department made arrangements to provide \$2,000. towards the cost of replacing the water pipe line at the Cariboo Indian Residential School.

In connection with this work we received two accounts as follows:

1. Pacific Coast Pipe Co. Ltd. \$1142.64.
2. Rev. G. Forbes, O.M.I. - Wages and freight - \$870.75

The above two accounts amount to \$2,013.39. As we can only allow the amount previously promised, cheque for \$1142.64 is being forwarded to the Pacific Coast Pipe Company and a cheque for the balance of the \$2,000.00, or \$857.36, to the Reverend Principal of the Cariboo Indian Residential School.

Yours truly,

Re: Wood Pipe supplied to the Cariboo
Indian Residential School,
145 Mile Station, B. C.

Gentlemen:

Enclosed herewith please find statement
showing a balance of \$1,142.64 which is considerably
past due.

Our terms are "30 Days Net", and this
material was shipped in good faith on July 13th.

Dec 1/37

We received a letter recently from Mr.
H. E. Taylor, Indian Agent at Williams Lake in which
he advises that owing to the school buildings being
Church property it is necessary to have an Order in
Council passed before payment can be approved. Would
you be good enough to advise us by return if this
Order in Council has been passed, and if not when it
is likely to be presented for approval?

The year is fast drawing to a close and
we are very anxious to have overdue accounts paid on
or before the 20th of December.

Thanking you in anticipation of a prompt
reply, we are

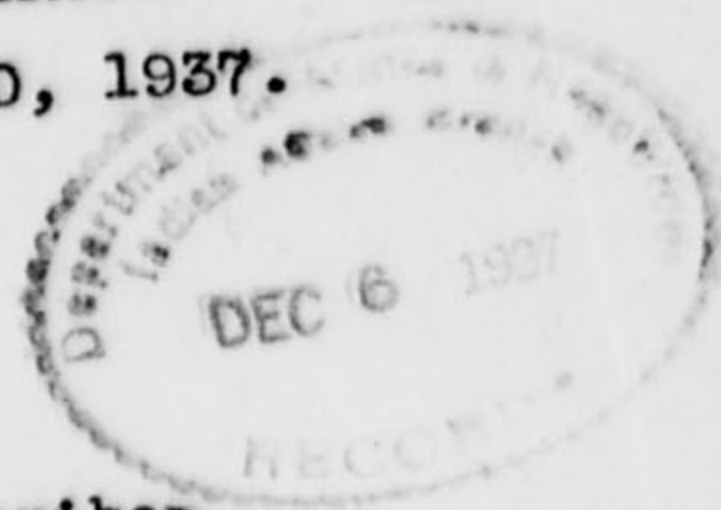

Yours very truly,

POOR COPY

Ottawa,
April 22, 1938.

Dear Sir:

I have your letter of the 11th instant enclosing voucher covering the cost of the three toilets and septic tank at the Cariboo Indian Residential School. In connection with Church owned schools we are now required to secure an Order-in-Council and in securing this we only provided an amount of \$155.00 for the Cariboo Residential School as we knew that this amount slightly exceeded the estimated cost. As the Order-in-Council only authorizes \$155.00 this is all we can pay and the school authorities will have to be responsible for the balance, namely \$1.39.

I regret that owing to the fact that our appropriation for the fiscal year 1937-38 is now exhausted it is not possible to pay from that Vote for the cement and freight charges. However, the accounts for these might be submitted and if it is found possible to provide funds in the current year's appropriation payment will be made. Possibly the best way to handle the matter would be for the school to pay these accounts and have them receipted, then, if funds are available, repayment will be made to the Principal.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Re I60-0-5

R

Dear Sir:

I thank you for your letter of March 25th and for the fire-extinguishers which are to come.

Evidently, I misunderstood and was misunderstood. I understood that, of the grant of \$700.00, \$500.00 was to be spent on the laundry and the balance on repairs and improvements. My plan was to use the \$200.00 on renewing some stair cases and floors and on paying half the cost of a flume behind the girls' building. This flume is needed as, at present, the girls' basement is often flooded and the walls undermined. I think that the stair cases and floors can wait until next year and that, if all the \$700.00 is spent on the laundry and fire-escapes we ~~we~~ can build the flume out of the per capita grant especially as the Oblates will bear half the cost. I had no idea that the \$200.00 was for fire-escapes. That money, I fear, will not suffice.

I am making out (or, rather, have made out) a list of what is needed to complete the laundry. You will note that plumbing fixtures are almost entirely omitted. That is because we have them on hand, - bought out of the money already granted in past years. You will note, also, that no request is made for machinery. I do not want machinery: first, it is costly; secondly, the girls are used to washing by hand and this is excellent training for their future life. It would be hard to go from the School machinery to the home tub but it is easy to go from the School tub to the home tub. I am very ~~pleased~~ pleased to say that, whenever I have chanced to visit a reserve on washday, I have found, with very few exceptions, that the married ex-schoolgirls, were busy at their washing. I might add that even the Sisters do their share at the tubs and this is good example for the girls.

POOR CO

ST. JOSEPH'S MISSION

CARIBOO INDIAN SCHOOL STATION P.G.E.

BRITISH COLUMBIA

A week has elapsed since I finished page one. In the meantime, I have made out a list of all material required for the laundry and have sent it to the Indian Agent. He has just called and we have been able to cut down the costs considerably by deciding to use plain shiplap instead of v-joint and by other changes. He had quotations from local firms but these appear quite high for some items. He will get quotations for most of the building material and for the fire escapes from the Coast. I am trying to make arrangements with other people so that, if the material is supplied, we can get a carload between us and reduce the heavy freight costs.

While it does not matter to me who gets the order, I think that I should point out that, after a few experiments, I have found McLennan, McFeely and Prior, Vancouver, give greatest satisfaction in the hardware line. Their prices on fire-escapes might be high and Mr Taylor will write directly to a foundry. Mr C. Anderson, whose mill is near us, will supply lumber, as in the past, at \$16.00 per M. That price, lumber delivered, cannot be beaten. It was he who suggested "finishing" the interior in shiplap instead of the more costly v-joint. It will not look so well but it will be just as good and far cheaper. With the \$500.00, I had not expected to complete the laundry this year.

You may have noted, in my recent report, that we have done a great deal of building and repair work. I forgot to mention the great improvement made on our water reservoir. It is now far more sanitary.

Mr Indian Agent Taylor confidentially told me that he had suggested to the Department ~~xx~~ that relief supplies might be bought wholesale at a great saving and -although he did not suggest it-allowed me to add a word. From what I hear, the Indians are getting a great deal of dried fruit and sugar which they turn into rather powerful home-brew. Whether they buy this or get it as part of their relief, I do not know. If Mr T's suggestion were adopted, they would not get it in their relief rations. Of course, local store-keepers might howl but if one wholesale order were bought and the store-keepers were told, their prices might come down.

Moreover, I do not know whether it is or is not the case-if, to make money, the store-keepers were suggesting to the Indians that they apply for relief, your relief costs would decrease when the profit to the store-keepers was nil. At present, with so vast a territory to cover, your Agent cannot tell what the Indians are being given.

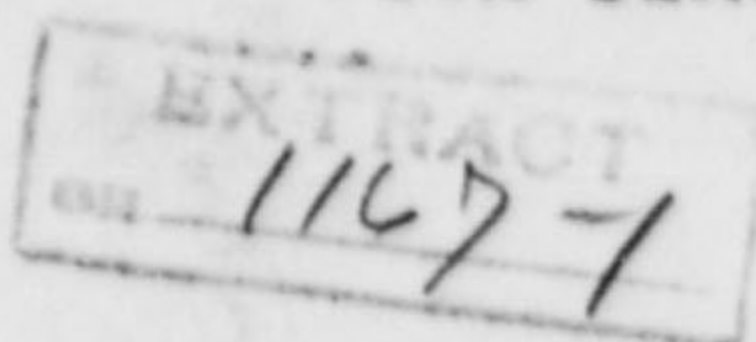

A story: A former Principal told me that, years ago, certain store-keepers used periodically to telegraph to the Dept. saying that the local Indians were starving and asking permission to save them from death by giving-or, rather, selling-food to the poor Indians. Finally, the Dept. telegraphed to this Principal saying that it was reported that the Indians at---- were starving and asking him to investigate. He did not investigate but replied immediately "Indians at----not starving. Plenty to drink". Whether there is anything in certain suspicions or not, I cannot say. Mr Taylor's suggestion, if carried out, might show you.

I am pleased to say that the toilets for the boys' ~~xxxxxxx~~ have come. It will be a great improvement and far more sanitary. Our plumber quoted on the toilets and some pipe only, neglecting to mention tiles from the septic tank. I have informed the Indian Agent. The tile, of course, is necessary.

You have, no doubt, heard of Archbishop Duke's Indian Exhibition to be held in Vancouver. We expect to send in some really good beadwork and buckskin work. The local Indians do no carving and very little basket work. As for the prizes, they mean nothing to me after what I saw in Kamloops.

With sincere wishes for a happy Easter,
Yours very truly,

G. Fisher P.M.

In connection with the enclosed Voucher No.9849 in favour of Crane Ltd.I beg to advise that this expenditure is for the three toilets and septic tank at the Cariboo Indian Residential School. A letter from the Supt.of Welfare & Training,dated the 18th.ult.authorised the purchase at an estimated cost of \$154.26. The estimate of the Rev.Principal was low,however,as,in addition to the enclosed account for \$156.39 there is an additional \$35.00 for cement and also the freight charges on the material from Crane Ltd. This firm were instructed to include freight charges in their account and support them with receipt,but they have not done this and the cost of the freight is not yet known.

Will you please advise me if the Department has sufficient funds to pay for the cement and freight,or whether these charges should be referred to the School Principal for payment.

Your obedient servant,

H.E.Taylor

MINES AND RESOURCES:

The Board had under consideration a memorandum
from the Honourable the Minister of Mines and Resources
reporting:-

"That during the current year repairs and
equipment were urgently required to Indian Church Schools
as follows:

Spanish Roman Catholic Indian Residential School at Spanish in the Province of Ontario.....	\$278.04
Ermineskin Roman Catholic Indian Residential School, Hobbema Indian Agency in the Province of Alberta....	738.53
Wabasca Church of England Indian Residential School, Lesser Slave Lake Agency in the Province of Alberta..	161.07
Cariboo Roman Catholic Indian Residential School, English Oblate Order, Williams Lake Agency, Province of British Columbia.....	155.00
Squamish Roman Catholic Indian Residential School, Sisters of the Child Jesus, Vancouver Agency in the Province of British Columbia.....	34.80
Aklavik Church of England Residential School at Aklavik, Northwest Territories.....	310.80
Total.....	\$1,678.24

That as these buildings are the property of
the Churches as designated the repairs and equipment
constitute a grant and, therefore, require the approval
of Your Excellency in Council for the above expenditure;

That the cost of these repairs and equipment
were included in the estimates for the fiscal year ending
March 31, 1938 in the Indian Affairs Branch, Vote Number
169, Department of Mines and Resources.

The undersigned, therefore, recommends that
approval be given for the expenditure of the sums as
above set out in the respective Indian Schools totalling
One Thousand Six Hundred and Seventy-eight Dollars and
Twenty-four Cents (\$1,678.24) same to be chargeable to Vote
Number 169, Indian Affairs Branch, Department of Mines
and Resources."

The Board concur in the above report and recommend-
ation, and submit the same for favourable consideration.

The Honourable
the Minister of Mines and
Resources.

E. J. Lemaire.
Clerk of the Privy Council.

EX'D.

Ottawa,
March 25, 1938.

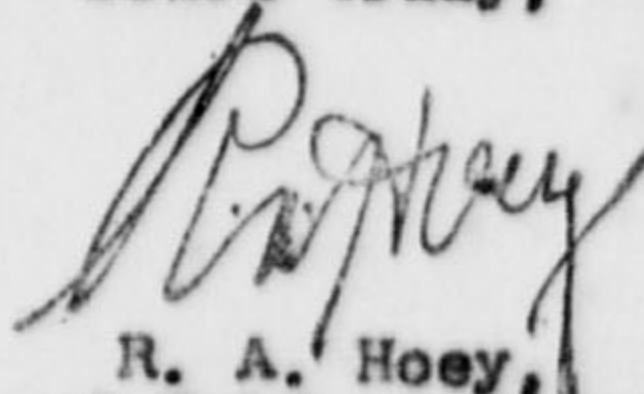

Reverend Sir:

With reference to your letter of the 15th instant I am arranging to forward 6 - 1½ quart fire extinguishers for use at the Cariboo Indian Residential School. In preparing our estimates for the fiscal year 1938-39 we included an item of \$500.00 to complete the laundry at the Cariboo School and \$200.00 for iron fire escapes, or a total of \$700.00. I note from your letter that you consider the whole amount will be required for the laundry. Please let me have an estimate of the cost of erecting the fire escapes in the manner in which you suggest.

Please consult Indian Agent Taylor and prepare detailed information regarding the material required for the laundry and forward same in order that the information may be given to our Purchasing Branch.

You may also forward detailed information regarding the material required for the proposed fire escapes and an estimate of its cost. When this is received the Department will decide if additional funds over and above the amount of \$700.00 can be provided. A copy of this letter is being forwarded to Indian Agent Taylor.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

ST. JOSEPH'S MISSION

CARIBOO INDIAN SCHOOL STATION P.G.E.

BRITISH COLUMBIA

March 15th, 1938

The Indian Affairs Branch
Dept. of Mines and Resources
Ottawa, Ont.

Gentlemen:

Your letter of Feb. 10th, concerning the means to be taken to prevent fires in Indian Schools, came while I was away and was left for me to answer.

Your instructions will be carried out as they have been carried out in the past.

We have about 25 fire extinguishers at strategic places and that number might be sufficient. However, as our School consists of four units, not including the Manual Training Shop, warehouse, etc., and as the buildings are frame constructions and, also, as we have no water pressure against fire, it would be in the interests of the safety of the pupils to have even a dozen more ^{hand} fire extinguishers and two larger extinguishers on wheels.

Last year, in order that we might install metal fire escapes in place of the present wooden ones, you kindly increased our extraordinary grant from \$600.00 to \$1200.00. As you are aware, you had later to instruct me to use this money (a good deal of it had already been spent) to install a domestic water pipeline. The result was that the fire-escapes could not be installed. The pipeline, as you and I were aware, cost a great deal more than the money you could spare. As a result, the School owes the Oblate Fathers over \$5000.00 for salaries, meat, fuel, etc.

You kindly granted \$700.00 this year. All this money will be required for our laundry which we greatly need as the Indian Agent and the Inspector will tell you.

I am pleased to say that the Inspector appeared very satisfied after his recent inspection. The pupils are in good health.

Yours truly,

Would you please have
3 metal fire escapes ^{or 44} installed - Sketch enclosed.

March 9th. 1938

Mr. Philip Phelan
Chief, Trading Division (Indian Affairs)
Department, Mines and Resources
Ottawa, Ont.

MAR 14 1938

Dear Sir:

Father Forbes, being troubled with a sore arm, asked me to write you in his name. If there is any money left, he would like to have some to install toilets in the boys building, and to build a Septic tank. There are no interior toilets at the present, and the arrangements at hand to meet with an epidemic are unsatisfactory and unsanitary.

Enclosed find quotation from Crane Ltd. As three toilets are needed, the quotation on bends (\$2.31), and on closets (\$22.43 less \$1.01) should be multiplied by three.

Material for a satisfactory Septic tank would amount to \$90.00. This does not include some logs and lumber which we can furnish. The work will be done without cost to the Department by the staff, and where possible by the boys as part of their manual training.

With kind regards and good wishes,

I am

Sincerely Yours

G. Forbes OMI

Per... *J. Hennessy OMI*

P: S- Mr. Taylor, the Indian Agent, and Dr. McCrae, the District Indian Doctor, are both very much in favour of above mentioned improvements.

10th January, 1938

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

The undersigned has the honour to report:

THAT miscellaneous repairs were urgently required to the Cariboo Roman Catholic Indian Residential School, the property of the English Oblate Order (Roman Catholic) in the province of British Columbia;

THAT these repairs have been made to the said School at a cost of Two Hundred and Seventy-seven Dollars and Eight Cents (\$277.08);

THAT the estimated cost of these repairs was included in the Estimates for the fiscal year ending 31st March, 1938, in the Indian Affairs Branch Vote No. 169, Department of Mines and Resources.

The undersigned, therefore, recommends that approval be given for the expenditure of the said sum of Two Hundred and Seventy-seven Dollars and Eight Cents (\$277.08), the cost of repairs and improvements to the Cariboo Indian Residential School.

Respectfully submitted,

Minister of Mines & Resources.

Dear Sir:

The Department has received your voucher No. 9653, dated December 22, 1937, for payment of paint supplied by Henry Darling & Son, Limited, Vancouver, to the Cariboo Indian Residential School, to the amount of \$277.08. This amount includes \$23.63 for prepaid freight charges.

Before this account can be paid, it will be necessary to have the express receipt covering the amount of \$23.63 for charges prepaid. It will be very much appreciated if you will obtain this receipt and forward it to the Department at the earliest possible date.

Yours truly,

R. A. Hoey,

Dear Sir:-

I beg to advise that I am in receipt of a request from the Rev.Principal of the Cariboo Indian Residential School for 12 right-hand and 12 left-hand castings, to repair broken school seats, supplied by the Department for class-room use. Bolts for attaching are also required.

Desks and seats which are otherwise serviceable have been rendered inoperative by the breaking of the lugs on the cast fittings on the under side of the seats.

As there are various types of seat fittings I attach a diagram showing the shape of the required part.

I would recommend that these repair parts be supplied and shipped direct to the School at 145 Mile Station.B.C.

Ottawa,
May 20, 1938.

Dear Sir:

With reference to your letter of the 9th instant I am requesting the Purchasing Agent to arrange purchase of the items listed in the first part of your letter the cost of which you state will not exceed \$689.93.

This will practically exhaust the amount provided in the current year's appropriation for repairs, improvements and purchase of new equipment at the Cariboo Residential School and consequently it will not be possible for the Department to authorize the expenditure suggested in the last three paragraphs of your letter.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Your file

I60-0-5

Sir;-

With reference to the letter of the 25th.March last sent by the Supt.of Welfare and Training to the Rev.Principal of the Cariboo Indian Residential School, and a copy of which was sent to me, I beg to advise that the \$700.00 allocated for the School laundry can be expended for the following material;

30 sq.Red Hexagon Shingles @ 7.40	222.00
20 rolls Tar Paper @ 1.18	23.60
25 lbs White Lead	3.45
164 lbs.Galv.Iron sheets 30 ga.@ 8.65 per C	14.19
272 " " " 26 ga." 8.00 "	21.76
61' Galv.Pipe 1" @ 14.56 per C ft.	8.88
100 lbs.Nails, comm.3 1/2"	5.40
50 " Shingle Nails	3.88
3 Rim Lock sets	1.99
3 prs.Steel Butts 4" x 4"	.48.....305.63

For advantageous purchase the above can be obtained f.o.b. the School from McLennan, McFeely & Prior Ltd.of Vancouver.B.C.at wholesale prices.

26 M. No.2 Cedar Shingles for siding @ 2.90	75.40	From R.Nelson
832' B.M.Clear Spruce, varying sizes for tubs	130.00	Williams Lake.
6500' B.M. Common Lumber 1/2" @ 14.00 M	91.00	Local mill product
1500' Fir Flooring @ 25.00 M	37.50	From C.Anderson
		Williams Lake P.O.
18 prs windows @ 2.80	50.40	From Smedley & Sharp.
		Williams Lake.

The above material totals\$689.93

In addition to this, in order to complete the laundry building there is an estimated sum of \$265.18 for material and labour for chimneys, and \$228.10 for material and labour for cement floors.

I enclose two estimates obtained for erection of metal fire escapes, one for \$626.00 plus \$70.00 freight, and one for \$431.82.

I obtained wholesale prices as above on part of the material as the local cost was too high to obtain value for the \$700.00 available. I am submitting these estimates at the request of the Acting Principal of the Cariboo School, as the Rev.Principal is undergoing medical treatment and his absence may be prolonged.

Mr John Mikkelsen, Contractor
Williams Lake, B.C.

Dear Sir-

We have your letter of the 12th inst requesting a price on four fire escapes. We have not very much information to go on, but we have figured standard fire escapes construction to conform to the regulations of the Provincial Fire Marchall. We understand your letter and sketch to mean that you required four fire escapes balconies, 3'0" high wide X 6'0" long X 3'0" high with two fixed stairs and railings 3'0" high all round, one 9'6", one 12'0" from the ground line to platform of balcony.

The other two escapes to be the same, except that they are 14'0" and 14'6" from the ground and to have counterbalanced stairs to lift 7'0" from the ground.

We offer to make the four balconies and four stairs as above, painted and delivered to the P.C.E. freight shed in Vancouver including 8% sales tax for \$626.00 (SIX HUNDRED AND TWENTY SIX DOLLARS) This would include all necessary bolts to fasten the parts together, sheaves, sheave brackets and pins, counterweights, galvanized cable, thimbles, and cable clamps. the shipping weight would be 5.200 Lbs and the P.C.E. freight rate on this class of material, knocked down, is \$1.34 per 100 Lbs

The following is a specification of the material we have figured on using:
Balcony frame $\frac{1}{4}$ " x 2"x 2" angle iron.

- : Railings $\frac{1}{4}$ " x 1" mild steel bars welded to top and bottom angles
- : floors $\frac{1}{4}$ " x 1" mild steel gratings on edge.
- : knee brackets -each balcony would have two angle iron knee brackets bolted through the wall as required.

Stair stringers, two 4" channel irons, treads four $\frac{1}{4}$ " x 1" bars on edge, bolted to angle iron clips rivetted to stringers.

Stair railings 3/16" x 1 $\frac{1}{2}$ " x 1 $\frac{1}{2}$ " angle iron with $\frac{1}{4}$ " x 1" bars electric welded.

We trust that this is what you have in mind and that our quotation will be in order. ~~THIS PRICE DOES NOT INCLUDE COST OF INSTALLATION AT SCHOOL.~~ Thanking you for this enquiry, we remain
hear from you shortly, we remain

Yours very truly

Westminster Iron Works Co Ltd
Per Wm J Reid

PS If this work is to be done it will be necessary to furnish us with the proper measurements, thickness of walls, location of balconies, and distances from the ground.

Dear Sir:

In our appropriation for the fiscal year 1938-39 the following amount was provided for the Cariboo Indian Residential School:

(a) To complete laundry	500.00
(b) Iron fire escapes	<u>200.00</u>
Total	700.00

I would appreciate if you would discuss with the Principal the repairs and improvements required at the Cariboo School. If the Principal would prefer to have this money expended in some other manner than mentioned above we will have no objection but it must be kept in mind that the total expenditure for repairs, improvements and purchase of new equipment at the Cariboo Indian Residential School this year cannot exceed \$700.00.

You have already received a copy of the purchasing regulations and, therefore, any material etc. that is required has to be secured through our Purchasing Branch. As a result you will have to supply detailed information regarding any request that the Principal makes. Please let me hear from you as soon as possible in order that we may arrange for the purchase and delivery of the articles at the earliest possible date.

Yours truly,

H. E. Taylor

PRIVY COUNCIL
CANADA

MINES AND RESOURCES:

The Board had under consideration a memorandum from the Honourable the Minister of Mines and Resources reporting:-

"That for many years past it has been customary to make an allowance to the under-mentioned Residential Schools for the services of night watchmen;

(a) QUEBEC

Fort George Church of England Residential School

(b) ONTARIO

Moose Fort Church of England Residential School

(c) ALBERTA

Ermineskin Roman Catholic Residential School
Grouard Roman Catholic Residential School
Holy Angels Roman Catholic Residential School

(d) NORTHWEST TERRITORIES

Aklavik Roman Catholic Residential School
Forth Resolution Roman Catholic Residential School
Fort Providence Roman Catholic Residential School

(e) BRITISH COLUMBIA

Ahousaht United Church Residential School
Cariboo Roman Catholic Residential School
Christie Roman Catholic Residential School
St. Mary's Mission Roman Catholic Residential School

That provision is made in Vote Number 169, 1938-39, Indian Affairs Branch, Mines and Resources, for an amount of \$5,405.00 to pay the grants for the night watchmen at these schools;

That, as these buildings are Church owned, payment for night ~~watchmen~~ watchmen's services constitutes a grant and the approval of Your Excellency in Council is desirable.

The undersigned, therefore, recommends that approval be given for the expenditure of \$5,405.00 for employment of night watchmen at the above mentioned

R

Willians Lake, B. C.
February 24, 1939

Dear Sir:

In connection with the enclosed report on the Cariboo Indian Residential School for the month of February 1938, I beg to advise that a thorough inspection and test of the fire protection apparatus was made.

The general alarm was tested, but the batteries which operate it were found to be weak, and they are being immediately renewed. The children were outside the building from the class rooms within a reasonable time, but apparently the bell in the corridor of the main building is not sufficiently loud to be heard in some of the class rooms when the doors are closed. This is being remedied by the addition of a bell close to the class room doors. There are 36 fire extinguishers placed in position ready for use. Also 19 fire buckets. The emergency exits were inspected and the doors were found to open freely, and were free from snow and ice.

The epidemic of bronchial colds at the school has entirely cleared up, and good progress is being made with weekly treatments for trachoma.

Your obedient servant

Ottawa, August 18, 1939.

Dear Sir:

I have for acknowledgment your letter of the 5th instant, in which you state that the Principal of the Cariboo Indian Residential School is anxious to secure the supplies necessary for the repairs to the laundry and the boys' dormitory, prior to the opening of the school on the 5th of September.

The records here indicate that the requisition for these supplies was sent forward to the Purchasing Agent on July 17. I have this morning communicated with the Purchasing Agent by phone and asked him to do all he possibly could to expedite this purchase. Under the existing regulations it appears exceedingly difficult to secure supplies in a reasonable period of time.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir:-

With reference to my letter of June 22nd, enclosing requisition received from Mr. Indian Agent Taylor for \$708.57 for material for laundry and boys' dormitory building at the Cariboo Indian Residential School, it would be appreciated if you would advise me if this application has been approved, as the Agent is anxious to have the work carried out during the School vacation, if possible.

Yours faithfully,

D.M. MacKay

EX-1

Dear Sir:

The Department finds it necessary to return the attached account from the Williams Lake Lumber Company as it does not agree with the purchase order.

A copy of the purchase order was forwarded to you on September 1. It read as follows:

4000 Ft. fir flooring #1 E.G.	58	232.00
38 storm windows, 12 light 10 x 14	4.25	161.50
11 Prs. window stool 7'6" long 3" rabbit		
1 " " " 4' " " per ft 12	10.38	
		<u>403.88</u>

The enclosed account which we are returning is very much different from the purchase order. Please explain why this occurred.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Your File 160-0-5

Dear Sir:

I beg to acknowledge receipt of your letter of the 13th instant returning voucher No. 781 in favour of the Williams Lake Lumber Company for material purchased for the Cariboo Indian Residential School. The discrepancy in the amount of fir flooring purchased is explained by the attached copies of correspondence between this Office and the Indian Commissioner for B. C. which I think are self-explanatory. I should have sent this voucher through the Vancouver Office so that any necessary explanation could have been attached.

Trusting that this explains the matter to you satisfactorily,

Your obedient servant

September 5, 1939

Dear Sir:

I beg to advise that the Williams Lake Lumber Company are in receipt of a Purchase Order from Ottawa for the supplying of storm windows, window stool, and fir flooring for the Cariboo Indian Residential School. In this connection I beg to refer to my letter to you of July 14th last advising that this firm had revised their quotation for the fir flooring which they quote at \$75.00 as against their original quotation of \$58.00 per thousand. This firm advise that owing to frequent market fluctuations it is very difficult to secure a price for future delivery.

I would therefore suggest that to avoid further delay authority be given for the purchase of fir flooring to the value of the \$232.00 mentioned in the Purchase Order at \$75.00 per thousand. The Reverend Principal of the school advises me that this would be suitable for their present purposes as it would provide sufficient flooring for the boys' recreation room and the flooring of the girls room could be postponed until some other time.

Will you please advise me at your earliest convenience if this arrangement is suitable.

OTTAWA

Memorandum:

Mr. McCutcheon.

I enclose herewith copies of correspondence sent me by Mr. Hoey, in connection with Voucher No. 781, in favour of the Williams Lake Company, Williams Lake, B.C. Original purchase order No. 27157 dated August 29th, 1939, covered three items at a total cost of \$403.88, including 4000 feet of fir flooring, and grain, No. 1 at \$58.00 per thousand, \$232.00. This order was placed on the strength of a quotation dated May 11th, 1939, by the Williams Lake Company. This quotation accompanied Indian Affairs requisition received on the 18th July, 1939.

Mr. Taylor the Indian Agent states that on July 14th, he received advice from the Williams Lake Company, that they had raised their price for No. 1 E.G. flooring from \$58.00 to \$75.00 per thousand. He sent this advice to Commissioner MacKay but not to this office and recommended to Commissioner MacKay that flooring to the value of \$232.00 at the rate of \$75.00 per thousand be supplied. Commissioner MacKay authorized this change in his letter of September 11th, to Mr. Taylor.

In view of the above and since the next lowest quotation on fir flooring was \$79.00 per thousand, I would recommend that the increased price be granted and that the account dated September 29th be now paid.

Dear Sir;-

I am in receipt of a request from the Rev. Principal of the Cariboo Indian Residential School, for the following sports equipment for use in the recently enlarged boys recreation room;

Two sets of parallel bars.

Two trapeze sets with rings and bars.

I do not know if any funds are available for this purpose, but I would recommend that the equipment be supplied if possible.

The improved facilities for indoor recreation will benefit the health of the pupils in the winter time and tend to keep them occupied to advantage.

CERTIFIED TO BE A TRUE COPY OF A MINUTE OF A MEETING OF THE TREASURY BOARD, APPROVED BY HIS EXCELLENCY THE ADMINISTRATOR IN COUNCIL, ON THE 8th JUNE 1940.

File
MINES AND RESOURCES:

The Board had under consideration a memorandum from the Honourable the Minister of Mines and Resources reporting:

"That for many years past it has been customary to make an allowance to the undermentioned Residential Schools for the services of night watchmen:-

- (a) QUEBEC Fort George Church of England Residential School
- (b) ONTARIO Moose Fort Church of England Residential School.
- (c) SASKATCHEWAN Thunderchild Roman Catholic Residential School.
- (d) ALBERTA
 - Ermineskin Roman Catholic Residential School.
 - Grouard Roman Catholic Residential School.
 - Holy Angels Roman Catholic Residential School.
 - Joussard Roman Catholic Residential School.
 - St. Albert Roman Catholic Residential School.
 - Sturgeon Lake Roman Catholic Residential School.
 - Vermilion Roman Catholic Residential School.
 - Wabasca Church of England Residential School.
 - Wabasca Roman Catholic Residential School.
 - Whitefish Lake Church of England Residential School.
- (e) BRITISH COLUMBIA
 - Ahousaht United Church Residential School.
 - Cariboo Roman Catholic Residential School.
 - Christie Roman Catholic Residential School.
 - St Mary's Mission Roman Catholic Residential School.
- (f) NORTHWEST TERRITORIES
 - Aklavik Roman Catholic Residential School.
 - Fort Resolution Roman Catholic Residential School.
 - Fort Providence Roman Catholic Residential School.

That provision is made in Vote No. 181, 1940-41, Indian Affairs Branch, Mines and Resources, for an amount of \$5,645.00 to pay the grants for the night watchmen at these schools;

That, as these buildings are Church-owned, payment for night watchmen's services constitutes a grant and the approval of Your Excellency is desirable.

The undermentioned, therefore, recommends that approval be given for the expenditure of \$5,645.00 for employment of night watchmen at the above-mentioned Indian Residential schools, same to be chargeable to Vote No. 181, 1940-41, Indian Affairs Branch, Mines and Resources."

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

A.D.P. Heeney.
Clerk of the Privy Council.

The Honourable
The Minister of Mines and
Resources.

Ottawa,
June 25, 1941.

Dear Sir:

I am in receipt of your letter of the 17th instant with reference to fir flooring and armoured cable requested by the Principal of the Cariboo Indian Residential School.

In the current year's appropriation an amount of \$300.00 was provided for repairs, improvements and purchase of new equipment at this school. The amount just stated cannot be exceeded and on this understanding you may purchase the flooring and armoured cable. When forwarding the voucher you should attach a copy of your purchase order and an encumbrance will be obtained when the account is received.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:-

I am in receipt of an application from Mr. Indian Agent Taylor, of the Williams Lake Agency, requesting authority to purchase 3,500 ft. of fir flooring and 400 ft. of armoured cable, at a total cost of approximately \$300.00, for repairs to the Cariboo Indian Residential School.

If funds can be provided for this purpose, I will secure tenders on the material.

Yours faithfully,

File No. 38011-15-13

Gentlemen,

We acknowledge and thank you for your valued order No. 6471, and with reference to the last item, as near as we can find from our records, the Extinguishers that are located at Williams Lake, B.C., are the 1 3/4 gallon size Thermene Extinguishers. This Extinguisher has in its outer chamber, a Thermene Karbaloy Recharge, and expulsion is caused through the operation of a small carbon dioxide cartridge.

Therefore, if the school has five Extinguishers that they have used, they will require five 1 3/4 gallon Thermene Recharges, complete with Carbon Dioxide Cartridge.

We would appreciate your instructions to alter your order to so read.

Yours very truly,

PYRENE MANUFACTURING COMPANY
of Canada Limited.

NOVEMBER FOURTH
1941Department of Mines & Resources,
Ottawa, Ontario.Subject: File No. 38011-15-13

Dear Sirs:

On checking over our records we find an old item of \$124.30 outstanding in your account which apparently has been overlooked by you.

This amount was covered by our Invoice E419-20, of May 7th, and a copy is attached for your assistance in checking this charge.

Our Invoice applied to your order #6471 of March 22nd calling for 30 only 1 Qt. Pyrene Liquid Refills, and 8 only 1 gal. Pyrene Liquid Refills, and 5 - 1 3/4 gallon Thermene Karbaloy Recharges.

Will you kindly send us your cheque to balance this old charge, or arrange to include same in your next regular remittance.

Thanking you for your co-operation in this matter, we are

Ottawa,
November 15, 1941.

Dear Sir:

In your letter of March 11 you requested refills for the fire extinguishers at the Cariboo Indian Residential School. An order was placed with the Pyrene Manufacturing Company last March and it is presumed the refills were supplied to the school. However, the Principal did not submit any account.

This is a Church-owned school and although a certain amount is provided each year for repairs, maintenance and purchase of new equipment, present regulations do not permit our exceeding the amount specifically provided. If the Principal had carried out the instructions which have been issued to all Principals on several occasions to the effect that all accounts must be certified and forwarded to the Department as soon as the goods are received the account would have been paid from the appropriation for the fiscal year 1940-41. However, as he did not carry out these instructions it is not possible to pay the account from that fiscal year.

In the current year's appropriation an amount of \$300.00 was provided for repairs and improvements at this school. We have already expended approximately \$255.00 and there is only \$45.00 left. The account of the Pyrene Manufacturing Company which is attached shows the total cost of the refills as \$124.30. You should have this account

H. Hoey Esq.
Supt. of Welfare & Training,
Indian Affairs Branch,

Dear Sir:

I received yesterday a copy of your letter of the 15th. to H.E. Taylor Esq. Indian Agent, William's Lake, re. the Pyrene Refills sent in March 1941 to the School.

I did not report receipt of these goods to the Department as I considered that this would be done by the Agent, as is the case for the lumber supplied for Manual Training and all supplies for repairs. The Agent asked me over the phone if I had received these Refills and I told him we had, so I left it at that. There was no request as in the case of Drugs and Stationery, to report the receipt of these Refills to the Indian Affairs Branch.

I have the honor to remain

Yours truly

Dear Sir:

On March 22 last purchase order 6471 was issued to the Pyrene Manufacturing Company, Toronto, covering the cost of refills for the fire extinguishers at the Cariboo Residential School. The firm was instructed to forward their account to you in order that you could certify it. I wrote to the Principal about this matter and in a letter dated November 29 he advises that you asked him over the phone if he had received the refills and he told you that he had. However, the account covering the cost of the supplies has not yet reached us. In view of the Principal's statement that the supplies have been received you should certify the account and forward it to this office at once.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sirs: Subject: File No. 38011-15-13.

Please refer to our letter of November 4th, in which we enclosed copy of our Invoice E419-20, dated May 7th, for \$124.30, covering purchase of Thirty (30) only 1 Quart Pyrene Liquid Refills, and Eight (8) only 1 Gallon Pyrene Liquid Refills, and Five (5) only 1 1/4 Gallon Thermene Karbaloy Recharges, for which we do not appear to have received remittance.

If we can be of any further assistance to you in reconciling this charge on your books, kindly let us know.

As our fiscal year ends December 31st, we would appreciate receiving remittance for this old item before that date.

Trusting that you will be able to comply with our request and awaiting your reply, we are

January 14, 1942

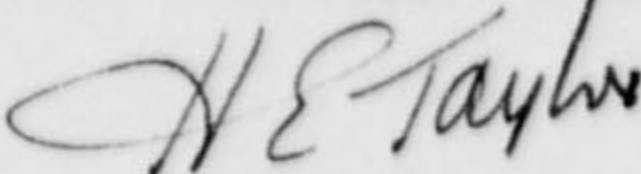

Dear Sir: Re: voucher 2196, Pyrene Mfg. Co. \$124.30

I beg to refer to letters dated November 15th and December 11th last from the Superintendent of Welfare and Training regarding refills for fire extinguishers supplied to the Cariboo Indian School, under purchase order number 6471.

When these refills were sent to the School an account was not sent by the Pyrene Company to this office. Neither was a copy of the purchase order received here. An account went to the school Principal, who apparently assumed that a voucher would be sent from this office. I obtained an account from the school Principal after receiving Mr. Hoey's letters of November 15th, but delayed submitting a voucher, pending a letter of explanation which the School Principal advised me that he was writing to Mr. Hoey.

I informed the Principal that only \$45.00 was available in Department funds to be applied on this account, but as the letter of December 11th from Mr. Hoey asked that the account be certified and forwarded I am submitting the voucher for the total amount.

Your obedient servant.

H. E. Taylor,
Indian Agent.

Dear Sir:

I desire to refer you to my letter of November 15, 1941, in connection with refills for the fire extinguishers at the Cariboo Residential School. The Department has recently received the account amounting to \$124.30 forwarded with your voucher No. 2196. We are issuing a cheque for \$45.00 and it will be necessary for the Principal to pay the balance; namely, \$79.30. You should arrange to have him forward a cheque for this amount to the Pyrene Manufacturing Company, 91 Don Roadway, Toronto. He should forward this cheque immediately and I should appreciate your advising when he has taken such action.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Mr. H.E. Taylor,
Indian Agent,
Williams Lake, B.C.

Attention: Mr. R.A. Hoey, Supt.

Dear Sirs:

We are in receipt of Dominion of Canada cheque No. C 044701, in the amount of \$45.00. The voucher received with cheque states that this is in payment of invoice E419-20 of May 7th 1941, covered by order No. 6471, Cariboo Indian Residential School.

Our invoice E419-20 amounted to \$124.30 and we do not appear to have received any information in connection with the apparent short payment of \$79.30.

Will you kindly provide us with information that will enable us to reconcile this payment of \$45.00.

Thanking you for past favors and awaiting your reply, we are,

Yours very truly,

EXD.

Gentlemen:

With reference to your letter of the 18th instant, a cheque for the balance due for the fire extinguishers supplied to the Cariboo Residential School will be forwarded to you by the Principal of that school. As you state in your letter we forwarded to you a cheque for \$45.00 and the Principal will forward one for \$79.30.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:-

I beg to refer to a letter from the Supt. of Welfare and Training, dated February 13th. last regarding refills for fire extinguishers at the Cariboo Indian Residential School, and payment by the School authorities of an outstanding balance of \$79.30 to the Pyrene Mfg. Co. in Toronto.

I am advised by the School Principal that a cheque is going forward this date in the above amount to the Pyrene Co.

Your obedient servant
